MESSAGE FROM THE PRESIDENT

Welcome to Bunker Hill Community College (BHCC)! We are happy you've chosen us in your education journey.

As we emerge from the COVID-19 pandemic, we are here to support students on campus and online. It is our number one priority to create a safe learning environment for everyone – one that nurtures a deep sense of place and prepares you for further education and a fulfilling career.

Convenient and affordable, BHCC offers flexible course schedules and start times to help you make the most of your time and schedule. Full time or part-time, choose an option that works for you. In addition to fall and spring semester start dates, BHCC offers many opportunities for you to stay on track with your degree. These include two mini sessions each semester that allow students to complete an accelerated course in seven weeks, six-week summer sessions and an online winter session.

Academic experiences at BHCC are designed to introduce new ideas, concepts, and techniques while maximizing your current skill sets and taking them to the next level. Whether you're pursuing your first career, advancement in your current career, or looking for an entirely new career, BHCC has a certificate or degree program that will help you meet your individual goals.

At BHCC, you will be challenged to think critically and to carefully evaluate information presented in various formats. Our talented and dedicated faculty and staff are passionate about your future and will help guide you

through the coursework that makes up your program. In and beyond the classroom, your BHCC education will provide you with the knowledge, skillset, and real-world experience to thrive in your chosen field of study.

As a BHCC student, you'll gain free access to tutoring and academic resources through our Tutoring and Academic Support Center (TASC), Language Lab, MathSpace, and The Writing Place, where staff will support you in reaching your educational goals. And, our commitment to you goes well beyond the classroom with access to our on-campus food pantry – the DISH, and the Single Stop office that will connect you with various resources and opportunities to assist with food, housing, technology, financial support, and more.

We know you can meet this challenge with hard work, persistence, and support, and we are looking forward to being with you every step of the way. Welcome to Bunker Hill Community College!

Pam Y. Eddinger, Ph.D.

President
Bunker Hill Community College

ABOUT THE BUNKER HILL COMMUNITY COLLEGE CATALOG

This publication serves the purpose of providing information about Bunker Hill Community College to persons who may be interested in applying for admission; to parents, teachers, counselors and people who work and study at the College; and to the general public.

College Catalog Statement

This publication is neither a contract nor an offer to make a contract. While every effort is made to ensure accuracy, the College reserves the right to make changes at any time with respect to course offerings, degree and program requirements, services provided, cost of attendance or any other subject addressed in this publication. This publication provides information solely for the convenience of the reader, and the College disclaims any liability that may otherwise be incurred.

For the most up-to-date Catalog information including changes to curricula, course descriptions and tuition and fees, visit the BHCC website at bhcc.edu/catalog. Information on the College website supersedes the published PDF version of the 2021–2023 BHCC Catalog.

BUNKER HILL COMMUNITY COLLEGE GOALS

Bunker Hill Community College's Goals and Strategies were developed through a collaborative process, engaging more than 200 campus members and more than 150 community, educational and industry partners. To view current College Initiatives associated with the College's goals, visit bhcc.edu/initiatives

Foster Student Success

Promote data-informed, high impact innovations in teaching, learning and student development that lead to increased rates of engagement, persistence, retention, completion and transfer.

Strategies

- Expand co-requisite models and acceleration of developmental education and English language instruction.
- Implement learner-centered curricular and co-curricular practices, including culturally relevant, collaborative, experiential and multi-modal learning.
- Integrate holistic student development into the curriculum and co-curriculum.
- Deepen student learning outcomes and competency-based assessment models.
- Enhance instructional technology to support digital teaching, learning, and student development online and on-ground.
- Support faculty and staff professional development aimed at fostering the success of all students.

Strengthen Career, Transfer and Workforce Readiness

Prepare students for fulfilling 21st century careers that meet Greater Boston's workforce needs through credentialed, non-credit, stackable and transferable programs.

Strategies

- Design programs that promote transfer and workforce readiness, including non-credit to credit pathways.
- Institutionalize demand-driven program development, including the high-growth fields of STEM, health care and the creative economy.
- Expand internship and apprenticeship programs in partnership with businesses, industries and community organizations.
- Create seamless transfer opportunities through alignment and articulation with baccalaureate institutions.
- Support students in developing transferable 21st century skills and capacities.

Advance Diversity, Inclusion and Equity

Advance diversity, inclusion and equity in all areas of the College and integrate the cultural wealth of our students, faculty, staff and communities into the life of the institution.

Strategies

- Promote diversity in all areas of the College workforce.
- Build a campus community rooted in collaboration, inclusivity and engagement.
- Design culturally relevant and community-engaged curricular and co-curricular learning environments.
- Identify and address disparities in academic achievement among student groups.
- Increase access, persistence and completion rates for underserved student populations.

Build Partnerships and Pathways

Foster reciprocal, sustainable relationships with civic, educational and community partners to increase access, promote college readiness and facilitate seamless pathways to post-secondary study.

Strategies

- Increase opportunities for enrollment in early college, dual enrollment and bridge programs.
- Deepen partnerships with civic, educational and community-based organizations.
- Design guided educational pathways through meta-majors programming and curricular mapping.
- Leverage the resources and scholarship of local museums and cultural institutions to enrich the College curriculum and expand student access.
- Broaden partnerships with industry and business leaders.

Develop the College's Infrastructure

Develop the College's capacity to support student success through learner-centered facilities, strategic communication, enhanced information technology and fiscal stewardship.

Strategies

- Stabilize technology to support teaching, learning and student success; improve data integrity and analysis; and facilitate evidence-based decision-making throughout the College.
- Maximize college and community-based resources to ensure facilities well-suited to the needs of students, faculty and staff.
- Closely monitor the sources of funding supporting teaching and learning, general operations and capital projects to ensure long-term sustainability and financial health.
- Support the development of new instructional sites.
- Integrate print and web communications to disseminate accurate, consistent, transparent information to internal and external audiences.

System and Institutional Mission, Vision and Values Statements

Three separate but cohesive mission statements guide Bunker Hill Community College. The first is a comprehensive, system-wide mission statement for Public Higher Education in the Commonwealth of Massachusetts. The second is a mission statement of general characteristics common to all Massachusetts community colleges. The third mission statement contains the specialized and focused component that identifies Bunker Hill Community College's distinctive characteristics and priorities.

Mission of the Massachusetts of Public Higher Education

Massachusetts Public Higher Education is a system with a distinguished past, increasing and measurable accomplishments, and dedicated to being recognized as having one of the nation's most outstanding array of institutions. It comprises 15 community colleges, nine state colleges, and five campuses of the University of Massachusetts. The system exists to provide accessible, affordable, relevant, and rigorous programs that adapt to meet changing individual and societal needs for education and employment. The public system is committed to continuous improvement and accountability in all aspects of teaching and learning. The Board of Higher Education, together with each respective Board of Trustees, expects all students, faculty, and staff to be held to exacting standards in the performance of their roles and responsibilities.

Mission of the Massachusetts Community Colleges

The fifteen Massachusetts Community Colleges offer open access to high quality, affordable academic programs, including associate degree and certificate programs. They are committed to excellence in teaching and learning and provide academic preparation for transfer to four-year institutions, career preparation for entry into high-demand occupational fields, developmental coursework, and lifelong learning opportunities.

Community colleges have a special responsibility for workforce development and through partnerships with business and industry, provide job training, retraining, certification, and skills improvement. In addition, they assume primary responsibility, in the public system, for offering developmental courses, programs, and other educational services for individuals who seek to develop the skills needed to pursue college-level study or enter the workforce.

Rooted in their communities, the colleges serve as community leaders, identifying opportunities and solutions to community problems and contributing to the region's intellectual, cultural, and economic development. They collaborate with elementary and secondary education and work to ensure a smooth transition from secondary to post-secondary education.

Through partnerships with baccalaureate institutions, they help to promote an efficient system of public higher education.

The community colleges offer an environment where the ideas and contributions of all students are respected. Academic and personal support services are provided to ensure that all students have an opportunity to achieve academic and career success. No eligible student shall be deprived of the opportunity for a community college education in Massachusetts because of an inability to pay tuition and fees.

Mission of Bunker Hill Community College

Bunker Hill Community College serves as an educational and economic asset for the Commonwealth of Massachusetts by offering associate degrees and certificate programs that prepare students for further education and fulfilling careers. Our students reflect our diverse local and global community, and the College integrates the strengths of many cultures, age groups, lifestyles and learning styles into the life of the institution. The College provides inclusive and affordable access to higher education, supports the success of all students and forges vibrant partnerships and pathways with educational institutions, community organizations and local businesses and industries.

Vision of Bunker Hill Community College

Bunker Hill Community College empowers and inspires students, faculty and staff diverse in identities, experiences and ideas to make meaningful contributions to our local and global communities. The College embodies a spirit of inquiry, critical thought, inclusive excellence and lifelong learning.

Institutional Values

Bunker Hill Community College Trustees, Faculty, Staff and Students embody the highest academic and institutional integrity through their commitment to:

- Access and Success
- Excellence and Innovation
- Economic and Social Justice
- Inclusiveness and Equity
- Civic Engagement and Service
- Kindness and Respect
- Accountability and Transparency

The Vision, Mission and Values statements were approved by Board of Trustees, Massachusetts Department of Higher Education and Massachusetts Secretary of Education, October 2014.

Institutional Learning Outcomes (ILOs)

BHCC is a learning institution, and we enact our mission, vision and values individually and collectively through a set of Institutional Learning Outcomes.

INQUIRE with intention

- Reflect and think critically
- Explore and define compelling questions
- Locate and integrate information from diverse contexts
- Think creatively
- Synthesize findings

COMMUNICATE with purpose

- Listen actively
- Express ideas and arguments with intention
- Consider audience, situation and intercultural context
- Engage diverse forms of media
- Facilitate inclusive dialogue

ACT to integrate knowledge and practice

- Advance justice and equity
- Collaborate in diverse teams
- Facilitate reciprocal and sustainable partnerships
- Enact innovative solutions to significant problems
- Contribute to community and civic wellness

GROW through continuous learning

- Identify and leverage individual and collective strengths
- Cultivate resilience and agency
- Develop intercultural competence and critical consciousness
- Form personal and global identities
- Empower oneself and others

College Assessment

Implementation, assessment and continuous program improvement are an integral part of the College's Strategic Plan. Assessment in academics and student development occurs within the learning environment, and is framed by our Student Learning Outcomes (SLOs). Faculty and staff anchor the assessment of student learning with the Student Learning Outcomes Assessment Program (SLOAP). The College's Institutional Learning Outcomes, adopted in 2016, and General Education Outcomes, adopted in 2018, inform the design of academic Program Learning Outcomes, academic course SLOs, and the SLOs for co-curricular and student development activities. Assessment activities do not affect a student's grade, academic standing, ability to transfer or ability to graduate. The College considers student privacy to be of the utmost importance and takes all necessary steps to ensure the confidentiality of student records and student work reviewed through this process in accordance with FERPA regulation...

Student Learning Outcomes Assessment Program (SLOAP)

In order to coordinate assessment activities at BHCC, the Student Learning Outcomes Assessment Program (SLOAP) was designed and implemented by full-time faculty during the 2003-2004 academic year. The SLOAP Taskforce, currently composed of faculty and professional staff representatives from each academic and co-curricular department, oversees ongoing assessment of student learning outcomes on the course, program and institutional levels. Faculty and professional staff submit outcome development and assessment proposals to the Taskforce for approval and, once the proposed project is complete, submit a report of their findings to the Taskforce. Participants use data from SLOAP projects to improve learning where assessment projects indicate improvement is needed. All SLOAP data is maintained by individual departments and on the SLOAP ePortfolio page. <https://bhcc.digication.com/sloap/home>

Equity and Inclusion

Center for Equity and Cultural Wealth (CECW)

BHCC's Center for Equity and Cultural Wealth draws on the College's nationally recognized work to design culturally inclusive learning environments that value the strengths of our diverse students, faculty, staff and local communities. The Center engages the campus in culturally relevant scholarship, practice and advocacy focused on achieving equitable outcomes for all students. Through a multifaceted and intersectional campus-wide conversation, the Center explores the ways in which meaningful community partnerships, equity-minded practices and culturally grounded pedagogies can be enacted to foster the success of all students and members of the College community. Learn more at bhcc.edu/cecw

Halting Oppressive Pathways through Education (HOPE)

The HOPE initiative is designed to examine and eliminate the social, institutional and academic barriers that often prevent males of color from achieving their full potential at BHCC and beyond. This Asset-Based, Student-Centered initiative is run by a group of faculty, staff, and students who are focused on three main areas: qualitative and quantitative data collection, analysis and dissemination; assessing and addressing gaps in College programs and services; and affinity-based mentoring. Learn more at bhcc.edu/hope

Undocumented Students

Bunker Hill Community College welcomes applications from Deferred Action for Childhood Arrivals (DACA) and undocumented students. While Undocumented and DACA students are not eligible for state or federal financial aid, they are eligible to apply for institutional scholarships. DACA students are eligible for in-state tuition and fees. Learn more at bhcc.edu/admissions/undocumenteddacadestudents

The Mary L. Fifield Art Gallery

Mary L. Fifield Art Gallery

bhcc.edu/artgallery

artgallery@bhcc.edu

The Bunker Hill Community College Art Gallery provides the College and the local community opportunities to view high caliber art exhibitions, exposure to diverse ideas and artistic media and access to forums with emerging and established Boston-based artists. Through its scheduled programming, the Gallery offers an innovative backdrop to teaching and learning.

Statement on Inclusion

The Bunker Hill Community College Board of Trustees endorsed and approved for adoption on June 9, 1997, the American Association of Community Colleges Statement on Inclusion as follows:

Bunker Hill Community College strongly endorses the continued use of admissions policies and employment practices that promote broad diversity in the community college system. The College will be free to pursue standards and policies that allow it to fulfill its diversity mission and vision. The students who are educated will help provide tomorrow's leaders, and their college experience will demonstrate the richness and substance of our diverse, multicultural, and global environment. The College environment will promote understanding and appreciation of others, while encouraging students to grow as individuals.

Bunker Hill Community College reaffirms its commitment to diversity. In accord with this philosophy, the College will evaluate its hiring, admissions, and financial aid policies to ensure diversity and equal access within the institution. The College will ensure that the results of these evaluations conform to the concept of open access — the cornerstone of the College's mission.

Bunker Hill Community College believes that diversity in education is crucial to a democratic society. Community colleges are, in effect, microcosms of our greater society.

As such, Bunker Hill Community College will encourage and enhance the fullest understanding of human rights and responsibilities and will teach the skills that allow its students to effectively participate in a democratic society. The College will be responsible for shaping an environment that mirrors the general culture and creates opportunities for all within the college community to interact with understanding, tolerance, and respect for others. In this way, diversity in education not only serves as a model for the world at large, but it also perpetuates social harmony for the future.

BHCC Statement on Civility

Bunker Hill Community College believes that civility in the workplace and classroom is everyone's right and responsibility. This statement is consistent with the Student Handbook, all collective bargaining agreements and the College's personnel policies. We understand "civility" to mean respectful language and behavior toward everyone at all times, regardless of the circumstances. These qualities are intrinsic to excellence in teaching and learning, and contribute to the maintenance of a productive workplace and an overall positive campus climate.

Further, we affirm our commitment to behavior that is courteous and respectful in all interactions with members of the BHCC community as well as with members of the larger communities we serve.

Accreditation Statements

Bunker Hill Community College is accredited by the New England Commission of Higher Education (NECHE).

Inquiries regarding accreditation status by the New England Commission should be directed to the administrative staff of the institution. Individuals may also contact: New England Commission of Higher Education, 3 Burlington Woods Road, Suite 100, Burlington, MA 01803; telephone: 781-425-7700; fax: 781-425-1001; email: info@neche.org; URL: neche.org

The Certified Nurse Assistant Program is accredited by the Commonwealth of Massachusetts Executive Office of Health and Human Services, Department of Public Health, Division of Health Care Facility Licensure and Certification, 99 Chauncy Street, Boston, MA, 02111; telephone: 617-753-8000; URL: mass.gov/dph

The Diagnostic Medical Sonography Program accredited by the Commission on Accreditation of Allied Health Education Programs (caahep.org) upon the recommendation of The Joint Review Committee on Education in Diagnostic Medical Sonography. Commission on Accreditation of Allied Health Education Programs, 9355 - 113th St. N #7709, Seminole, FL 33775 - 7709, Phone: 727-210-2350, Fax: 727-210-2354; URL: caahep.org.

The Medical Laboratory Technician Program is accredited by the National Accreditation Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Rd. Suite 720, Rosemont, IL 60018; telephone 773-714-8880. URL: naacls.org.

The Medical Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 North Wacker Drive, Suite 2850, Chicago, IL 60606-3182; telephone: 312-704-5300; fax: 312-704-5304; email: mail@jrcert.org; URL: jrcert.org.

The Paramedic Studies Certificate and Associate Degree Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), which can be contacted at: Commission on Accreditation of Allied Health Education Programs, 25400 US Highway 19 North, Suite 158, Clearwater, FL 33763; telephone: 727-210-2350; URL: caahep.org. The Emergency Medical Services/Paramedic program was last granted continuing accreditation upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), which can be contacted at: Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions, 8301 Lakeview Parkway, Suite 111-312, Rowlett, TX 75088; telephone: 214-703-8445.

The Pharmacy Technician Certificate Program is approved by the Massachusetts Board of Registration in Pharmacy. The Board of Registration in Pharmacy is located at 239 Causeway Street, Suite 500, 5th Floor, Boston, MA 02114; telephone: 800-414-0168; URL: mass.gov/eohhs/gov/departments/dph/programs/hcq/dhpl/pharmacy/about.

The Associate Degree Registered Nursing Program is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326; telephone: 404-975-5000; fax: 404-975-5020; email: info@acenursing.org; URL: acenursing.org, and approved by the Massachusetts Board of Registration in Nursing, 239 Causeway Street, Suite 500, 5th Floor, Boston, MA 02114; telephone: 617-973-0900; or 1-800-414-0168; fax: 617-973-0984 URL: mass.gov/dph/boards/rn.

The Surgical Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs 25400 U.S. Highway 19 North, Suite 158; Clearwater, FL 33763; Phone: 727-210-2350; Fax: 727-210-2354. Please contact Mail@caahep.org if you have any general questions about CAAHEP.

Institutional Policy Statements

Affirmative Action and Equal Opportunity Guidelines

Bunker Hill Community College is an affirmative action/

Office of Equity, Diversity and Inclusion

 carl.marcelin@bhcc.edu

equal opportunity institution and does not discriminate on the basis of race, creed, religion, color, sex, sexual orientation, gender identity, age, disability, genetic information, maternity leave, and national origin in its education programs or employment pursuant to Massachusetts General Laws, Chapter 151B and 151C, Titles VI and VII, Civil Rights Act of 1964; Title IX, Education Amendments of 1972; Section 504, Rehabilitation Act of 1973; Americans with Disabilities Act, and regulations promulgated thereunder, 34 C.F.R. Part 100 (Title VI), Part 106 (Title IX) and Part 104 (Section 504). All inquiries concerning application of the above should be directed to Nahomi Carlisle, Esq., Associate Vice President, Chief Equity and Compliance Officer, Affirmative Action Officer, and Section 504/ADA Coordinator.

When a student or employee believes s/he has been discriminated against based on race, creed, religion, color, national origin, age, sex, gender identity, genetic information, maternity leave, sexual orientation or disability status, the College's Policy on Affirmative Action, Equal Opportunity & Diversity provides an informal complaint process and a formal complaint process which may be accessed by any member of the College community. Whether a complaint/grievance is formal or informal, the College will conduct a prompt, thorough, fair and objective investigation, and will take such corrective

About the College

action as is appropriate under the circumstances. No student or employee shall be retaliated against for filing a discrimination complaint/grievance or for cooperating with the College's investigation thereof.

For more information, to file a complaint/grievance, or for a copy of the plan and/or complaint/grievance procedure, contact the Office of Equity, Diversity and Inclusion.

Sexual Harassment Guidelines

Sexual harassment of a student, an employee or any other person in the College is unlawful, unacceptable, impermissible and intolerable.

Sexual harassment is a form of sex discrimination. It occurs in a variety of situations which share a common element: the inappropriate introduction of sexual activities or comments into the work or learning environment. Often, sexual harassment involves relationships of unequal power and contains elements of coercion, as when compliance with requests for sexual favors becomes a criterion for granting work, study or grading benefits. However, sexual harassment may also involve relationships among equals, as when repeated sexual advances or demeaning verbal behaviors have a harmful effect on a person's ability to study or work in the academic setting.

For general purposes, sexual harassment may be described as unwelcome advances, requests for sexual favors and other physical or verbal conduct of a sexual nature when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or education; (2) submission to or rejection of such conduct by an individual is used as the basis for academic or employment decisions affecting that individual or (3) such conduct has the purpose or effect of substantially interfering with an individual's academic or professional performance or creating an intimidating, hostile or demeaning employment or educational environment.

A student, an employee, or any other person in the College who is found to have engaged in sexual harassment is subject to discipline up to and including termination of employment or expulsion from the College.

When a student, an employee or any other person in the College believes s/he has been the subject of sexual harassment, the complaint/grievance process is a

mechanism for redress. Whether a complaint/grievance is formal or informal, the College will conduct a prompt, thorough, fair and objective investigation, and will take such corrective action as is appropriate under the circumstances. Reasonable efforts are made to maintain confidentiality during the grievance process. No student or employee shall be retaliated against for filing a discrimination complaint/grievance or for cooperating with the College's investigation thereof. For more information, for a copy of the Affirmative Action Complaint/Grievance Procedure, or to file a complaint/grievance, contact the Office of Equity, Diversity and Inclusion.

Sexual harassment is forbidden by both federal and state regulations. In keeping with these regulations, a concerted effort will be made to protect employees, students and others from sexual harassment as defined.

For the full text of the College's policy concerning sexual harassment, refer to the Bunker Hill Community College Policy on Affirmative Action, Equal Opportunity & Diversity.

Guidelines Concerning Sexual Violence

Committing an act of sexual violence upon a student, an employee or any other person in the College constitutes a violation of state and federal laws, and a major violation of the College's Affirmative Action Policy. Sexual violence is absolutely intolerable and totally unacceptable.

Sexual violence is generally defined as any sexual activity where consent is not obtained or able to be freely given, and includes rape (vaginal, oral or anal penetration without consent), acquaintance rape (rape committed by someone who is known by the victim), or any unwanted sexual activity that is forced or coerced by one person on another. It is a criminal offense to have sex with someone who is incapable of giving consent due to being intoxicated, unconscious, mentally incompetent or under 16 years of age.

An employee or student who commits an act of sexual violence may be subject to criminal prosecution and will be subject to disciplinary action by the College, up to and including expulsion and/or termination of employment.

Victims of sexual violence are encouraged to contact the College's Department of Public Safety at 617-228-2222 or 228-2053, as soon as is practicable under the circumstances. If a victim is more comfortable reporting the alleged sexual violence to a College employee with whom s/he is better acquainted, such as a dean, administrator or faculty member, s/he may do so. Any employee to whom an incident of sexual violence is reported, however, is required to notify the College's Department of Public Safety and the Affirmative Action Officer and Title IX Coordinator forthwith.

If any student or employee believes that he or she has been the victim of sexual violence, the student or employee also has the right to file an Affirmative Action Discrimination Grievance with the College. For a copy of the Affirmative Action Grievance Procedure or assistance with filing a complaint, please contact Cheryl Cephas, the College's Interim Affirmative Action Officer and Title IX Coordinator.

Reporting the incident to the College's Department of

Public Safety, the Affirmative Action Officer and Title IX Coordinator, or another College employee does not commit the victim to filing charges. Federal and state laws, however, require the College to investigate such reports. The matter will be investigated both by BHCC Police and separately by the Affirmative Action Officer and Title IX Coordinator. Although every reasonable effort will be made to protect a victim's privacy, individuals with a need to know may be contacted and information may be shared as necessary to investigate and adjudicate the matter or as public safety requires. A report of the incident will be filed with local police in the event public safety is at risk even if the victim does not intend to report the incident to police or cooperate in an investigation.

The College prohibits retaliation against any person who presents a formal or informal complaint of sexual violence or who testifies or offers evidence connected with a complaint. Retaliation is a violation of the College's Affirmative Action and Diversity Policy whether or not the underlying claim of sexual violence is confirmed. For the full text of the College's policy concerning sexual violence, refer to Bunker Hill Community College's Policy on Affirmative Action, Equal Opportunity & Diversity.

System-Wide Student Policies

Bathroom and Locker Room Use

All students may use bathroom or locker room facilities on campus that are designated as gender-neutral or that are consistent with a student's sincerely held gender identity. Use of a bathroom or locker room by any student for an improper purpose will result in disciplinary action, up to and including expulsion.

Changing Biographical Data

The following process is followed when any student seeks to change his or her biographical data as provided and maintained in College records.

Legal Name. A student's legal name shall be used on all College documents, systems and communications external to the College and/or where a legal name is required. Examples include, but are not limited to:

- Financial Aid records;
- Student Accounts records;
- Student Personally Identifiable Information;
- Student Directory information;
- Payroll records;
- Health records;
- Official transcripts;
- Federal immigration documents; and
- Interactions with government agencies.

In order for any student to change their legal name on College records, a student must present a certified copy of a court order or other legal document indicating a legal name change has been granted.

Preferred First Name. The College recognizes that some students may prefer to use a first name other than their legal name to identify themselves. As long as the use of a preferred first name is not for an improper purpose, the College acknowledges that a preferred first name can and should be used where possible in the course of College business and education. Students may use a preferred first name wherever a legal name is not required on internal documents, communications, systems and web portals. Examples include, but are not limited to:

- Student identification cards;
- Email and calendar entries;
- Class rosters and advisor lists;
- Learning Management Systems; and
- Diplomas, awards and recognitions.

To request a preferred first name, a student should complete the Preferred First Name Change Form available in BHCCselfservice or on the Dean of Students page at bhcc.edu/dos.

Sex Designation. In order for any student to change their sex designation in official College records, a student must provide a certified copy of a court order, or other legal identification, such as a Massachusetts driver's license, reflecting the change in sex.

Hazing

The Massachusetts Legislature enacted a law in 1985 that prohibits hazing on all college campuses. Students may obtain copies of the law (MGLc269s17-19) from the Student Activities Office.

Annual Security Report Notice of Availability

Bunker Hill Community College's Office of Public Safety is responsible for issuing crime alerts in compliance with the Clery Act. In the event a situation arises on or about the campus, an alert is issued to keep the campus community informed.

The Annual Security Report Notice of Availability report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Bunker Hill Community College; and on public property within, or immediately adjacent to and accessible from, the campus. The report also contains information regarding campus security and personal safety, including topics such as: crime prevention, law enforcements practices and authority, crime reporting policies, and other matters of importance related to security on campus.

As required by law, Bunker Hill Community College's Office of Public Safety and Campus Police publishes and distributes this report annually by October 1. To obtain a copy, visit bhcc.edu/PublicSafety/ASR.

ACADEMIC CALENDAR

FALL 2021 SEMESTER	
September 6	Labor Day – College Closed
September 7	Classes Begin - Full Semester, Web courses
September 13	Classes Begin - Mini Session I, Web Late-Start (WBL)
September 13	Last day for adjusting schedules (add/drop) – Full Semester, Web (WB) courses. CSDL courses may be dropped or cancelled during the scheduled adjustment period, or within five (5) working days from the date of registration - More info.
September 15	Last day for adjusting schedule (add/drop) for Mini Session I and Web Late-Start (WBL)
October 1	Last day to register for CSDL classes
October 11	Columbus Day Observed – College Closed BHCC recognizes Indigenous Peoples Day
October 18	Fall 2021 Graduation Applications due
October 22	Last day to withdraw from course with ‘W’ grades - Mini Session I
October 25	Continuing Student Registration Begins – Spring 2022
October 26	Fall Professional Day – No Classes 1-3:55 p.m.
October 31	Mini Session I Ends
November 1	Mini Session II Begins
November 1	Spring 2022 Graduation Application opens
November 3	Last day for adjusting schedules (add/drop) – Mini Session II
November 11	Veterans Day Observed – College Closed
November 25	Thanksgiving Day – College Closed
November 26-28	Thanksgiving Recess – College closed for scheduled maintenance (Friday-Sunday)
December 10	Last day to withdraw from course(s) with ‘W’ grades - Full semester, Mini Session II, Web, CSDL, Web Late-Start
December 19	Last Day of Mini Session II
December 21	Last Day of Classes – Full semester, Web, CSDL, Web Late Start
December 22, 23	Assessment Days
December 27	Final grades due by 11:59 p.m.
December 28	Final grades visible in BHCC SelfService
FALL MINI SESSION II 2021	
September 13	Classes Begin – Fall Mini Session I
September 15	Last day for adjusting schedules (add/drop)
October 22	Last day to withdraw with ‘W’ grades from Mini Session I
October 31	Classes End – Mini Session I
November 2	Final grades due by 11:59 p.m.
November 3	Final grades visible in BHCC SelfService

FALL MINI SESSION II 2021	
November 1	Classes Begin - Fall Mini Session II
November 3	Last day for adjusting schedules (add/drop)
December 10	Last day to withdraw with ‘W’ grades from Mini Session II
December 19	Classes End – Mini Session II
December 21	Final grades due by 11:59 p.m.
December 22	Final grades visible in BHCC SelfService
WINTER SESSION 2022	
January 3	Classes Begin – Winter Session
January 5	Last day for adjusting Winter Session schedules (add/drop)
January 14	Last day to withdraw with ‘W’ grades from Winter Session
January 23	Classes End – Winter Session
January 25	Final grades due by 11:59 p.m.
January 26	Final grades visible in BHCC SelfService
SPRING SEMESTER 2022	
January 17	Martin Luther King Jr. Day – College Closed
January 24	Classes Begin - Full Semester, Web
January 31	Classes Begin – Mini Session I, Web Late-start (WBL)
January 31	Last day for adjusting schedules (add/drop) – Full Semester, Web (WB) courses CSDL courses may be dropped or cancelled during the scheduled adjustment period, or within five (5) working days from the date of registration - More info.
February 2	Last day for adjusting schedule (add/drop) – Mini Session I, Web Late-start (WBL)
February 18	Last day to register for CSDL classes
February 21	Presidents Day – College Closed
March 14-20	Spring Break – No Classes
March 21	Last day to withdraw from course with ‘W’ grades – Mini Session I
March 21	Spring 2022 Graduation Applications due
March 27	Mini Session I End
March 28	Mini Session II Begin
March 28	Continuing Student Registration Begins – Summer 2022, Fall 2022
March 30	Last day for adjusting schedules (add/drop) – Mini Session II
April 4	Summer 2022 Graduation Application open
April 14	Spring Professional Day – No Classes 1-3:55 p.m.

April 18	Patriots Day – College Closed
May 6	Last day to withdraw from course(s) with 'W' grades - Full semester, Mini Session II, Web, CSDL, Web Late-Start
May 16	Classes End - Full Semester, CSDL, Web, Web Late-Start, Mini Session II
May 17, 18, 19	Assessment Days
May 23	Final grades due by 11:59 p.m.
May 24	Final grades visible in BHCC SelfService
May 26	Commencement
May 30	Memorial Day Observed – College Closed
SPRING MINI SESSION I 2022	
January 31	Classes Begin – Spring Mini Session I
February 2	Last day for adjusting schedules (add/drop)
March 21	Last day to withdraw with 'W' grades from Mini Session I
March 27	Mini Session I Ends
March 29	Final grades due by 11:59 p.m.
March 30	Final grades visible in BHCC SelfService
SPRING MINI SESSION II 2022	
March 28	Classes Begin – Spring Mini Session II
March 30	Last day for adjusting schedules (add/drop)
May 6	Last day to withdraw with 'W' grades from Mini Session II
May 16	Mini Session II Ends

August 29	Final grades for Session II and Web courses due by 11:59 p.m.
August 30	Final grades for Session II and Web courses visible in BHCC SelfService

ADMISSIONS

Office of Admissions

 bhcc.edu/admissions

 617-228-3398  admissions@bhcc.edu

Bunker Hill Community College is committed to an open admission policy. This policy enables any person who has earned a high school diploma or HiSET (formerly the GED) and expresses a desire to pursue a college education to be admitted to BHCC. To enroll in a degree or certificate program, students must apply for admission and be accepted to the College. Students choosing this option are referred to as “degree-seeking students.”

To support an optimal environment for learning, BHCC admits students who demonstrate the academic skills needed to fulfill the requirements of their courses and programs, and the ability to adhere to the Student Code of Conduct. Students under the age of 18 may be required to sign a release form supplied by the College detailing the responsibilities of a minor taking courses at BHCC. All documents submitted to the College become the property of Bunker Hill Community College and will not be returned to students.

Prospective students may obtain information about information sessions, tours and applying to a degree program or general college information by contacting Admissions or via the College website at bhcc.edu/admissions.

Deferment Policy

Applicants who have completed the Bunker Hill Community College application process, and are accepted into a program of study, may choose to defer their acceptance. In order to defer acceptance, applicants must not have enrolled in any courses, or attended the college as a matriculated student. Deferment is allowed for a maximum of one year from the semester, or summer session in which acceptance was granted. Applicants who choose to defer their acceptance for one year, will not be considered eligible for the Catalog Year in which they applied and were accepted. The Deferment Form must be completed when the student makes the decision to defer. Applicants who apply and are accepted into any of the college’s

Selective Programs are not eligible to use this Deferment Policy. Selective Program applicants should contact selectiveadmissions@bhcc.edu for more information.

NOTE: This deferment policy does not prevent a student from returning early to take classes.

International Admissions

International Center

 bhcc.edu/internationalcenter/guidetoadmissions

 617-228-2460  international@bhcc.edu

Bunker Hill Community College is certified by the Student and Exchange Visitor Program (SEVP) certified school eligible to enroll F-1 students. The college offers three start dates per academic year: January, June and September. International applicants who wish to attend Bunker Hill Community College must complete the free online application for admission. Applicants must submit proof that they have completed at least high school, have a required language proficiency in English and sufficient funding to support themselves during the first year of study at the College.

To review the list of admission requirements and ways to meet each requirement, applicants are encouraged to contact the International Center.

Criminal Offender Record Information (CORI) and Sex Offender Registry Information (SORI) Checks

For a student to be eligible to participate in an academic, community or clinical program that involves potential unsupervised contact with children, the disabled, or the elderly, the student may be required to undergo a criminal background check, which could include a Criminal Offender Record Information (CORI) check and/or a Sex Offender Registry Information (SORI) check. Students found to have certain criminal convictions or pending criminal actions will be presumed ineligible to participate in such activities. The College is authorized by the Commonwealth’s Department of Criminal Justice Information Services, pursuant to Massachusetts General Laws, Chapter 6, Sections 167-178B, to access CORI records. In addition, for clinical placement in some programs, a National County Background Check may be required in addition to the CORI check.

Sex Offender checks shall be performed pursuant to Massachusetts General Laws, Chapter 6, Sections 178C-178P. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193. In accordance with federal law, the College is required to advise the campus community where information concerning registered sex offenders may be obtained. To access public information pertaining to registered sex offenders enrolled or employed at the College, please contact the Commonwealth of

Massachusetts Sex Offender Registry Board, located at P.O. Box 4547, Salem, MA 01970-4647, 978-740-6400, or the BHCC Office of Public Safety and Campus Police.

Deferred Action for Childhood Arrivals (DACA) Process

On June 15, 2012, the Secretary of Homeland Security announced that certain people who came to the United States as children and meet several key guidelines, may request consideration of deferred action for a period of two years, subject to renewal, and would then be eligible for work authorization. Deferred action is a discretionary determination to defer removal action of an individual as an act of prosecutorial discretion. Deferred action does not provide an individual with lawful status. The College requires proof of the C33 card as part of the application process to qualify for in-state tuition rates. For further information please go to U.S. Citizenship and Immigration Services at uscis.gov/childhoodarrivals.

Homeschooling Policy

All home-schooled students without a high school diploma, HiSET or GED are eligible to apply for admission to a degree or certificate program provided they have successfully completed an approved homeschool program in accordance with Massachusetts General Laws or the laws of their home state.

The College determines whether students have participated in an approved home-school program. To determine whether a student has participated in an approved program, the student shall submit, with the application for admission, evidence that the home-school program was approved by the student's school district's superintendent or school committee. Additionally, if the home schooled student is under the age of compulsory attendance, which is sixteen (16) years old in Massachusetts, a letter from the student's school district's superintendent or school committee is required stating that the student is not considered truant and would not be required to attend further schooling or continue to be home-schooled if the student has completed his/her home school program before the age of sixteen (16). Home-schooled students who have not completed an approved home-school program will not be eligible to enroll in a BHCC degree or certificate program until they have obtained a HiSET or GED.

The College reserves the right to limit or deny enrollment of any student under the age of sixteen (16) in a course or program based on a case-by-case consideration of a variety of factors, including but not limited to the student's maturity, life experience, placement test scores, prior

education, course content, instructional methodology and potential risks associated with participation in a particular course or program.

Immunization

The Commonwealth of Massachusetts, General Law 105CMR 200.600 requires proof of immunizations from the following students:

- (a) **All full-time students in a Degree or Certificate program (12 or more credits),** and
- (b) All **health science students** – both **full-time and part-time** (note that health profession programs will require additional health records and requirements*) and
- (c) All students on a student or other **visa** – both **full-time and part-time** (including foreign exchange students and those students visiting or attending classes while on academic visitation or exchange program).

All of the student groups noted must submit proof of immunizations for the following: MRR - measles, mumps, rubella, Hepatitis B, Varicella (chickenpox), Tetanus, diphtheria and pertussis: (Tdap) and Meningococcal.

*Students in the health profession programs must also present evidence of immunity to Meningitis, Influenza Vaccination, screening for Tuberculosis, Physical Exam, and American Heart Associate CPR certification. Health students must submit immunizations and health documents before attending clinical.

Students who fail to present the required information within 30 days of the date of registration may not be allowed to register for subsequent semesters until the immunization form is received by Student Central. Immunization forms become part of the student's permanent file and cannot be copied, transferred or returned.

Guest Students (Non-Matriculating or Non-Degree Students)

Bunker Hill Community College welcomes Guest Students to enroll in courses at the College. You are a Guest Student (also known as a non-matriculated or non-degree student) if you fall into one or more of the following categories:

- You want to take a course or courses to transfer back to your institution;
- You want to take a course or courses in order to fulfill prerequisites for another college or university's undergraduate or graduate program; or
- You want to take a course or courses for your own personal enrichment.

Guest students matriculating at other colleges should have their course selections approved by their home institution prior to registration to insure credit transfer. Transferability of courses to a degree program either at Bunker Hill Community College or elsewhere is determined solely by the degree program from the home academic institution.

For additional information visit bhcc.edu/admissions/gueststudents.

Valor Act Credit Evaluation Policy

In accordance with the Valor Act, Bunker Hill Community College uses the American Council on Education (ACE) military program guidelines to the evaluation of educational experience in the Armed Services as the primary method for evaluating and awarding academic credit for military occupation, training, experience, and coursework.

Section 702 of the Choice Act. Section 702 of the Veterans Access, Choice and Accountability Act of 2014 ("Choice Act"), requires VA to disapprove programs of education

for payment of benefits under the Post-9/11 GI Bill and Montgomery GI Bill-Active Duty at public institutions of higher learning if the schools charge qualifying Veterans and dependents tuition and fees in excess of the rate for resident students for terms beginning after July 1, 2015.

These new requirements will ensure that our Nation's recently discharged Veterans, and their eligible family members, will not have to bear the cost of out-of-state charges while using their well-deserved education benefits.

STUDENT CENTRAL: FINANCIAL AID, STUDENT PAYMENT AND ACADEMIC RECORDS

BHCC Student Central

BHCC Student Central

 bhcc.edu/studentcentral

 617-228-2370  studentcentral@bhcc.edu

BHCC Student Central offers centralized student services related to Financial Aid, Student Payment, Registration and Academic Records. In addition to a physical Student Central location in the Charlestown Campus second floor B-Lobby, students may also visit the Chelsea Campus Student Services Office, or access the Virtual Student Central, providing access to services from home or after business hours. For more information, please visit bhcc.edu/studentcentral.

a college education. BHCC participates in a wide variety of federal, state and private financial aid programs.

Students must be aware that all institutions, including Bunker Hill Community College, are subject to changes in funding allocations from both the Commonwealth of Massachusetts and the United States Department of Education. For more detailed information, visit the financial aid section of the College's website at bhcc.edu/fa.

Through the online services system, students can see and print their Financial Aid award letters, view their current and previous years' Financial Aid records and check the status of their current Financial Aid application.

Financial Aid and Scholarships

Financial Aid Office

 bhcc.edu/fa

 617-228-2275  finaid@bhcc.edu

Financial Aid Office

The Financial Aid Office at Bunker Hill Community College assists students and their families with meeting the costs of

Financial Aid General Eligibility Requirements

To be eligible for financial aid, applicants must be United States citizens or eligible non-citizens, possess valid social security numbers, be enrolled in or accepted for enrollment in an eligible academic program and working toward a degree or certificate. Additionally, applicants must maintain satisfactory academic progress (see Satisfactory Academic Progress, listed under Academic Policies and Procedures), comply with Federal Selective Service Law and not be in default on any educational loans or owe a refund on any federal grants or loans to any institution.

Students who have previously obtained a bachelor’s degree or equivalent at any U.S. or foreign institution are not eligible for financial aid grants, but may be eligible for loans. It is important to know that students may lose their financial aid eligibility if they have attempted 150 percent of the credits needed for a certificate or a degree. The College strongly advises students to consult with the Financial Aid Office if they are contemplating a change in enrollment status. For information, go to the Financial Aid Office, or call 617-228-2275.

Financial Aid Application Process: FAFSA

Financial Aid applications must be completed for each new academic year. To apply for financial aid, students must complete the Free Application for Federal Student Aid (FAFSA) and supply all requested documentation in accordance with the priority deadlines. This form can be completed online at fafsa.ed.gov. When completing the application, please note that the BHCC Title IV code is 011210. Students should retain and keep in an accessible place a copy of their FAFSA as well as all other documents used to complete their FAFSA.

Applicants are notified in writing if additional documentation such as tax returns is needed. Returning students and applicants for admission should contact the Financial Aid Office if they have any questions about this process.

Priority Deadlines for Financial Aid

Priority 1, 2 and 3 deadlines are posted online at bhcc.edu/fa. These dates outline financial aid application deadlines to ensure that you are notified of your award in time for registration.

Summer financial aid funds are available on a first-come, first served basis. Summer financial aid applications are available at the Financial Aid Office, at the time of summer course registration.

Financial Aid Policies

Satisfactory Academic Progress for Financial Aid

Students are considered to be achieving academic progress if they complete at least 66 percent or more of the total number of credits that they have attempted at BHCC and are meeting the following minimum cumulative grade point average:

Cumulative Credits Attempted	Grade Point Average
Fewer than 12	no minimum
12-30	1.79
More than 30	2.00

Finally, you must successfully complete the credits required for your degree within 150 percent of the standard length of your academic major. For example, if you are majoring in an associate degree that requires 60 credits for completion, you must complete your degree requirements by the time you have attempted 90 credits or you would lose your financial aid eligibility.

Unofficial Withdrawals

Per federal regulations, students who stop attending all of their classes without formally withdrawing from the College will be identified and may lose a percentage of or their entire financial aid award for that semester. If a student fails all of his or her attempted credits for a semester, the federal regulations require that the College assume the student stopped attending the College. If the Financial Aid Office cannot obtain proof that the student completed at least 60 percent of the semester, the Financial Aid Office will then prorate and recalculate the student’s financial aid award, which may result in the student owing a balance to the College. For more details, see the Financial Aid Refund Policy.

Withdrawal/Graduation

Students who receive loan funds while enrolled at Bunker Hill Community College must complete an exit loan interview session before leaving the College. The Financial Aid Office notifies graduating students prior to their anticipated graduation date. This notice provides information regarding loan repayment. Students can make individual arrangements for a personal exit interview by contacting the Financial Aid Office.

Appeals Process for Academic Progress

Students have the right to request a one-time, unsatisfactory academic progress appeal if they fail to attain a satisfactory GPA and/or course completion rate and are denied financial aid consideration. If financial aid recipients experience extenuating circumstances that affect their schoolwork, they have the right to appeal the decision. Reasons to appeal may involve, for example, a documented illness of a student or of a spouse. Because it is difficult to define all the possible reasons that could lead to unsatisfactory academic progress, students should contact the Financial Aid Office, for instructions on how to submit a written appeal.

Appeals Process for Financial Reasons

A student’s family’s financial situation may change from that reported on the FAFSA application. At the request of the student, the Financial Aid Office, will review a change in the financial situation of the student to determine if adjustments should be made to the calculation of the student’s financial aid eligibility. Examples of typical appeals include a loss of employment, a reduction of income of a parent and/or spouse or uninsured medical expenses.

Federal Financial Aid Refund Policy

The calculation of the return of Title IV Funds is determined by the date that the student withdraws. Title IV aid and all other aid is earned during the time a student is attending Bunker Hill Community College. The percentage of aid earned, up to a maximum of 60 percent, is determined by dividing the number of days a student was enrolled by the number of days in the semester. If the student withdraws from all courses after 60 percent of the semester is completed, Title IV aid is viewed as 100 percent earned.

Return of Title IV funds is no longer required beyond that point. If a student withdraws before 60 percent of the semester is completed, however, the student may owe a portion of his or her financial aid, if the Financial Aid Office determines that the student has received an amount larger than the earned amount.

The term "Title IV Funds" includes the following programs:

- Federal Pell Grant.
- Federal Supplemental Educational Opportunity Grant (SEOG).
- Subsidized Federal Stafford Loan.
- Unsubsidized Federal Stafford Loan.
- Federal PLUS Parent Loan.
- Federal Perkins Loan.

In accordance with federal regulations, financial aid funds are returned and allocated in the following order:

1. Unsubsidized Stafford Loan.
2. Subsidized Stafford Loan.
3. FFEL PLUS.
4. Federal Pell Grant.
5. Federal SEOG Program.
6. Other Title IV programs.
7. Other state, private, and institutional aid.
8. The student.

Bunker Hill Community College will return any funds necessary to Title IV based upon the calculation. Based upon the return of Title IV Funds calculation, students are responsible to repay to the Title IV or state programs any funds that were disbursed directly to them and for which the student was determined to be ineligible. The procedures and policies listed above supersede those published previously and are subject to change. Please contact the Student Central, Room B202 if you have any questions about the policy.

Scholarships and Awards

Students applying for scholarships must be:

- Matriculated and enrolled full time (12 credits or more) at BHCC at the time of application, unless otherwise noted in the scholarship eligibility criteria;
- Attending BHCC during the semester they are receiving the scholarship;
- Have no In-Progress (IP) grades at the time of the scholarship application deadline; and,
- Have earned the minimum number of credits and/or cumulative GPA as specified for each scholarship.

When scholarship eligibility criteria require a minimum number of credits or grade point average earned, only college level courses (numbered 100 and above) taken at Bunker Hill Community College and applicable toward a degree or certificate program will be considered.

All students are welcome to apply regardless of status. For a full list of scholarships, deadlines and application forms, please visit the scholarship website at bhcc.edu/scholarships.

Grants

Grants are sponsored by the federal and/or state government and need not be paid back. For a complete list of the grant programs in which BHCC participates, visit bhcc.edu/financialaid/typesoffinancialaid.

Work Study Program

Bunker Hill Community College participates in the Federal College Work Study Program. Eligible students may receive funds from this program as a result of the financial aid application process. Federal program regulations require that a percentage of these funds be earmarked to community service-related work. Check with Student Central for a listing of available Work Study positions.

Cost of Attendance

Student Payment Office

bhcc.edu/studentpayment

617-228-2150 bursar@bhcc.edu

Tuition & Fees

The Board of Higher Education sets tuition and the College sets fees. Both are subject to change. For current tuition and fees, visit bhcc.edu/costofattendance.

Health Insurance. Massachusetts state law requires that all students taking nine or more credits in the fall semester or nine or more credits in the spring semester have medical insurance. There are no exceptions. For current rates, visit bhcc.edu/costofattendance.

Other fees associated with attendance may include: Special Cost Course Fee; Liability Insurance Fee; Photo ID Replacement Fee; Returned Check Fee; Transcript Fee

(paper request); Transcript Fee (electronic request); Refund Check Replacement Fee. These rates can be found at bhcc.edu/costofattendance.

The Veterans Benefits and Transition Act of 2018. Sec. 103 of the Veterans Benefits and Transition Act of 2018 prohibits schools from imposing a late fee, denying access to facilities, or other penalties against a veteran or eligible dependent due to a late payment of tuition and/or fees from VA..

Open Educational Resources (OER)

Bunker Hill Community College offers a number of courses that do not require the purchase of textbooks or course materials. Instead, these courses use Open Educational Resources (OER)—educational materials that reside in the public domain or have been released under a copyright license that permits anyone to freely use and repurpose them. OER courses are available in a variety of subjects.

MA Residency Tuition

Students registering for classes at Bunker Hill Community College who are eligible for in-state tuition must complete the Massachusetts Community College In-state Tuition Eligibility Form. An eligible person is defined by law as a U.S. Citizen, lawful immigrant, permanent resident, or holder of another legal immigration status who has satisfied the duration residency requirement of six months prior to the start of the semester of enrollment, but not more than one year prior to that date and can demonstrate his/her intent to remain in Massachusetts. A member of the armed forces (or spouse or child) on active duty in Massachusetts or any individual using educational assistance under either Chapter 30 (Montgomery GI Bill®-Active Duty Program), Chapter 31 (Vocational Rehabilitation), or Chapter 33 (Post-9/11 GI Bill®), of Title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b)(9)) with the intent to live in Massachusetts while attending Bunker Hill Community College will be charged in-State tuition rate.

The college reserves the right to make any additional inquiries regarding the applicant's status and to require submission of any additional documentation it deems necessary. Questions concerning residency requirements should be directed to Student Central.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Tuition Waivers

Several kinds of tuition waivers are available to Bunker Hill Community College students. These waivers include, but are not limited to, National Guard, veterans, senior citizens, Native Americans, state employees and wards of the state. To receive a tuition discount, students must present the waiver at the time of registration.

The Commonwealth of Massachusetts does not fund all courses; therefore, the use of certain waivers for those unfunded courses will be restricted. Students eligible for waivers should obtain clarification from Student Central before making course selections..

Outstanding Financial Obligations

Bunker Hill Community College is responsible for making "diligent efforts" to collect amounts due to the state. Diligent efforts shall include e-bills or written bills at your request, dunning notices and subsequent assignments to a collection agency. The student is responsible for all collection costs and any fees incurred in the collection of debt and for informing the College of any dispute regarding the debt.

The College advises students that their debts may be discharged through the intercept of any Commonwealth and Federal payments that are due to them or scheduled to be paid to them including tax refund. Please be advised

that your student account debt constitutes an “educational benefit overpayment or loan” as defined pursuant to 11 U.S.C section 523(a)(8), and therefore is not dischargeable in bankruptcy.

Payments

Students can register for classes before the semester’s payment due date. At the time of registration, students receive online registration information including their bill, class schedule and information about payment and insurance waiver deadlines. BHCC will send all follow-up communications and statements to your BHCC e-mail address and subsequently to the address on file. Students are required to make payments on time; failure to receive these notices does not excuse late payments. After the payment due date has passed, students must pay for courses at the time of registration.

The College accepts payments online at <https://selfservice.bhcc.edu/Student/Finance>. You may pay by credit/debit card, or from a checking or savings account. Money orders, company, or scholarship checks must be mailed to Student Central. International students also have the benefit of making payments in the currency of their choice through the PayMyTuition and Western Union links at selfservice.bhcc.edu/Student/Finance.

The College processes electronic checks through ACI Payments, Inc. When you provide a check you are authorizing conversion the check to an electronic form to be submitted as an ACH debit entry to your account.

The College offers a tuition payment plan to students and families who have needs that cannot be met with federal or state financial aid. You can learn more about the payment

plan options and how to sign up at bhcc.edu/autopay. For specific information about the payment plan, contact ACI Payments at 1-866-964-4020 or bhcc.edu/autopay.

Students can access their financial account summaries online at selfservice.bhcc.edu. The account shows both current semester payments received and balances due.

Refund Policy

Students dropping or withdrawing from classes should log into Self-Service and navigate to Academics from the menu in the top left corner. The Withdrawal Form and upload page are located there. Please follow the instructions exactly to submit a valid form.

Failure to officially withdraw results in a grade of F or NA in the course and an obligation to pay in full. The schedule of refunds for tuition and

general college fees applies only when proper withdrawal or class drop procedures, as established by the Academic Records Office, are followed. Lack of attendance or course abandonment does not constitute a drop or withdrawal. For specific

refund deadlines please refer to the course schedule for the semester or session.

Student Comprehensive Health Insurance Plan

Chapter 23 of the Massachusetts Acts of 1988 requires that all students registered for nine or more credit hours must participate in a comprehensive health insurance plan unless they certify that they are participating in a health insurance plan with comparable coverage. If a student has comparable coverage and wishes to waive participation in the Massachusetts Community Colleges insurance plan, the student must submit waiver information via the Internet by the published due date or at the time of registration. For more information, visit bhcc.edu/healthinsurance. All questions regarding the Student Health Insurance Program (SHIP) should be directed to MAhealthconnector@state.ma.us or call 1-877-623-6765. Students already on MassHealth should call 855-273-5903.

Health Insurance Refund Policy Except for medical withdrawal due to covered injury or sickness, students withdrawing from the College during the first 30 days of the period for which coverage is purchased shall not be covered under the policy and a full refund of the premium will be made. Students withdrawing after 30 days will remain covered under the policy for which the premium was paid and no refund will be allowed. Students who do not withdraw completely, but who drop below nine credit hours within the first 30 days, may apply to Gallagher Student Health and Special Risks for a refund of health insurance premiums. Registering for mini- sessions, web courses, and Center for Self-Directed Learning courses later in the fall or spring semester may restore the student’s obligation to carry health insurance

Academic Records

Academic Records

bhcc.edu/studentcentral/academicrecords

617-228-2403 academicservices@bhcc.edu

The Academic Records Office maintains student academic records, ensures that student rights are protected under the Family Education Rights and Privacy Act (FERPA), and provides many services including registration, schedule adjustment, withdrawals, processing grades, transcript requests, program changes, graduation, personal information changes and verification requests.

Final Examination Schedule

Final examinations take place during a student's last class for each course enrolled during the semester. The final examination Assessment Period is usually scheduled the next two days after the last day of classes. Students who have more than two exams scheduled in one day may request to reschedule the exam. Students who miss final examinations must notify the appropriate Academic Dean of their program area immediately, stating the reason. The individual faculty member makes the decision regarding makeup of final exams.

CAMPUSES AND INSTRUCTIONAL SITES

Charlestown Campus

Built in 1973, Bunker Hill Community College's Charlestown Campus is situated on approximately 42 acres in the historic Charlestown neighborhood of Boston. The campus is conveniently located at the MBTA Community College stop. As BHCC's main campus, the Charlestown location features state-of-the-art classrooms, labs and other facilities for all of the College's programs, including domestic and international business, hospitality and culinary arts, early childhood development, electronics, and computer applications.

The Charlestown Campus features the 48,000 square-foot LEED Gold Certified Health and Wellness Center constructed in 2009 under version 2.2 of the United States Green Building Council's green building program. The Center includes the College's Fitness Center, Gymnasium and locker rooms, which are open to all students, faculty and staff.

The Charlestown Campus also includes the College Bookstore, Food Services, and The Mary L. Fifield Art Gallery.

Bookstore

BHCC Bookstore

bhcc.edu/bookstore

617-241-5161

The college bookstore is operated by Follett Higher Education Group as a service to the students, faculty, and staff. The bookstore is located on the fourth floor, E-Building, and operates all year round. The bookstore offers a large selection of textbooks in a wide variety of formats: Rental, Digital, Used and New to save students money and give them choice. In addition to the bookstore's multiple textbook options, it has everything from school supplies and reference materials to backpacks, college apparel and snacks to go.

Food Services

Thomas A. Kershaw Dining Room

bhcc.edu/hospitality/culinaryartsmenu

617-228-2336

Aladdin Food Services

bhcc.edudine.com

617-228-2335

The Thomas A. Kershaw Culinary Arts Dining room features lunch and dinner options served in a full-service dining room or to-go from the BHCC Culinary Arts program students. In addition, the campus includes a cafeteria and a café operated by Aladdin.

Chelsea Campus

Providing higher education and job training opportunities to residents of Chelsea, Revere, Everett, East Boston, Winthrop and other surrounding communities, the BHCC Chelsea Campus is actively involved in the community through partnerships with community based organizations, social service organizations, Chambers of Commerce, the City of

Campuses and Instructional Sites

Chelsea and the Chelsea Public Schools. Visit bhcc.edu/chelsea for more information and directions to the campus.

The Chelsea Campus offers laboratory science courses in human biology, anatomy and physiology, environmental science and nutrition, and a full array of foundation and elective courses, including mini session courses, which can be completed in just seven weeks. Accelerated certificate programs are scheduled in seven-week mini sessions allowing for completion in half the length of time. Current certificates available in this accelerated format include Early Childhood Education, Entrepreneurship, Computer Support Specialist and PC Hardware.

The Chelsea Campus Health Sciences certificate programs include Medical Assistant, Patient Care Technician, Central Processing and Pharmacy Technician. Courses are also offered in Certified Nurse Assistant (CNA) and Emergency Medical Technician and Emergency Medical Technician (EMT). The Paramedic Studies and Surgical Technology programs offer students an Associate in Science degree.

Several MBTA bus lines as well as the MBTA commuter rail stop within a few blocks of the campus, making it easily accessible by public transportation. The College also provides free shuttle service between the Charlestown and Chelsea Campuses. Approximately 30 designated student parking spaces are also available. The campus also includes a student lounge and easy access to a café.

Chelsea is also home to the College's Adult Education (AE) program which offers Spanish GED and English GED (through our partner, LARE) as well as Basic English for English Language Learners (ELL) classes during the weekday, evening and on weekends. The program is funded by the Massachusetts Department of Elementary and Secondary Education.

Students are also urged to check the website for the new seven-week mini sessions that allow for the completion of accelerated certificate programs.

Visit bhcc.edu/chelsea for more information and directions to the campus.

Student Services and Support

The Chelsea Campus Student Services Office is the hub where students may register for courses, complete course placement assessments and access advising. The advising staff also offers students a diverse set of workshops that support student success. The Office can be reached at 617-228-2101.

Student Access and Success Center (SASC)

The Tutoring Center offers tutoring primarily in mathematics, English, biology and more. The Center may also offer open lab time and facilitated study groups for laboratory based science classes. Assistive technology, including the Kurzweil Reading System that assists students who are visually impaired or who have reading and related learning disabilities, is available at the Center. Visit bhcc.edu/Chelsea/SASC for hours.

Laboratories

The Health Skills Laboratory and the Surgical Technology and Central Processing Laboratory offer simulated settings in which students enrolled in Allied Health and Surgical Technology programs learn and practice specific required skills. A state-of-the-art Paramedic Studies Laboratory with an ambulance simulator offers a simulated setting in which students enrolled in the EMT and Paramedic Studies programs practice specific required skills.

Three science laboratories provide equipment and materials for students enrolled in lab courses delivered at the Chelsea Campus, including human biology, anatomy and physiology, environmental science and nutrition.

A large open computer lab is also available on an extended schedule, including Saturdays, for any student enrolled in a BHCC course.

Satellites and Instructional Sites

BHCC Locations

 bhcc.edu/locations

Malden Satellite

The Malden satellite is located at Malden High School, 77 Salem Street, Malden. Established in the fall of 2009, the Malden Satellite offers introductory and college level courses in the day and evening during the fall and spring semesters. Placement testing, advising and registration for these courses are conducted on the BHCC Charlestown Campus. Malden High School is accessible from the Orange Line, Malden Center transit station.

South End Satellite

The South End Satellite, operating in partnership with IBA - Inquilinos Boricuas en Acción, is located at 630 Tremont Street and is a nationally replicable model of a local community college (BHCC) working hand-in-hand with a community based organization (IBA) to establish a college campus directly in the heart of an affordable-housing community (Villa Victoria). The South End Satellite provides Boston residents with the opportunity to complete the HiSET (formerly the GED), take ESL and Basic English courses and to enroll in college-level classes. Free child care services and financial coaching are also available at this location. Prior to the beginning of each semester and throughout the year, the satellite offers a range of student services including academic support, success coaching, financial aid assistance, academic advising, placement testing and admissions and enrollment assistance.

Boston Chinatown Neighborhood Center Instructional Site in North Quincy

Students can also enroll in a limited number of classes at the Boston Chinatown Neighborhood Center's Quincy site in North Quincy.

East Boston Instructional Site

The East Boston Instructional Site is located at 250 Sumner Street, East Boston. This instructional site offers a limited number of introductory and allied health courses.

Everett High School Instructional Site

BHCC students can enroll in courses in allied health at Everett High School. While a number of seats in at the Everett instructional site are reserved for Everett High School students as part of the College’s Dual Enrollment/ Early College program, additional seats are open to all BHCC students.

Freedom House Instructional Site in Dorchester

BHCC partners with Freedom House, located at 5 Crawford Street in Dorchester, to offer a limited number of courses for dual enrollment students, as well as those that are open to all BHCC students.

Pao Arts Center in Chinatown Instructional Site

BHCC partners with Boston Chinatown Neighborhood Center (BCNC) on the Pao Arts Center, an arts, culture and education space for the community to convene to preserve and celebrate the cultural and creative assets of Boston’s Chinatown. The center, housed within the distinctive One Greenway building, is Chinatown’s first community-based arts center and Boston’s newly dedicated Asian American and Asian immigrant cultural space. A range of BHCC classes are offered at the Pao Arts Center, including

theater, visual and media arts and business. Students and community partners also have access to the BHCC mobile language lab at this location. bhcc.edu/pao

Parking and Security

Office of Public Safety and Campus Police

-  bhcc.edu/publicsafety

-  Emergencies: 617-228-2222
-  BHCCPublicSafety@bhcc.edu

Parking. Student parking is available in Lots 1 and 2 on the Charlestown Campus, 7 days per week, from 6 a.m.-11 p.m. These lots are owned by City of Boston and managed by ABM Parking Services. A limited number of spaces are available at the Chelsea Campus for BHCC Students, marked by brown signs with white lettering that read “RESERVED BHCC Student/Sticker PARKING ONLY.” A valid parking permit is required for all student parking lots.

Students have the option to purchase a semester-long parking permit valid for Lots 1-2 on the Charlestown Campus and for designated student parking spaces on the Chelsea Campus from ABM online through ParkWhiz. Daily parking in Lots 1-2 is also available to students, faculty/staff and visitors for a daily fee, to be paid via the ParkMobile mobile app. More information and the link to purchase a parking pass is available at bhcc.edu/parking.

Security. The Office of Public Safety and Campus Police is dedicated to protecting students, faculty, staff, visitors and property of Bunker Hill Community College. Campus Police

officers are armed, sworn-in Special State Police of the Commonwealth of Massachusetts. As such, the department conducts itself as any other Municipal Police Department

and has full arresting powers on College grounds (state laws Chapter 22C, section 63). An additional contracted security staff ensures the security of the building 24 hours a day.

ACADEMIC POLICIES AND INFORMATION

Absence Due to Religious Beliefs

1985 Regular Session

*STUDENTS ABSENCE DUE TO RELIGIOUS BELIEFS
Chapter 375*

*AN ACT EXCUSING THE ABSENCE OF STUDENTS FOR
THEIR RELIGIOUS BELIEFS.*

*Be it enacted by the Senate and House of Representatives
in General Court assembled, and by the authority of the
same, as follows:*

*Chapter 151C of the General Laws is hereby amended by
inserting after section 2A the following section:*

*Section 2B. Any student in an educational or vocational
training institution, other than a religious or denominational
educational or vocational training institution, who is
unable, because of his religious beliefs, to attend classes
or to participate in any examination, study, or work
requirement on a particular day shall be excused from
any such examination or study or work requirement, and
shall be provided with an opportunity to make up such
examination, study, or work requirement which he may
have missed because of such absence on any particular
day; provided, however, that such makeup examination
or work shall not create an unreasonable burden upon
such school. No fees of any kind shall be charged by the
institution for making available to the said student such
opportunity. No adverse or prejudicial effects shall result
to any student because of his availing himself of the
provisions of this section.*

A copy of this section shall be published by each institution
of higher education in the catalog of such institution
containing the list of available courses.

Approved October 8, 1985.

Attendance

Because poor attendance generally results in poor grades, students must attend all regularly-scheduled classes and laboratory sessions. Students having attendance difficulties should discuss this matter with their course instructors and advisors.

Students who know they will be absent for three or more consecutive class sessions because of a family emergency or personal illness should report the extended absence to the Office of the Dean of Students. The Associate Vice President will notify the course instructors of the absence. Upon returning to class, students are responsible for discussing completion of all course requirements with their course instructors. If the course instructor and student find it impossible to complete all assigned work, the student may

need to withdraw from the course.

Students who do not attend classes during the first two weeks of the semester will be withdrawn from the course and may receive an NA (non-attendance) grade. The grade appears on the transcript and is counted toward credits attempted but is not computed in the grade point average. The NA grade designation is not used during the summer semester.

Auditing a Course

Students who want to audit a course must obtain permission from the Registrar or designee. Audit students must pay full tuition and fees. The audit request must be made at the time of registration, and once approved may not be changed to a graded course. An audit course may not be transferred or used toward graduation requirements.

Catalog Year

The term "catalog year" refers to the academic year in which students are admitted and attended the College. Students must fulfill the program requirements listed in the College Catalog in effect for their catalog year. When students reapply to the College after an absence of five or more years, they must fulfill the catalog year/program requirements in effect at the beginning of the semester of re-application. Students may change their program in a given semester, but should do so prior to the end of the schedule adjustment period. If an exception is made to allow students to change their program after the schedule adjustment period, students must fulfill the catalog year program requirements in effect at the beginning of the semester following the date of the change..

Readmission Policy

The readmission policy applies to students who applied and declared a program of study, attended classes, but stopped out for less than five years. Access to the college email system, and myBHCC will be inactivated after two semesters of being inactive. Upon returning to the college, students who declare a new program of study or retain their original program of study with the current catalog year have to be readmitted. Students must complete the Readmission Form. Student whose last enrollment was in any of the college's Selective Programs are not eligible to use this Readmission Policy. Selective Program students should contact selectiveadmissions@bhcc.edu for more information.

Reactivation Policy

Reactivation applies to students who were in a program of study, attended classes, but stopped out for less than five

years from their original start date and have returned to the college under the same program of study and Catalog Year that they were accepted into. Access to the college email system, and myBHCC will be inactivated after two semesters of being inactive. Students will need to complete the Reactivation Form. Students whose last enrollment was in any of the college's Selective Programs are not eligible to use this Reactivation Policy. Selective Program students should contact selectiveadmissions@bhcc.edu for more information.

Change of Grades

Students should direct all questions regarding grades to the course instructor. The instructor will change final grades only if a clerical error exists. Students must submit a written request to the instructor for re-evaluation if they feel that an error exists. The final decision regarding grades rests with the instructor. Students may initiate grade appeals no later than 30 calendar days following the last day of the instructional period for which the grade was granted. Please refer to the Bunker Hill Community College Student Handbook at bhcc.edu/handbook for more information.

Clinical Experience Responsibilities

Students enrolled in programs that require clinical experience must adhere to all stated objectives and course competencies including those required for the clinical experience. Students are responsible for their own transportation to and from the clinical sites. Students are accountable for their behavior and demeanor during all clinical experiences and must conduct themselves in a manner that is in keeping with the College Code of Conduct, all professional conduct and regulations outlined by the regulating body, all conduct and behavioral expectations set forth by the clinical site, and additional specific requirements as are outlined in the program-specific student handbook.

Due to the competitive nature of placing students in clinical sites, students may have to travel long distances. It is important to note that some of the clinical sites are located

in suburban or rural areas and are not accessible by public transportation. Therefore, students should consider this increase in time and cost in planning their transportation and finances for programs requiring clinical experiences.

The College reserves the right to suspend and/or remove students from the clinical experience whose behavior is considered inappropriate. Removal may adversely affect prospects for completing the requirements of these programs. Students so removed may appeal in writing to the Office of Nurse Education and Medical Imaging. Students participating in clinical experiences should refer to the Criminal Offender Record Information (CORI) and the Sex Offender Registry Information (SORI) requirements listed in the Admissions section of this catalog.

Behavior Policies, Discipline and Grievance Procedures

Bunker Hill Community College expects students to behave in a manner that is appropriate to a collegiate environment. Students are expected to assume responsibility for their own behavior and learning and to respect the learning environment of others. Bunker Hill Community College advocates a learning environment that enhances the academic, intellectual, cultural and social enrichment of its students, faculty, staff and the community at large. To guarantee that no member of the College community is deprived of this collegiate environment, student rights and responsibilities are clearly stated and behavior and discipline codes have been established. Please refer to the Bunker Hill Community College Student Handbook at bhcc.edu/handbook for more information

Course Load

Students who carry 12 or more credit hours in a fall or spring semester or 6 credit hours in a summer or mini session are considered full-time students. Students must enroll in a minimum of 15 credit hours per semester of college level course work in order to complete an associate degree program in two years. Students who wish to carry more than 18 credits during a fall or spring semester or 9 credits during

a summer or mini session must obtain written permission from the Dean of their program of study or designee.

Course Prerequisites

Some courses require that students meet certain conditions prior to registering. These conditions are known as prerequisites. Prerequisites include completion of lower-level courses with a passing grade, completion of computerized placement tests (CPTs) or formal admission to a specific program of study. To count a course from another college or university as a prerequisite at BHCC, students must bring evidence of completion of that course at the time of registration.

Dean's and Merit Lists

Students with a grade point average of at least 3.00 are named to the Dean's List, provided that no grade lower than C was earned in any course that semester. Grades lower than C include D, F, NA, W, WA, and IP. For Dean's List computation, P is not considered a letter grade. Only courses numbered 100 or higher are considered in determining eligibility for the Dean's List.

Students who are enrolled in at least 6 but less than 12 credits in a given semester, but otherwise have met the same performance level as those on the Dean's List, are named to the Merit List. The Merit List has the same performance requirements as the Dean's List. Students must have a GPA of at least 3.00 and no grade lower than a C, and only courses numbered 100 or above are considered.

Degree and Certificate-seeking Students

All students admitted to degree or certificate programs may be required to take Computerized Placement Tests (CPTs) in English, reading and mathematics, or may be required to take the ESL placement tests if English is their second language. The tests determine the levels at which students will begin their study. Based upon test results,

the College may require developmental or ESL courses, or limit a student's enrollment in an effort to enhance that student's ability to succeed. Applicants to health careers and technical programs must comply with specific program entrance requirements and application deadlines.

Dropping or Adding a Course

Students may adjust their schedules either during the registration period or during the schedule adjustment period if a seat is opened in the course, all the course prerequisites are completed, and payment is made at the time of registration. After the schedule adjustment period, students may add only those courses offered through the Center for Self-Directed Learning. Refer to the College's academic calendar for published deadlines at bhcc.edu/academic-calendar. Students registering for courses that have already started must check with the faculty regarding the course attendance policy.

Credit Hour Policy

In accordance with the United States Department of Education, Bunker Hill Community College follows the Carnegie Unit for credit. Students are expected to spend a minimum of 45 hours of work for each credit. The most common breakdown for one credit is one hour of class instruction and two hours of homework for 15 weeks each semester. A three credit course demands nine hours each week.

Appeals Process for Grades

The Grade Appeal Process is for a student who believes that a recorded final grade does not accurately reflect his/her academic performance in a course. Grades can be appealed in instances where a student believes that an inaccurate final grade has been issued such as arbitrary grade issuance, inconsistent grading practice, or calculation error. For more information visit the Dean of Students at bhcc.edu/dos/gradeappealprocess

Fresh Start Policy

Under the Fresh Start Policy, students may enroll without having to carry a very poor GPA record or low completion rate from years back that could prevent them from ever earning a GPA or completion rate sufficient to lead to graduation or completion of a program.

The following conditions apply to the Fresh Start Policy:

1. The student must be a former Bunker Hill Community College student who has credits from BHCC. The students are eligible for Fresh Start if they are returning to BHCC after being away for 5 years or more. Students currently enrolled at BHCC or whose last term of enrollment is within 1-4 years are not eligible for Fresh Start.
2. The credits held by the student must be at least 5 years old. No credits shall have been earned with an assigned grade at BHCC within the past five years. Grades include, W, WA, NA, and A-F, IP, and P.
3. All these credits will be treated as the College treats credits transferred from other colleges. Credit will be granted for a course where a grade of C or better was earned. The courses from the earlier registration that received a grade of C or better will be counted as free electives or as courses fulfilling requirements depending upon the program requirements of the student who is re-entering, just as transfer credits from other colleges are counted. Only grades earned at BHCC after Fresh Start is granted are counted in the GPA. Likewise, only the completion rate of grades earned after Fresh Start is granted will be used to determine progress.
4. This process can be used only once. If the student drops out again and then returns, the student cannot start again with a new GPA or a new completion rate.
5. This process does not affect the need to repeat courses in certain programs where the earlier completion may be considered out of date (this is frequently the case in science, computer technology, or health programs such as nursing).
6. In all cases where these policies are at variance with federal financial aid policies, the federal policies will determine eligibility for such aid.

Withdrawal from a Course

Students may withdraw from a course or the semester only during the semester in which they are registered for coursework and only by the deadline specified for each semester, according to the academic calendar.

The College does not process course or semester withdrawals after the withdrawal deadline date. The College issues no refunds for students who withdraw from a course or the semester.

To withdraw from a course or a semester, students must complete and submit a withdrawal form, which is available at Student Central or online. After students officially withdraw from a course or semester, their transcript will

show a grade of W for coursework. The College designates course withdrawals as “uncompleted courses,” which may adversely affect academic standing and financial aid eligibility. Failure to attend or ceasing to attend a class or classes does not constitute official withdrawal and results in grades of F or NA for the course or courses. Failure to withdraw formally may affect students’ academic standing and eligibility to receive financial aid (see Satisfactory Academic Progress).

Withdrawal from the Semester or the College

Students may withdraw from the College at any time; however, if currently enrolled, students will abide by the semester withdrawal deadline specified for each semester. If the College withdrawal is received after the semester withdrawal deadline, the withdrawal will not be processed until the semester has ended and final grades have been entered. Students who withdraw from the College are not entitled to a refund. To withdraw from the College, students must complete and submit a withdrawal form available at Student Central or online. Students who are enrolled and withdraw from the College, prior to the semester withdrawal deadline, receive W grades on their transcript.

Failure to attend or ceasing to attend a class or classes does not constitute official withdrawal from the College and results in grades of F or NA for the course or courses. Failure to withdraw formally may affect students’ academic standing and eligibility to receive financial aid (see Satisfactory Academic Progress). Students desiring to be readmitted to the College must submit a new application.

A student can withdraw for any reason according to the posted schedule UNLESS their account is on hold

due to an Interim Suspension, Suspension, Expulsion or Hospitalization. For more information, please see the Dean of Students website, bhcc.edu/dos, or call the Dean of Students Office at 617-228-2408.

Satisfactory Academic Progress Policy

In order to continue at Bunker Hill Community College and/or receive financial aid, students must make satisfactory academic progress toward a degree or certificate. Satisfactory academic progress is the calculation of the cumulative course completion rate* and grade point average of a student. The College considers students to be achieving satisfactory academic progress if they complete 67 percent or more of the total number of credits attempted and meet the following minimum cumulative grade point average:

CUMULATIVE CREDITS ATTEMPTED	CUMULATIVE GRADE POINT AVERAGE
Fewer than 12	no minimum
12-30	1.79
More than 30	2.00

* This includes credits taken at BHCC as well as those officially transferred in.

Academic Warning

The College places students on Academic Warning if they do not meet the criteria for satisfactory academic progress.

Academic Improvement

The College places students on Academic Improvement if they meet the criteria for satisfactory academic progress during their Academic Warning semester or Academic Probation semester, **and** their cumulative

GPA and completion rates do not meet the criteria for Good Academic Standing.

Academic Probation

The College places students on Academic Probation if they do not meet the criteria for satisfactory academic progress during their Academic Warning semester **and** their cumulative GPA and completion rates do not meet the criteria for Good Academic Standing.

Academic Suspension

The College places students on Academic suspension if during any probationary semester, they do not meet cumulative SAP requirements and one of the following circumstances occur during that semester:

- Student’s semester grade point average is below 1.79. (Student has attempted between 12 and 30 credits to date, including transfer credit accepted and those earned at BHCC) OR
- Student’s semester grade point average is below 2.00. (Student has attempted more than 30 credits to date including transfer credit accepted and those earned at BHCC) OR
- Student has completed less than 67% of the total number of credits attempted in an Academic Probation semester, at BHCC. (Please note that grades of F, IP, N, NA, W and WA count as credits attempted).

Students on Academic Suspension are prohibited from attending the college for a minimum of one semester unless the suspension status is successfully appealed. Following a minimum leave of one semester, students may appeal their academic suspension by meeting with the Associate Dean of Academic Affairs or designee.

Appeals Process for Probation and Suspension

Students placed on academic probation or suspension from the College for unsatisfactory academic progress have the right to appeal. Students who successfully appeal their academic suspension will be placed on academic probation when they return to BHCC. Students should contact the Associate Dean of Academic Affairs for more information. Academic reinstatement does not automatically re-establish eligibility for Financial Aid. Students should follow the Financial Aid appeals process separately from the academic appeals process. See the Financial Aid section of this catalog for information on the appeals process.

Educational Records

The Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. Students are informed of their rights under this act through the College Catalog and the Student Handbook.

They are:

- **The right to inspect and review** the student's educational records within 45 days of the day the College receives a request for access. Students should submit to the Registrar, dean, head of the academic department or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- **The right to challenge records** and request the amendment of the student's educational record that the student believes is inaccurate or misleading. Students may ask the College to amend a record by writing to the College official responsible for the record, clearly identifying the part of the record they want changed and specifying why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- **The right to consent to record disclosure** of personally identifiable information contained in the student's educational records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College

in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor or collection agency); a person serving on the Board of Trustees or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her task. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.

- **The right of complaint**, to file a complaint with the U.S. Department of Education concerning alleged failures by Bunker Hill Community College to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

**Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605**

Directory Information

Bunker Hill Community College has designated the following items as directory information: student name, academic program, semesters of attendance, current enrollment status, Dean's and Merit Lists, degrees or certificates awarded and dates of graduation.

The College may release directory information to a third party requesting such student information without first obtaining the student's consent.

A student has the right to refuse to permit the College to release directory information. To facilitate this, a student must request that a privacy code be placed on his/her directory information by completing the Request for Non-Disclosure of Directory Information form and submitting to Academic Records. If a privacy code is placed on a student's record, no directory information will be released in College publications or to third parties, excluding cases in which the Solomon Amendment or lawful subpoenas require the College to release such information by law.

Notwithstanding the College's definition of directory information, the Department of Defense, pursuant to the Omnibus Consolidated Appropriations Act of 1997, identifies the following additional student information as directory information for Department of Defense purposes: student's address, age and level of education. This information is available and accessible from student records. Non-consensual release of directory information may be submitted to the Department of Defense in accordance with the Solomon Amendment.

Grading and Notation System

(effective January, 1990)

Grades and Notations	Definitions of Grades and Notations	Quality points Per Credit Hour
A	Equivalent to a numerical grade of 94 - 100	4.00
A-	Equivalent to a numerical grade of 90 - 93	3.70
B+	Equivalent to a numerical grade of 87 - 89	3.30
B	Equivalent to a numerical grade of 83 - 86	3.00
B-	Equivalent to a numerical grade of 80 - 82	2.70
C+	Equivalent to a numerical grade of 77 - 79	2.30
C	Equivalent to a numerical grade of 70 - 76	2.00
D	Equivalent to a numerical grade of 60 - 69	1.00
F	Equivalent to a numerical grade of 0 - 59	none
P	Indicates satisfactory completion of coursework where no letter grade is given, or award of credits for a course by special examination. It is equivalent to a grade of C or higher and carries no quality points. Credit hours will be given equivalent to the number of credit hours normally assigned to the course	none
IP	Required work in the course is in progress. The method and time for completion of work must be agreed upon in writing by student and instructor; no credit is earned until the course is completed. IPs not completed by the end of the following semester are automatically changed to a grade of F unless an IP extension is agreed upon in writing by student and instructor and submitted to the Academic Records Office	none
AU	Audit; no credit earned	none
NA	NA Students who register for a specific course and who have not attended class meetings during the first two weeks of the semester will be withdrawn from the course and receive the grade designation NA (non-attendance) which will appear on the transcript and be counted toward credits attempted but not computed in the grade point average. The NA grade designation is not used during the summer semester	none
W	Official withdrawal from a course; no credit earned	none
WA	Administrative withdrawal from a course; no credit earned	none

Midterm Warning Grades

Faculty may issue midterm warning grades during week 7-8 of the semester to students who may be in jeopardy of not successfully completing their course. Grades of D or F may be issued to students whose course work is below requirements to earn a grade of C or better in the course. A grade of FX is issued to students who may be in jeopardy of failing the course due to attendance concerns. Midterm warning grades are found in the Grades section under the Academic Profile menu of WebAdvisor on the Portal. Students should speak with their professor immediately to develop a plan to get back on track. A variety of support services are also available to students; please stop by the LifeMap Commons for a referral.

Computation of GPA

The Cumulative Grade Point Average (CGPA) is computed by dividing the total number of quality points by the total number of credit hours attempted at Bunker Hill Community College. Grades of AU, IP, P, NA, W and WA are not calculated in the semester, cumulative or graduation grade point average. All grades are used in determining satisfactory academic progress, suspension and probation.

Program Changes

Students wishing to change from one program of study to another should consult with their advisors. Students then must complete a change of program form, available at Student Central. A program change may increase the time needed for students to complete program requirements for graduation. Students who receive financial aid should consult with the Financial Aid Office regarding the fiscal implications of program changes. Students may change their program in a given semester, but should do so prior to the end of the schedule adjustment period. If an exception is made to allow students to change their program after the schedule adjustment period, students must fulfill the catalog year program requirements in effect at the beginning of the semester following the date of the change.

Repeat Course Policy

This policy addresses courses taken at Bunker Hill Community College.

Students may repeat courses in which they earn a grade of D, F, W, WA, or NA without petitioning. Students can petition to repeat a course when they have obtained a C grade or better. The petition will then be passed on to the appropriate Academic Dean for approval. The process may be used no more than three times for courses with a letter grade of C or better. Repeating a course when the earlier attempt is a C or better is allowed only if the higher course grade is a course prerequisite or program requirement to continue in or enter a specific academic program. The highest grade automatically becomes the official grade for purposes of calculating grade point average and for determining eligibility for graduation. However, students should note that other institutions may have different policies when determining which course to use to calculate transfer credit or grade point average. The grades for each attempt, however, are recorded and always remain on the student's transcript. Repeating a course may not be allowed in specific programs with outside accreditation.

Course	Credits Attempted	Grade		Quality Points	Quality Points earned
ENG112	3	A-	=	(3.70)	11.10
MAT196	3	C+	=	(2.30)	6.90
BIO102	4	B	=	(3.00)	12.00
SPN201	3	F	=	(0.00)	0.00
TOTAL	13				30.00

Cumulative Grade Point Average (CGPA): $30 \div 13 = 2.31$

Graduation Grade Point Average is calculated in the same manner but excludes developmental course work (i.e. courses numbered below 100).

Student Right-to-Know Graduation Rate

Graduation rates data are available online for all colleges that are required to report this information. This information is reported by colleges and published by the United States Government and available for Bunker Hill Community College at nces.ed.gov/collegenavigator/?id=165112

GRADUATION AND ALUMNI ENGAGEMENT

Graduation Information

Application

During their final semester, students who expect to graduate must apply for graduation. To graduate, students must:

- Complete a minimum of 60 credit hours (exclusive of developmental courses) with a minimum cumulative grade point average of 2.00.
- Attain a minimum of 15 credits of the total number of credit hours through courses enrolled in and successfully completed at Bunker Hill Community College.
- Complete all program requirements.
- Meet all requirements of the College, including payment of any outstanding financial obligations and submission of state-mandated immunization requirements.

Second and Subsequent Degrees

Students may apply to earn additional associate degrees. To qualify, students must complete the required courses for each degree, as well as a minimum of 15 credit hours beyond the first and any subsequent degrees.

Certificates

To qualify for a BHCC certificate, students must complete all course requirements for the certificate with a minimum of 25 percent of the required credit hours successfully completed at the College with a cumulative minimum GPA of 2.00 (exclusive of developmental courses).

Graduation with Honors

Highest Honors: Students who have completed degree requirements with a Cumulative Grade Point Average of 3.90 - 4.00, less developmental credits.

High Honors: Students who have completed degree requirements with a Cumulative Grade Point Average of 3.50 - 3.89, less developmental credits.

Honors: Students who have completed degree requirements with a Cumulative Grade Point Average of 3.30 - 3.49, less developmental credits.

The College gives honors awards for the highest grade point average, less developmental credits, in each program.

The Bunker Hill Community College Alumni Association

Established in 1988, the Bunker Hill Community College Alumni Association contributes to the continued growth of the College by sharing the educational, professional and personal experiences of alumni with the College community.

The Alumni Association provides opportunities for alumni to connect with their alma mater, one another and BHCC students through sponsored programs, networking opportunities and events.

The Bunker Hill Community College Foundation, Inc.

Foundation Office

bhcc.edu/foundation

Marilyn K. Kuhar, Executive Director of Development and of the Foundation

617-228-3290 mkkuhar@bhcc.edu

The Bunker Hill Community College Foundation, Inc., is a non-profit 501(c)(3) organization established to obtain resources to support the College, thereby enabling students with diverse educational, ethnic and cultural backgrounds to benefit from a high-quality, affordable, post-secondary education. The mission is realized by building constituencies and obtaining financial resources from groups and individuals including alumni, business, civic and community leaders.

The Foundation Board of Directors is committed to advancing the mission of the College and works to secure private contributions, planned gifts and other donations from individuals, foundations and corporations through personal solicitations, grant applications and fundraising events.

The Foundation accepts donations of any amount and designated to any purpose that advances the goals and mission of the college. Funding priorities are programs that contribute to student success, including scholarships, emergency assistance, and basic needs. Gifts for current use provide immediate assistance while contributions to the Foundation's endowment help ensure excellence and accessibility to future generations of students.

ADVISING AND LIFEMAP

LifeMap

 bhcc.edu/lifemap

 617-228-2230

Bunker Hill Community College is committed to supporting students in achieving their educational, career and life goals. LifeMap re-imagines the student experience by enabling students to develop an individualized pathway (plan) for goal completion. In partnership with faculty and staff, students use LifeMap tools to create educational, transfer or career plans, connect with support services, participate in social networking and reflect on their learning. By centralizing resources and enlisting faculty and staff in their use in and beyond the classroom, LifeMap enables students to make informed decisions and become more self-sufficient while they create a personalized plan for realizing their goals

In addition to the LifeMap related activities students participate in within the classroom, the LifeMap Commons serves as a central location on campus to support students throughout their journey with academic, career and transfer advising and referrals to other college support services. Learn more at bhcc.edu/lifemap.

Advising: Academic, Career and Transfer

Academic Advising

 bhcc.edu/studentlife/advising

 617-228-2230

Embracing the diversity of its college community, Bunker Hill Community College recognizes the individual needs of its students. Our academic, career and transfer advisors are dedicated to providing continuous service to strengthen, nurture, empower and assist students with making sound and responsible decisions throughout their educational career at the College.

Academic, career and transfer advising and resources are available for all BHCC students in a variety of formats that include individualized advising, group advising, workshops, online advising as well as online resources and assessments.

Advising & LifeMap staff assist students with choosing or changing a major, building an academic schedule, developing an educational plan for degree completion, planning for transfer, utilizing online resources, understanding campus policies and procedures and referring students to additional support services or resources. Information about group advising sessions and student-focused workshops is on the events calendar on the BHCC website and goes out by email to students throughout the year; students should check their BHCC email daily. For more information, please visit the LifeMap Commons or bhcc.edu/studentlife/advising.

Academic Services

Academic advisors are available for all currently accepted certificate and degree-seeking students at BHCC.

New students receive an advisor assignment after the start of their first semester. The advisor assignment depends on class enrollment and program of study (major) :

- Faculty Advisor
- Staff Advisor
- an Academic Department, or
- Advising & LifeMap Department.

The name of the assigned advisor or department is on the Advising tab on the Plan & Schedule section of BHCCselfservice.

BHCCselfservice

All registered students have an online services account known as BHCCselfservice, at selfservice.bhcc.edu. This account allows students to print a current course schedule or unofficial transcript, view placement test results and grades, search for course availability, access financial aid and student payment information, register for or drop courses (during the posted registration and add/drop periods), pay for courses, create a payment plan and waive health insurance. The My Progress features allow students to determine what courses are needed for program completion and use the course catalog to make informed decisions about course selection. In addition, the Plan & Schedule feature allows students to create a plan for completing program requirements and even register from that plan. Students requiring assistance can visit the LifeMap Commons.

Career Advising

Career Advising

 bhcc.edu/careeradvising

 617-228-2245  CareerAdvising@bhcc.edu

Career Advisors help prospective, new and continuing student with aligning their career goals with their program of study. When deciding on their program of study, a career advisor will help students in exploring and focusing their

career options and can show how the program at Bunker Hill Community College can lead to achieving career goals.

Students have access to career assessments through Career Coach and MassHire CIS. Taking these assessments will help clarify interests, skills and values and the results will suggest career areas for exploration. After taking career assessments, students should discuss their results with a career advisor. During the advising appointment, students can learn how to research day-to-day duties in their chosen field, what skills or training will be necessary for the career, and future employment trends.

Career Coach bhcc.emsicc.com Students can use Career Coach to match careers of interest with Bunker Hill Community College specific Programs of Study, complete self-assessments, and build their knowledge of career skills, common work activities, and level of education required related to their career of interest.

Massachusetts Career Information System (MASSCIS)

The MassHire Career Information System, or MassHire CIS, is a free online career resource through the State of Massachusetts. Students can use MassHire CIS to find employment data, learn about average wages, watch videos about daily responsibilities, and more! Students can also use MassHire CIS to complete self-assessments and learn about which Massachusetts colleges and universities offer educational programs that match their career interests.

Transfer Services

Transfer Services

bhcc.edu/transfer

617-228-2230 transferservices@bhcc.edu

Transfer Services assists new, current and graduating BHCC students with the transfer process and transfer opportunities to and from the college.

Transfer In

Students who have attended another college may apply for transfer credit and advanced standing at Bunker Hill Community College. Official transcripts from all previous colleges should be sent directly to the Academic Records Office at the time the student applies to BHCC. Once the student is accepted and becomes a matriculated (or degree-seeking) student, college transcripts will be evaluated.

Transfer Credit may be awarded if:

- the courses are comparable to those offered at BHCC;
- a grade of C or better is earned from a regionally accredited college or university (programs requiring a C+ or higher are noted on the program curriculum sheet located in the BHCC College Catalog);
- computer courses are not more than five years old;
- Anatomy and Physiology I and II courses are not more than 10 years old for some selective health program applications.

You can use a maximum of 45 transfer credits toward the BHCC associate degree and a maximum of 75 percent of the total number of credits required for certificate programs.

Once an official transcript has been evaluated and you have registered for classes, transferred in courses will appear on your BHCC transcript with a letter grade of TR. TR grades are not counted in your BHCC GPA (Grade Point Average) and are not used to calculate your completion rate. BHCC uses both completion rates and GPA to calculate your academic standing at the College.

Credits earned at colleges that follow a quarter system will be converted to semester-hour equivalents resulting in an adjustment in the number of credits transferred.

Transfer Appeal Process

If you disagree with the transfer credit award decision, request a meeting with a Transfer Counselor by emailing transferservices@bhcc.edu. The purpose of this meeting is to give you an opportunity to present evidence such as course descriptions and syllabi to demonstrate that the course(s) in question are either the equivalent or comparable and meet the criteria listed above. The Transfer Counselor will contact relevant Faculty, Department Chair and or the Academic Dean to review course documentation as needed. If the matter is not resolved with the Transfer Counselor, you can appeal in writing to the appropriate Associate Provost of Academic Affairs requesting that the Associate Provost review the materials and findings. The decision of the Associate Provost is final.

Transfer Out

Transfer advisors provide students with an overview of the transfer planning process and assistance with completing applications to other colleges.

Transfer Fairs

Each semester BHCC hosts Admissions representatives from over 40 colleges and universities. This is your opportunity to collect information and ask questions from a number of colleges all in one place.

Workshops

Transfer Services offers workshops on transfer related topics for BHCC students planning to apply to four-year colleges. A transfer advisor facilitates each session and students will have opportunities to ask questions. Upon registering for a workshop, students will receive an email with a web-link to access and participate during the workshop's designated time and date. Students may use a computer device with a microphone and internet access or dial in by phone. It is necessary that students with 30 credits or less attend a Transfer 101 Workshop prior to meeting with a transfer counselor.

Virtual College Visits

Virtual college visits are events that allow Bunker Hill students to meet with transfer admission representatives from bachelor degree granting institutions. During these one-hour sessions, students learn about each institution's academic programs, student engagement opportunities, and the process for applying and transferring to these institutions. Students also have the opportunity to ask their own questions.

Visit bhcc.edu/transfer for upcoming workshops and college visits and additional information

Transfer Partnerships

Bunker Hill is dedicated to developing partnerships with colleges, universities and community-based organizations. Transfer Services offers information sessions, workshops, and individual transfer advising appointments to support students in achieving their academic goals.

Transfer Articulation Agreements

Students complete an Associate's degree at BHCC, meet all eligibility and admissions requirements, and receive guaranteed admissions into the specified major. All eligible BHCC credits transfer toward the specific Bachelor's degree

For a list of current agreements, please visit <https://www.bhcc.edu/admissions/transferpartnerships/articulationagreements/>

MassTransfer

MassTransfer is a collaboration between the Commonwealth's community colleges, state universities and the University of Massachusetts. System-wide resources and policies allow for students to transfer seamlessly, stay on track and minimize the time it takes to earn a bachelor's degree.

General Education Foundation. MassTransfer provides any student in the Massachusetts public higher education system who completes the General Education Foundation with the benefit of satisfying the general education/distribution/core requirements at any other public higher education institution (with the receiving institution able to add no more than six additional credits or two courses). Visit mass.edu/masstransfer/gened/home.asp to learn more about the MassTransfer Gen Ed Foundation. In addition, please visit bhcc.edu/programsofstudy/generaleducationrequirements for Bunker Hill Community

College's General Education requirements.

A2B (Associate to Bachelor's). Beginning your college career at a community college is a smart choice. MassTransfer seeks to reward community college students who complete associate degrees at Massachusetts community colleges before they enroll in mapped or linked bachelor's programs at Massachusetts state universities or University of Massachusetts campuses. Not only does MassTransfer guarantee full transfer of a minimum of 60 credits but, depending on their final GPA and/or prerequisite coursework, students who complete A2B programs may also receive guaranteed admission and tuition discounts. Visit mass.edu/masstransfer/a2b/home.asp

Commonwealth Commitment. A2B Degree students who attend full-time and earn a 3.00 GPA or higher also have the opportunity to participate in the Commonwealth Commitment. The Commonwealth Commitment (available in "A2B Mapped" programs only) further rewards students with a freeze on tuition and fees for all four years, and 10% end-of-semester rebates. For more information including a complete list of pathway programs and qualifications for eligibility please visit bhcc.edu/commonwealthcommitment or speak with a Transfer Counselor in the LifeMap Commons.

Transfer and Articulation Information for Baccalaureate Programs

Bunker Hill Community College is dedicated to creating partnerships with four-year colleges and universities. Articulation agreements outline the transfer pathway between academic programs at BHCC and other institutions. Articulation agreements are designed to help students make a smooth transition when transferring from BHCC to another institution by ensuring that they understand if and how coursework taken at BHCC will transfer into other programs.

Transfer Services offers a variety of services to students interested in transferring from BHCC to four-year institutions. Students are encouraged to plan early and research and meet with transfer admissions representatives

from the four-year institutions to properly assess each college or university's requirements, minimums and expectations, which will help make the best curriculum choices at BHCC.

For a list of current articulation agreements please visit bhcc.edu/admissions/articulationagreements.

Placement Testing and Assessment

Assessment Center

 bhcc.edu/assessment

 Charlestown Campus: 617-228-2377

 Chelsea Campus: 617-228-2101

College Placement:

New students may be required to take English and math assessments before registering for classes.

Students can also obtain placements using high school GPA, or scores from SAT, ACT, GED, HiSET, and other tests.

For complete information on all placement options, or to make an appointment for testing, please visit www.bhcc.edu/assessment.

CLEP: CLEP exams allow students to save time and money by earning credit for what they already know. CLEP testing is available on the Charlestown campus. For complete information visit <https://www.bhcc.edu/clepexams/>.

TEAS: Test of Essential Academic Skills (TEAS) The Test of Essential Academic Skills (TEAS) is required for admission to BHCC's Nursing Program and many of the Allied Health programs. For complete information visit <https://www.bhcc.edu/assessment/atiteasexam/>

HiSET: The HiSET exam is available at BHCC for those who need to earn a Massachusetts high school equivalency credential. For complete information please visit: <https://www.bhcc.edu/assessment/highschoolequivalencytestinghissetandged/>

Internships and Career Development

Internships

BHCC offers a variety of internship opportunities for students. Find out more at bhcc.edu/internships.

Learn and Earn Internships provide students with paid opportunities in top corporations, small businesses, non-profits and cultural and civic organizations. In addition to working in the field, students take a class that supports their career development and success in their internships.

Academic Internships are those that are required to complete a program of study. These can be paid or unpaid and help students gain relevant experience in their field of study. In addition to working in the field, students take a class that supports their career development and success in their internships.

Research Internships give students in Science, Engineering, Technology and Math (STEM) fields the opportunity to conduct research with top researchers at other colleges and research institutions. Research Experiences for Undergraduates (REUs) are paid opportunities that often happen over the summer and students receive room and board in addition to their stipend.

Career Internships are opportunities students pursue in order to gain more experience in the field. These may be paid or unpaid opportunities. Students who participate in career internships do not take a class, and therefore do not receive academic credit for their internship.

Career Development

BHCC offers all students access to job postings from employers interested in hiring BHCC students and graduates. Students should log in to Handshake at bhcc.edu/internships to view available positions.

In addition to the online system, BHCC hosts employers for career fairs, recruiting events, and other events in order to connect employers with BHCC students and graduates.

Handshake

Handshake is BHCC's exclusive online career portal where students and alumni can search and apply for jobs, internships and volunteer opportunities, as well as manage the full spectrum of their career search needs. Students and alumni can use Handshake to register for career events and workshops, access our library of workshop materials and sample resumes, easily create resumes, upload cover letters and portfolio documents, search and apply for positions, and sign-up for job or event alerts. Visit bhcc.edu/internships to complete your profile.

EDUCATIONAL OPPORTUNITIES

Academic Innovation & Distance Education (AIDE)

AIDE Support

 bhcc.edu/aide

 617-228-3427  onlinehelp@bhcc.edu

The mission of Academic Innovation & Distance Education at Bunker Hill Community College is to advance the College's goals by providing innovative and effective instructional design, digital teaching and learning resources and timely support that helps students and instructors succeed. AIDE promotes inclusive, accessible and collaborative teaching and learning solutions to the BHCC community.

Distance Education

Bunker Hill Community College offers several alternatives to classroom instruction that allow students to complete all or part of their course work online. These alternative modes of instruction include full asynchronous online courses, as well as hybrid courses that are part online and part in class. Academic departments can provide information about their online and hybrid course offerings.

The Commonwealth Honors Program at BHCC

Honors Program Office

 bhcc.edu/honors

 chp@bhcc.edu

The Commonwealth Honors Program at Bunker Hill Community College is a statewide program overseen by the Honors College at the University of Massachusetts at Amherst. Bunker Hill is one of many of the Commonwealth's colleges and universities that is a member of this program.

Within the Commonwealth Honors Program, students will find and create opportunities to excel academically in a rich and challenging environment and to become a member of a diverse and inclusive community of scholars, building on the strengths of the college community's diversity. For admission requirements and benefits, including transfer opportunities and scholarships, visit bhcc.edu/honors.

BHCC Learning Communities

Learning Communities

 bhcc.edu/learning-communities

 617-228-3248

BHCC Learning Communities provide students with the opportunity to explore contemporary issues in a challenging and supportive environment. Learning Communities foster stronger relationships among students, faculty and staff and offer culturally relevant and active learning experiences.

First-time to-college students pursuing associate degrees and enrolled in nine or more credits are required to take a Learning Community Seminar or a Learning Community Cluster within their first year.

Learning Community Seminars are three-credit college level courses designed to help incoming students identify academic goals and pathways. Seminars engage students in early career exploration and feature integrated support services, including peer mentors and success coach advisors. Most programs of study recommend or require specific Learning Community Seminar courses; for example, students in the Liberal Arts take HUM-120. Students may check their program maps to find recommended seminar courses.

Learning Community Clusters enable students to take two or more courses together organized around a common academic theme. Clusters prepare students to work together in collaborative environments and provide opportunities for students to accelerate progression through developmental English and math.

For more information about BHCC Learning Communities, visit bhcc.edu/learning-communities.

Alternative Learning

Bunker Hill Community College provides a variety of alternative learning options for students who are self-directed learners.

These options address individual learning styles or provide flexible options for those constrained by time and/or distance. Online, weekend, individualized courses through the Center for Self-Directed Learning, and independent studies through the Contract Learning Program provide these types of non-traditional learning opportunities.

Boston Welcome Back Center for Internationally Educated Nurses

Welcome Back Center

 bhcc.edu/welcomeback

 617-228-ICAN (4226)

 welcomeback@bhcc.edu

The Boston Welcome Back Center assists immigrant nurses in obtaining their Massachusetts nursing licensure and re-entering the nursing workforce. Many internationally educated nurses come to Massachusetts and find it difficult to obtain a license to practice here. The process can be complicated and involves working with several different agencies, and sometimes meeting additional educational requirements. The Center incorporates educational case management services, career guidance and group activities to address the educational and vocational needs of our population. The Welcome Back Center's main office is located at Bunker Hill Community College's H-Building.

The Welcome Back Center addresses several pressing and systemic needs in healthcare delivery in the Greater Boston region:

- Creating new pipelines into the nursing field to relieve regional workforce shortages.
- Enhancing the racial, ethnic and linguistic diversity of the area's nursing workforce.
- Building cultural competencies in the nursing workforce and college environment.

The Welcome Back Center offers a range of specially designed, customized and accelerated educational interventions that address participants' English proficiency needs and nursing/ educational skill gaps, thus expediting re-entry into the nursing profession.

Center for Self-Directed Learning (CSDL)

Center for Self-Directed Learning

bhcc.edu/csdl

617-228-2225 csdl@bhcc.edu

Students may enroll in college credit courses available through the Center for Self-Directed Learning (CSDL). Students have the flexibility to make their own schedules, and complete assignments and tests according to their unique learning needs. The CSDL provides multi-media resources for individualized, independent instruction under the supervision of professional learning specialists and professional tutors.

Students are always active participants in the learning process, solving problems, answering questions and developing skills. In order to ensure that effective learning takes place, student progress is evaluated on a continuous basis. Courses can extend over the entire semester, or be completed in a few weeks, depending on the student's needs.

Course facilitators and tutors are available to guide and assist students at all times during scheduled hours of operation. For schedule information, see the posted schedule or ask a staff member for help. Refer to the CSDL website at bhcc.edu/csdl for a detailed listing of course offerings.

Independent Learning Contracts

A Learning Contract is an opportunity for students to complete coursework under the individual supervision of a faculty member under specific circumstances including the need for a learning experience to extend beyond the academic program curricular offerings. Learning contracts are generally approved when in the professional opinion of the Dean and Department Chair the student needs this contract in order to complete their degree in the present semester through no fault of their own and there is no other way to meet the requirement.

Prior Learning Assessment (PLA)

Prior Learning Assessment Office

bhcc.edu/priorlearningassessment

617-228-2350 pla@bhcc.edu

The Prior Learning Assessment program (PLA) provides a process for evaluation and, when appropriate, awards academic credits for learning acquired outside the traditional college environment. In order to receive PLA credits, students must provide evidence that their prior learning is equivalent to college-level learning and it must correspond to the courses offered at BHCC. The PLA Coordinator assists students in preparing portfolios and documenting credits.

Methods for assessing prior college-level learning include: Advanced Placement examination (AP); military education and experience evaluation; College Level Examination Program (CLEP); credential evaluation; departmental examinations; and portfolio evaluation. Students may apply a maximum of 45 credits toward an associate degree at BHCC.

Office of Community Engagement

Office of Community Engagement

bhcc.edu/community-engagement

617- 228-3485 engagement@bhcc.edu

Bunker Hill Community College's Office of Community Engagement provides multiple pathways for students to engage as active and responsible members of their communities. BHCC students work with community-based organizations as assigned through their courses, contemplate civic and ethical issues with each other on campus, or simply volunteer in their local communities. The College partners with a range of Greater Boston community-based organizations, including after-school programs, community centers, environmental advocacy groups, food pantries, and refugee and immigration centers. The College's Office of Community Engagement supports faculty integration of community engagement projects into the curriculum, coordinates co-curricular volunteer programs, and provides a pathway for local community-based organizations to partner with the College.

Partnerships with Secondary Schools

Dual Enrollment and Early College Program

Dual Enrollment Office

- bhcc.edu/dualenrollment
- 617-228-3319 617-228-3216
- dualenroll@bhcc.edu

High school students from Greater Boston area schools can earn high school and college credits simultaneously while gaining familiarity with the college experience through BHCC's dual enrollment programs. Students may enroll individually, or through partnerships with area schools or districts. The program includes dual enrollment and early college programs offered in partnership with area school districts such as Boston, Cambridge, Chelsea, Everett, Malden, Medford and Revere.

High School Articulation Agreements and Curricular Alignment

BHCC shares articulation agreements with many local high schools, awarding college credit for certain advanced courses taught at high schools. BHCC faculty in Mathematics and English are working with their colleagues in several area high schools to align high school and college curriculum, ensuring students arrive at college ready to take college-level courses.

Massachusetts Distributive Education Clubs of America (DECA)

Massachusetts DECA is a co-curricular career technical high school student organization that operates in over 60 comprehensive and technical high schools in Massachusetts. DECA has been operating on a continuous basis at BHCC since September 1993. madeca.org

Summer Transition Program

Launched in 2012, the Summer Transition Program enables new, transfer, or readmitted students with an assessed need for English Language Learning (ELL), developmental English or math coursework to receive intensive instruction in order to get a head start prior to fall entry (at no cost). The program consists of bridge courses in ELL, developmental writing, and math. Textbooks are provided to students enrolled in the program at no additional cost. Bridge classes enable students to benefit from intensive instruction over the summer, so that they can progress to college-level or upper developmental level courses in the fall.

Student Success Program (TRiO)

Student Success Program (TRiO)

- bhcc.edu/studentsuccessprogram
- 617-228-2303
- trio.successprogram@bhcc.edu

BHCC Students must apply and be selected to participate in the Student Success Program. The program's goal is to assist students in their efforts to be successful in their studies, graduate, and transfer to a four-year college or university by providing comprehensive academic and student support services and transfer assistance. Program participants are known for having an average GPA of 3.0 or higher, successful program completion rates, and strong leadership skills. TRiO Student Support Services Grant is funded by the United States Department of Education.

Workforce and Community Education

Workforce and Economic Development

- bhcc.edu/workforce
- 617-228-2498 Commed@bhcc.edu

The Vision seeks to empower diverse learners with quality education that will advance career achievement and personal goals.

The Mission is to provide opportunities for education and training leading to professional advancement and life-long learning while meeting the workforce needs of the communities we serve

Beginner English Language Learning (BELL) programs are offered through our English Language Institute. Basic English Language Studies (BESL) supports students who are preparing to study at the college or require more English language skills to succeed in their lives. Intensive English Program (IEP) supports international learners who need to acquire English skills quickly in order to pursue college studies in the United States.

Community Education and Adult Learning Pathways empower personal advancement through market-driven courses designed to achieve students' personal and professional goals.

Corporate Learning and Professional Development programs provide high quality, industry demand-driven programming to emerging, transitional, and incumbent workers in a corporate setting. Training is customized for businesses, emerging entrepreneurs and to support the professional development needs of individuals.

Small Business and Entrepreneurship partners with businesses, chambers and local government to offer training for small businesses in multiple languages.

The Language Institute offers English Language Learning programs and foreign language learner courses..

Adult Education and Transitions to College Programs

Adult Education

 bhcc.edu/adulted

 617-228-2286  mrojassu@bhcc.edu

The **Adult Education** programs at the Chelsea Campus and through our Boston Consortium Partners in the South End of Boston support the adult learner needs of our Greater Boston community. These programs develop English language proficiency, content skills to acquire a high school credential and pathways to post-secondary education or jobs.

Through the **Transitions to College** program, adult learners are offered a no-cost option to begin their college career. All of these programs are supported by grant funds from the Massachusetts Department of Elementary and Secondary Education (MADESE).

ACADEMIC RESOURCES

College Connection

College Connection

 bhcc.edu/collegeconnection

 617-228-2165  scurranc@bhcc.edu

The College Connection is an academic and intrusive advising support service available to students enrolled in sections of RDG-090, RDG-095 and ENG-090. Some classes have a dedicated Literacy Coach who visits the class on a regular basis and provides individualized tutoring outside of class time, follows up with absent students, connects students to appropriate college resources, and provides advising services. The goal of the program is to improve the retention, pass rates, and reading levels of students enrolled in developmental reading and writing classes, as well as to prepare students to meet college expectations.

Language Lab

Language Lab

 bhcc.edu/languagelab

 617-228-3440  langlabs@bhcc.edu

The Language Lab provides students a high-tech learning environment along with a knowledgeable tutoring staff to guide them with any aspect of language learning, from speaking, listening and pronunciation to reading, writing, grammar and punctuation. The Lab has several language learning software programs, support staff members and 37 workstations.

Library & Learning Commons

Library & Learning Commons

 bhcc.edu/library

 617-228-2213  BHCCLibrary@bhcc.edu

The BHCC Library & Learning Commons delivers services that include information literacy instruction, quality resources, and an academic learning environment. The library, located on the Charlestown Campus on the third floor of the E-Building, serves all BHCC locations.

For detailed information about the library's resources for students and faculty, hours, ID cards and more, visit bhcc.edu/library.

MathSpace

MathSpace

 bhcc.edu/mathspace

 617-228-3286  617-228-2283

 mathlab@bhcc.edu

The MathSpace is a mathematics resource center that is available to all students enrolled in developmental mathematics courses at BHCC. The primary goal of the MathSpace is to assist students to become independent learners and in achieving academic success in mathematics. For more information and hours, visit bhcc.edu/mathspace.

Tutoring and Academic Support Center (TASC)

The TASC

bhcc.edu/tasc

617-228-3467 tasc@bhcc.edu

The Tutoring and Academic Support Center (TASC) supports and enhances student learning and academic success by offering a variety of traditional and non-traditional services to all BHCC students who are currently enrolled in credit-bearing courses. The TASC provides tutorial assistance, small group workshops and academic support to improve and enhance academic success. Students are offered a wide range of services to support

their work in basic academic skills as well as on course-specific work in their programs.

The Writing Place

The Writing Place

bhcc.edu/writingplace

617-936-1948

The Writing Place is a tutoring service sponsored by the English Department. Students come to the Writing Place to work with peer tutors on specific writing tasks, including brainstorming ideas for college writing assignments, organizing rough drafts, revising, editing and doing library research.

STUDENT AFFAIRS AND STUDENT PROGRAMS

Athletics and Wellness

Athletics Department

bhcc.edu/athletics

617-228-3443

sfenerci@bhcc.edu

Bunker Hill Community College's Athletic Department has developed a program of varsity, intramural and fitness programs to support all students at the College. BHCC supports student athletes by providing professional coaches and staff, state-of-the-art facilities, safe equipment and opportunities for student athletes to compete in varsity-level programs with other intercollegiate athletic programs. The Athletic Department sponsors varsity level sports programs in Men's and Women's Basketball, Men's and Women's Soccer, and Esports. The College varsity programs compete in Region 21, Division III of the National Junior College Athletic Association (NJCAA). Intramurals, open gyms and fitness activities, including a fitness center, are offered on a regular basis to all students.

With empathy and compassion, personal counselors address concerns related to stress, anxiety, depression, loneliness, and other interpersonal issues affecting the student's personal college experience and overall well-being. Services offered include mental health assessment, crisis intervention, psychoeducation, wellness and prevention education, community resource referrals, etc.

Dean of Students

Dean of Students Office

bhcc.edu/dos 617-228-2408

The Dean of Students Office is the primary advocate for students at the College. Located on the Charlestown Campus, the office is here to assist members of the BHCC community in identifying and achieving their education goals. The Division of Student Affairs includes departments and services that support learning outside of the classroom.

Counseling, Prevention and Wellness

Counseling, Prevention and Wellness

bhcc.edu/studentlife/counselingpreventionandwellness

The BHCC personal counselors are available to students needing emotional support and guidance during difficult times.

Disability Support Services

Disability Support Services

bhcc.edu/disabilitysupportservices

617-228-2327 (TTY 617-242-2365)

disabilitysupport@bhcc.edu

Bunker Hill Community College has developed a program of support services specifically for students who have learning disabilities, sensory impairments, psychological disabilities or physical conditions. Services may include, but are not limited to, academic and testing accommodations, faculty notification, assistance with adaptive computer technology and accessibility issues, academic/career advising, student support groups, professional literacy instruction and personalized educational coaching. The program is designed to promote interaction among several existing campus resources and personnel. Students are actively involved in decision making regarding their specific needs and are encouraged to work toward increased

independence and self-sufficiency.

Eligibility. Students with documented disabilities are eligible for services through BHCC's Disability Support Services Office (DSS). In accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disability Act (ADA), students seeking reasonable accommodations for a disability are responsible for self-identifying and self-advocating. If you have a documented disability and anticipate needing accommodations, please contact Disability Support Services. Requests for accommodations require dialogue with DSS, medical documentation review and registration with DSS prior to receipt of an accommodation. Accommodations are not retroactive. Students are required to meet each semester with DSS staff to discuss and determine reasonable and effective accommodations and are strongly encouraged to do so prior to the start of each semester.

DISH Food Pantry

DISH Food Pantry

 bhcc.edu/dishfoodpantry

 617-228-2045

 dish@bhcc.edu

DISH Food Pantry is to Deliver Information, Sustenance, and Health to the Bunker Hill Community College campus community. The DISH aims to empower those in need to obtain resources so that they may focus on being healthy, happy, and successful at Bunker Hill Community College without the barrier of fighting hunger. The DISH is a student-driven and supported resource that is committed to being a safe, dignified, and stigma-free environment.

Health Services

Health Services

 bhcc.edu/healthservices

 617-228-2274

The Health Services Office promotes wellness through health awareness and education. The Health Services Coordinator provides assistance to the College community through emergency first aid, referrals for individual health concerns, and review of immunization clearances for the College's health related programs.

International Center

International Center

 bhcc.edu/internationalcenter

 617-228-2460  international@bhcc.edu

The International Center provides programs, services and activities supporting the internationalization of the College community.

The Center also assists BHCC students in integrating study abroad experiences into their academic programs, and assists prospective international students with the admission

process and issues immigration documents required for F-1 visa application.

International Student Advisors provide programs and individual assistance to international students from more than 100 countries each year. Advisors assist students in maintaining legal immigration status, transferring to other colleges, obtaining work authorizations, addressing academic concerns and/or personal issues such as adjustment to life in the United States. Orientation, social and cultural programs sponsored by the Center help international students learn more about U.S. culture and the educational system.

The Center coordinates the international delegations visits to Bunker Hill Community College.

Single Stop

Single Stop

 bhcc.edu/singlestop

 617-228-3330

Single Stop is an initiative at Bunker Hill Community College, connecting students to state and federal financial resources and local community services. The aim is to help students surmount economic barriers, continue with their education, and move towards economic mobility with the ultimate goal toward ending cycles of poverty. For a list of services and partners, visit the Single Stop office.

Student Activities, Clubs and Organizations

Office of Student Engagement and Leadership

 bhcc.edu/activities

 617-228-2260  studentactivities@bhcc.edu

Bunker Hill Community College offers a variety of co-curricular activities that provide students with opportunities to develop leadership skills and to engage in social interaction. Students can serve as leaders of a wide array of clubs and organizations, and work with College staff to administer the programs. The activities are designed to promote intellectual development and cultural awareness and understanding.

The Student Government Association (SGA) is an elected body of Bunker Hill Community College student representatives. Members work in collaboration with the College administration to enhance the quality of student life on campus. The SGA develops a proposed annual budget, derived from student fees, with the Director of Student Leadership and Engagement, which is reviewed by the Dean of Students and approved by the College President. The SGA is also responsible for formally approving student clubs and organizations. Learn more about the SGA at bhcc.edu/SGA.

Clubs and organizations provide the opportunity for students to meet other students, have fun, learn, and

develop organizational skills. Visit bhcc.edu/clubs for a full list of all clubs and organizations.

Student Handbook

The Student Handbook includes information about College policies, student disciplinary procedures, student rights and responsibilities and student services. The student grievance procedure for complaints regarding College policies, practices or personnel is detailed in the Student Handbook. Copies are available online through the BHCC website. Direct all inquiries related to College regulations, student conduct and the student grievance procedure to the Office of Dean of Students. View the Student Handbook at bhcc.edu/handbook.

Study Abroad

The International Center assists BHCC students in integrating study abroad experiences into their academic programs. Through this program, students have participated in a variety of study and travel experiences in countries around the globe: Argentina, Belize, Costa Rica, the Czech Republic, France, Germany, Greece, Italy, Japan, Senegal, Spain and PR. China. Scholarship opportunities are available to qualified students. For more information, visit the International Center or visit bhcc.edu/studyabroad.

The Mary L. Fifield Endowed Student Emergency Assistance Fund

Bunker Hill Community College has established the Mary L. Fifield Endowed Student Emergency Assistance Fund. The purpose of the fund is to provide monetary relief to students for emergencies that occur during the semester and that may cause a student to drop out. Applications will be accepted after the end of the schedule adjustment period for the fall and spring semesters. The fund does not support tuition, fees and books. URL: bhcc.edu/emergencyassistancefund

Veterans Center

Veterans Center

bhcc.edu/veterans

617-228-3213 veteranscenter@bhcc.edu

The Veterans Center is dedicated to serving student-veterans, active duty military, Guard/Reservists and their eligible dependents within the college community. The office provides specialized support in academic advising, military and VA educational benefits assistance, VA Educational Benefit Certification, referrals to College resources and other agencies, verification of pursuit of training, assistance with credit for prior learning, admissions assistance and support and advocacy for the veteran and military affiliated population.

Students who wish to apply for educational benefits must contact the Veterans Center and the VA Certifying Official. Student's receiving educational benefits are required to attend classes and maintain satisfactory academic progress in order to continue receiving education benefits. Furthermore, students must notify the Veterans Center of any changes made to their enrollment status.

Virtual LGBTQIA+ Center at BHCC

Virtual LGBTQIA+ Center at BHCC

bhcc.edu/virtuallgbtqiacycenter

617-228-2012 wjcribby@bhcc.edu

To support and celebrate the diversity of the Bunker Hill Community College community that is represented within our students, faculty and staff on BHCC's multiple campus locations, the Dean of Student's office has worked to provide accessible information and resources for all members of our community.

Degree and Certificate Programs

General Education Requirements

DEGREE AND CERTIFICATE PROGRAMS

Bunker Hill Community Colleges offers more than 100 associate degree and certificate programs.

The Associate Degree is an undergraduate academic credential which includes coursework from three areas: general education requirements, career and/or liberal arts electives, and program requirements. BHCC offers two types of associate degrees:

The Associate in Arts (A.A.) degree is designed to prepare students to transfer to baccalaureate colleges and universities.

The Associate in Science (A.S.) degree is designed to prepare students to enter the workforce. In addition, many associate in science degree programs transfer to baccalaureate colleges and universities.

Associate Degree programs are generally equivalent to the first four semesters of a bachelor's degree. To facilitate transfer to a baccalaureate college or university, work with an academic advisor to plan your BHCC curriculum.

Certificate programs are designed to provide students with knowledge and skills to enhance their careers. Many certificate programs are "stackable," allowing students to apply courses completed in the certificate program to an associate's degree.

First Year Learning Community Requirement

Completion of a Learning Community Seminar or Cluster within the first year is a graduation requirement for Associate in Arts and Associate in Science degree students who are enrolled in nine or more credits in their first semester of matriculation. For more information about Learning Community options, speak with an advisor or contact the Office of Learning Communities.

World Studies Emphasis Certification

Students enrolled in Associate in Arts Degree Programs can obtain the World Studies Emphasis certification with no

additional coursework through careful selection of general education and elective courses needed to fulfill their degree requirements. Learn more at bhcc.edu/worldstudies

GENERAL EDUCATION PROGRAM

To better prepare students to thrive in the twenty-first century workforce and to become engaged and informed citizens, the College provides all associate degree-seeking students with a wide-reaching set of General Education Outcomes, which align with our Institutional Learning Outcomes (Inquire, Communicate, Act, Grow) and Mass Transfer General Education Foundation requirements. At BHCC, these skills are incorporated into the curriculum to provide a cohesive education that prepares students to succeed in their chosen fields, in further study and in the roles and responsibilities they take on within their communities.

Students fulfill their General Education Requirements by completing one course from each of the seven General Education areas below. Students should consult their

individual Program of Study Curriculum Map for General Education course requirements specific to their major. Some General Education requirements are met by concentration courses. Such instances are noted in Program of Study Curriculum Maps.

To learn more about the General Education and Institutional Learning Outcome alignment, as well as review the "Guiding Questions" for General Education, visit our General Education page in the College Initiatives section on the BHCC website: bhcc.edu/initiatives/generaleducationinitiative

 AA Associate in Arts
AS Associate in Science
CT Certificate Program

*Selective program with specific prerequisites and start terms. For updated information, please visit the College's website at bhcc.edu/selectiveprogram. Students enrolling in any A.A. degree program can earn World Studies Emphasis Certification simultaneously. BHCC is fully accredited by the New England Commission of Higher Education.

ELECTIVE COURSES

Electives provide students with flexibility in their programs of study. The elective categories help students make choices beyond the required courses for their respective programs.

Liberal Arts Electives include not only those categorized as Liberal Arts Electives but also the Science/Lab Science, Social Science and Behavioral Science Electives.

Career Electives are courses in the student's major field or related field approved by the department chair or program coordinator.

Behavioral Science Electives
PSY Psychology
SOC Sociology
Humanities Electives
<i>The Humanities provide students with the knowledge, skills and habits of mind to adapt to any pathway in their educations, careers and lives. Humanities courses challenge students to think critically and creatively, communicate effectively, and make connections across disciplines. The following courses count as Humanities electives:</i>
All Language Courses any level: ARB Arabic, CHN Mandarin Chinese, FRE French, GER German, ITL Italian, JPN Japanese, POR Portuguese, RUS Russian, SPN Spanish
All Music Courses: MUS Music
All Philosophy Courses: PHL Philosophy
All Religion Courses: REL Religion
All Theater Courses: THE Theatre
All 200 level ENG Courses
All Film Courses: FLM Film
All History Courses: HIS History
Honors Seminar: HON-200 Honors
Selected Interdisciplinary Courses: INT-101 Introduction to Yoga Studies, INT-110 American Culture

All Literature Courses: LIT Literature
Selected Visual and Media Arts Courses: VMA-102 Visual Design: Composition and Color, VMA-103 Elements of Form, VMA-104 Drawing from Observation, VMA-106 Digital Imaging for Artists and Designers, VMA111 Introduction to Mass Media, VMA-112 Art History: Prehistoric to Medieval, VMA-113 Art History: Renaissance to Contemporary, VMA-122 Painting for General Education, VMA-123 Watercolor I, VMA-124 Printmaking I, VMA-161 Introduction to Digital Photography, VMA-207 Figure Drawing, VMA-227 Studio Portfolio
Lab Science Electives
PHY Physics
AST Astronomy
BIO Biology*
CHM Chemistry
ENV Environmental Science
Liberal Arts Electives
VMA Art
VMA Photography
FLM Film
HUM Humanities
LIT Literature

ENG English
FRE French
GER German

GEO Geography

* BIO111 does not qualify as a Lab Science Elective

Psychology Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society or Elective Natural & Physical Sciences OR Humanities & Fine Arts OR Behavioral & Social Sciences	3			
HUM-120 satisfies the Learning Community Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
SOC-101 Principles of Sociology	3			ESL-098 or RDG-095 or ELL-103 or placement.
MAT-181 Statistics	3			MAT-098 or MAT-097.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
<i>Total Credits:</i> 15				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
PSY-235 Introduction to Behavioral Research	3			PSY-101.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus. A Social Science elective is highly recommended in order to comply with Mass Transfer guidelines.				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Choose one course from the Scientific Work Program Menu				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from the Creative Work Program Menu				
<i>Total Credits:</i> 16				

Semester 2 Advising Note

- Upload in ePortfolio required Psychology majors courses artifacts PSY-235 onwards
- PSY-235 introduces students to research methods
- Participate in Psychology discipline conference offered by department
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- Meet with an advisor to begin career planning activities.

Psychology Concentration (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
PSY-209	Child Psychology	3			PSY-101.
or	PSY-224				
PSY-224	Adolescent/Adult Development				
Elective-1	Psychology Elective	3			
	Elective Options: PSY-201 Learning & Memory, PSY-203 Psychology of Personal Adjustment, PSY-215 Counseling, PSY-223 Personality, PSY-227 Abnormal Psychology, PSY-233 Introduction to Psychiatric Rehabilitation				
Elective-2	Humanities Elective	3			
	Choose one course from the Humanities electives Sequence courses in a foreign language starting at 102 levels are highly recommended as most four-year colleges require intermediate proficiency in a foreign language.				
Elective-3	Liberal Arts Elective	3			
	Choose one course from the Liberal Arts electives menu				
Elective-4	Lab Science Elective	4			
	Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course				
		<i>Total Credits:</i>	16		

Semester 3 Advising Note

- Select the career elective from PSY, HSV, or ECE courses. The Department encourages students to take a computer course for one of the three electives.
- Human Growth and Development (PSY-213) does not satisfy the A.A. Psychology concentration requirements. It is offered only to non-Psychology majors.
- Complete a Learn and Earn Internship or Community Engagement activity in any of your Psychology courses
- Upload in ePortfolio required Psychology major courses artifacts

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
Elective-1	Psychology Elective	3			
	Elective Options: PSY-201 Learning & Memory, PSY-203 Psychology of Personal Adjustment, PSY-215 Counseling, PSY-223 Personality, PSY-227 Abnormal Psychology, PSY-233 Introduction to Psychiatric Rehabilitation				
PSY-219	Social Psychology	3			PSY-101.
	Capstone course				
Elective-2	Humanities Elective	3			
	Choose one course from the Humanities electives Sequence courses in a foreign language starting at 102 levels are highly recommended as most four-year colleges require intermediate proficiency in a foreign language.				
Elective-3	Humanities Elective	3			
	Choose one course from the Humanities electives				
Elective-4	Literature Elective	3			Pre/co-requisite: ENG-111.
	Choose one LIT course				
		<i>Total Credits:</i>	15		

Semester 4 Advising Note

- Select the career elective from PSY, HSV, or ECE courses. The Department encourages students to take a computer course for one of the three electives.
- PSY-219 – ePortfolio to be completed and presented
- See an advisor about World Studies emphasis certification
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Psychology Concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- a basic knowledge and understanding of the different principles and concepts of Psychology (foundational knowledge)
- the ability to apply learned concepts to the intrapersonal and interpersonal experiences embedded within diverse cultural contexts

- the ability to evaluate, compare and contrast, critique various theoretical perspectives and complex/debatable and current issues as they relate to the various domains of Psychology
- the ability to use learned knowledge to actively engage in and produce scientific research.

CAREER OUTLOOK

Graduates of this concentration should plan to transfer to a four-year college or university because entry-level positions in the general field of psychology require a bachelor's degree. Career positions generally require a master's degree.

Sociology Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society or Elective Natural & Physical Sciences OR Humanities & Fine Arts OR Behavioral & Social Sciences	3			
HUM-120 satisfies the Learning Community Requirement				
SOC-101 Principles of Sociology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-181 Statistics	3			MAT-098 or MAT-097 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
<i>Total Credits: 15</i>				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Attend Behavioral Sciences Group Advising Workshop: Transfer, Job Shadowing / Internship, Educational Planning
- The department encourages students to explore curricular or extra curricular Student and Community Engagement Activities (recommendation: join Behavioral Sciences Club).
- Create Eportfolio and Upload participation.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
SOC-109 Introduction to Cultural Anthropology	3			ESL-098 or RDG-095 or ELL-103 or placement.
SOC-211 The Family	3			100 level introductory SOC or PSY course.
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Choose one course from Scientific Reasoning Menu				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
<i>Total Credits: 16</i>				

Semester 2 Advising Note

- Upload in ePortfolio required Sociology majors courses artifacts SOC 109 and SOC 211
- Participate in Sociology Discipline conference offered by department
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- Meet with an advisor to begin career planning activities.

Sociology Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
Elective-1 Elective	3			
Elective-2 Behavioral Science Elective	3			
Choose one PSY or SOC course				
Elective-3 Math Elective	3-4			
Recommended: MAT-171 or MAT-172 or MAT-173				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
Elective-4 Literature Elective	3			Pre/co-req ENG-111.
Choose one course from LIT				
<i>Total Credits: 15-16</i>				

Semester 3 Advising Note

- Upload in ePortfolio: required Sociology majors courses artifacts from SOC 204 and/or Learn and Earn Placement; conference participation
- SOC204 is recommended or students unable to do a Learn and Earn Internship because of required hours. This course provides job shadowing opportunities to explore career options in Sociology.
- Speak to an Advisor about the World Studies Emphasis certification.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
SOC-203 Social Problems	3			SOC-101.
Capstone Course				
SOC-227 Race and Ethnicity	3			SOC-101 or PSY-101 or SOC-109.
Elective-1 Lab Science Elective	4			
Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course				
COM-171 Public Speaking and Professional Communication	3			
Elective-2 Literature Elective	3			Pre/co-requisite: ENG-111.
Choose one LIT course				
<i>Total Credits: 16</i>				

Semester 4 Advising Note

- SOC-203 – ePortfolio to be completed and presented
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- a basic knowledge and understanding of the different principles and concepts of Sociology (foundational knowledge)
- the ability to apply learned concepts to intrapersonal experiences, social institutions, and social issues embedded within diverse cultural contexts

- the ability to evaluate, compare and contrast, critique various theoretical perspectives and complex/debatable and current issues as they relate to the various domains of Sociology
- the ability to use learned knowledge to actively engage in and produce scientific research

CAREER OUTLOOK

Graduates of this concentration qualify for entry-level positions in the general field of Sociology. Students will be able to choose which career track they intend to pursue by taking classes that are relevant to their interest. Graduates may wish to transfer to a four-year college or university, or will be able to work in the community with an associate's degree.

History Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society or Elective Elective	3			
HUM-120 satisfies Learning Community Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
HIS-112 Modern World History	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
This course meets the General Education requirement for Community & Cultural Contexts.				
Elective Any 101-level language course	3			
MAT-181 Statistics	3			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one course from Quantitative Problem Solving Menu				
<i>Total Credits: 15</i>				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students who are bilingual are encouraged to work with the Office of Prior Learning Assessment to have their language skills recognized for college credit to fulfill the required language courses.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
HIS-121 Foundations of Historical Thinking & Analysis	3			ENG-111 and HIS-112.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Choose one course from Scientific Reasoning Menu				
HIS-151 History: From Colonization through the Civil War or HIS-152 U.S. History: Reconstruction to Present	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
This course meets the General Education requirement for Community & Cultural Contexts.				
Elective Global Language Elective - Any 102-level language course	3			
This course meets the General Education requirement for Creative Work.				
<i>Total Credits: 16</i>				

Semester 2 Advising Note

- Students who are progressing toward their degree with fewer than 15 credits per semester are encouraged to prioritize HIS-121, HIS-151 or HIS-152, and ENG-112.
- Begin exploring transfer options: attend a transfer workshop and the Transfer Fair.
- Meet with an advisor to begin transfer and career planning activities.

History Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
HIS Elective HIS-231 African American History OR HIS-117 Women in US History OR other specialized department-approved course	3			HIS-231 ENG-111 and (HIS-102, HIS-112, HIS-151 or 152) or by permission. HIS-117 ESL-098 or RDG-095; and ENG-095; or ELL-103.
HIS-Elective Any 100-level HIS course	3			
Elective Any ECO, GEO, GOV, PHL, PSC, REL course [aligned interdisciplinary course]	3			
Elective Natural or Physical Science Elective	4			
Elective Humanities and Fine Arts Elective	3			
<i>Total Credits:</i>		16		

Semester 3 Advising Note

- Electives should be based on the career goals and interests of the student. Consider courses in Economics, Environmental Science, Literature, Languages, Philosophy, Political Science, Religious Studies, and/or Sociology.
- Students are encouraged to consider the Honors Seminar and/or internship experiences aligned with their goals to fulfill their electives.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap
- See an advisor about World Studies emphasis certification

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
Any 200-level History course	3			
Elective Elective	3			
Elective Elective	3			
Elective Elective	3			
<i>Total Credits:</i>		12		

Semester 4 Advising Note

- Students who changed their major to History after one or more semesters in another degree program will typically apply those courses to fulfill the electives identified here.
- The many free electives in the program are intended to provide flexibility for students who previously were working toward a different degree program (e.g. Business, Biology, Criminal Justice, IT, Nursing, Sociology), so that they could change their major to History without delaying graduation. Students who reach the 4th semester with free electives available are strongly encouraged to select 200-level courses in history, languages, or in other fields relevant to their goals and interests; consult with department advisors to learn about special topics courses, internships, and other possibilities.
- See an advisor about World Studies emphasis certification.
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Interpret historical artifacts and documents (primary sources) using various specialized techniques
- Develop historical explanations at multiple levels, from long-range global structures to microcosmic personal experiences
- Demonstrate distinctive ways of thinking in the study of history, including narrative, causal explanation, and historical imagination

- Analyze historians' works in various media, including essays, books, documentary films, and podcasts
- Contribute to preserving living history (e.g. archiving oral histories of community members)
- Critically analyze how social power, cultural context, and historical position influence the construction of historical narratives
- Reflect on their ethical responsibilities & community accountability as a historian
- Communicate with a range of audiences in traditional and innovative ways

- Produce signature research contributing to historical knowledge

CAREER OUTLOOK

- Graduates of this concentration may qualify to transfer to four-year colleges or universities as juniors. The concentration is excellent preparation for careers in law, teaching, government, museums, or similar public service fields.
- A bachelor's degree is the minimum requirement for entry into many of these fields.
- Graduate work may be necessary, as well.

Political Science Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society or Elective Humanities or Fine Arts Elective	3			
This course satisfies Learning Communities requirement.				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
PSC-101 Gov/Politics in US	3			ESL-098 or RDG-095 and ESL-099 or ENG-090, or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts.				
PSC-150 Intro to Political Theory	3			ESL-098 or RDG-095 and ENG-095, or ELL-103 or placement.
MAT-181 Statistics	3			C or better MAT-098 or MAT-097 or placement.
This course meets the General Education requirement for Quantitative Problem Solving.				
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
PSC-210 State/Local Politics or Approved PSC 200 level course	3			ESL-098 or RDG-095 and ENG-095, or ELL-103 or placement.
ENG-112 College Writing II	3			
This course meets the General Education requirement for Research Writing.				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning.				
PSC-220 Introduction to International Relations	3			ENG-111.
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work.				
<i>Total Credits:</i>		16		

Semester 2 Advising Note

- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- Meet with an advisor to begin career planning activities.
- PSC-210 is recommended for students interested in public policy.

Political Science Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
GEO-101 World Regional Geography or ECO-201 Macroeconomics or ECO-202 Microeconomics	3			Prerequisites for GEO-101: ESL-098 or RDG-095 and ENG-090 or ESL-099; or ELL-103 or placement. Prerequisites for ECO-201: MAT-097 or MAT-098 or higher and RDG-095 or ESL-098 or ELL-103. Prerequisites for ECO-202: MAT-097 or MAT-098 or higher and RDG-095 or ESL-098 or ELL-103.
PSC-211 Introduction to Comparative Politics	3			ENG-111.
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Elective Natural or Physical Science Elective	4			
Elective Humanities and Fine Arts Elective	3			
		<i>Total Credits:</i> 16		

Semester 3 Advising Note

- Electives should be based on the career goals and interests of the student, e.g. Political Science, International Relations, Public Policy, Pre Law.
- PSC-211 serves as the capstone course for the concentration for those students who do not choose HON 200 as an elective or complete internships through the Community Engagement office.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
REL-111 World Religions or HIS-111 History of the Pre-Modern World or HIS-112 Modern World History or HIS-151 History: From Colonization through the Civil War or HIS-152 U.S. History: Reconstruction to Present	3			Prerequisites for HIS-111, HIS-112, HIS-151, HIS-152: ESL-098 or RDG-095 and ENG-095, or ELL-103 or placement. .
Elective Humanities and Fine Arts Elective	3			
Elective Elective	3			
Elective Elective	3			
Elective Elective	3			
		<i>Total Credits:</i> 15		

Semester 4 Advising Note

- Electives should be based on the career goals and interests of the student, e.g. Political Science, International Relations, Public Policy, Pre Law.
- A third Humanities and Fine Arts elective will not be necessary if taken during first semester.
- See an advisor about World Studies emphasis certification
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Political Science Concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Articulate the legal, ideological, and theoretical basis for different governing systems.
- Interpret what the US Constitution and other foundational documents mean in light of current social issues and debates.
- Exhibit a fundamental knowledge of the dynamics of governmental institutions and politics at the national and international levels.
- Engage in dialogue about contemporary policy issues such as finance, economic development, education, criminal justice, social justice, healthcare, and environmental policy.
- Research the development and implementation of public policy.
- Analyze the dynamics of participatory democracy by engaging the institutions of civil society.
- Explain how the various channels of citizen influence operate at each level of government.
- Generate scholarly arguments about enduring and contemporary political questions.

CAREER OUTLOOK

Graduates of this concentration qualify for entry-level positions with an associate's degree, and are encouraged to transfer to a four-year college or university to earn a bachelor's degree for further career advancement. Degrees in political science prepare students for careers in fields including public policy, government, journalism, activism, polling and research, community advocacy, labor organizing, and international relations. Political science is often described as a "pre-law" major, an ideal foundation for students planning to go to law school.

Human Services Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse.				
HSV-101 Introduction to Human Services with Field Practice	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
GenEd-QPS Quantitative Problem Solving	3-4			
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
HUM-120 Self, Culture and Society or AHE-104 Understanding Human Behavior for Health Care Professionals	3			
This course satisfies Learning Communities Seminar requirement. See semester note				
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3) PSY-101 is a pre-requisite for several courses in the program.				

Total Credits: 15-16

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- LCS and/or AHE-104 must be taken in first semester and is only allowed for those students still with freshman status and little or no college experience; if student is transferring or has prior college experience student should take a career elective in lieu of freshman seminar/LCS at later semester. AHE-104 is recommended for those students interested in community health work in social service agency. Those with prior college experience should take career elective in lieu of LCS or AHE-104 — PSY 233 or PSY 227.
- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College's CORI officer before beginning the program.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Academic Discourse.				
PSY-215 Counseling	3			PSY-101.
HSV-112 Addiction	3			PSY-101 and ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
PSY-224 Adolescent/Adult Development	3			PSY-101.
HSV-216 Pre-practicum Prep for Field Experience	3			ENG-111Pre/Co-requisites: HSV-101, HSV-112, PSY-215 and PSY-224.

Total Credits: 15

Semester 2 Advising Note

- HSV 216 requires a 50-hour pre-practicum experience. Fulfillment of the pre-practicum is required prior to enrollment in HSV-220. A grade of B or better is required in this course to allow for enrollment in further practicum coursework in the program.

Human Services Program (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
ECE-103	Child Growth and Development	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
✎ ECE-103 must be completed in first semester with a C or better to move to other ECE courses in subsequent semesters. All ECE courses after the first semester require ECE=103 to be completed with this grade requirement.					
HSV-214	Professional Ethics in Human Services	3			ENG-111, HSV-101 and HSV-112.
GenEd-CW	Creative Work	3			
🎓 This course meets the General Education requirement for Creative Work. ✎ Choose a course from the Creative Work Menu					
HSV-220	Practicum I in Human Services	3			Permission of department chairperson.
✎ HSV-220 requires that the student complete HSV-216 with a B or better. Class ONLY starts in the fall and is a two semester sequence (HSV 220-221). Students missing application and orientation process must wait until the next fall to move forward (deadline end of spring semester). A GPA of 2.25 or above is required as well as multiple other requirements for application and acceptance into placement. HSV Coordinator and Department Chair have further information.					
HSV-218	Case Management	3			PSY-215 and ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
		<i>Total Credits:</i>	15		

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
GenEd-E	General Education Elective	3			
🎓 This course meets the General Education requirement for General Education Elective. ✎ Students may choose a course from: GEO-101, PSC-101 or REL-111					
HSV-217	Issues in Human Services	3			HSV-101 and PSY-101 and PSY-215 and PSY-224.
GenEd-SR	Scientific Reasoning	3			
🎓 This course meets the General Education requirement for Scientific Reasoning. ✎ Choose one course from Scientific Reasoning					
HSV-221	Practicum II in Human Services	3			HSV-220.
✎ HSV-221 requires student to have completed HSV-220 in the fall semester with a passing grade and completed portfolio. Students without this requirement completed are not allowed to proceed to HSV-221 and must reapply for readmission to the HSV-220 class in the next fall after following Department procedures for readmission.					
Elective	Career Elective	3			
✎ Career Elective Options: PSY-233 Introduction to Psychiatric Rehabilitation PSY-227 Abnormal Psychology HSV-215 Substance Abuse Counseling					
		<i>Total Credits:</i>	15		

Semester 4 Advising Note

- Apply for graduation

- 📌 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- 🔗 This course has pre/co- requisites. ✎ Advising note or suggestion regarding this course.
- 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use formal and informal assessment practices to respond to the needs, desires, and interests of participants receiving information and support from a Human Service organization, enhancing the persons' ability to lead a self determining life.
- Communicate effectively and demonstrate skills needed to establish collaborative relationships with participants receiving services.

- Demonstrate knowledge about formal and informal supports available, as well as diverse challenges facing participants, using advocacy strategies to overcome these challenges by mobilizing resources to reach participant goals.
- Demonstrate knowledge and skill in handling crisis prevention, intervention, and resolution techniques with detailed documentation of the work in a human services agency.

- Understand the mission and practices of human services organizations, fully participating in the life of the agency as a professional and be able to identify areas of self improvement and professional development needed for future goal attainment.

CAREER OUTLOOK

Graduates of this program qualify for careers in social welfare, mental health, community development, public administration, youth work, work with elderly, family counseling and social service agencies.

Professional Human Services Work Certificate Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
HSV-101 Introduction to Human Services with Field Practice	3			ESL-098 or RDG-095 and ENG-095 or ELL-103 or placement.
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits:</i>		9		

Semester 1 Advising Note

- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College's CORI officer before beginning the program.
- ENG-111 is required at the beginning semester as degree program requires much reading and writing and student must be fully prepared for intense writing assignments in HSV courses.
- HSV-101 and PSY-101 must be completed in first semester to move onto other HSV courses in subsequent semesters.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
PSY-227 Abnormal Psychology	3			PSY-101.
PSY-215 Counseling	3			PSY-101.
HSV-112 Addiction	3			PSY-101 and ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
HSV-112 is required prior to taking career elective HSV-215 in the final semester for those interested in substance abuse human service work.				
<i>Total Credits:</i>		9		

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
HSV-214 Professional Ethics in Human Services	3			ENG-111 and HSV-112 and HSV-101.
HSV-218 Case Management	3			PSY-215 and ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
Elective Career Elective	3			
Career Elective Options: PSY-233 Introduction to Psychiatric Rehabilitation, HSV-215 Substance Abuse Counseling, AHE-104 Understanding Human Behavior				
<i>Total Credits:</i>		9		

Semester 3 Advising Note

- Career elective choices should fit students human service interests: PSY-233 Psych Rehabilitation for those interested in working with developmentally disable or in mental health care or HSV-215 Substance Abuse Counseling. AHE-104 may be used as a career elective in this program, but is a freshmen seminar and should be taken in the first semester and is only allowed for those students still with freshman status and with little or no college experience; if student is transferring or has prior college experience, student should take PSH-233 or HSV-215.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use assessment practices to respond to the needs of participants and enhance these individuals in leading a life that involves self-empowerment, assertiveness, and strong decision-making skills.
- Communicate effectively and establish collaborative relationships to allow planning, implementation of support services, and interventions with participants, agency supports, and other community resources.
- Demonstrate knowledge of supports available, while understanding the challenges facing participants, assist in gaining resources for aid, advocate by overcoming challenges and providing supports through community and educational resources.
- Demonstrate skill in handling crisis prevention, intervention and resolution techniques to solve problems and keep detailed documentation of the process and outcome of each situation.
- Participate in the life of a human services agency, being familiar with the mission and “best” practices of human services organizations, demonstrating these skills in professional activities.

CAREER OUTLOOK

Students completing the Professional Human Services Work Certificate Program qualify for generalist careers in social welfare, mental health, community development or other similar human service organizations in the community serving families and children, adolescents, elders or other specific populations in need of services through community programming.

CRIMINAL OFFENDER RECORD INFORMATION AND SEX OFFENDER REGISTRY INFORMATION CHECKS

As a prerequisite for a clinical placement in the Professional Human Services Work Certificate Program, all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. These checks are required due to potential unsupervised contact with children, the disabled, or the elderly during a clinical experience. Students found to have certain criminal convictions or pending criminal actions will be presumed ineligible for clinical placement. The College is authorized by the Commonwealth’s Department of Criminal Justice Information Services, pursuant to Massachusetts General Laws, Chapter 6, Sections 167-178B, to access CORI records. Sex Offender checks shall be performed pursuant to Massachusetts General Laws, Chapter 6, Sections 178C-178P. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193.

Medical Assistant Certificate Program

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma High School diploma or GED				
Session Attend Mandatory information session				
ENG-095 Writing Skills II	3			
Completion of ENG-095 or higher placement				
<i>Total Credits:</i>		3		

Admission Requirements Advising Note

- This program is Offered for a Fall and Spring start at the Chelsea Campus only
- Prior to clinical placement this program requires that all students undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
AHE-110 Principles of Clinical Practice	3			
AHE-112 Medical Assisting Skills	3			Co-requisite: AHE-110.
NHP-180 Medical Terminology	3			
AHE-104 Understanding Human Behavior for Health Care Professionals or PSY-213 Human Growth and Development	3			Prerequisites for PSY-213: PSY-101.
OIM-102 Medical Computer Applications or CIT-110 Applications/Concepts	3			Prerequisite for OIM-102: Chair approval. Prerequisite for CIT-110: ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- Students must achieve a B- in AHE-110 and AHE-112 to proceed to the second semester.
- Review graduation requirements with Program Coordinator

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
AHE-201 Advanced Clinical Skills	3			AHE-111 or AHE-112.
The pre-requisite for AHE-201 is AHE-112 for students in the Medical Assistant Certificate Program				
AHE-205 Practicum Medical Assistant	3			AHE-112; co-requisite of AHE-201.
AHE-209 Practicum Seminar	1			Co-requisite: AHE-205.
OIM-170 Procedures for Medical Office	3			OIM-102 or Chair approval.
Elective Elective	3			
Choose one college-level course. Recommended: College Writing 1 (ENG-111); Principles of Sociology (SOC-101); Human Biology/Lab (BIO-108).				
<i>Total Credits:</i>		13		

Semester 2 Advising Note

- Attend a resume writing workshop
- Participation in employer panel
- Review graduation requirements with Program Coordinator
- Submit graduation application online

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

Medical Assistant Certificate Program (continued)

**UPON COMPLETION OF THIS
CONCENTRATION GRADUATES WILL
BE ABLE TO:**

- Assist with the examination and treatment of patients in clinical areas, phlebotomy, and EKG.
- Perform computer and medical office tasks.

CAREER OUTLOOK

Graduates of this program qualify for employment in hospitals, clinics, health maintenance organizations, and physicians' offices as multi-skilled workers, medical assistants, medical aides, clinical assistants, and clinical practice assistants.

Medical Interpreting Certificate Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School Diploma or GED				
Session	Attend a Mandatory Information Session				
ENG-095	Writing Skills II	3			
	Completion of ENG-095 or placement into ENG-111 (College Writing I)				
ALTA	Meet level 9 of Language assessment testing				
		<i>Total Credits:</i>	3		

Admission Requirements Advising Note

- Prior to clinical placement this program requires that all students undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL		Credits	Milestone	GenEd	Prerequisites
AHE-101	Medical Interpreting I	3			ENG-095 and RDG-095 or ELL-103 or ESL-098 or placement.
	A grade of B- or better required in this course for progression in the program.				
AHE-104	Understanding Human Behavior for Health Care Professionals	3			
NHP-180	Medical Terminology	3			
CIT-101	Computer Essentials	3			Prerequisites for CIT-101: none.
CIT-110	or Applications/Concepts	3			Prerequisites for CIT-110: ESL-098 or RDG-095 or ELL-103.
		<i>Total Credits:</i>	12		

Semester 1 Fall Advising Note

- AHE-101: Course requires 16 hours of clinical interpreting observation at a health care facility with a preceptor.

SEMESTER 2 SPRING		Credits	Milestone	GenEd	Prerequisites
AHE-102	Medical Interpreting II	2			AHE-101 with a grade of B- or better.
	Course includes 30 hours of active clinical interpreting.				
AHE-299	Medical Interpreting Internship	1			Co-req of AHE-102.
AHE-117	Communication Skills for Health Care	3			
		<i>Total Credits:</i>	6		

Semester 2 Spring Advising Note

- Medical Interpreting Skills Assessment.
- Review graduation requirements with Program Coordinator.
- Complete graduation application.

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

 This course has pre/co- requisites.  Advising note or suggestion regarding this course.

 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Take the certification examination offered by the National Board of Certification for Medical Interpreters.

- Assist the health care team by serving as a certified medical interpreter between the patient or the patient's family and the health care provider.

CAREER OUTLOOK

Graduates of this program qualify for employment in hospitals, clinics, chronic care facilities, and health maintenance organizations as medical interpreters.

Patient Care Technician Certificate Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED				
Session	Attend Mandatory information session				
ENG-095	Writing Skills II	3			
✍️ Completion of ENG-095 or higher or placement					
		<i>Total Credits:</i>	3		

Admission Requirements Advising Note

- This program is Offered for a Fall and Spring start at the Chelsea Campus Only.
- Medical and CORI clearances. Prior to clinical placement this program requires that all students undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
AHE-110	Principles of Clinical Practice	3	🚩		
AHE-111	Patient Care Skills	3	🚩		Co-requisites: AHE-106 and AHE-110.
AHE-106	Nursing Assistant Practicum	1	🚩		Co-requisites: AHE-110 and AHE-111.
AHE-104	Understanding Human Behavior for Health Care Professionals	3	🚩		Prerequisite for PSY-213: PSY-101.
PSY-213	Human Growth and Development				
NHP-180	Medical Terminology	3	🚩		
		<i>Total Credits:</i>	13		

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
AHE-201	Advanced Clinical Skills	3	🚩		AHE-111 or AHE-112.
✍️ The pre-requisite for AHE-201 is AHE-111 for students in the Patient Care Technician Certificate Program					
AHE-204	Practicum Patient Care	3	🚩		AHE-111; Co-requisite: AHE-201.
AHE-209	Practicum Seminar	1	🚩		Co-requisite: AHE-204.
OIM-102	Medical Computer Applications	3	🚩		Chair approval.
✍️ CIT-110 Applications and Concepts can also satisfy the OIM-102 requirement					
Elective	Elective	3	🚩		
		<i>Total Credits:</i>	13

- Attend a resume writing workshop
- Participation in employer panel
- Review graduation requirements with Program Coordinator
- Submit graduation application on-line

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍️ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Perform direct patient care competently.
- Perform basic computer skills.

CAREER OUTLOOK

Graduates of this program qualify for employment in hospitals, clinics, chronic care facilities, and the home environment as multi-skilled workers, patient care technicians, patient care associates, medical aides, certified

nursing assistants, and home health aides. The program prepares students in Healthcare Provider CPR Certifications. Graduates are eligible to sit for certification exams for State Nurse Aide and Home Health Aide.

Paramedic

The Paramedic is a health care professional who cares for those injured or suddenly taken ill in the pre-hospital setting. BHCC's Paramedic Studies Program is a sixteen month program that includes classroom, in hospital clinical rotations and a field internship. The program prepares the student to be eligible to sit for the National Registry of Emergency Medical Technician Paramedic Certification examinations.

Paramedic Studies Program

Located at the Bunker Hill Community College's Chelsea Campus, the 16 month Paramedic Studies Program provides instruction in advanced emergency medical skills.

The program, which follows the National Standard EMT-Paramedic Curriculum, meets and/or exceeds the requirements set forth by the Commonwealth of Massachusetts Office of Emergency Medical Services. BHCC's experienced instructors utilize state-of-the-art equipment, including a self-contained ambulance simulator and manikins. BHCC is committed to preparing graduates with the knowledge, skills and professional attributes associated with entry-level paramedic positions. The program has been approved by the Massachusetts Office of Emergency Medical Services (OEMS), and is accredited by the Committee on the Accreditation of Educational Programs for the Emergency Medical Services (CoAEMSP), Program #600796, a subsidiary of the Commission on Accreditation of Allied Health Education Programs (CAAHEP), a non-profit, non-governmental agency, who reviews and accredits over 2000 educational programs in nineteen (19) health science occupations. CAAHEP issues accreditation to Paramedic education programs, based on the review and upon its recommendation from the CoAEMSP.

Admission

The Paramedic Certificate and Associate Degree in Paramedic Studies is a selective admissions program.

Please contact Nicholas J. Cardellicchio, Program Director, Department of Emergency Medical Studies, Chelsea Campus, Room 313, Chelsea, MA 02150, (617) - 936-1973, njcardel@bhcc.mass.edu regarding application and entrance requirements. All potential candidates for admission to the program must apply through the college. The Paramedic Studies Certificate program is sixteen months and awards forty-six credits. An Associate Degree in Paramedic Studies is available upon completion of an additional five courses.

Candidates for the Paramedic program must have achieved their EMT certification prior to application, maintain EMT certification throughout the program, submit all required health records/utilizations prior to the start of the program, attend an information session and submit to a CORI/SORI check.

Program Notes

Minimum Grades: A grade of B- (80%) or higher must be earned and maintained for the term of the program. Pre/co-requisites: College Writing; ENG 111 & Human Biology/Lab, BIO 108.

Scope of Practice

The Paramedic is a highly trained individual who provides both in hospital and out of hospital: Patient assessment, Advanced Airway Management, Vascular access, EKG Interpretation and Treatment, Emergency Pharmacology, and Management of Medical and Trauma Emergencies.

Tuition & Fees

Tuition cost is \$9,062 for the Certificate and \$12,017 for the Associate Degree. Students are responsible for the purchase of texts, equipment, uniforms, certification and exam fees.

GI Bill®

Bunker Hill Community College is an approved institution for veterans' education benefits. For specific information on how the GI Bill® works, and to apply for benefits please visit the United States Department of Veterans Affairs GI Bill® Site at gibill.va.gov.

Program Goals and Objectives

- Provide individuals with a career preparation associated with Entry-Level and Advanced Practitioner Paramedic care competencies with consideration of the needs and expectations of the program's communities of interest.
- Provide a curriculum that leads to eligibility for the national credentialing process, entry into the Massachusetts licensure process, and employment in paramedicine
- Promote the development of those intellectual skills that foster critical thinking and problem solving that are necessary for life-long learning
- Provide the development of life-long professional attitudes and values
- Understand and manage self, to function effectively in social and professional environments and to make reasonable judgments on understanding the diversity of the world community
- Locate, understand, evaluate, synthesize, information and data in a technological and data driven society.

The Paramedic Studies Certificate program is sixteen months and awards forty-six credits and sixty one credits for an Associate Degree in Paramedic Studies.

Nationwide Employment Opportunities

National Registry certification allows an individual reciprocity in most of the United States.

Career Opportunities

The United States Bureau of Labor Statistics reports that the number of jobs in 2012 was 239,100. The job growth from 2012-2022 is projected to grow by 23% (faster than the national average of 11%) Projected Employment Change of new Paramedics from 2012-2022 is expected to be 55,300.

Job Opportunities

Municipalities, Fire Departments, private ambulance companies, hospitals and clinics.

Salary Outlook

According to the Journal of Emergency Medical Services (JEMS), the national average salary is \$42,618.00 per year (2018).

Related Job Titles

EMT-Paramedic, Paramedic.

Paramedic Certificate Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED				
Session	Attend mandatory information session				
License	Possess a valid driver's license				
EMT	Complete one year experience as an Emergency Medical Technician or equivalent				
CPR	Possess a current American Heart Association, Basic Life Support Health Care Provider Card				
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
	Course must be completed with a C or better				
BIO-108	Human Biology/Lab	4			ENG-095, RDG-095 or ELL-103, and MAT-093.
	Course must be completed with a C or better				
<i>Total Credits:</i>		7			

Admission Requirements Advising Note

- Submit letter of completion of one year experience as an EMT on company letterhead
- Submit copy of EMT and CPR card
- The more non-core courses taken before applying to the program, the higher your score on the admissions rubric.
- Ten panel drug testing and medical clearances required.
- As a prerequisite for a clinical placement this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL		Credits	Milestone	GenEd	Prerequisites
EMS-205	Principles of Paramedicine I	10			BIO-108 and ENG-111; Co-requisite: EMS-214.
	Course to be taken in the Fall				
EMS-214	Paramedic Clinical Rotation I	3			Co-requisite: EMS-205.
	Course to be taken in the Fall				
<i>Total Credits:</i>		13			

SEMESTER 2 SPRING		Credits	Milestone	GenEd	Prerequisites
EMS-206	Principles of Paramedicine II	10			EMS-205 and EMS-214; Co-requisite: EMS-215.
	Course to be taken in Spring				
EMS-215	Paramedic Clinical Rotation II	3			EMS-205 and EMS-214; Co-requisite: EMS-206.
	Course to be taken in Spring				
<i>Total Credits:</i>		13			

Semester 2 Spring Advising Note

- Successful completion of EMS-205 and EMS-214 with a grade of B- or better.

SEMESTER 3 SUMMER		Credits	Milestone	GenEd	Prerequisites
EMS-207	Principles of Paramedicine III	4			EMS-206 and EMS-215; Co-requisite: EMS-216.
	Course to be taken in Summer Session I				
EMS-216	Paramedic Clinical Rotation III	1			EMS-206 and EMS-215; Co-requisite: EMS-207.
	Course to be taken in Summer Session I				
<i>Total Credits:</i>		5			

Semester 3 Summer Advising Note

- Successful completion of EMS-206 and EMS-215 with a grade of B- or better.

Paramedic Certificate Program (continued)

SEMESTER 4 <i>SUMMER</i>	Credits	Milestone	GenEd	Prerequisites
EMS-208 Principles of Paramedicine IV	4			EMS-207 and EMS-216; Co-requisite: EMS-217.
Course to be taken in Summer Session II				
EMS-217 Paramedic Clinical Rotation IV	1			EMS-207 and EMS-216; Co-requisite: EMS-208.
Course to be taken in Summer Session II				
<i>Total Credits:</i>		5		

Semester 4 Summer Advising Note

- Successful completion of EMS-207 and EMS-216 with a grade of B- or better.

SEMESTER 5 <i>FALL</i>	Credits	Milestone	GenEd	Prerequisites
EMS-218 Paramedic Field Internship	3			EMS-208 and EMS-217 and Chair approval.
Course to be taken in the fall				
<i>Total Credits:</i>		3		

Semester 5 Fall Advising Note

- Successful completion of EMS-208 and EMS-217 with a grade of B- or better.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- After successful completion of the program, the student will receive a Certificate of Completion enabling him or her to apply for and take the National Registry of Emergency Medical Technicians (NREMT) Paramedic written and practical examinations.
- Participants who successfully pass the NREMT certification examination may go onto practice with fire departments, private ambulance services, third service ambulance services, hospital emergency departments, and various clinical settings where advanced emergency care is required.

CAREER OUTLOOK

The U.S. Bureau of Labor Statistics predicts that employment of emergency medical technicians (EMTs) and paramedics will grow nine percent between 2008 and 2018, which is about as fast as the average percentage for all occupations (www.BLS.gov). As our population ages and individuals face increased medical concerns, the likelihood of medical emergencies will increase; thus increasing the need for EMTs and paramedics. In addition emergency rooms are frequently overcrowded, which increases the amount of time that the EMTs and paramedics must spend with each patient. This is also likely to increase the number of potential positions. Job prospects are expected to be good since paid employees are needed to replace volunteers who have a high turnover rate.

Paramedic Studies Program

- Successful completion of EMS-205 and EMS-214 with a grade of B- or higher is required to advance in the program.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
EMS-206	Principles of Paramedicine II	10			EMS-205; Co-requisite: EMS-215.
	Course to be taken in Spring				
EMS-215	Paramedic Clinical Rotation II	3			EMS-205; Co-requisite: EMS-206.
	Course to be taken in Spring				
		<i>Total Credits:</i>	13		

Semester 2 Advising Note

- Successful completion of EMS-206 and EMS-215 with a grade of B- or higher is required to advance in the program.

Paramedic Studies Program (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
EMS-207 Principles of Paramedicine III	4			EMS-206 and EMS-215; Co-requisite: EMS-216.
Course to be taken in Summer Session I				
EMS-216 Paramedic Clinical Rotation III	1			EMS-206 and EMS-215; Co-requisite: EMS-207.
Course to be taken in Summer Session I				
<i>Total Credits:</i>		5		

Semester 3 Advising Note

- Successful completion of EMS-207 and EMS-216 with a grade of B- or higher is required to advance in the program.

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
EMS-208 Principles of Paramedicine IV	4			EMS-207, EMS-216; Co-requisite: EMS-217.
Course to be taken in Summer Session II				
EMS-217 Paramedic Clinical Rotation IV	1			EMS-216; Co-requisite: EMS-208.
Course to be taken in Summer Session II				
Successful completion of EMS-208 and EMS-217 with a grade of B- or higher is required to advance in the program.				
<i>Total Credits:</i>		5		

SEMESTER 5	Credits	Milestone	GenEd	Prerequisites
EMS-218 Paramedic Field Internship	3			EMS-208 and EMS-217 with a grade of B- or better.
<i>Total Credits:</i>		3		

SEMESTER 6	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
MAT-181 Statistics	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
<i>Total Credits:</i>		15-16		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

Paramedic Studies Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- After successful completion of the program, the student will receive a Certificate of Completion enabling him or her to apply for and take the National Registry of Emergency Medical Technicians (NREMT) Paramedic written and practical examinations.
- Participants who successfully pass the NREMT certification examination may go onto practice with fire departments, private ambulance services, third service ambulance services, hospital emergency departments, and various clinical settings where advanced emergency care is require.

CAREER OUTLOOK

The U.S. Bureau of Labor Statistics predicts that employment of emergency medical technicians (EMTs) and paramedics will grow nine percent between 2008 and 2018, which is about as fast as the average percentage for all occupations (www.BLS.gov). As our population ages and individuals face increased medical concerns, the likelihood of medical emergencies will increase; thus increasing the need for EMTs and paramedics. In addition emergency rooms are frequently overcrowded, which increases the amount of time that the EMTs and paramedics must spend with each patient. This is also likely to increase the number of potential positions. Job prospects are expected to be good since paid employees are needed to replace volunteers who have a high turnover rate.

Associate in Science Degree: Medical Imaging Program

The Medical Imaging Program prepares students in four different Associate in Science Degree options:

Full-time Cardiac Sonography Option – 24 months. p. 72

Full-time General Sonography Option – 24 months. p. 76

Full-time Medical Radiography Option – 21 months. p. 81

Part-time Medical Radiography Option – 35 months. p. 83

Program accreditations are as follows:

The Medical Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JCERT), 20 North Wacker Drive, Suite 2850, Chicago, IL 60606- 3182, Phone: (312) 704-5300; Fax: (312) 704-5304, Email: mail@jrcert.org; URL: www.jrcert.org.

The program prepares students for entry-level positions in the respective fields. Graduates are eligible to apply to take the American Registry of Radiologic Technologists Exam (Medical Radiography) or the American Registry of Diagnostic Medical Sonography Exam (Sonography Options). Medical Radiography graduates are also eligible to apply to take the Massachusetts State Licensing Examination. The program begins in the fall semester, and didactic and clinical education are carefully correlated to provide reinforcement in the clinical setting of skills learned in the classroom. Students in the program must earn a numerical course grade of 80 percent or better in all imaging courses, and a minimum grade of C in all general education courses. Failure to meet clinical objectives or failure to meet the academic standard in any course will result in withdrawal from the program. Students may apply for readmission to the program one time, on a space-available basis. Prior to re-application students must successfully repeat failed course(s).

Readmission is considered on a case-by-case basis. All medical imaging students must undergo a physical examination, complete the necessary immunization forms, including the three (3) dose Hepatitis B immunization series, have CPR certification, carry malpractice and health insurance, and undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. The application process for the Medical Imaging Program is highly competitive and selective. Potential applicants are ranked based on prerequisite grades, Test of Essential Academic Skills V (TEAS V) results in Reading, Math and English/Language, as well as grades earned in any program required non-core courses. The highest ranked students for each A.S. Program will be invited to complete the TEAS Allied Health test. Standby lists will be generated annually for each A.S. Degree option. Stand- by students not obtaining a seat in that year will be required to reapply for future admission to any Medical Imaging Program.

Prerequisites for all medical imaging options:

- Attend one MANDATORY information session within one year of application. (Refer to BHCC website for dates).
- Possess a high school diploma or GED certificate.
- Complete the following courses with a grade of C or better:
 - One semester of any three credit College Algebra or statistics course.
 - One semester of college level Anatomy/Physiology I/Lab (must be completed within five years of application unless currently working in related healthcare position).
 - One semester of College Writing I (ENG111) or equivalent with a grade of C or better.

After all prerequisites are completed:

- Prospective students must apply online through Admissions during the enrollment period. Approximate application dates for the Fall program are mid-October – mid-February for admission to the program for the next academic year. Check with Admissions for exact timelines.
- All applicants in each option must complete the TEAS Allied Health Test (TEAS). Job shadows will be recommended to accepted students and those on the stand-by list.
- Applicants must score at least 47.6% in reading, 46.7% in math and 47.6% in English/Language on the TEAS test to be considered for the Medical Imaging Programs.
- The Medical Imaging Admissions Committee will evaluate each candidate's record after completion of the TEAS V test. Admission to the Program will be based on overall ranking of applicants as described previously.
- Stand-by lists will be developed for each option annually. Stand-by students not offered a seat will need to reapply the next year for future consideration.
- Applicants not selected for admission to the Medical Imaging Program must meet with a member of the advising staff for guidance before reapplication.

Tuition and fees for Medical Imaging students*

Massachusetts Residents	\$12,500.00 for 2 years
Non-Massachusetts Residents	\$25,700.00 for 2 years
Uniforms	\$200.00
Malpractice/Liability Insurance.	\$15.00 annually
Books/Software	\$900.00 annually
Medical Imaging Pin	\$10.00
Certification Exam Fees	\$200.00 Radiography \$250.00 - \$500.00 Sonography

* Costs are estimated and subject to change. Please refer to Admissions and Enrollment Services for exact cost.

Note: A college physics course, with a grade of C or better, is required for accepted General Sonography or Cardiac Sonography students. For accepted Sonography students, MIG111, Imaging Technology I (web-based), will be offered in the summer prior to the start of the program.

Cardiac Sonography Option

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma High School diploma or GED				
Session Attend a mandatory information session				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse. Completion of ENG 111, College Writing I				
BIO-203 Anatomy and Physiology/Lab I	4			
Completion of BIO 203, Anatomy and Physiology I/Lab				
MATH College Algebra or Statistics	3			
Completion of any 3 credit College Algebra or Statistics course				
TEAS Complete the Test of Essential Academic Skills (TEAS) Allied Health				
<i>Total Credits: 10</i>				

Admission Requirements Advising Note

- TEAS scores must be at least 47.6 percent in Reading, 46.7 percent in Math and 47.6 percent in English/language
- All Admissions course requirements must be completed with a grade of C or better
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>
- Anatomy and Physiology must be completed within ten (10) years of application unless currently working in a related healthcare position
- Approximate application dates for the Fall program are mid-October through mid-February for admission to the program for the next academic year. Check with the Admissions office for exact timelines

SUMMER BEFORE STARTING THE PROGRAM	Credits	Milestone	GenEd	Prerequisites
MIG-111 Imaging Technology I or PHY-201 General Physics/Lab	3-4			Prerequisite for MIG-111: Acceptance into the program. Prerequisite for PHY-201: MAT-197 or placement.
Accepted and standby students must complete either the online MIG-111 or PHY-201 with a grade of C or better in the summer prior to the start of the program. Students will need access to a personal computer with Internet access for MIG-111.				
<i>Total Credits: 3-4</i>				

SEMESTER 1 FALL	Credits	Milestone	GenEd	Prerequisites
MIG-101 Introduction to Ultrasound	2			Acceptance into the Cardiac Sonography program.
MIG-109 Patient Care in Medical Imaging	4			Co-requisite of MIG-101.
MIG-105 Ultrasound Physics and Instrumentation	3			Acceptance into the Cardiac Sonography program.
BIO-204 Anatomy and Physiology/Lab II	4			BIO-203.
MIG-106 Introduction to Cardiac Scanning	2			Acceptance to Cardiac Sonography Program; Co-requisite: MIG-101.
<i>Total Credits: 15</i>				

Semester 1 Fall Advising Note

- General Education Requirements Quantitative Problem Solving, Scientific Reasoning, Creative Work and Elective satisfied by program.
- Core courses (i.e. MIG prefix) are only offered once per year and must be taken as scheduled, as must BIO-204.

Cardiac Sonography Option (continued)

SEMESTER 2 <i>SPRING</i>	Credits	Milestone	GenEd	Prerequisites
MIG-112 Echo 1	3			MIG-101, MIG-109, BIO-204, Co-req MIG-115.
MIG-115 Interpretation I	4			MIG-109, MIG-105, BIO-204, Co-req MIG-112.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
Suggested semester course				
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits:</i>		13		

Semester 2 Spring Advising Note

- Students may consider taking ENG-112, SOC-101 or CIT-110 this semester. It is strongly recommended that you do not take these general education courses in Summer Session I.

SEMESTER 3 <i>SUMMER</i>	Credits	Milestone	GenEd	Prerequisites
MIG-205 Vascular Ultrasound	3			Co-requisite of MIG-119, MIG-105.
To be taken during the Summer I Session				
MIG-119 Echo II	3			MIG-112, MIG-115; Co-req MIG-205.
To be taken during the Summer I Session				
SOC-101 Principles of Sociology	3			RDG-095 or ELL-103 or ESL-098 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
To be taken during Summer Session II				
MIG-203 Interpretation II	3			MIG-115.
To be taken during Summer Session II				
<i>Total Credits:</i>		12		

Semester 3 Summer Advising Note

- ENG-112 or SOC-101 or CIT-110 may be taken any time prior to the last semester of the program.

SEMESTER 4 <i>FALL</i>	Credits	Milestone	GenEd	Prerequisites
MIG-201 Echo III	4			MIG-119, Co-req MIG-207 and MIG-211.
MIG-207 Ultrasound Physics and Instrumentation for the Cardiac Sonographer	2			MIG-105 and MIG-119, Co-Req MIG-201 and MIG-211.
MIG-211 Cardiac Sonography Clinical I	3			MIG-119 and co-requisite of MIG-201 and MIG-207.
Cardiac Sonography Clinical I is three (3) eight hour days/week.				
<i>Total Credits:</i>		9		

SEMESTER 5 <i>SPRING</i>	Credits	Milestone	GenEd	Prerequisites
MIG-213 Cardiac Sonography Clinical II	4			MIG-211 and co-requisite of MIG-215 and MIG-216.
Cardiac Sonography Clinical II is four (4) eight hour days/week.				
MIG-215 Echo IV/Interpretation	4			MIG-201 Co-req MIG-213 and MIG-216.
MIG-216 Advanced Interpretation Seminar	2			MIG-211 and co-requisite of MIG-213 and MIG-215.
<i>Total Credits:</i>		10		

Semester 5 Spring Advising Note

- All required general education courses must be completed by the end of the second spring semester.

SEMESTER 6 <i>SUMMER</i>	Credits	Milestone	GenEd	Prerequisites
MIG-217 Cardiac Sonography Clinical III	4			MIG-213.
Cardiac Sonography Clinical III is 40 hours per week or five (5) eight hour days per week.				
<i>Total Credits:</i>		4		

Cardiac Sonography Option (continued)

■ Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ⚙ This course has pre/co- requisites.
✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate general knowledge and technical skills required to perform cardiac echo examinations as an entry-level cardiac sonographer.
- Demonstrate sufficient knowledge of cardiac sonography to pursue registry status through The American Registry of Diagnostic Medical Sonographers.
- Understand the importance of lifelong continuing education in the field of Cardiac Sonography.

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, HMOs, clinics, doctors' offices, mobile units, community health agencies, equipment/film companies, and/or as application specialist sales representatives.

Computed Tomography Certificate Program

ADMISSION REQUIREMENTS

Card	Submit copy of current ARRT or NMTCB card
Letter	Submit letter of interest
Recommendation	Submit letter of recommendation from a supervisor on letterhead
Clinical	Submit a letter of guarantee of clinical site for the Clinical Internship

Admission Requirements Advising Note

- All CT students are required to undergo a physical examination; complete the necessary immunization forms, including three (3) Hepatitis B series; have malpractice and health insurance
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL	Credits	Milestone	GenEd	Prerequisites
CTC-111 Computer Tomography I	3			Acceptance into the Computed Tomography Program.
This course has a Fall Semester start date.				
<i>Total Credits:</i> 3				

SEMESTER 2 SPRING	Credits	Milestone	GenEd	Prerequisites
CTC-211 Computed Tomography II	3			CTC-111 and pre/co-requisite CTC-299.
This course has a Spring Semester start date.				
CTC-299 Computed Tomography Internship	3			Chair approval. CTC-211.
This course has a Spring Semester start date.				
<i>Total Credits:</i> 6				

Semester 2 Spring Advising Note

- Apply online for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate competence in the essential aspects of computed tomography at the entry-level.
- Understand the importance of life-long continuing education in the field of computed tomography.

CAREER OUTLOOK

It is expected that the number of positions in this modality will continue to grow in the near future. Opportunities exist in hospitals, outpatient clinics and free-standing medical imaging facilities.

General Sonography Option

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED				
Session	Attend a mandatory Information session				
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
	Completion of ENG 111, College Writing I				
BIO-203	Anatomy and Physiology/Lab I	4			
	Completion of BIO 203, Anatomy and Physiology I/Lab				
MATH	College Algebra or Statistics	3			
	Completion of any 3 credit College Algebra or Statistics course				
TEAS	Complete the Test of Essential Academic Skills (TEAS) Allied Health				
		<i>Total Credits:</i>	10		

Admission Requirements Advising Note

- TEAS scores must be at least 47.6 percent in Reading, 46.7 percent in Math and 47.6 percent in English/language
- All Admissions course requirements must be completed with a grade of C or better
- Anatomy and Physiology must be completed within ten (10) years of application unless currently working in a related healthcare position
- Approximate application dates for the Fall program are mid-October through mid-February for admission to the program for the next academic year. Check with the Admissions office for exact timelines
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SUMMER BEFORE STARTING THE PROGRAM		Credits	Milestone	GenEd	Prerequisites
MIG-111	Imaging Technology I	3			Prerequisite for MIG-111: Acceptance into the program. Prerequisite for PHY-201: MAT-197 or placement.
or					
PHY-201	General Physics/Lab				
	Accepted and standby students must complete either the online MIG-111 or PHY-201 with a grade of C or better in the summer prior to the start of the program. Students will need access to a personal computer with Internet access for MIG-111.				
		<i>Total Credits:</i>	3		

SEMESTER 1 FALL		Credits	Milestone	GenEd	Prerequisites
MIG-101	Introduction to Ultrasound	2			Acceptance into the Sonography program.
MIG-109	Patient Care in Medical Imaging	4			Co-requisite: MIG-101.
MIG-105	Ultrasound Physics and Instrumentation	3			Acceptance into the Sonography program.
BIO-204	Anatomy and Physiology/Lab II	4			BIO-203.
SON-113	Cross-Sectional Anatomy	4			Co-Requisite: BIO-204.
		<i>Total Credits:</i>	17		

Semester 1 Fall Advising Note

- General Education Requirements Quantitative Problem Solving, Scientific Reasoning and Creative Work satisfied by program.
- Core courses (i.e. MIG prefix) are only offered once per year and must be taken as scheduled, as must BIO-204.
- Fall start only.

General Sonography Option (continued)

SEMESTER 2 <i>SPRING</i>		Credits	Milestone	GenEd	Prerequisites
SON-115	Abdominal Ultrasound	3			SON-113 and co-requisite of SON-121.
CIT-110	Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
	CIT-110 may be taken in a different semester but must be successfully completed with a grade of C or better by the Spring of Year 2 to graduate on time.				
SON-117	Ultrasound Scanning protocols and Pathology	4			SON-113 and co-requisite of SON-121.
SON-119	Subspecialty Sonography and Neurosonography	3			SON-113 and co-requisite of SON-121.
SON-121	General Sonography Clinical I	3			SON-113 and co-requisite SON-115 and SON-117 and SON-119.
		<i>Total Credits:</i>	16		

SEMESTER 3 <i>SUMMER</i>		Credits	Milestone	GenEd	Prerequisites
MIG-205	Vascular Ultrasound	3			Co-requisite: SON-123.
	To be taken during the Summer I Session				
SON-123	General Sonography Clinical II	3			SON-121 and co-requisite of MIG-205.
	To be taken during Summer Session I				
		<i>Total Credits:</i>	6		

SEMESTER 4 <i>FALL</i>		Credits	Milestone	GenEd	Prerequisites
ENG-112	College Writing II	3			ENG-111.
	This course meets the General Education requirement for Research Writing (Formerly Area 1)				
	ENG-112 may be taken in any semester but must be completed by Spring of year 2 to graduate on time.				
SON-213	Ultrasound Physics and Instrumentation for the General Sonographer	2			MIG-105 and co-requisite of SON-223.
SON-215	Advanced General Sonography Seminar I	2			SON-115 and co-requisite of SON-223.
SON-219	Obstetrical/Gynecological	3			SON-123 and co-requisite of SON-223.
SON-223	General Sonography Clinical III	3			SON-123 and co-requisites of SON-219 and SON-213 and SON-215.
		<i>Total Credits:</i>	13		

SEMESTER 5 <i>SPRING</i>		Credits	Milestone	GenEd	Prerequisites
SOC-101	Principles of Sociology	3			RDG-095 or ESL-098 or placement.
	This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
	SOC-101 may be taken in any semester but must be completed by Spring of year 2 to graduate on time				
SON-217	Advanced General Sonography Seminar II	2			SON-215 and co-requisite of SON-225.
SON-221	Obstetrical/Gynecological Sonography II	3			SON-219 and co-requisite of SON-225.
SON-225	General Sonography Clinical IV	3			SON-223 and co-requisites of SON-217 and SON-221.
		<i>Total Credits:</i>	11		

Semester 5 Spring Advising Note

- All required general education courses must be completed by the end of the second spring semester.

SEMESTER 6 <i>SUMMER</i>		Credits	Milestone	GenEd	Prerequisites
SON-227	General Sonography Clinical V	3			SON-225.
		<i>Total Credits:</i>	3		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co-requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

General Sonography Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Recognize and identify the sonographic appearance of normal anatomic structures and Doppler flow patterns.
- Utilize ultrasound equipment to obtain an image and provide physicians with diagnostic information for treatment.
- Understand the role of ultrasound in patient management and discuss the biologic effects of ultrasound.
- Apply to take the national registry exam (ARDMS).

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, HMOs, clinics, doctors' offices, mobile units, community health agencies, equipment/film companies, and/or as application specialist sales representatives.

Magnetic Resonance (MR) Certificate Program

ADMISSION REQUIREMENTS

AART Card	Submit copy of current ARRT
Letter	Submit letter of interest
Recommendation	Submit letter of recommendation from a supervisor on letterhead
Clinical	Submit a letter of guarantee of clinical site for the Clinical Internship

Admission Requirements Advising Note

- All MR students are required to undergo a physical examination; complete the necessary immunization forms, including three (3) Hepatitis B series; have malpractice and health insurance
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL	Credits	Milestone	GenEd	Prerequisites
MRC-111 MR Concepts I	3			Acceptance into the MR program.
<i>Total Credits:</i>		3		

SEMESTER 2 SPRING	Credits	Milestone	GenEd	Prerequisites
MRC-211 MR Concepts II	3			MRC-111 and co-requisite of MRC-299.
This course has a Spring semester start date				
MRC-299 MR Clinical Internship	3			Department Chair Approval; pre/co-requisite of MRC-211.
This course has a spring semester start date				
<i>Total Credits:</i>		6		

Semester 2 Spring Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co-requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate competence in the essential aspects of MR imaging at the entry-level.
- Understand the importance of life-long continuing education in the field of MR imaging.

CAREER OUTLOOK

It is expected that the number of positions in this modality will continue to grow in the near future. Opportunities exist in hospitals, outpatient clinics and free-standing medical imaging facilities.

Mammography Certificate Program

ADMISSION REQUIREMENTS

AART Card Submit copy of current ARRT

Letter Submit letter of interest

Recommendation

Submit letter of recommendation from a supervisor on letterhead

Clinical Submit a letter of guarantee of clinical site for the Clinical Internship

Admission Requirements Advising Note

- All mammography students are required to undergo a physical examination; complete the necessary immunization forms, including three (3) Hepatitis B series; have malpractice and health insurance.
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL

	Credits	Milestone	GenEd	Prerequisites
MAC-111 Mammography Principles I	3			Acceptance into the Mammography program.
<i>Total Credits:</i>	3			

SEMESTER 2 SPRING

	Credits	Milestone	GenEd	Prerequisites
MAC-211 Mammography Principles II	3			MAC-111; co-requisite MAC-299.
MAC-299 Mammography Clinical Internship	3			Chair approval; pre/co-requisite MAC-211.
<i>Total Credits:</i>	6			

Semester 2 Spring Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate competence in the essential aspects of Mammographic imaging at the entry-level.
- Understand the importance of life-long continuing education in the field of Mammographic imaging.

CAREER OUTLOOK

It is expected that the number of positions in this modality will continue to grow in the near future. Opportunities exist in hospitals, outpatient clinics and free-standing medical imaging facilities.

Medical Laboratory Assistant Certificate Program

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED			
Session	Attend Mandatory information session			
BIO-108 Human Biology/Lab	4			MAT-093 and RDG-095 or ESL-099 and ENG-095 or ELL-103 or placement.

✎ Complete the course with a grade of C or better.

Total Credits: 4

Admission Requirements Advising Note

Students are encouraged to meet with the Program Director to discuss the application process and to explore the profession.

If you are accepted into the program, you must complete the following steps:

- Complete a CORI Form during the first semester in the Program.
- Complete the first page of a Student Health Form – this form must go to your doctor, and when completed, must be brought to Room E154 at the Charlestown Campus of BHCC. Health clearance is required to participate in clinical internships.

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
MLA-120 Medical Terminology for the Clinical Laboratory Professional	1	🚩		Admission to Program.
MLA-121 Phlebotomy and Specimen Processing	4	🚩		Admission to Program.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
Total Credits:		8		

Semester 1 Advising Note

MLA-120 and MLA-121 must be completed with a B- or higher.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
MLA-222 Clinical Laboratory Techniques	4	🚩		MLA-120 and MLA-121 *see note.
BIO-203 Anatomy and Physiology/Lab I	4			BIO-105 or BIO-108 or BIO-195.
Total Credits:		8		

Semester 2 Advising Note

*Note: MLA-120 and MLA-121 must be completed with a grade of B- or higher.

SEMESTER 3 SUMMER	Credits	Milestone	GenEd	Prerequisites
MLA-223 Clinical Practicum	4			MLA-121 and MLA-222.
✎ MLA-222 must be completed with a grade of B- or higher.				
MAT-181 Statistics	3			MAT-097 or MAT-098.
Total Credits:		7		

Semester 3 Summer Advising Note

*Note: MLA-222 must be completed with a grade of B- or higher.

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 📄 This course has pre/co- requisites.

✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

Medical Laboratory Assistant Certificate Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Develop an attitude of professionalism and be knowledgeable of the ethical considerations of dealing with patient and laboratory information.
- Correctly perform basic venipuncture techniques using a variety of blood drawing apparatuses.
- Explain the proper method to process and store various specimens used for laboratory testing.
- Describe the routine workflow of the clinical laboratory.
- Describe the importance of and correctly utilize a laboratory information system (LIS).
- Discuss the various types of laboratory equipment that would be best utilized for various testing procedures.
- Describe the roles of laboratory staff.
- Discuss the advantages and disadvantages of instrumentation.
- Discuss the importance of and how to perform maintenance and quality control on instrumentation.
- Perform assigned procedures, demonstrating competency in the performance of the test, understanding the underlying principles of the test, and the determination of appropriate actions necessary in handling and reporting of sensitive data.
- Demonstrate organizational skills in the performance of assigned workload in a timely manner.

CAREER OUTLOOK

A Medical Lab Assistant (MLA) is someone who works in a laboratory setting and assists in the processing of patient samples and the preparation of tests that need to be done. They play a key role in aiding the medical technologist and allowing for everything to run as efficiently as possible. They perform phlebotomy, specimen processing, testing preparation for the Medical Technologist to perform the actual testing, maintenance and calibration of instrumentation, and work with the Laboratory Information System (LIS).

Medical Radiography Full-time Option

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma High School diploma or GED				
Session Attend a mandatory Information session				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
 Course must be completed with a C or better				
BIO-203 Anatomy and Physiology/Lab I	4			
 Course must be completed with a C or better				
MATH College Algebra or Statistics	3			
 Completion of any 3 credit College Algebra or Statistics course				
TEAS Complete the Test of Essential Academic Skills (TEAS) Allied Health				
<i>Total Credits:</i>		10		

Admission Requirements Advising Note

- TEAS scores must be at least 47.6 percent in Reading, 46.7 percent in Math and 47.6 percent in English/language
- Anatomy and Physiology must be completed within ten (10) years of application unless currently working in a related healthcare position
- Approximate application dates for the Fall program are mid-October through mid-February for admission to the program for the next academic year. Check with the Admissions office for exact timelines
- As a prerequisite for a clinical placement this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL	Credits	Milestone	GenEd	Prerequisites
MIG-107 Introduction to Medical Radiography	2			Acceptance to Medical Radiography program.
MIG-109 Patient Care in Medical Imaging	4			Co-requisite: MIG-107.
MIG-122 Positioning I	3			Co-requisite: MIG-124F.
MIG-124F FT Medical Radiography Clinical I	2			Co-requisite: MIG-122.
<i>Total Credits:</i>		11		

Semester 1 Fall Advising Note

- General Education Requirements Quantitative Problem Solving, Scientific Reasoning, Creative Work and Elective satisfied by program.
- Core courses (i.e. MIG prefix) are only offered once per year and must be taken as scheduled.
- If needed for financial aid (i.e. 12 credits for full-time) consider taking SOC-101 or ENG-112. If you have completed them, consider taking an introductory language course of interest, which would be valuable in the healthcare profession. Another reasonable alternative would be an art or music class for your personal enrichment and enjoyment.
- Choose sections that do not conflict with your core courses. Core courses will be demanding, so plan to spend 3-4 hours each day this semester studying outside of class to achieve success as you consider additional courses or work schedules.
- Keep course work for each class organized and readily accessible for review at the end of the program as you prepare for your national certification exam.

Medical Radiography Full-time Option (continued)

SEMESTER 2 <i>SPRING</i>	Credits	Milestone	GenEd	Prerequisites
BIO-204 Anatomy and Physiology/Lab II	4	☑		BIO-203.
MIG-120 Radiologic Imaging I	3	☑		MIG-107.
MIG-111 Imaging Technology I	3	☑		
MIG-126 Positioning II	3	☑		MIG-122 and co-requisite of MIG-128F.
MIG-128F FT Medical Radiography Clinical II	2	☑		MIG-124F.
<i>Total Credits: 15</i>				

Semester 2 Spring Advising Note

- This semester begins a series of challenging technical courses that are vital to your success, in addition to clinical and positioning class. Stay organized within each course, and plan to spend 4-5 hours of studying outside of class daily from this point in the program through degree completion.

SEMESTER 3 <i>SUMMER</i>	Credits	Milestone	GenEd	Prerequisites
MIG-222F FT Medical Radiography Clinical III	3	☑		MIG-128F.
SOC-101 Principles of Sociology	3		☑	RDG-095 or ESL-098 or placement.
<p>🎓 This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)</p> <p>✍ To be taken during Summer Session II</p> <p style="text-align: right;"><i>Total Credits: 6</i></p>				

Semester 3 Summer Advising Note

- You may take and complete your required general education courses at any time, but they MUST be completed by the end of the Spring semester of the second year in order to graduate on time.

SEMESTER 4 <i>FALL</i>	Credits	Milestone	GenEd	Prerequisites
MIG-220 Positioning III	2	☑		MIG-126.
MIG-228F FT Medical Radiography Clinical IV	3	☑		MIG-222F.
MIG-224 Radiologic Technology II	3	☑		MIG-111.
MIG-226 Radiologic Imaging II	3	☑		MIG-120.
MIG-227 Pharmacology of Radiology	1	☑		MIG-109 and BIO-204.
ENG-112 College Writing II	3		☑	ENG-111.
<p>🎓 This course meets the General Education requirement for Research Writing (Formerly Area 1)</p> <p style="text-align: right;"><i>Total Credits: 15</i></p>				

SEMESTER 5 <i>SPRING</i>	Credits	Milestone	GenEd	Prerequisites
MIG-230 Radiation Protection	3	☑		MIG-226.
MIG-236F FT Medical Radiography Clinical V	3	☑		MIG-228F.
MIG-234 CT/Cross Sectional Anatomy	2	☑		BIO-204.
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or placement.
MIG-238 Advanced Medical Radiography Seminar	2	☑		MIG-224 and MIG-226.
<i>Total Credits: 13</i>				

Semester 5 Spring Advising Note

- MIG-234 is a web-based course.

☑ Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ☑ This course has pre/co-requisites.
✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate clinical competence
- Apply critical thinking skills
- Demonstrate communication skills
- Model professionalism

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, HMOs, clinics, doctors' offices, mobile units, community health agencies, industrial x-ray, and equipment/film companies. Successful

graduates will qualify to take the American Registry of Radiologic Technologists Registry Examination and the State of Massachusetts Licensing Examination for entry-level Radiologic Technologists.

Medical Radiography Part-time Option

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma High School diploma or GED				
Session Attend a mandatory Information session				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
 Completion of ENG 111, College Writing I				
BIO-203 Anatomy and Physiology/Lab I	4			
 Completion of BIO 203, Anatomy and Physiology I/Lab				
MATH College Algebra or Statistics	3			
 Completion of any 3 credit College Algebra or Statistics course				
TEAS Complete the Test of Essential Academic Skills (TEAS) Allied Health				
<i>Total Credits:</i>		10		

Admission Requirements Advising Note

- TEAS scores must be at least 47.6 percent in Reading, 46.7 percent in Math and 47.6 percent in English/language
- All pre-requisite courses must be completed with a grade of C or better.
- Anatomy and Physiology must be completed within ten (10) years of application unless currently working in a related healthcare position
- Approximate application dates for the Fall program are mid-October through mid-February for admission to the program for the next academic year. Check with the Admissions office for exact timelines
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL	Credits	Milestone	GenEd	Prerequisites
MIG-109 Patient Care in Medical Imaging	4			Co-requisite: MIG-107.
MIG-107 Introduction to Medical Radiography	4			Acceptance to Medical Radiography program.
<i>Total Credits:</i>		8		

Semester 1 Fall Advising Note

- General Education Requirements Quantitative Problem Solving, Scientific Reasoning, Creative Work and Elective satisfied by program
- Core Courses (i.e. MIG prefix) in this program are only offered once per year, and must be taken as scheduled.
- Required general education courses (i.e. ENG-112, SOC-101 and CIT-110) may be taken as scheduled, or when convenient for the individual student, with the exception of BIO-204 which must be completed by the end of Spring Year 2 to prepare the student for success in the clinical setting. They must be completed by the last semester of the program to graduate on time.
- Please remember that this is a part-time program, and that may impact financial aid options. Plan ahead financially for the last two daytime semesters of clinical, which are a mandatory requirement of this program.

SEMESTER 2 SPRING	Credits	Milestone	GenEd	Prerequisites
MIG-111 Imaging Technology I	3			
MIG-120 Radiologic Imaging I	3			MIG-107.
ENG-112 College Writing II	3			ENG-111.
 This course meets the General Education requirement for Research Writing (Formerly Area 1)				
<i>Total Credits:</i>		9		

Medical Radiography Part-time Option (continued)

SEMESTER 3 SUMMER		Credits	Milestone	GenEd	Prerequisites	
MIG-224	Radiologic Technology II	3	🚩		MIG-111.	
SOC-101	Principles of Sociology	3		🎓	RDG-095 or ESL-098 or placement.	
👉 This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)						
CIT-110	Applications/Concepts	3			ESL-098 or RDG-095 or placement.	
		Total Credits:	9			

SEMESTER 4 FALL		Credits	Milestone	GenEd	Prerequisites	
MIG-226	Radiologic Imaging II	3	🚩		MIG-120.	
MIG-230	Radiation Protection	3	🚩		Co-requisite: MIG-226.	
		Total Credits:	6			

SEMESTER 5 SPRING		Credits	Milestone	GenEd	Prerequisites	
MIG-122	Positioning I	3	🚩		Co-requisite: MIG-124P.	
MIG-124P	PT Medical Radiography Clinical I	1	🚩			
BIO-204	Anatomy and Physiology/Lab II	4	🚩		BIO-203.	
		Total Credits:	8			

Semester 5 Spring Advising Note

- All didactic courses and clinical are held in the evenings this semester.

SEMESTER 6 SUMMER		Credits	Milestone	GenEd	Prerequisites	
MIG-126	Positioning II	3	🚩		MIG-122; co-requisite of MIG-128P.	
MIG-128P	PT Medical Radiography Clinical II	1	🚩		MIG-124P.	
MIG-227	Pharmacology of Radiology	1	🚩		MIG-109 and BIO-204.	
		Total Credits:	5			

Semester 6 Summer Advising Note

- All didactic courses and clinical are held in the evening this semester.

SEMESTER 7 FALL		Credits	Milestone	GenEd	Prerequisites	
MIG-220	Positioning III	2	🚩		MIG-126.	
👉 Clinical internship held during evening hours.						
MIG-222P	PT Medical Radiography Clinical III	1	🚩		MIG-128P.	
👉 Clinical internship held during evening hours.						
MIG-234	CT/Cross Sectional Anatomy	2	🚩		BIO-204.	
👉 This is an online course. Students will need access to a personal computer with internet capability for this course.						
		Total Credits:	5			

SEMESTER 8 SPRING		Credits	Milestone	GenEd	Prerequisites	
MIG-228P	PT Medical Radiography Clinical IV	5	🚩		MIG-222P.	
👉 This is a daytime clinical rotation. Students need to be available Monday – Friday for a total of 35 hours per week and have one evening didactic course.						
MIG-238	Advanced Medical Radiography Seminar	2	🚩		MIG-224 and MIG-226.	
		Total Credits:	7			

SEMESTER 9 SUMMER		Credits	Milestone	GenEd	Prerequisites	
MIG-236P	PT Medical Radiography Clinical V	5	🚩		MIG-228P.	
👉 Daytime Clinical Course. Students need to be available Monday- Friday for 40 hours per week.						
		Total Credits:	5			

Medical Radiography Part-time Option (continued)

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ⚙ This course has pre/co- requisites.
- ✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate clinical competence.
- Apply critical thinking skills.
- Demonstrate communication skills.
- Model professionalism.

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, HMOs, clinics, doctors' offices, mobile units, community health agencies, industrial x-ray, and equipment/film companies. Successful graduates will qualify to take the American Registry of Radiologic Technologists Registry Examination and the State of Massachusetts Licensing Examination for entry-level Radiologic Technologists.

Registered Nursing Program: Day/Alternative Options

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED				
Session	Attend mandatory information session, must have attended in the last year.				
TEAS	Complete the ATI Test of Essential Academic Skills (TEAS) Nursing				
ENG-111	College Writing I	3	🚩	🎓	ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)					
BIO-203	Anatomy and Physiology/Lab I	4	🚩		BIO-105 or BIO-108 or BIO-195.
Chem	One year of high school chemistry with lab or one semester of college chemistry with lab	0	🚩		
✍️ One year of high school chemistry with lab or one semester of college chemistry with lab with a grade of C or better					
Math	MAT-097 Fundamentals of Algebra or placement above MAT-097	0	🚩		MAT-093 or placement.
		<i>Total Credits:</i>	7		

Admission Requirements Advising Note

- Complete TEAS VI Exam with a score of 60 percent in each of the four sections (Reading, Math, Science and English). All courses for admissions requirements must be completed with a C or better.
- Credits for Anatomy and Physiology/Lab that were earned more than ten (10) years prior to enrollment in the nursing program are not accepted.
- As a prerequisite for a clinical placement this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>
- View the Nurse Education department page for more information - <https://www.bhcc.edu/nursing/>

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
NUR-120	Fundamentals of Patient-Centered Care	10	🚩		BIO-203 and ENG-111.
BIO-204	Anatomy and Physiology/Lab II	4	🚩		BIO-203.
PSY-101	Principles of Psychology	3		🎓	ESL-098 or RDG-095 or ELL-103 or placement.
🎓 This course meets the General Education requirement for General Education Elective.					
		<i>Total Credits:</i>	17		

Semester 1 Advising Note

- General Education Requirements Creative Work and Scientific Reasoning satisfied by program.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
NUR-150	Patient-Centered Care of the Adult and Mental Health Concepts	10	🚩		BIO-204, NUR-120 and PSY-101.
BIO-205	Microbiology/ Lab	4	🚩		BIO-195 or BIO-203.
PSY-213	Human Growth and Development	3			PSY-101.
		<i>Total Credits:</i>	17		

Registered Nursing Program: Day/Alternative Options (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
NUR-220 Patient-Centered Care of Adults and Families	10			BIO-205 and PSY-213 and NUR-150.
SOC-101 Principles of Sociology	3			ESL-098 or RDG-095 or ELL-103.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
<i>Total Credits: 16</i>				

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
NUR-250 Patient-Centered Care of Adults with Multisystem Disorders and Transition to Practice	9			NUR-220.
GenEd-QPS Quantitative Problem Solving	3			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4) Statistics is recommended.				
Choose one MAT course from Quantitative Problem Solving Menu.				
<i>Total Credits: 12</i>				

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Evaluate nursing care provided to patients and families from diverse backgrounds in a variety of settings to ensure that it is compassionate, age and culturally appropriate and based on a patient's preferences, values and needs.
- Collaborate with members of the interprofessional health care team to manage and coordinate the provision of safe, quality care for patients and families.
- Use current evidence from scientific, peer reviewed sources and clinical expertise when making clinical decisions in the provision of patient-centered care.
- Use evidence-based quality improvement processes to effect change in the delivery of patient-centered care.
- Analyze effective use of strategies to mitigate errors and reduce the risk of harm to patients, self and others in a variety of settings.
- Use evidence-based information and patient care technology to communicate relevant patient information, manage care and mitigate error in the provision of safe, quality patient-centered care.
- Integrate integrity and accountability into practices that uphold established regulatory, legal, and ethical principles while providing patient-centered, standard-based nursing care.
- Use leadership, management and priority-setting skills in the provision and management of safe, quality patient-centered care.

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, long-term care facilities, HMOs, clinics, doctors' offices, and other community health agencies.

The Associate Degree Registered Nursing Program is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326; telephone: 404-975-5000; fax: 404-975-5020; email: info@acenursing.org; URL: acenursing.org, and approved by the Massachusetts Board of Registration in Nursing, 239 Causeway Street, Suite 500, 5th Floor, Boston, MA 02114; telephone: 617-973-0900; or 1-800-414-0168; fax: 617-973-0984 URL: mass.gov/dph/boards/rn

Pharmacy Technician Certificate Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	Possess a High School Diploma or GED				
Session	Attend a mandatory Information session				
ENG-095	Writing Skills II	3			
	Completion of ENG-095 or higher placement				
		<i>Total Credits:</i>	3		

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
PMT-111	Pharmacy Practice for Pharmacy Technicians I	4			ENG-095 or placement.
PMT-112	Pharmacy Practice for Pharmacy Technicians II	4			PMT-111.
PMT-113	Pharmacy Practice for Pharmacy Technicians III	4			PMT-112.
PMT-299	Practicum and Seminar for Pharmacy Technicians	4			ENG-095 or placement.
		<i>Total Credits:</i>	16		

Semester 1 Advising Note

- Pre-requisites: ENG-095 or placement.
- These courses are REQUIRED to be taken in this order.
- This certificate program is designed as a one-semester program and it generally cannot be taken on a part time basis.

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

 This course has pre/co- requisites.  Advising note or suggestion regarding this course.

 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Upon completion of the certificate program and after attaining a 75% or better score on the Board of Pharmacy Qualification Exam, the student will be able to apply and be licensed as a Pharmacy Technician in Massachusetts.
- Graduates are prepared to apply and sit for the National Pharmacy Technician Certification Board (PTCB).
- Upon passing the National PTCB Exam graduates will be able to be registered as a Pharmacy Technician in Massachusetts.

CAREER OUTLOOK

According to the Bureau of Labor and Statistics (BLS), employment of pharmacy technicians is expected to increase by 4 percent for the period 2019-2029.

Central Processing Certificate Program

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED			
Session	Attend mandatory information session			
Test	Complete the College Placement Test			
ENG-090 Writing Skills I	3			
Complete ENG-090 or higher placement				
<i>Total Credits:</i>		3		

Admission Requirements Advising Note

- Program offered at the Chelsea Campus as a part-time evening program.
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
SGT-109 Central Processing I	2			
SGT-109A Central Processing I Clinical	2			
NHP-180 Medical Terminology	3			
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or placement.
<i>Total Credits:</i>		10		

Semester 1 Advising Note

- Students must maintain a grade of C or better in all surgical technology courses.
- Program offered at the Chelsea Campus as a part-time evening program.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
SGT-110 Central Processing II	2			SGT-109 and SGT-109A and ENG-090 and RDG-090 and MAT-093 or placement.
SGT-110A Central Processing II Clinical	2			SGT-109 and SGT-109A.
SGT-111 Central Processing Clinical	2			SGT-109 and SGT-109A.
Students working in Central Processing can apply for Prior Learning Assessment credits.				
AHE-117 Communication Skills for Health Care	3			
<i>Total Credits:</i>		9		

Semester 2 Advising Note

- Students must maintain a grade of C or better in all surgical technology courses.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Qualify for the CBSPD Central Processing Technician certifying exam.
- Support the operative team during surgical procedures.
- Prepare equipment and supplies for use throughout the hospital.

- Assist in resource allocation and budget preparation for central processing.

CAREER OUTLOOK

Graduates of this program qualify as Central Processing Technicians who perform duties in one or more of the

functional areas of sterile processing and distribution, materials management, and distribution. Graduates qualify for positions in healthcare facilities and industry. Graduates qualify for advanced responsibilities within the profession, and job prospects are excellent.

Surgical Technology Certificate Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED				
Session	Attend Mandatory information session				
Test	Take College Placement Test				
ENG-095	Writing Skills II	3			
	Complete ENG-095 or higher placement				
MAT-093	Foundations of Mathematics	3			
	Complete MAT-093 or higher placement				
<i>Total Credits:</i>		6			

Admission Requirements Advising Note

- To be a competitive candidate it is recommend that applicants complete with a grade C or higher ENG 111 – College Writing I, PSY 101 – Principles of Psychology, BIO 108 – Human Biology w/lab or BIO 203 & BIO 204 – Anatomy & physiology I & II w/lab prior to applying.
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL		Credits	Milestone	GenEd	Prerequisites
SGT-105	Surgical Technology I	5			Acceptance in the Surgical Technology program and pre/co-requisite of NHP-180.
NHP-180	Medical Terminology	3			
SGT-115	Asepsis for Surgical Technology	2			Acceptance into the Surgical Technology program.
PMT-103	Pharmacology for the Surgical Technologist I	1			Acceptance into the Surgical Technology program.
BIO-108	Human Biology/Lab	4			ENG-095 and MAT-093 and ESL-098 or RDG-095 or ELL-103 or placement.
PSY-101	Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits:</i>		18			

Semester 1 Fall Advising Note

- The Surgical Technology Program has a Fall semester start date.
- Students must earn a grade of B- or better in all Surgical Technology (SGT) courses for progression in the program.

SEMESTER 2 SPRING		Credits	Milestone	GenEd	Prerequisites
SGT-106	Surgical Technology II	8			BIO-108 and SGT-105.
PMT-105	Pharmacology for the Surgical Technologist II	1			PMT-103.
PSY-213	Human Growth and Development	3			PSY-101.
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
<i>Total Credits:</i>		15			

Semester 2 Spring Advising Note

Surgical Technology Certificate Program (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
SGT-107	Surgical Technology III	3	🚩		SGT-106 and PMT-105 and PSY-213.
SGT-116	Surgical Seminar	4	🚩		SGT-106 and PSY-213.
<i>Total Credits:</i>		7			

Semester 3 Advising Note

- Students must earn a grade of B- or better in all Surgical Technology (SGT) courses for progression in the program.
- Apply for graduation.

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Assist the operative team during the pre-operative, intra-operative, and post-operative phases of surgery.
- Prepare equipment and supplies for use during surgery.
- Function as “first scrub” on most surgical procedures.

CAREER OUTLOOK

Graduates of this program qualify for surgical technologist positions in hospitals. The prospect for jobs is very good at the present time as the cost of health care rises. Graduates of the program qualify to take the national certification exam at the end of the program.

Communication Concentration

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
ENG-111	College Writing I	3			Complete ENG-095 and either ESL-098 or RDG-095, or ELL-103 with a grade of C or higher. - Must be completed prior to taking this course.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)					
COM-110	Introduction to Communication	3			
This course satisfies Learning Communities Seminar requirement. Fulfills the Learning Community Seminar requirement. New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.					
GenEd-QPS	Quantitative Problem Solving	3-4			
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4) Choose one course from Quantitative Problem Solving Menu. Recommended: MAT-181 Statistics or MAT-174 Quantitative Reasoning.					
GenEd-CCC	Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2 and Area 3) Choose one course from Community and Cultural Contexts Menu. PHL-103 or SOC-227 recommended.					
COM-101	Film as Art	3			Pre/co-requisite: ENG-111: College Writing I.
This course meets the General Education requirement for Creative Work.					

Total Credits: 15-16

Semester 1 Advising Note

- Semester 1 is typically the Fall Semester
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students, please consult with a Communication faculty member before registering.
- Students intending to use Mass Transfer are recommended to take quantitative math (MAT-174 Quantitative Reasoning)

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
ENG-112	College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing.					
COM-171	Public Speaking and Professional Communication	3			
COM-250	Analyzing Media I	3			ENG-095 and RDG-095 or ELL-103, or placement into ENG-111.
COM-254	Digital Media & Performance	3			Pre/Corequisite: COM-110.
Gen-Ed Elective	Behavioral or Social Sciences	3			
This course meets the General Education requirement for General Education Elective. Choose one PSY or SOC course. PSY-107 or SOC-101 is recommended.					

Total Credits: 15

Semester 2 Advising Note

- Semester 2 is typically the Spring Semester.
- Students, please consult with a Communication faculty member before registering.

Communication Concentration (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
COM-210	Interpersonal Communication	3			COM-110 .
GenEd-CW	Creative Work	3			
	This course meets the General Education requirement for Creative Work (Formerly Area 6)				
	Choose one course from Creative Work Menu. COM-102 American Cinema Recommended				
COM-299	Communication Internship	3			Pre/corequisites: COM-171 or permission from Chair.
	Placement must be decided upon with Communication faculty, with approval from the Chair.				
GenEd-SR	Scientific Reasoning	4			
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
	Choose one course from Scientific Reasoning Menu ENV-105 Environmental Science/Lab is recommended				
Elective	Behavioral Science Elective	3			
	Choose one PSY or SOC course PSY-219, SOC-227 or SOC-229 is recommended				
		<i>Total Credits:</i>	16		

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
Elective-1	Literature Elective	3			
	LIT-203 recommended.				
Elective-2	Concentration Elective	3			
	Choose one Concentration Elective: COM-102 American Cinema, COM-241 Introduction to Today's Journalism, COM-242 Multimedia Journalism, ENG-234 Literary Publishing, VMA-262 Video Techniques Lab, VMA-263: Video Concepts Lab				
Elective-3	Concentration Elective	3			
	Choose one Concentration Elective: COM-102 American Cinema, COM-241 Introduction to Today's Journalism, COM-242 Multimedia Journalism, ENG-234 Literary Publishing, VMA-262 Video Techniques Lab, VMA-263 Video Concepts Lab				
Elective-4	Lab Science Elective	4			
	ENV-110 Recommended				
Elective-5	Concentration Elective	3			
	Choose one Concentration Elective: COM-102 American Cinema, COM-241 Introduction to Today's Journalism, COM-242 Multimedia Journalism, ENG-234 Literary Publishing, VMA-262 Video Techniques Lab, VMA-263 Video Concepts Lab				
		<i>Total Credits:</i>	16		

Semester 4 Advising Note

- Students who are interested in journalism and media are encouraged to take COM-241, COM-242 and ENG-234.
- Students who are interested film studies and video production are encouraged to take COM-102 and VMA-262 OR VMA-263.
- Semester 4 is typically the Spring Semester.
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

Communication Concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Have an effective transfer path to a four-year college/university.
- Express foundational communication skills, such as public speaking, professional communication, clear argumentation, and critical reasoning.
- Write for a variety of purposes, adapting to varying audiences.
- Develop cultural and ethical competency, by engaging in human rights advocacy and effective intercultural communication.
- Conduct research in the field of communication.
- Earn hands-on skills in the field of communication through coursework and an internship.
- Understand the dynamics of communication in a global context.
- Enter the workforce upon graduation in journalism, media, film studies, video production, or other creative industry.
- Produce and edit video.

CAREER OUTLOOK

Students in this program will earn hands-on skills in the field of communication through coursework and an internship. Students are prepared to enter the workforce upon graduation in journalism, media, film studies, video production, or other creative industry. The program is suited for students who wish to pursue careers in the field of: Advertising, Broadcasting, Business, Communication, Education, Film, Journalism, Marketing, Politics, Public Relations, Social Media, and/or Video Production.

English Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society or Elective Elective	3			
HUM-120 satisfies the Learning Community Requirement or choose one college-level course as an elective.				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one course from Quantitative Problem Solving Menu				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from the Community and Cultural Contexts Menu				
Elective-2 Foreign Language Elective	3			
Choose one foreign language course				
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- General Education Requirement Creative Work satisfied by program.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
Elective Literature Elective	3			Pre/co-requisite: ENG-111.
Choose one LIT course				
Elective-1 Math Elective	3			MAT-097 or MAT-098 or placement.
Choose one college-level MAT course				
Elective-2 Foreign Language Elective	3			
Choose one foreign language course				
<i>Total Credits: 15</i>				

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

English Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
ENG-115 Writing Tutor Seminar I	3			Grade of B+ or better in ENG 111 or course equivalent, professor recommendation, interview and permission of ENG 115 instructor.
Elective-1 Behavioral Science Elective	3			
Choose one PSY or SOC course				
Elective-2 English Elective	3			
Choose one ENG course				
Elective-3 Literature Elective	3			Pre/co-requisite: ENG-111.
Choose one LIT course				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Choose one course from Scientific Reasoning Menu				
<i>Total Credits:</i>		16		

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
Elective-1 Literature Elective	3			Pre/co-requisite: ENG-111.
Choose one LIT course				
Elective-2 Literature Elective	3			Pre/co-requisite: ENG-111.
Choose one LIT course				
Elective-3 Elective	3			
Choose any course				
Elective-4 Social Science Elective	3			
Choose one HIS or GOV or PHIL or GEO course				
Elective-5 Laboratory Science Elective	4			
Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course				
<i>Total Credits:</i>		16		

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate competence as a writer. Write for a variety of purposes, adapting to various audiences.
- Demonstrate proficiency in critical thinking.
- Demonstrate a basic understanding of a language other than English.
- Demonstrate strong interpersonal communication skills.

CAREER OUTLOOK

Graduates of this concentration qualify to transfer to four-year institutions that prepare students for careers in teaching, journalism, public relations, and media communications. Students must complete a bachelor's degree and teaching certificate to pursue a teaching career. A bachelor's degree in English is a minimum requirement for entry level work in careers such as publishing, advertising, public relations, and journalism. In order to advance in some fields, graduate work may be required.

English: Creative Writing Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-203 Creative Writing Workshop	3			ELL-103 or ENG-095 or Higher. - Must be completed prior to taking this course.
✎ ENG-203 satisfies the Learning Community requirement.				
ENG-111 College Writing I	3	🚩	🎓	ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse.				
GenEd-QPS Quantitative Problem Solving	3-4	🚩	🎓	MAT-097 or MAT-098 or placement.
🎓 This course meets the General Education requirement for Quantitative Problem Solving.				
✎ Choose one course from the Quantitative Problem Solving Menu.				
GenEd-CCC Community & Cultural Contexts	3	🚩	🎓	
🎓 This course meets the General Education requirement for Community & Cultural Contexts.				
✎ Choose one course from the Community & Cultural Contexts Menu.				
Elective-1 Global Language Elective	3	🚩		
✎ Choose one course from Global Languages.				

Total Credits: 15-16

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community within their first year.
- General Education Requirement Creative Work satisfied by program.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3	🚩	🎓	ENG-111.
🎓 This course meets the General Education requirement for Research Writing.				
Elective-1 Global Language Elective	3			
✎ Choose one course from Global Languages.				
Elective-2 Literature Elective	3			Pre/co-requisite: ENG-111.
GenEd-E General Education Elective	3		🎓	Pre/co-requisite: ENG-111.
🎓 This course meets the General Education requirement for General Education Elective.				
✎ Students must take ENG-231, ENG- 232, ENG-233, or THR-115 to satisfy this requirement.				
Elective-3 Behavioral or Social Science Elective	3			
✎ Choose one PSY, SOC HIS, GOV, PHL, GEO, PSC, or REL course.				

Total Credits: 15

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop at the college transfer fair.

English: Creative Writing Option (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
Elective-1 Literature Elective	3			Pre/co-requisite: ENG-111.
Elective-2 Career Elective	3			
Choose one career elective course (ENG, LIT, COM, VMA, THR, or MUS; recommended: ENG-115, COM-171, COM-101, COM-102, MUS-208, or THR-109).				
ENG-231 Intro to Fiction Writing or ENG-232 Intro to Poetry Writing or ENG-233 Intro to Creative Nonfiction or THR-115 Playwriting	3			Pre/co-requisite: ENG-111.
Elective-3 Behavioral or Social Science Elective	3			
Choose one PSY, SOC HIS, GOV, PHL, GEO, PSC, or REL course.				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning.				
Choose one course from the Scientific Reasoning Menu.				
<i>Total Credits: 16</i>				
Semester 3 Advising Note				
<ul style="list-style-type: none"> Continue preparations for transfer: write essays for transfer institutions, collect letters of recommendation, apply for transfer. Complete a pre-graduation check with an advisor in LifeMap. 				
SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
ENG-234 Literary Publishing	3			Pre/co-requisite: ENG-111.
Elective-1 Literature Elective	3			Pre/co-requisite: ENG-111.
ENG-231 Intro to Fiction Writing or ENG-232 Intro to Poetry Writing or ENG-233 Intro to Creative Nonfiction or THR-115 Playwriting	3			Pre/co-requisite: ENG-111.
Elective-2 Career Elective	3			
Choose one career elective course (ENG, LIT, COM, VMA, THR, or MUS; recommended: ENG-115, COM-171, COM-101, COM-102, MUS-208, or THR-109).				
Elective 3 Lab Science Elective	4			
Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course.				
<i>Total Credits: 16</i>				
Semester 4 Advising Note				
<ul style="list-style-type: none"> Apply for graduation. 				

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co-requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

English: Creative Writing Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

Students graduating with an AA in English with the Creative Writing Option will be able to:

- Develop a creative writing portfolio in preparation for transfer to a four-year college or university.
- Collaboratively compose, edit, and publish a creative project.
- Demonstrate competence as a writer, composing for a variety of purposes, and in a variety of genres, adapting to various audiences.

- Demonstrate proficiency in critical thinking.
- Demonstrate a basic understanding of a language other than English.
- *Demonstrate strong interpersonal communication skills.

CAREER OUTLOOK

Graduates of English with the Creative Writing Option qualify to transfer to four-year institutions that prepare students for careers in writing, editing, teaching English or creative writing, content development, and publishing. These

students would be well-equipped to apply for BFA programs in Creative Writing or BA programs in English. (Students must complete a bachelor's degree and teaching certificate to pursue a teaching career.) A bachelor's degree in English is a minimum requirement for entry level work in careers such as publishing, content development, and other creative fields. In order to advance in some fields, graduate work may be required. Students interested in eventually pursuing a MFA in Creative Writing would benefit from this Option.

Global Languages Concentration

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites	
HUM-120	Self, Culture and Society	3	🚩			
✎ HUM-120: Satisfies the Learning Community Requirement						
Language Elective-1	101 Global Language-1	3	🚩			
✎ Example: FRE-101 Elementary French I						
Language Elective-2	101 Global Language-2	3	🚩			
✎ Example: SPN-101 Elementary Spanish I						
ENG-111	College Writing I	3	🚩	🎓	ENG-095 and RDG-095, ELL-103 or placement.	
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)						
GenEd-E	General Education Elective	3		🎓		
🎓 This course meets the General Education requirement for General Education Elective.						
✎ Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, or Elective Menus.						
		<i>Total Credits:</i>	15			

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year
- Heritage speakers should not take an elementary course. Consult with the department for appropriate placement.
- For some languages, the first part of a sequence is offered in the Fall and the second in the Spring.
- General Education requirements Creative Work satisfied by program.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites	
Language Elective-1	102 Global Language-1	3	🚩		Corresponding 101 Global Language or departmental approval.	
✎ Any Language 102						
Language Elective-2	102 Global Language-2	3	🚩		Corresponding 101 Global Language or departmental approval.	
✎ Any Language 102						
ENG-112	College Writing II	3	🚩	🎓	ENG-111.	
🎓 This course meets the General Education requirement for Research Writing (Formerly Area 1)						
GenEd-QPS	Quantitative Problem Solving	3-4		🎓	MAT-097 or MAT-098 or placement.	
🎓 This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)						
✎ Choose one MAT course from Quantitative Problem Solving Menu.						
GenEd-CCC	Community & Cultural Contexts	3		🎓		
🎓 This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2 and Area 3)						
✎ Choose one: GEO-101; REL-111; SOC-101; PSC-101; PSC-220. This course will meet the Behavioral and Social Sciences MassTransfer requirement						
		<i>Total Credits:</i>	15-16			

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Global Languages Concentration (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
Language Elective	201 Global Language	3			Prerequisite for 201 Global language: Global Language 102 level or departmental approval.
	or SPN-280 Spanish for Heritage Speakers				
	Example: SPN-201 Intermediate Spanish I				
LIT-211	Masterpieces of World Literature I	3			Pre/co-requisite: ENG-111.
Elective	History Elective	3			ESL-098 or RDG-095 and ENG-095; or ELL-103 earning a minimum grade of C or higher or placement.
	This course meets the General Education requirement for Community & Cultural Contexts.				
	Choose from HIS-102 or HIS-103 or HIS-111 or HIS-112				
General Elective	Elective	3			
	Choose one college level course.				
GenEd-SR	Scientific Reasoning	4			
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
	Choose one course from Scientific Reasoning Menu				
		<i>Total Credits:</i>	16		

Semester 3 Advising Note

- The Department has only Spanish and French at the intermediate level.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
Language Elective	202 Global Language	3			Global Language 201 level or departmental approval.
	Example: SPN-202 Intermediate Spanish II				
LIT-212	Masterpieces of World Literature II	3			Pre/co-requisite: ENG-111.
	Students should take LIT-211 beforehand.				
Elective-2	Mathematics Elective	3 or 4			MAT-097 or MAT-098 or placement.
	Choose one college level MAT course				
History Elective	Elective	3			ESL-098 or RDG-095 and ENG-095; or ELL-103 earning a minimum grade of C or higher or placement.
	This course meets the General Education requirement for Community & Cultural Contexts.				
	Choose from HIS-102 or HIS-103 or HIS-111 or HIS-112				
Elective	Lab Science Elective	4			
	Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course.				
		<i>Total Credits:</i>	16-17		

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Global Languages Concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- In one global language: Demonstrate intermediate listening and reading skills, basic oral skills, and express their thoughts and ideas in writing in an uncomplicated manner.
- In another global language: Demonstrate basic listening and reading skills, beginner oral skills, and express basic ideas in writing in an uncomplicated matter.
- Have a basic understanding of the world's literatures.
- Be culturally aware in two cultures.

CAREER OUTLOOK

The Global Languages concentration prepares students to transfer to four-year colleges or universities with a major in language, cultural studies, or literature. The interdisciplinary approach allows students to consider a career in international relations, law, sociology, anthropology, history, education, or in any other discipline within Social Sciences and Humanities. Graduates of this concentration may qualify to transfer using benefits of MassTransfer to a four-year state college or University of Massachusetts. Graduates of this concentration often qualify for careers that require bilingual skills.

Liberal Arts

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society	3			
<ul style="list-style-type: none"> This course satisfies Learning Communities Seminar requirement. HUM-120 meets the General Education Elective Requirement. HUM-120 satisfies the College's Learning Community Requirement.

Semester 4 Advising Note

- Students should consult their intended transfer institution to determine appropriate electives for this program.
- Apply for graduation

📅 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✎ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Discuss the interaction of history, culture, literature, economics, and science as studied within a broad liberal arts curriculum
- Develop skills as critical and creative thinkers, readers, and writers
- Construct ideas and arguments with intention, listen actively, and facilitate inclusive dialogue

- Discover interests, skills and values that may inform course selection, career choice and pathway to degree completion
- Demonstrate the ability to navigate a variety of digital tools that facilitate evaluation of information, creation of knowledge and expression of self
- Apply classroom learning to local and global challenges

CAREER OUTLOOK

Graduates of this concentration qualify for a variety of careers depending upon the chosen major. A bachelor's degree is the usual minimum requirement for entry into most fields. Graduate work may be necessary, as well.

Music Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
MUS-101 Music Fundamentals	3			ESL-088 and ESL-099 or RDG-090 and ENG-090 or ELL-101 or placement.
 Music elective may replace MUS-101 if a student passes a Challenge Exam. See the Department Chair for more information.				
MUS-180 Introduction to the Music Business	3			
 Satisfies Learning Communities requirement				
MUS-151 Piano I	2			
Elective Performance Ensemble Elective	1			
 See semester advising note				
MUS-195 Applied Music I or MUS-295 Applied Music II	1			
 See semester advising note				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 placement.
 This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
 Choose one MAT course from Quantitative Problem Solving Menu				

Total Credits: 16-17

Semester 1 Advising Note

- General Education Requirements Creative Work satisfied by program.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students with basic keyboarding skills may replace Piano I with Piano II (MUS-152). Those with intermediate or advanced keyboarding skills may satisfy this requirement with 2 or more credits of Music Electives. See the department Chair for more information.
- Performance Ensemble Elective: Students are required to take four credits of performance ensemble electives and may repeat these electives. Students may be required to audition for performance ensemble electives. See the department Chair for more information.
- Applied Music Elective: Students are required to take four credits of applied music electives and may repeat these electives. Students should register for the section of Applied Music that fits the instrument (or voice) they would like to study. An audition may be required. See the department Chair for more information.

Music Concentration (continued)

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
MUS-105 Music Theory and Aural Skills I	4			MUS-101 or Chair approval.
MUS-171 Introduction to Music Technology	3			
Elective Performance Ensemble Elective	1			
See semester advising note				
MUS-195 Applied Music I or MUS-295 Applied Music II	1			
See semester advising note				
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
<i>Total Credits:</i>		15		

Semester 2 Advising Note

- Performance Ensemble Elective: Students are required to take four credits of performance ensemble electives and may repeat these electives. Students may be required to audition for performance ensemble electives. See the department Chair for more information.
- Applied Music Elective: Students are required to take four credits of applied music electives and may repeat these electives. Students should register for the section of Applied Music that fits the instrument (or voice) they would like to study. An audition may be required. See the department Chair for more information.
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
MUS-106 Music Theory and Aural Skills II	4			MUS-105.
MUS-133 Music History I	3			MUS-101 and ESL-098 and ESL-099 or RDG-095 or ELL-103 and ENG-095 or placement or Chair approval.
Elective Performance Ensemble Elective	1			
See semester advising note.				
MUS-195 Applied Music I or MUS-295 Applied Music II	1			
See semester advising note.				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Choose any course from Scientific Reasoning Menu				
Elective-3 Behavioral or Social Science Elective	3			
Choose one PSY or SOC or HIS or GOV or PHIL or GEO course				
<i>Total Credits:</i>		16		

Semester 3 Advising Note

- Performance Ensemble Elective: Students are required to take four credits of performance ensemble electives and may repeat these electives. Students may be required to audition for performance ensemble electives. See the department Chair for more information.
- Applied Music Elective: Students are required to take four credits of applied music electives and may repeat these electives. Students should register for the section of Applied Music that fits the instrument (or voice) they would like to study. An audition may be required. See the department Chair for more information.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

Music Concentration (continued)

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
MUS-134 Music History II	3			MUS-133 or Chair approval.
Elective-1 Music Elective	3			
✎ Choose one course with a MUS prefix. MUS-130 is not a qualifying music elective.				
Elective-2 Performance Ensemble Elective	1			
✎ See semester advising note.				
MUS-195 Applied Music I or MUS-295 Applied Music II	1			
✎ See semester advising note.				
GenEd-E General Education Elective	3-4			
🎓 This course meets the General Education requirement for General Education Elective.				
✎ Choose a course from the Scientific Reasoning Menu				
Elective-4 Behavioral or Social Science Elective	3			
✎ Choose one PSY or SOC or HIS or GOV or PHIL or GEO course				
<i>Total Credits: 14-15</i>				

Semester 4 Advising Note

- Performance Ensemble Elective: Students are required to take four credits of performance ensemble electives and may repeat these electives. Students may be required to audition for performance ensemble electives. See the department Chair for more information.
- Applied Music Elective: Students are required to take four credits of applied music electives and may repeat these electives. Students should register for the section of Applied Music that fits the instrument (or voice) they would like to study. An audition may be required. See the department Chair for more information.
- Apply for graduation.

📅 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✎ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate foundational music skills suitable for a variety of situations including music notation and terminology, aural skills and sight-reading skills.
- Interpret core elements of a musical work.
- Demonstrate technical skills in various creative activities.
- Discuss the cultural context of music from a variety of styles and eras.
- Exhibit creativity and artistic sensitivity in their musical activity.
- Demonstrate facility in essential professional skills beyond those related to music.

CAREER OUTLOOK

The Music concentration provides the core skills that lead to a variety of careers related to music, including performance, music education, music production, composition, and music management. Graduates of this program qualify for entry-level positions in various sectors of the music industry. Additionally, graduates are well-prepared to transfer to bachelor's programs in a variety of specializations within music.

Theatre Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
HUM-120 Self, Culture and Society or Elective Elective	3			
HUM-120 satisfies the Learning Community Requirement OR Choose one college-level course as an elective.				
THR-107 Acting I	3			
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
THR-109 Play Production Workshop	3			THR-107.
COM-171 Public Speaking and Professional Communication	3			
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
Elective-1 Mathematics Elective	3-4			MAT-097 or MAT-098 placement.
Choose a college-level MAT course				
THR-108 Acting II	3			THR-107.
<i>Total Credits: 15-16</i>				

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Theatre Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
Elective-1 Theatre Elective	3			
✎ Choose a course with a prefix of THR (Elective may not be a required Theatre course)				
Elective-2 Behavioral or Social Science Elective	3			
✎ Choose one PSY or SOC or HIS or GOV or PHIL or GEO course				
Elective-3 Literature Elective	3			Pre/co-requisite: ENG-111.
✎ Choose one LIT course				
GenEd-SR Scientific Reasoning	4			
🎓 This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
✎ Choose any course from the Scientific Reasoning Menu				
Elective-4 Humanities Elective	3			
✎ Choose one course from Humanities Electives menu				
<i>Total Credits: 16</i>				

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
Elective-1 Theatre Elective	3			
✎ Choose a course with a prefix of THR (Elective may not be a required Theatre course)				
Elective-2 Elective	3			
✎ Choose one college level course				
Elective-3 Literature Elective	3			Pre/co-requisite: ENG-111.
✎ Choose one LIT course				
Elective-4 Behavioral or Social Science Elective	3			
✎ Choose one PSY or SOC course				
GenEd-E General Education Elective	4			
🎓 This course meets the General Education requirement for General Education Elective.				
✎ Choose a course from the Scientific Reasoning Menu				
<i>Total Credits: 16</i>				

Semester 4 Advising Note

- Apply for graduation

📅 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 🔗 This course has pre/co- requisites.
✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Apply fundamental technique to the practice of theatre
- Demonstrate the ability to engage in the collaborative process
- Create work that demonstrates artistic intent
- Express and understanding of the connection between theatre and society

CAREER OUTLOOK

Graduates of this concentration with a strong theatre background qualify for careers in all aspects of print and broadcast journalism; radio/TV production; dance and expressive movement; art and art therapies, as they are related to counseling and psychology; elementary and secondary teaching; communication; and literature.

Accounting Information Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
ACC-101	Principles of Accounting I	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
CIT-110	Applications/Concepts or	3	🚩		Prerequisites for CIT-110: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-133	Introduction to Microsoft Office				
MAT-181	Statistics	3	🚩		MAT-097 or MAT-098 or placement.
<i>Total Credits:</i>		9			

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
ACC-102	Principles of Accounting II	3	🚩		ACC-101.
ACC-105	Accounting Information Systems	3			ACC-101 and ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
CIT-234	Decision Support Using Microsoft Excel	3			CIT-110, CIT-113 or CSC-120.
<i>Total Credits:</i>		9			

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
ACC-201	Intermediate Accounting I	3	🚩		ACC-102.
Elective-1	Concentration Elective	3			
✎ Choose Concentration Elective from: ACC-202 Intermediate Accounting II, ACC-207 Cost Accounting I, ACC-203 Personal Income Tax, FIN-210 Financial Management, CIT-128 Database Design with Microsoft Access					
Elective-2	Concentration Elective	3			
✎ Choose Concentration Electives from: ACC-202 Intermediate Accounting II, ACC-207 Cost Accounting I, ACC-203 Personal Income Tax, FIN-210 Financial Management, CIT-128 Database Design with Microsoft Access					
<i>Total Credits:</i>		9			

Semester 3 Advising Note

- Gather recommendation letters from faculty and staff.
- Apply for graduation

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✎ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Describe and demonstrate an understanding of cash vs. accrual accounting.
- Compare and contrast different concepts of depreciation of property, plant and equipment assets.
- Explain in detail the nature of receivables, payables and inventory.
- Analyze and evaluate revenues, expenses cash flows, and behavior of cost.

- Assess and analyze integrated accounting systems, setup, and applications.
- Use spreadsheet models addressing a range of practical and business applications.
- Record transactions and input data from initial investment in the business cycle, ending entries that are necessary to ready the books for period-ending financial statements.
- Prepare and evaluate financial statements and process and maintain computerized records, accounts, and information.

CAREER OUTLOOK

This program qualifies graduates for entry-level accounting, billing, or advanced bookkeeping positions. Students may also transfer many of these courses into the following degrees: Associate in Science Degree: Business Administration Accounting option or Business Administration Management option.

Accounting Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
BUS-101 Introduction to Business	3			ESL-098 and ESL-099 or RDG-095 or ELL-103 and ENG-090 or placement.
Satisfies Learning Community Seminar Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one course from Quantitative Problem Solving Menu				
ACC-101 Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 or placement.
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Explore BHCC Student Activities offered i.e., BHCC's Entrepreneurship Club.
- Create and follow education plan.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
ACC-102 Principles of Accounting II	3			ACC-101.
BUS-201 Business Law I	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
MAN-112 Organizational Behavior and Design	3			ESL-098 and ESL-099 or RDG-095 or ELL-103 and ENG-090 or placement.
This course meets the General Education requirement for General Education Elective.				
ACC-105 Accounting Information Systems	3			ACC-101 and ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits: 15</i>				

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair
- Complete a volunteer activity in an area of interest.
- Learn about Alpha Beta Gamma (Business Honor Society) and Alpha Kappa Mu (General Honor Society).
- Inquire about the Commonwealth Honors Program.

Accounting Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
ACC-201	Intermediate Accounting I	3			ACC-102.
GenEd-SR	Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
ACC-203	Personal Income Tax	3			ACC-102.
ACC-207	Cost Accounting I	3			ACC-102.
ECO-201	Macroeconomics	3			Prerequisites for ECO-201 and ECO-202: MAT-097 or MAT-098 or RDG-095 or ELL-103.
ECO-202	Microeconomics				
This course meets the General Education requirement for Community & Cultural Contexts.					
<i>Total Credits:</i> 16					

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Develop a financial plan for continued education and life after graduation.
- Complete a pre-graduation check with an advisor in LifeMap.

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
ACC-202	Intermediate Accounting II	3			ACC-201.
GenEd-CW	Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)					
Choose one course from Creative Work Menu					
ACC-205	Volunteer Income Tax Assistance	3			ACC-203.
ACC-216	Managerial Accounting I	3			Prerequisites for ACC-216: ACC-207.
MAN-299	Business Internship				Prerequisites for MAN-299: Chair approval.
INT-299B	Learn and Earn Business Internship				Prerequisites for INT-299B: Chair approval.
MAN-105	Principles of Marketing	3			Prerequisites for MAN-105: ENG-090 or placement and ESL-098 or RDG-095 or ELL-103 or placement. Prerequisites for MAN-111: ESL-098 and ESL-099 or RDG-095 or ELL-103 and ENG-090 or placement.
MAN-111	Principles of Management				
<i>Total Credits:</i> 15					

Semester 4 Advising Note

- Gather recommendation letters from faculty and staff.
- Apply for Graduation.
- Finalize your resume and upload it to your ePortfolio and LinkedIn website.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand all variables that are relevant to preparing individual tax returns at both the state and federal levels.

- Prepare a set of financial statements for a service, merchandising, or manufacturing business that is structured as either a proprietorship, partnership, or corporation.
- Analyze a set of financial statements to determine the strengths or weaknesses of the business.

- Understand the importance of cash flow within a business and account for its use and source in evaluating the effectiveness of managerial decisions.

CAREER OUTLOOK

This option qualifies graduates to enter the accounting profession in entry-level positions.

Administrative Support Specialist

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
OIM-103	MS Word	3			
<p> OIM-103 is a pre/co-requisite to the program. It should be taken prior to the first semester. An exemption exam is available. Contact BHCC's Prior Learning Assessment coordinator at pla@bhcc.edu to learn more.</p>					
CIT-110 or CIT-133	Applications/Concepts or Introduction to Microsoft Office	3			Prerequisites for CIT-110: ESL-098 or RDG-095 or ELL-103 or Chair approval.
OIM-132	Administrative Business Communications I	3			ENG-095 or placement and OIM-103 or OIM-101.
		<i>Total Credits:</i>	9		

Semester 1 Advising Note

- This program is considered a DAY program. Some courses in this program are offered as hybrid or Web (online). See the OIM Coordinator for details if you have specific limitations in scheduling.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-234	Decision Support Using Microsoft Excel	3			CIT-110 or CIT-113 or CIT-120 or Chair approval.
CIT-118	Principles of Internet & Information Security	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-128 or CIT-250	Database Design or Collaboration, Communication and Integration	3			Prerequisites for CIT-128: CIT-110 or CIT-113 or CSC-120 or Chair approval. Prerequisites for CIT-250: CIT-110 or CIT-113 or Chair approval .
OIM-106	Records and Information Management	3			Pre-co-requisite: CIT-110 or CIT-133.
		<i>Total Credits:</i>	12		

Semester 2 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate proficiency in computer and software applications.
- Use the complete range of Microsoft Office applications in an efficient manner.
- Demonstrate the ability to use various communication mediums

CAREER OUTLOOK

Graduates of this program may qualify for entry-level positions such as receptionists, data-entry clerks, word processing specialists, office assistants, or customer service representatives in a wide range of small and large organizations. More experienced graduates may obtain positions as executive assistants or office managers. Students qualify to take the MS Office certification exam at the end of the program.

Business Transfer Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
BUS-101 Introduction to Business	3			ESL-098 and ESL-099 or RDG-095 or ELL-103 and ENG-090 or placement.
Satisfies the Learning Community Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
Elective Career Elective	3			
Choose any ACC, BUS, FIN or MAN prefixed course				
CIT-110 Applications/Concepts	3			ESL-098, RDG-095 or ELL-103 or placement.
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
<i>Total Credits:</i> 15				

Semester 1 Advising Note

- BUS-101: New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Explore BHCC Student Activities offered i.e., BHCC's Entrepreneurship Club.
- Create and follow an Education Plan with an Academic Advisor.

Medical Information Management Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
OIM-103 MS Word	3			
✎ OIM-103 is a pre-requisite or co-requisite to the program, which should be taken prior to or during the first semester. An exemption exam is available through the Center for Self-Directed Learning (H-165) for students who type 40 words per minute or more with accuracy and know MS Word and document format.				
OIM-105 Skills for the Administrative Success	3			ENG-095 and RDG-095 or ELL-103 or ESL-098 or placement; Pre/co-requisite of OIM-103.
✎ Satisfies the Learning Community Requirement				
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
NHP-180 Medical Terminology	3			
OIM-132 Administrative Business Communications I	3			ENG-095 or ELL-103 or placement, and OIM-103 or OIM-101.
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- Some courses in this program are offered as hybrid or Web (online).
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
OIM-106 Records and Information Management	3			Pre/co-requisite: CIT-110 or CIT-133.
OIM-112 MS Word II	3			OIM-103 and CIT-110 or Chair approval.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
OIM-200 Introduction to Physicians' Billing	3			Pre/co-requisite: NHP-180.
OIM-190 Medical Information Management	3			Pre/Co-requisite: OIM-103 or OIM-101.
<i>Total Credits:</i>		15		

Semester 2 Advising Note

- Some courses in this program are offered as hybrid or Web (online). Web (online) courses do not meet with the instructor - these courses involve extensive reading and independent work on assignments. For some courses, students need to come to campus to take exams.

Medical Information Management Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
OIM-232	Administrative Business Communications II	3			OIM-130 or OIM-132 and Pre/co-requisite OIM-106 and OIM-112 or OIM-110 or OIM-101 and OIM-115 or Chair approval.
	This course must be taken during the fall semester prior to enrolling OIM-299 and requires Chair approval.				
CIT-118	Principles of Internet & Information Security	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
ENG-112	College Writing II	3			ENG-111.
	This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CIT-128 CIT-250	Database Design OR Collaboration, Communication and Integration	3			CIT-110 or CIT-113 or CSC-120 or Chair approval. CIT-110 or CIT-113 or Chair approval.
OIM-115	Administrative Technology and Procedures	3			Pre/co requisites: OIM-103 and CIT-110.
		<i>Total Credits:</i>	15		

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
OIM-299	Office and Information Management Internship	3			OIM-232 and Chair approval.
	The internship involves 150 hours within a medical office. With prior approval from the OIM coordinator, students with a minimum of one year in a medical administrative position complete a portfolio in place of the internship.				
GenEd-CCC	Community & Cultural Contexts	3			
	This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
	PSY-107 is recommended				
GenEd-QPS	Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
	This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
	Choose one MAT course from Quantitative Problem Solving Menu.				
GenEd-E	General Education Elective	3			
	This course meets the General Education requirement for General Education Elective.				
	Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
GenEd-SR	Scientific Reasoning	4			
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
	Choose one course from Scientific Reasoning Menu				
GenEd-CW	Creative Work	3			
	This course meets the General Education requirement for Creative Work (Formerly Area 6)				
	Choose one course from Creative Work Menu				
		<i>Total Credits:</i>	19-20		

Semester 4 Advising Note

- Apply for graduation

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.  This course has pre/co-requisites.
 Advising note or suggestion regarding this course.  This course satisfies General Education requirement.

Medical Information Management Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate proficiency in computer operations and software applications unique to a medical setting.
- Demonstrate proficiency in understanding and using medical terminology.
- Use the complete range of Microsoft applications effectively and efficiently.
- Demonstrate proficiency in medical office operations and communication media

CAREER OUTLOOK

Graduates of this option qualify for job opportunities in physicians' and dentists' offices, clinics, HMOs, community health agencies, long-term care facilities, and hospitals. Students also qualify for jobs in large corporations that provide on-site health services, engage in medical research, or produce medical products. Graduates qualify for entry-level positions such as medical receptionists, medical records management specialists, medical office managers, patient service representatives, and medical administrative assistants. Students also may qualify for at-home opportunities as medical transcriptionists.

Medical Laboratory Assistant Certificate Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	High School diploma or GED				
Session	Attend Mandatory information session				
BIO-108	Human Biology/Lab	4			MAT-093 and RDG-095 or ESL-099 and ENG-095 or ELL-103 or placement.

✎ Complete the course with a grade of C or better.

Total Credits: 4

Admission Requirements Advising Note

Students are encouraged to meet with the Program Director to discuss the application process and to explore the profession.

If you are accepted into the program, you must complete the following steps:

- Complete a CORI Form during the first semester in the Program.
- Complete the first page of a Student Health Form – this form must go to your doctor, and when completed, must be brought to Room E154 at the Charlestown Campus of BHCC. Health clearance is required to participate in clinical internships.

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
MLA-120	Medical Terminology for the Clinical Laboratory Professional	1	🚩		Admission to Program.
MLA-121	Phlebotomy and Specimen Processing	4	🚩		Admission to Program.
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
		Total Credits:	8		

Semester 1 Advising Note

MLA-120 and MLA-121 must be completed with a B- or higher.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
MLA-222	Clinical Laboratory Techniques	4	🚩		MLA-120 and MLA-121 *see note.
BIO-203	Anatomy and Physiology/Lab I	4			BIO-105 or BIO-108 or BIO-195.
		Total Credits:	8		

Semester 2 Advising Note

*Note: MLA-120 and MLA-121 must be completed with a grade of B- or higher.

SEMESTER 3 SUMMER		Credits	Milestone	GenEd	Prerequisites
MLA-223	Clinical Practicum	4			MLA-121 and MLA-222.
✎ MLA-222 must be completed with a grade of B- or higher.					
MAT-181	Statistics	3			MAT-097 or MAT-098.
		Total Credits:	7		

Semester 3 Summer Advising Note

*Note: MLA-222 must be completed with a grade of B- or higher.

- 🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 🔗 This course has pre/co- requisites.
 ✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

Medical Information Management Assistant Certificate Program

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Develop an attitude of professionalism and be knowledgeable of the ethical considerations of dealing with patient and laboratory information.
- Correctly perform basic venipuncture techniques using a variety of blood drawing apparatuses.
- Explain the proper method to process and store various specimens used for laboratory testing.

- Understand the basic principles of sport management as they relate to legal issues, managing and marketing a sports organization, communications and administration.

CAREER OUTLOOK

This option prepares students to seek employment in many entry-level positions in the areas of health and fitness, sport and leisure, park and recreation and the professional sport industry including opportunities in the management of professional, college, secondary school and community sports.

Cisco Systems CCNA (Fast-Track) Certificate Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CIT-110 Applications/Concepts or CIT-113 Information Technology Problem Solving or CIT-182 PC Hardware and Software	3			ESL-098 or RDG-095 or placement.
CIT-162 Cisco Networking I	3	■		ESL-098 or RDG-095 or placement.
CIT-167 Cisco Networking II	3	■		CIT-162.
CIT-267 Cisco Networking III	3	■		CIT-167.
CIT-274 Cisco Networking IV	3	■		CIT-267.
OIM-100 PC Keyboarding Techniques	1			
<i>Total Credits:</i>		16		

Semester 1 Advising Note

- In order to complete the Fast Track (FT) certificate in one semester, students must register for FT courses.
 - Alternatively, if a student has successfully finished one of the Networking courses previously in any other format (full semester or web), the student may complete the remaining courses as FT courses.
 - CIT-162 Cisco Networking I must be taken before registering for Networking II OR Networking III OR
- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ⚙ This course has pre/co-requisites.
- ✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Qualified to apply for positions as entry-level network technicians.
- Prepared to take the Cisco CCNA Certification Examination(s).

Computer Information Systems Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CIT-110 Applications/Concepts or CIT-113 Information Technology Problem Solving	3			Prerequisites for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-113 satisfies the Learning Community Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
ACC-101 Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 or placement.
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one course from Quantitative Problem Solving Menu				
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students taking 9 or more credits should take CIT-113

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CSC-125 Python Programming	3			C or better in CIT-110, CIT-113, CSC-120, OR CMT-121.
ACC-102 Principles of Accounting II	3			ACC-101.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
ECO-202 Microeconomics	3			MAT-097 or MAT-098 and ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Elective Mathematics Elective	3-4			MAT 097 or MAT-098 or placement.
Choose one college-level MAT course				
<i>Total Credits: 15-16</i>				

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Computer Information Systems Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CSC-225 Advanced Python Programming	3			Complete CSC-125 with a grade of C or better.
ECO-201 Macroeconomics	3			MAT-097 or MAT-098 and ESL-098 or RDG-095 or ELL-103 or placement.
Elective-1 Literature Elective	3			Pre/co-requisite: ENG-111.
✎ Choose one LIT course				
Elective-2 Computer Elective	3-4			
✎ Computer Elective Options: CIT-118 Principles of Internet and Information Security, CCS-120 Introduction Computer Sci/Object Oriented Programming (OOP), CIT-128 Database Design with MS Access, CIT-162 CISCO Networking, CSC-242 Data Structures, CIT-268 Windows Op Systems, CSC-284 Advanced C++/OOP				
GenEd-SR Scientific Reasoning	4			
🎓 This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
✎ Choose one course from Scientific Reasoning Menu				
<i>Total Credits: 16-17</i>				

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
Elective-1 Computer Elective	3-4			
✎ Computer Elective Options: CIT-118 Principles of Internet and Information Security, CSC-120 Introduction Computer Sci/Object Oriented Programming (OOP), CIT-128 Database Design with MS Access, CIT-162 CISCO Networking, CSC-242 Data Structures, CIT-268 Windows Op Systems, CSC-284 Advanced C++/OOP				
GenEd-CW Creative Work	3			
🎓 This course meets the General Education requirement for Creative Work (Formerly Area 6)				
✎ Choose one course from Creative Work Menu				
Elective-2 Behavioral Science Elective	3			
✎ Choose one PSY or SOC course				
Elective-3 Lab Science Elective	4			
✎ Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course				
Elective-4 Literature Elective	3			Pre/co-requisite: ENG-111.
✎ Choose one LIT course				
Elective-5 Mathematics Elective	3-4			MAT 097 or MAT-098 or placement.
✎ Choose one college-level MAT course				
<i>Total Credits: 19-21</i>				

Semester 4 Advising Note

- Apply for graduation

📅 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 📌 This course has pre/co- requisites.
✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Analyze the system needs of an organization.
- Make feasible recommendations for computer solutions that meet those needs.

CAREER OUTLOOK

Graduates of this concentration can transfer to bachelor's programs at four-year colleges.

Computer Support Specialist Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-110	Applications/Concepts	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
CIT-133	Introduction to Microsoft Office	3	🚩		
CIT-162	Cisco Networking I	3			ESL-098 or RDG-095 or ELL-103 or placement.
CIT-182	PC Hardware and Software	3			RDG-095 or ELL-103 or ESL-098 or placement.
OIM-100	PC Keyboarding Techniques	1			
		<i>Total Credits:</i>	13		

Semester 1 Advising Note

- Students can also complete the Challenge Exam for OIM-100. Please email pla@bhcc.edu for more information.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-118	Principles of Internet & Information Security	3	🚩		CIT-110 or CIT-113 or CIT-120 or Chair approval.
CIT-230	Help Desk Techniques	3	🚩		CIT-110 or Chair approval.
CIT-233	Advanced MS Office	3	🚩		CIT-110 or CIT-113 or CIT-133 or Chair approval.
CIT-268	Windows Operating Systems	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
		<i>Total Credits:</i>	12		

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Have the skill set necessary to take the Comp TIA A+ Certification Examination.
- Understand help desk, Internet support, hardware and other entry level IT support professions.

CAREER OUTLOOK

Graduates of this program qualify for entry-level support positions in hardware support and troubleshooting, help desk, and other Internet support positions.

Computer Support Specialist Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CIT-110 Applications/Concepts or CIT-113 Information Technology Problem Solving	3			Prerequisites for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-113 satisfies the Learning Community Requirement				
CIT-133 Introduction to Microsoft Office	3			
CIT-162 Cisco Networking I	3			RDG-095 or ELL-103 or ESL-098 or placement.
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
OIM-100 PC Keyboarding Techniques	1			
Students can also complete the Challenge Exam for OIM 100. For more information contact the Prior Learning Assessment coordinator, pla@bhcc.mass.edu.				

Total Credits: 16

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community cluster within their first year

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CIT-118 Principles of Internet & Information Security	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
CIT-233 Advanced MS Office	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
GenEd-QPS Quantitative Problem Solving	3			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one MAT course from Quantitative Problem Solving Menu				
CSC-216 Visual Basic	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.

Total Credits: 15

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.

Computer Support Specialist Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
CIT-182	PC Hardware and Software	3			ESL-098 or RDG-095 or ELL-103 or placement.
ENG-112	College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)					
CIT-299C	Computer Technology Internship	3			Chair approval.
GenEd-SR	Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
Choose one course from Scientific Reasoning Menu					
ACC-101	Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.

Total Credits: 16

Semester 3 Advising Note

- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CIT-250	Collaboration, Communication and Integration in MS Office Applications	3			CIT-110 or CIT-113 or Chair approval.
GenEd-E	General Education Elective	3			
This course meets the General Education requirement for General Education Elective.					
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.					
CIT-230	Help Desk Techniques	3			CIT-110 or Chair approval.
COM-171	Public Speaking and Professional Communication	3			
CIT-268	Windows Operating Systems	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.

Total Credits: 15

Semester 4 Advising Note

- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Take the Comp TIA A+ Certification Examination.
- Understand help desk, Internet support, hardware and other entry level IT support professions.

CAREER OUTLOOK

Graduates of this option may qualify for entry-level support positions in hardware support, trouble-shooting, help desk, Microsoft applications and other Internet support positions.

Cybersecurity Option

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-110	Applications/Concepts or	3			Prerequisites for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-113	Information Technology Problem Solving				
	CIT-113 satisfies the Learning Community requirement.				
CIT-162	Cisco Networking I	3			ESL-098 or RDG-095 or ELL-103 or placement.
CIT-182	PC Hardware and Software	3			RDG-095 or ELL-103 or ESL-098 or placement.
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
	This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-QPS	Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
	This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
	Choose one MAT course from Quantitative Problem Solving Menu.				
<i>Total Credits: 15-16</i>					

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-118	Principles of Internet & Information Security	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-268	Windows Operating Systems	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-121	Introduction to Computer Forensics	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-167	Cisco Networking II	3			CIT-162.
ENG-112	College Writing II	3			ENG-111.
	This course meets the General Education requirement for Research Writing (Formerly Area 1)				
<i>Total Credits: 15</i>					

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities

SUMMER SEMESTER		Credits	Milestone	GenEd	Prerequisites
GenEd-CCC	Community & Cultural Contexts	3			
	This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
<i>Total Credits: 3</i>					

Cybersecurity Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
CIT-264	Networking Security	3			CIT-162.
CIT-219	Information Security and Assurance	3			CIT-268.
CSC-125	Python Programming	3			CIT-113 or CIT-110 or CSC-120 or CMT-121.
Elective	CIT Elective	3-4			

Elective Options:

CIT-221 Advanced Computer Forensics, CSC-225 Adv Python Programming, CIT-262 Wireless Technology, CIT-267 CISCO Networking III, CIT-270 Linux Administration/Lab, CIT-274 CISCO Networking IV, CIT-282 MS Windows Administration/Lab, CRJ-245 Cyber Crime-Justice in the Virtual World

GenEd-SR	Scientific Reasoning	4			
----------	----------------------	---	--	--	--

This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)

Choose one course from the Scientific Reasoning Menu

Total Credits: 16-17

Semester 3 Advising Note

- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CIT-273	Ethical Hacking	4			CIT-268 or CIT-270 or Chair approval.
CIT-275	Information Security Seminar	3			Pre/co-requisite: CIT-273.
Elective	CIT Elective	3-4			

Elective Options:

CIT-221 Advanced Computer Forensics, CSC-225 Adv Python Programming, CIT-262 Wireless Technology, CIT-267 CISCO Networking III, CIT-270 Linux Administration/Lab, CIT-274 CISCO Networking IV, CIT-282 MS Windows Administration/Lab, CRJ-245 Cyber Crime-Justice in the Virtual World

GenEd-E	General Education Elective	3			
---------	----------------------------	---	--	--	--

This course meets the General Education requirement for General Education Elective.

Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.

GenEd-CW	Creative Work	3			
----------	---------------	---	--	--	--

This course meets the General Education requirement for Creative Work (Formerly Area 6)

Choose one course from Creative Work Menu

Total Credits: 16-17

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand network protocols and routing.
- Understand commonly used network services - DNS, mail, web, etc. as well as less common network services.
- Perform packet analysis and be able to identify malformed packets.
- Understand differences between various operating systems - which OS an event came from and which OS is vulnerable to a certain attack.
- Define the types of malicious software found in modern networks.

- Explain the threats and countermeasures for physical security and social engineering.
- Perform footprinting, port scans, and enumeration on a network.
- Perform very simple programming in C, HTML, and Perl, specifically oriented towards the needs of network security professionals.
- Identify Microsoft Windows vulnerabilities and to harden systems.
- Identify Linux vulnerabilities and to protect servers.
- Describe and deploy security devices, including routers, firewalls, Intrusion Detection Systems, and honeypots.

- Describe the ethics associated with the use of hacking or penetration testing tools and techniques.

CAREER OUTLOOK

The option is designed to align with the National Institute of Technology and Standards' (NITS) National Initiative for Cybersecurity Education Cybersecurity Workforce Framework to ensure consistent, current, and flexible training in the growing technology field of Information Security. Graduates of this option will qualify for positions as entry-level information security professionals.

Data Analytics Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-113	Information Technology Problem Solving	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
MAT-181	Statistics	3	🚩		MAT-097 or MAT-098 or placement.
<i>Total Credits:</i>		6			

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CSC-236	SQL Programming	3	🚩		CIT-110 or CIT-113 or CSC-120 or CMT-125 or Chair approval.
CIT-137	Introduction to Big Data with R and R Studio	4	🚩		CIT-110 or CIT-113 or CSC-120 or Chair Approval.
CIT-234	Decision Support Using Microsoft Excel	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-268	Windows Operating Systems	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
<i>Total Credits:</i>		13			

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
CSC-125	Python Programming	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-187	Data Analytics and Predictive Analysis	3	🚩		CIT-137 and MAT-181.
CSC-240	Database Programming	3	🚩		CSC-236.
<i>Total Credits:</i>		9			

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. 📝 Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design and code complex queries in SQL and PSQL
- Demonstrate the use of procedures, cursors, triggers, collections, and manipulation of tables
- Utilize existing databases, and convert the data into analyzable formats in R and Python
- Demonstrate the use of Pandas and scikit-learn libraries in Python
- Design basic algorithms associated with machine learning such as CART and Regression in R

CAREER OUTLOOK

Students who complete this program will be prepared for internships and entry-level data analysis positions in a wide variety of companies and organizations.

Data Analytics Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CIT-113 Information Technology Problem Solving	3			ESL-098 or RDG-095 or ELL-103 or placement.
MAT-181 Statistics	3			MAT-097 or MAT-098 or placement.
MAT-197 Pre-Calculus	4			MAT-194 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse.				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning.				
Choose one course from the Scientific Reasoning Menu				
<i>Total Credits:</i> 17				

Semester 1 Advising Note

Equivalent courses for CIT-113 are CIT-110 Applications and Concepts or CSC-120 Introduction to Computer Science and Object Oriented Programming.

There is a hidden prerequisite for MAT-197 (MAT-194 College Algebra for STEM), but students can place into the course. Students who place into MAT-281 (Calculus I) must replace MAT-197 with an elective.

General Education requirement Quantitative Problem Solving satisfied by program.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CSC-236 SQL Programming	3			CIT-110 or CIT-113 or CSC-120 or CMT-125 or Chair approval.
CIT-137 Introduction to Big Data with R and R Studio	4			CIT-110 or CIT-113 or CSC-120 or Chair Approval.
CIT-234 Decision Support Using Microsoft Excel	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
MAT-281 Calculus I	4			MAT-197 or placement.
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts.				
Choose one course from the Community and Contexts Menu				
<i>Total Credits:</i> 17				

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CSC-125 Python Programming	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
MAT-291 Linear Algebra	4			MAT-281.
CIT-187 Data Analytics and Predictive Analysis	3			CIT-137 and MAT-181.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing.				
CSC-240 Database Programming	3			CSC-236 or Chair approval.
<i>Total Credits:</i> 16				

Data Analytics Option (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CIT-130	Data Visualization	3			
CIT-268	Windows Operating Systems	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
GenEd-CW	Creative Work	3			
	This course meets the General Education requirement for Creative Work.				
	Choose one course from General Education Program Menu				
CSC-225	Advanced Python Programming	3			CSC-125.
GenEd-E	General Education Elective	4			
	This course meets the General Education requirement for General Education Elective.				
	Choose one four credit Science/Lab course (see semester four advising note)				

Total Credits: 16

Semester 4 Advising Note

GenEd-E To satisfy MassTransfer STEM program requirements, students are required to earn seven credits in the Natural/Physical Sciences.

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

 This course has pre/co- requisites.  Advising note or suggestion regarding this course.

 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Collect, clean and prepare data from various sources for analysis.
- Utilize R and Python computer languages to generate insight from data.

- Handle data with an ethically conscious approach and understanding.
- Select the correct data visualization to communicate findings and recommendations.
- Select appropriate data visualizations to clearly communicate insights to various stakeholders.

CAREER OUTLOOK

Graduates of this option will be qualified to pursue internships or junior data practitioner jobs in the field of data analytics.

Data Management (Fast-Track) Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-110	Applications/Concepts or				Prerequisites for CIT-110: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-113	Information Technology Problem Solving or	3-4	🚩		Prerequisites for CIT-113: RDG-095 or ELL-103 or ESL-098 or placement.
CSC-120	Intro to Computer Science and Object Oriented Programming				Prerequisites for CSC-120: ENG-095 and RDG-095 or ELL-103 or ESL-098 and MAT-099 or placement.
		<i>Total Credits:</i>	3-4		

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
MAT-181	Statistics	3	🚩		MAT-097 or MAT-098 or placement.
CIT-137	Introduction to Big Data with R and R Studio	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CSC-236	SQL Programming	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-234	Decision Support Using Microsoft Excel	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
		<i>Total Credits:</i>	12		

Semester 2 Advising Note

- Apply for graduation

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design and code complex queries.
- Find databases, and convert the data into readable and analyzable formats.
- Support Excel functions and databases.
- Support basic data gathering and manipulation with R programming.

CAREER OUTLOOK

Graduates of this program qualify for entry-level database and spreadsheet support positions in a wide range of organizations.

Electric Power Utility Program – A Partnership with EVERSOURCE

In partnership with EVERSOURCE and Local 369 UWUA, BHCC offers a two-year accredited Associate in Science Degree with a focus on Electric Power Utility Technology. Most classroom course work takes place at BHCC. Students receive continuous hands-on training at EVERSOURCE labs and during required internships.

Electric Power Utility Technology (EPUT) Program Requirements

Students must apply to the Electric Power Utility program through Enrollment Management and Admissions and complete an Eversource application which may be found at tbcdn.talentbrew.com/company/7774/FULL_v1_0/docs/EPUT-Application-2018-2019.pdf.

This two-year program of study includes approximately 12 weeks paid internship with Eversource for students who maintain a C or higher in all courses.

Students in this program must successfully pass any random drug or alcohol screening tests mandated by EVERSOURCE during the program; successfully complete all appropriate Skills Aptitude Tests administered by EVERSOURCE; and maintain safety skills to EVERSOURCE criteria as per OSHA 1910 and OSHA 1926 directives. Qualified applicants must pass additional physical and mechanical testing.

Graduates of the program in good standing at Eversource will have the opportunity to interview with Eversource for a potential job.

Careers and Salaries

During break, students in the Electric Power Utility program participate in a paid ten to twelve week work experience at Eversource while they complete a for-credit internship course. Students are paid \$14 an hour.

After completing this degree option, students receive an associate in science degree and a certificate in Natural Gas Technology. They will have the experience and qualifications needed to launch a career in electric and gas.

The current starting salary range for laborers in Massachusetts is approximately \$30 an hour, with additional compensation for overtime.

Tuition Assistance

Eversource offers tuition assistance to enrolled students up to \$600 per semester.

For more information visit bhcc.edu/eput.

Electric Power Utility Technology Program

ADMISSION REQUIREMENTS		Credits	Milestone	GenEd	Prerequisites
Diploma	Possess a High School Diploma or GED				
Other	See Admissions Requirements below				
Test	Take College Placement Test				
MAT-097	Fundamentals of Algebra	3			
	Completion of MAT-097 or higher placement				
ENG-095	Writing Skills II	3			
	Completion of ENG-095 or higher placement				
		<i>Total Credits:</i>	6		

Admission Requirements Advising Note

- If you meet the academic requirements for BHCC you will receive an email from Eversource with next steps to continue with the application process. For more info - <https://jobs.eversource.com/student-programs#electric-power-utility>
- As a prerequisite for internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
	This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-193	Topics in Algebra and Trigonometry	3			MAT-097 or placement.
EPU-101	DC Circuit Theory/Lab	4			Pre/co-requisite: MAT-193.
EPU-151	Fundamentals of Single Phase and Poly Phase Metering	4			Acceptance into the program.
CIT-110	Applications/Concepts	3			ESL-098 or RDG-095 or placement.
		<i>Total Credits:</i>	17		

Semester 1 Advising Note

- Courses with EPU, MAT and PHY prefixes must be taken and completed as indicated in the program map.
- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
ENG-112	College Writing II	3			ENG-111.
	This course meets the General Education requirement for Research Writing (Formerly Area 1)				
PSY-107	Group Dynamics	3			
	This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 Area 3)				
EPU-104	AC Circuit Theory/Lab	4			EPU-101.
EPU-205	Introduction to Substation Operations	4			Acceptance into the program.
		<i>Total Credits:</i>	14		

Semester 2 Advising Note

- Courses with EPU, MAT and PHY prefixes must be taken and completed as indicated in the program grid.

SUMMER SEMESTER		Credits	Milestone	GenEd	Prerequisites
EPU-251	Electric Power/Utility Tech Internship	3			PSY-107 and EPU-151 and ENG-111.
		<i>Total Credits:</i>	3		

Excel Applications Support Specialist Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-110	Applications/Concepts	3	🚩		Prerequisites for CIT-110: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-112	Information Technology Fundamentals				
CIT-133	Introduction to Microsoft Office	3	🚩		
CIT-162	Cisco Networking I	3	🚩		RDG-095 or ELL-103 or ESL-098 or placement.
CIT-182	PC Hardware and Software	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
OIM-100	PC Keyboarding Techniques	1			

✎ See semester note

Total Credits: 13

Semester 1 Advising Note

- Students can also complete the Challenge Exam for OIM-100. Please email pla@bhcc.edu for more information.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-118	Principles of Internet & Information Security	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-230	Help Desk Techniques	3	🚩		CIT-110 or Chair approval.
CIT-234	Decision Support Using Microsoft Excel	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-250	Collaboration, Communication and Integration in MS Office Applications	3			CIT-110 or CIT-113 or CSC-120 or Chair approval.
ACC-101	Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 or placement.

Total Credits: 15

Semester 2 Advising Note

- Apply for graduation

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co-requisites. ✎ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use spreadsheet models, analyze and evaluate revenues, expenses and cash flows.
- Understand and utilize collaboration techniques of the Microsoft Office Suite.
- Understand the requirements of securing data and computer systems.

CAREER OUTLOOK

Most organizations, across all industry segments have increased utilization of Excel software. As a result, the employment prospects for students completing this certificate program are extremely high. Over 1,500 requests for Excel skills can be found through Boston-area searches of job placement websites.

Health Information Networking Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites	
CIT-110	Applications/Concepts or	3	🚩		Prerequisite for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement .	
CIT-113	Information Technology Problem Solving or					
CIT-182	PC Hardware and Software					
CIT-162	Cisco Networking I	3	🚩		ESL-098 or RDG-095 or placement.	
		<i>Total Credits:</i>	6			

Semester 1 Advising Note

- CIT-182 is the equivalent to Cisco's IT Essentials A+
- CIT-162 is the equivalent to Cisco's CCNA R&S Semester 1
- Upon completion of CIT-182, prepare and take the CompTIA A+ certifications
- Speak to an Advisor about internship and career opportunities.
- To accelerate take CIT-162 and CIT-167 as a mini session if offered or the Fast Track classes.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites	
CIT-167	Cisco Networking II	3	🚩		CIT-162.	
		<i>Total Credits:</i>	3			

Semester 2 Advising Note

- CIT-167 is the equivalent to Cisco's CCNA R&S Semester 2
- Upon completion of CIT-167, prepare and take the Cisco Certified Networking Technician certification.
- Speak to an Advisor about internship and career opportunities.

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites	
CIT-267	Cisco Networking III	3			CIT-167.	
CIT-277	Health Information Networking	3			CIT-167.	
CIT-279	Cisco CCNA Security	3			CIT-167.	
		<i>Total Credits:</i>	9			

Semester 3 Advising Note

- CIT-267 is the equivalent to Cisco's CCNA R&S Semester 3
- CIT-274 is the equivalent to Cisco's CCNA R&S Semester 4
- CIT-279 is the equivalent to Cisco's CCNA Security
- Upon completion of CIT-274, prepare and take the Cisco Certified Networking Associate certification and/or
- Upon completion of CIT-279 prepare and take the Cisco CCNA Security certification
- Speak to an Advisor about internship and career opportunities.

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites	
CIT-274	Cisco Networking IV	3			Co-requisite: CIT-267 or Chair approval.	
		<i>Total Credits:</i>	3			

Semester 4 Advising Note

- Apply for graduation

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 📎 This course has pre/co- requisites.
✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

Health Information Networking Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Apply for entry-level networking positions.
- Apply for entry-level network security specialist careers.
- Apply for entry-level network and network security positions in the healthcare industry.
- Prepare to take the Cisco CCNA Certification Examination(s).
- Prepare to take the Comp TIA A+ Certification Examination(s).
- Prepare to take the Cisco Network Security Certification Examination.

CAREER OUTLOOK

The Health Information Networking Program helps students prepare for entry-level specialized ICT and networking careers in physician offices, hospitals, healthcare facilities and with third-party contractors. Students also gain the knowledge and skills needed to prepare for entry-level security specialist careers and networking careers in industry and will be prepared to take multiple industry certificate exams.

Health Information Technology Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-113	Information Technology Problem Solving	3	🚩		Prerequisites for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-110	Applications/Concepts				
✍️ CIT-110 is recommended.					
CIT-182	PC Hardware and Software	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
✍️ CIT-182 is the equivalent to Cisco's IT Essentials A+ certification course					
CIT-162	Cisco Networking I	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
✍️ CIT-162 is the equivalent to Cisco's CCNA R&S Semester 1					
		<i>Total Credits:</i>	9		

Semester 1 Advising Note

- CIT-182 is the equivalent to Ciscos' IT Essentials A+
- CIT-162 is the equivalent to Cisco's CCNA R&S Semester 1
- Upon completion of CIT-182, prepare and take the CompTIA A+ certifications
- Speak to an Advisor about internship and career opportunities.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-183	Healthcare IT Concepts I	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval and pre/co-requisite of CIT-182.
CIT-167	Cisco Networking II	3	🚩		CIT-162.
✍️ CIT-167 is the equivalent to Cisco's CCNA R&S Semester 2					
CIT-288	Healthcare IT Concepts II	3	🚩		Pre/co-requisite: CIT-183 or Chair approval.
		<i>Total Credits:</i>	9		

Semester 2 Advising Note

- CIT-167 is the equivalent to Cisco's CCNA R&S Semester 2
- Upon completion of CIT-167, prepare and take the Cisco Certified Networking Technician certification.
- Upon completion of CIT-288, prepare and take the Certified Healthcare Technology Specialist certification.
- Speak to an Advisor about internship and career opportunities.
- Apply for graduation

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍️ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Apply for entry-level Healthcare IT positions.
- Apply for entry-level Healthcare IT Systems Support positions.
- Apply for entry-level Healthcare Hardware/Software Support positions.
- Apply for entry-level Healthcare Network Support positions.

- Achieve the national Healthcare Technology and Information Management competencies.
- Apply Healthcare IT competencies to current Healthcare positions.
- Prepare to take the CompTIA A+ Certification Examination(s).
- Prepare to take the Cisco CCENT Certification Examination

CAREER OUTLOOK

The Health Information Technology Certificate Program prepares students for entry-level Healthcare IT careers in a variety of healthcare settings including physician offices, clinics, hospitals, and with third-party contractors. Students also gain the knowledge and skills needed to achieve the national Health Information Technology competencies and will be prepared to take multiple IT certification exams.

Information Technology Transfer Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CIT-113 Information Technology Problem Solving or CIT-110 Applications/Concepts	3			Prerequisites for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement.
CIT-113 satisfies Learning Community Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-181 Statistics	3			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from the Community and Cultural Context Menu				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
<i>Total Credits:</i> 15				

Semester 1 Advising Note

- New degree-seeking student enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CSC-125 Python Programming	3			CIT-110 or CIT-113 or CSC-120 or CMT-121 or Chair approval.
CMT-111 HTML5	3			
CIT-162 Cisco Networking I	3			RDG-095 or ELL-103 or ESL-098 or placement.
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
MAT-194 College Algebra for STEM	4			MAT-099 or placement.
<i>Total Credits:</i> 16				

Semester 2 Advising Note

- Begin exploring transfer options: attend a transfer workshop and the College transfer fair; follow-up with an advisor.
- Meet with an advisor to begin career planning activities.

Information Technology Transfer Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
CSC-225	Advanced Python Programming	3			CSC-125 or Chair approval.
CSC-236	SQL Programming	3			CIT-110 or CIT-113 or CSC-120 or CMT-125 or Chair approval.
CIT-268	Windows Operating Systems	3-4			Prerequisite for CIT-268: CIT-110 or CIT-113 or CSC-120 or Chair approval. Prerequisite for CIT-270: CIT-162.
CIT-270	Linux Administration/Lab				
Elective	Elective or CIT Elective	3-4			
	Recommended Electives: CIT-118, CIT-121, CIT-219, CIT-221, CIT-223, CIT-240, CIT-264, CIT 282, CRJ-103, CRJ-145, CRJ-202, Any other programming course				
Elective	Elective or CIT Elective	3-4			
	Recommended Electives: CIT-118, CIT-121, CIT-219, CIT-221, CIT-223, CIT-240, CIT-264, CIT 282, CRJ-103, CRJ-145, CRJ-202, Any other programming course				
<i>Total Credits: 15-18</i>					

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
Elective	Elective or CIT Elective	3-4			
	Recommended Electives: CIT-118, CIT-121, CIT-219, CIT-221, CIT-223, CIT-240, CIT-264, CIT 282, CRJ-103, CRJ-145, CRJ-202, Any other programming course				
Elective	Elective or CIT Elective	3-4			
	Recommended Electives: CIT-118, CIT-121, CIT-219, CIT-221, CIT-223, CIT-240, CIT-264, CIT 282, CRJ-103, CRJ-145, CRJ-202, Any other programming course				
MAT-231	Calculus for Management Science	4			MAT-194 or placement.
ENG-112	College Writing II	3			ENG-111.
	This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-SR	Scientific Reasoning	4			
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
	Choose one course from the Scientific Reasoning Menu				
<i>Total Credits: 17-19</i>					

Semester 4 Advising Note

- Students entering UMASS Boston through the College of Management may choose to complete the Calculus for Management Sciences courses at UMB and therefore should take an elective at BHCC.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate an understanding of the major pillars of Information Technology.
- Demonstrate the ability to solve technical programs and to apply critical thinking principles to Information Technology issues.
- Demonstrate an upper level understanding of networking, programming, database, or other technology fields.

CAREER OUTLOOK

Graduates of this program can transfer to bachelor's programs at four-year colleges.

Network Technology and Administration Option

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-113	Information Technology Problem Solving	3	🚩		Prerequisites for CIT-110 and CIT-113: RDG-095 or ESL-098 and or placement.
CIT-110	Applications/Concepts				
✍️ CIT-113 satisfies the Learning Community Requirement					
ENG-111	College Writing I	3	🚩	🎓	ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)					
CIT-162	Cisco Networking I	3	🚩		ESL-098 or RDG-095 or placement.
CIT-182	PC Hardware and Software	3			RDG-095 or ESL-098 or placement.
GenEd-QPS	Quantitative Problem Solving	3		🎓	MAT-097 or MAT-098 or placement.
🎓 This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)					
✍️ Choose one MAT course from Quantitative Problem Solving Menu.					
OIM-100	PC Keyboarding Techniques	1			
✍️ Student can also complete the Challenge Exam for OIM-100. Please email pla@bhcc.edu for more information					
		<i>Total Credits:</i>	16		

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-167	Cisco Networking II	3	🚩		CIT-162.
CIT-268	Windows Operating Systems	3	🚩		CIT-110 or CIT-113 or CIT-120 or Chair approval.
GenEd-SR	Scientific Reasoning	4		🎓	
🎓 This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
✍️ Choose one course from Scientific Reasoning Menu					
ENG-112	College Writing II	3		🎓	ENG-111.
🎓 This course meets the General Education requirement for Research Writing (Formerly Area 1)					
CIT-282	MS Windows Server Administration/Lab	4			CIT-162 and pre/co-requisite CIT-268.
		<i>Total Credits:</i>	17		

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.

PC Hardware Support Specialist Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-110	Applications/Concepts	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
CIT-182	PC Hardware and Software	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
CIT-162	Cisco Networking I	3	🚩		ESL-098 or RDG-095 or ELL-103 or placement.
OIM-100	PC Keyboarding Techniques	1			

✍ Students can also complete the Challenge Exam for OIM-100. Please email pla@bhcc.edu for more information.

Total Credits: 10

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CIT-268	Windows Operating Systems	3	🚩		CIT-110 or CIT-113 or CSC-120 or Chair approval.
CIT-230	Help Desk Techniques	3	🚩		CIT-110 or Chair approval.

Total Credits: 6

Semester 2 Advising Note

- Apply for graduation

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Describe, remove, and replace select components of desktop and laptop personal computers; upgrade components based on customer needs and perform preventive maintenance and troubleshooting.
- Understand the basics of the most common desktop Office applications.
- Explain, install, and navigate the most common personal computer operating systems; upgrade components based on customer needs and perform preventive maintenance and troubleshooting.
- Demonstrate good communication skills and professional behavior while working with customers.
- Qualify to take the COMPTIA A+ Essentials Certification Examination.
- Qualify to take the NETWORK+ Certification Examination.

CAREER OUTLOOK

Graduates completing this certificate may find employment in information support services departments in firms large and small as well as other companies specializing in personal computer maintenance support.

Gaming/Computer Artist Track Simulation Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CMT-101 Game Development Essentials	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
Satisfies Learning Community Requirement				
CMT-121 Maya Foundations	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu Recommended: SOC-101				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
<i>Total Credits:</i> 15				
Semester 1 Advising Note				
<ul style="list-style-type: none"> ▪ CMT-101: New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year 				
SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CMT-123 Maya Character Modeling	3			CMT-121.
CMT-119 Human Character	3			CMT-101.
CMT-103 Managing Game Development	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CMT-229 Creating 3D Special Effects	3			CMT-121.

Gaming/Computer Artist track Simulation Option (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CMT-249	3D Liquids Simulation	3			CMT-229.
COM-171	Public Speaking and Professional Communication	3			
VMA-151	Introduction to Audio Technology	3			ENG-095 or ELL-103 and MAT-093 or placement.
GenEd-SR	Scientific Reasoning	4			
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
	Choose one course from Scientific Reasoning Menu				
Elective	Career Elective	3			
	Choose one Computer Media Technology (CMT) or Visual and Media Arts (VMA) course.				
		<i>Total Credits:</i>	16		

Semester 4 Advising Note

- Apply for graduation

- ▣ Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- 🔗 This course has pre/co- requisites. Advising note or suggestion regarding this course.
- 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Create game characters.
- Create custom textures for clothing, surfaces and environmental objects.
- Create 3D objects as game constructs.
- Create 3D lakes, rivers, streams, beverages, soft candy products and liquefied solids to name a few.
- Effectively light and shade the game scene.
- Manage the game development process.

CAREER OUTLOOK

Students completing this program qualify for entry level positions in local and national gaming and computer simulation companies. The career outlook for computer gaming/simulation opportunities is projected to grow at a rapid rate in the coming years. The inclusion of computer generated graphics in movies, television, educational tutorials and social media have made this career choice very attractive.

Gaming/Computer Programming Track Simulation Option

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites	
CMT-101	Game Development Essentials	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.	
This course satisfies Learning Communities Seminar requirement.

Students completing this program qualify for entry level positions in local and national gaming and computer simulation companies. The career outlook for computer gaming/simulation opportunities is projected to grow at a rapid rate in the coming years. The inclusion of computer generated graphics in movies, television, educational tutorials and social media have made this career choice very attractive.

Web Development Certificate

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CMT-111 HTML5	3			
VMA-105 Digital Imaging with Photoshop	3			ENG-095 or ELL-103 and MAT-093 or placement.
<i>Total Credits:</i>		6		

Semester 1 Advising Note

- Due to course prerequisites and the order required courses are sequenced, it is not possible to complete this certificate program in two semesters.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CMT-125 Cascading Style Sheets	3			Pre/co-requisite: CMT-111.
CMT-113 Javascript	3			CMT-111.
<i>Total Credits:</i>		6		

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CMT-117 XML	3			CMT-113.
CMT-225 jQuery	3			CIT-113.
CMT-228 Web Design with Ajax	3			CMT-113.
CMT-241 PHP/MySQL	3			CMT-113.
<i>Total Credits:</i>		12		

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
CMT-250 Mobile Web Applications	3			CMT-225.
<i>Total Credits:</i>		3		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design, implement, publish, and maintain websites in support of creating a web presence for businesses and organizations.

- Create animated, event driven multimedia content for web delivery.
- Construct, extract, transform, and present database resident content directly into a web delivery mechanism.
- Construct event driven action scripts within a web page to respond to user stimulations and provide dynamic results in a real time environment.

CAREER OUTLOOK

Graduates of this program will qualify as entry-level web developers and web development support personnel.

Web Development Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
CMT-111 HTML5	3			ENG-090 and RDG-090 or placement.
COM-171 Public Speaking and Professional Communication	3			
VMA-105 Digital Imaging with Photoshop	3			ENG-095 or ELL-103 and MAT-093 or placement.
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one course from Quantitative Problem Solving Menu				
<i>Total Credits: 15-16</i>				

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CMT-113 Javascript	3			CMT-111.
CMT-125 Cascading Style Sheets	3			Pre/co-requisite: CMT-111.
Milestone courses should be taken in the order shown.				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
<i>Total Credits: 16</i>				

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CMT-225 jQuery	3			CMT-113.
CMT-228 Web Design with Ajax	3			CMT-113.
CMT-241 PHP/MySQL	3			CMT-113.
VMA-111 Introduction to Mass Media	3			ENG-095 or ELL-103 and MAT-093.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
CMT-117 XML	3			CMT-113.
Milestone courses should be taken in the order shown.				
<i>Total Credits: 15</i>				

Semester 3 Advising Note

- Complete a pre-graduation check with an advisor in LifeMap

Web Development Option (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CMT-227	JSON	3			CMT-117.
CMT-235	Node.js	3			CMT-117.
CMT-250	Mobile Web Applications	3			CMT-225.
Elective-1	Career Elective	3			
<p> Career Elective Options: VMA-132 Typography I, CMT-299 Web Internship</p>					
GenEd-E	General Education Elective	3			
<p> This course meets the General Education requirement for General Education Elective. Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.</p>					
		<i>Total Credits:</i>	15		
<p>Semester 4 Advising Note</p> <ul style="list-style-type: none"> Apply for graduation 					

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design, implement, publish, and maintain websites in support of creating a web presence for businesses and organizations.

- Create animated, event driven multimedia content for web delivery.
- Construct, extract, transform, and present database resident content directly into a web delivery mechanism.
- Construct event driven action scripts within a web page to respond to user stimulations and provide dynamic results in a real time environment.

CAREER OUTLOOK

Graduates of this program will qualify as web developers and for web development support positions, and will have a solid basis for pursuing certification as a Webmaster

Criminal Justice Career Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for General Education Elective.				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
CRJ-101 Introduction to Criminal Justice	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
Satisfies the Learning Community Requirement				
CRJ-103 Criminal Law	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
SOC-101 Principles of Sociology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts.				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one MAT course from Quantitative Problem Solving Menu. MAT-181 Statistics I is strongly recommended.				
CRJ-107 Introduction to Corrections	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
CRJ-225 Policing	3			ENG-111 and CRJ-101 and CRJ-103.
<i>Total Credits:</i>		15-16		

Semester 2 Advising Note

- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- Meet with an advisor to begin career planning activities.

Criminal Justice Career Option (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
SOC-207 Criminology	3			PSY-101 or SOC-101.
CRJ-211 Criminal Procedure	3			ENG-111 and CRJ-101 and CRJ-103.
GenEd-SR Scientific Reasoning	4			
<p> This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)</p> <p> Choose one course from Scientific Reasoning menu. SCI-150 Forensic Science/Lab is recommended.</p>				
Elective-1 Career Elective	3			
See semester advising note				
Elective-2 Career Elective	3			
See semester advising note				
<i>Total Credits: 16</i>				

Semester 3 Advising Note

- For students interested in a career in Law Enforcement recommended electives: CRJ-202 Evidence and Court Procedures and CRJ-208 Criminal Investigation
- For students interested in a career in Corrections recommended electives: CRJ-102 Juvenile Justice and CRJ-203 Rehabilitation of Offender
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
CRJ-275 Criminal Justice Capstone	3			Complete all core requirements of the CRJ degree.
Elective-1 Career Elective	3			
Choose from any non-required CRJ course				
Elective-2 Career Elective	3			
Choose from any non-required CRJ course				
Elective-3 Career Elective	3			
Choose from any non-required CRJ course				
Elective-4 Open Elective	3			
Recommended electives include communication or GOV or Computer or Foreign Language courses.				
<i>Total Credits: 15</i>				

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate knowledge, defend and critique the structure of the criminal justice system.
- Identify, demonstrate and evaluate knowledge of corrections, including its purpose and function.
- Explain the history and critique major theories of why crime is committed with a focus on criminal behavior.

- Identify and demonstrate knowledge of Courts including its purpose and function, be able to accurately discuss and relate criminal law and procedure and its constitutional basis.
- Identify and demonstrate knowledge of policing including its purpose and function, describe and assess the general responsibilities of the criminal justice professional including the professional's responsibilities and governing ethics.
- Articulate and critique the role of data and research in the development of criminal justice and policy.

CAREER OUTLOOK

Graduates that complete the Transfer Option can transfer to four-year colleges and universities to seek a bachelor's degree in criminal justice or a related field. Graduates who complete the Law Enforcement or Corrections Tracks qualify for entry level positions in law enforcement, corrections or security at local, state, regional and federal agencies.

Criminal Justice Transfer Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
PSY-101 Principles of Psychology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for General Education Elective.				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
CRJ-101 Introduction to Criminal Justice	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
Satisfies Learning Community Requirement				
CRJ-103 Criminal Law	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits:</i> 15				

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
SOC-101 Principles of Sociology	3			ESL-098 or RDG-095 or ELL-103 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one MAT course from Quantitative Problem Solving Menu. MAT-181 Statistics I is strongly recommended.				
CRJ-107 Introduction to Corrections	3			ENG-095 and ESL-098 or RDG-095 or ELL-103 or placement.
CRJ-225 Policing	3			ENG-111 and CRJ-101 and CRJ-103 or Chair approval.
<i>Total Credits:</i> 15-16				

Semester 2 Advising Note

- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- Meet with an advisor to begin career planning activities.

Criminal Justice Transfer Option (continued)

Fire Protection and Safety Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
FPS-111	The Fire Service, This Century and the Next, What Should We Expect	3			
Students with previous college experience may choose from the following career electives: FPS-125 or FPS-127 or FPS-221					
FPS-119	Principles of Fire and Emergency Services Safety & Survival	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
FPS-123	Principles of Emergency Services	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
FPS-135	Fire Behavior and Combustion	3			ENG-095 and ESL-098 or RDG-095; or ELL-103 or placement.
		<i>Total Credits:</i>	15		

Semester 1 Advising Note

- This program is offered in the late afternoon and evening.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
FPS-133	Fire Protection Systems	3			RDG-095 or ESL-098 and ENG-095 or placement.
FPS-223	Building Construction for Fire Protection	3			FPS-133.
Elective	Career Elective	3			
Choose from the following options: FPS-125 Hazardous Materials, FPS-127 Fire Protections Hydraulics and Water Supply, FPS-221 Strategy and tactics					
FPS-139	Fire Prevention	3			RDG-095 or ELL-103 or ESL-098 and ENG-095 or placement.
		<i>Total Credits:</i>	12		

Semester 2 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand the principles of fire protection and safety.
- Demonstrate preparedness to be a fire company officer.
- Understand the principles of arson investigation (see FPS209).
- Demonstrate familiarity with inspections for fire prevention.
- Demonstrate preparedness to take promotional civil service fire exams.

CAREER OUTLOOK

Graduates of this program qualify for careers in municipal, state and federal agencies, industry, and insurance companies. Graduates also qualify to transfer to the two-year Associate in Science Degree: Fire Protection and Safety. This program also prepares fire fighters who wish to upgrade their career status.

Fire Protection and Safety Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
FPS-111 The Fire Service, This Century and the Next, What Should We Expect	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
✎ Satisfies Learning Community Requirement				
ENG-111 College Writing I	3	🚩	🎓	ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-QPS Quantitative Problem Solving	3-4		🎓	MAT-097 or MAT-098 or placement.
🎓 This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
✎ Choose one MAT course from Quantitative Problem Solving Menu.				
FPS-119 Principles of Fire and Emergency Services Safety & Survival	3			ESL-098 or ELL-103 or RDG-095 and ENG-095 or placement.
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- General Education Requirements Scientific Reasoning satisfied by program.
- Students with previous college experience choose from the following career electives: FPS-125 or FPS-127 or FPS-221
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- FPS-111: Students with previous college experience choose from the following career electives: FPS-125 or FPS-127 or FPS-221

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3		🎓	ENG-111.

Semester 4 Advising Note

- Apply for graduation

📅 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✎ Advising note or suggestion regarding this course.

👤 This course satisfies General Education requirement.

ADMISSION REQUIREMENTS:

Contact Prior Learning Assessment Coordinator if student has gone through a firefighting academy or has on-the-job training.
Talk to the Advising Liaisons for Professional Studies before registering for classes.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand the principles of fire protection and safety.
- Demonstrate preparedness to be a fire company officer.
- Understand the principles of arson investigation.
- Demonstrate familiarity with inspections for fire prevention.
- Demonstrate preparedness to take promotional civil service fire exams.

CAREER OUTLOOK

Graduates of this program qualify for careers in municipal, state and federal agencies, industry, and insurance companies. Graduates also qualify to transfer to four-year colleges or universities in fire protection and safety. This program also prepares fire fighters who wish to upgrade their career status.

Early Childhood Development Certificate Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ECE-103 Child Growth and Development	3			ESL-098 or RDG-095 and ENG-095 or ELL-103 or placement.
✎ ECE-103 must be completed in first semester with a C or better to move to other ECE courses in subsequent semesters. All ECE courses after the first semester require ECE-103 to be completed with this grade requirement.				
ECE-106 Program Environments	3			ESL-098 or RDG-095 and ENG-095 or ELL-103 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
HUM-120 Self, Culture and Society or Elective Career Elective	3			
✎ See career elective options in semester note				

Total Credits: 12

Semester 1 Advising Note

- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College's CORI officer before beginning the program.
- ECE-103 and ECE-106 are courses required to be certified by Massachusetts Department of Early Education and Care (DEEC).
- No other developmental Psychology courses may be substituted for ECE-103. Only ECE-103 is allowed for this degree plan and others will not be counted toward qualifications for certification by Massachusetts DEEC.
- Career electives: ECE-108, ECE-151 through ECE-168, ECE-207, ECE-209, ECE-210, ECE-223, EDU-102 or INT-123

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ECE-101 Guidance and Discipline in ECE	3			ECE-103.
ECE-104 Curriculum in ECE	3			ECE-103.
Total Credits: 6				

Semester 2 Advising Note

- ECE-101 and ECE-104 may not be taken unless student has received a C or better in ECE-103 in previous semester. Students without C or better in any ECE course will be barred from practicum until this measure is completed.
- ECE-101 and ECE-104 are courses required to be certified by the Massachusetts Department of Early Education and Care.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co-requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Early Childhood Development Certificate Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use knowledge of child development and relationships with children and families to understand children as individuals and plan for their unique development by organizing environments which facilitate development in all developmental areas.
- Design and implement developmentally appropriate learning experiences using methods and materials which promote growth and development.
- Work with parents, families, and community leaders to support growth and development of children by engaging each child in meaningful experiences.
- Observe children in their care to analyze and synthesize information about those children so as to improve their work with children, families, and communities.

- Analyze, evaluate and strengthen their work with children by reflecting upon effective practices and collaborating with other professionals in the field.

CAREER OUTLOOK

Graduates of this program qualify as teacher's aides in the State of Massachusetts. For more information on minimal requirements for employment, contact the Department chair.

CRIMINAL OFFENDER RECORD INFORMATION AND SEX OFFENDER REGISTRY INFORMATION CHECKS

As a prerequisite for a clinical placement in the Childhood Development Certificate Program, all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. These checks

are required due to potential unsupervised contact with children, the disabled, or the elderly during a clinical experience. Students found to have certain criminal convictions or pending criminal actions will be presumed ineligible for clinical placement. The College is authorized by the Commonwealth's Department of Criminal Justice Information Services, pursuant to Massachusetts General Laws, Chapter 6, Sections 167-178 B, to access CORI records. Sex Offender checks shall be performed pursuant to Massachusetts General Laws, Chapter 6, Sections 178C-178P.

For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193.

Early Childhood Development Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ECE-103 Child Growth and Development	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
ECE-103 is prerequisite to most other ECE courses in this program.				
ECE-106 Program Environments	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
ECE-520 Introduction to Early Childhood Education	3			
Satisfies the Learning Community Requirement OR choose one college-level course as an Elective.				
GenEd-QPS Quantitative Problem Solving	3			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one MAT course from Quantitative Problem Solving Menu. Recommended class MAT-181 or MAT-172.				
<i>Total Credits:</i> 15				

Semester 1 Advising Note

- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College's CORI officer before beginning the program.
- ECE-103 and ECE-106 are courses required to be certified by Massachusetts Department of Early Education and Care (DEEC).
- No other developmental Psychology courses MAY BE substituted for ECE-103. Only ECE-103 is allowed for this degree plan and others will not be counted toward qualifications for certification by Massachusetts DEEC.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ECE-101 Guidance and Discipline in ECE	3			ECE-103.
ECE-104 Curriculum in ECE	3			ECE-103.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
PSY-101 Principles of Psychology	3			ESL-098 or ELL-103 or RDG-095 or placement.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2)				
ECE-217 Observing and Recording Behavior	3			ECE-103.
<i>Total Credits:</i> 15				

Semester 2 Advising Note

- ECE-101, ECE-104, and ECE-217 may not be taken unless student has received a C or better in ECE-103 in previous semester. Students without C or better in any ECE course will be barred from practicum until this measure is completed.
- ECE-101 and ECE-104 are courses required to be certified by the Massachusetts Department of Early Education and Care.
- Meet with an advisor to begin career planning activities.

Early Childhood Development Program (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites	
LIT-217	Children's Literature	3			Pre/co-requisite: ENG-111.	
	This course meets the General Education requirement for Creative Work (Formerly Area 6)					
ECE-212	Family and Community Involvement in ECE	3			ECE-103 plus 3 ECE or EDU courses or equivalent.	
ECE-220	Practicum I in ECE	3			ECE-101 and ECE-103 and ECE-104 and ECE-106.	
	ECE-220 requires application and orientation in spring semester (deadline end of spring semester) before fall enrollment. Class ONLY starts in the fall and is a two semester sequence (ECE 220-221). Students missing application and orientation process must wait until the next fall to move forward. A GPA of 2.25 or above is required as well as multiple other requirements for application and acceptance into placement. ECE Coordinator and Department Chair have further information.					
Elective	Career Elective	3				
	Electives: ECE-108 Infant/Toddler Curriculum Development, ECE-207 Literacy Development and Learning, ECE-209 Math Concepts and Learning, ECE-210 Science Concepts and Learning, ECE-521 Pedagogy of Play, PSY-209 Child Psychology, SOC-211 The Family, SOC-203 Social Problems, PSY-201 Learning and Memory					
Elective	Career Elective	3				
	Electives: ECE-108 Infant/Toddler Curriculum Development, ECE-207 Literacy Development and Learning, ECE-209 Math Concepts and Learning, ECE-210 Science Concepts and Learning, ECE-521 Pedagogy of Play, PSY-209 Child Psychology, SOC-211 The Family, SOC-203 Social Problems, PSY-201 Learning and Memory					
		<i>Total Credits:</i>	15			

Semester 3 Advising Note

- ECE-108 Infant/Toddler Curriculum and Development is course required by Mass DEEC for those wishing to pursue teaching in infant and toddler classrooms.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites	
GenEd-SR	Scientific Reasoning	4				
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
	Choose one course from Scientific Reasoning Menu					
ECE-221	Practicum II in ECE	3			ECE-220.	
	ECE-221 requires student to have completed ECE-220 in the fall semester with a C or higher grade and completed portfolio. Students without this requirement completed are not allowed to proceed to ECE-221 and must reapply for readmission to the ECE-220 class in the next fall after following Department procedures for readmission.					
ECE-211	The Young Child with Special Needs	3			ECE-103 plus 3 ECE or EDU courses or equivalent.	
Elective	Career Elective	3				
	Electives: ECE-108 Infant/Toddler Curriculum Development, ECE-207 Literacy Development and Learning, ECE-209 Math Concepts and Learning, ECE-210 Science Concepts and Learning, ECE-521 Pedagogy of Play, PSY-209 Child Psychology, SOC-211 The Family, SOC-203 Social Problems, PSY-201 Learning and Memory					
GenEd-E	General Education Elective	3				
	This course meets the General Education requirement for General Education Elective.					
	Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.					
		<i>Total Credits:</i>	16			

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Early Childhood Development Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use knowledge of child development and relationships with children and families to understand children as individuals and plan for their unique development by organizing environments which facilitate development in all developmental areas.
- Design and implement developmentally appropriate learning experiences using methods and materials which promote growth and development.
- Work with parents, families, and community leaders to support growth and development of children by engaging each child in meaningful experiences.
- Observe children in their care and be able to analyze and synthesize information about children so as to improve their own work with children, families, and communities.
- Analyze, evaluate and strengthen their work with children by reflecting upon effective practices and collaborating with other professionals in the field.

CAREER OUTLOOK

Graduates of this program qualify for employment in a variety of settings, including day care centers, preschools, head start programs, family home care and social service organizations. Students also may transfer to four-year colleges or universities in elementary education, human services work, or special needs childcare. Graduates of this program qualify as teachers and/or lead teachers in the state of Massachusetts.

Early Childhood Development with Child Development Associate Credential Certificate Program

ADMISSION REQUIREMENTS

Age	Must be 18 years of age
Diploma	High School diploma or GED
Hours	Must have completed specific number of hours in ECE - see note
Courses	Completed minimum of three ECE courses with C or better

Admission Requirements Advising Note

- Must be at least 18 years of age and have U.S. Work Authorization
- Must have completed 120 hours of formal training in Early Childhood Education in subject areas covered by the Early Childhood Development with Child Development Associate Credential Certificate
- Must have completed within the last 3 years 300 hours of professional work experience in a group setting supervised by a professional Early Childhood educator
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ECE-103 Child Growth and Development	3			ESL-098 or RDG-095 and ENG-095 or placement.
✎ ECE-103 must be completed in first semester with a C or better to move to other ECE courses in subsequent semesters. All ECE courses after the first semester require ECE-103 to be completed with this grade requirement.				
ECE-106 Program Environments	3			ESL-098 or RDG-095 and ENG-095 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
HUM-120 Self, Culture and Society or Elective Career Elective	3			
✎ See career elective options in semester note				
<i>Total Credits:</i>		12		

Semester 1 Advising Note

- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College's CORI officer before beginning the program.
- ECE-103 and ECE-106 are courses required to be certified by Massachusetts Department of Early Education and Care (DEEC).
- No other developmental Psychology courses may be substituted for ECE-103. Only ECE-103 is allowed for this degree plan and others will not be counted toward qualifications for certification by Massachusetts DEEC.
- Career electives: ECE-108, ECE-151 through ECE-168, ECE-207, ECE-209, ECE-210, ECE-223, EDU-102 or INT-123A

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ECE-101 Guidance and Discipline in ECE	3			ECE-103.
ECE-104 Curriculum in ECE	3			ECE-103.
ECE-217 Observing and Recording Behavior	3			ECE-103.
<i>Total Credits:</i>		9		

Semester 2 Advising Note

- ECE-101, ECE-104, and ECE-217 may not be taken unless student has received a C or better in ECE-103 in previous semester. Students without C or better in any ECE course will be barred from practicum until this measure is completed.
- ECE-101 and ECE-104 are courses required to be certified by the Massachusetts Department of Early Education and Care.
- CDA requires students complete ECE-217 prior to working on CDA portfolio and credentialing planning.
- Apply for graduation

Early Childhood Development with Child Development Associate Credential Certificate Program (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
ECE-223	CDA Professional Portfolio	3	🚩		A grade of a C or better in ECE-103, ECE-104, and ECE-106.
ECE-224	CDA Mentoring and Coaching Practicum	3	🚩		grade of a C or better in ECE-223.
<i>Total Credits:</i>		6			

Semester 3 Advising Note

■ ECE-223 and ECE-224 require that student is working in a classroom for development of portfolio and completion of the credentialing requirements. See requirements at bottom under additional advising notes. Students are required to pay their own credentialing fee at the end of the program upon taking the national test and sitting for other requirements of the CDA Council for Professional Recognition. Fees for this are noted below. Usually, it is recommended that students complete ECE-223 before moving to ECE-224, however, a waiver of this requirement is possible if student is completing program and will be ready to graduate at the end of this third semester.

- 🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- 🔗 This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.
- 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use knowledge of child development and relationships with children and families to understand children as individuals and plan for their unique development by organizing environments which facilitate development in all developmental areas.
- Design and implement developmentally appropriate learning experiences using methods and materials which promote growth and development.
- Work with parents, families, and community leaders to support growth and development of children by engaging each child in meaningful experiences.
- Observe children in their care to analyze and synthesize information about those children so as to improve their work with children, families, and communities.
- Analyze, evaluate and strengthen their work with children by reflecting upon effective practices and collaborating with other professionals in the field.

CAREER OUTLOOK

Graduates of this program are academically qualified in the State of Massachusetts through the Department of Early Education and Care to be either teacher or lead teacher qualified once work experience is completed as required by the state. For more information contact the Department Chair.

GENERAL ADVISING NOTES FOR THIS PROGRAM

- All developmental courses: RDG-90, RDG 095 or ESL-098, ENG-090 and ENG-095 must be taken and completed with a grade of C or higher before beginning the first semester towards a two semester certificate plan.
- Students are encouraged to take fewer courses and go slower if they have life responsibilities with family, work and personal challenges; these part-time students and/or those taking 1, 2 or 3 per semester are encouraged to use a longer route to completion to assure quality work.

- ENG-111 is required at the beginning semester as the program requires much reading and writing and student must be fully prepared for intense writing assignments in ECE courses.
- ECE-103 must be completed in first semester with a C or better to move to other ECE courses in subsequent semesters. All ECE courses after the first semester require ECE-103 to be completed with this grade requirement.
- ECE-103 and ECE-106 are courses required to be certified by Massachusetts Department of Early Education and Care (DEEC).
- No other developmental Psychology courses may be substituted for ECE-103. Only ECE-103 is allowed for this degree plan and will not be counted toward qualifications for certification by Massachusetts DEEC.
- The LCS must be taken in first semester and is only allowed for those students with no prior college experience; if the student is transferring or has prior college experience, the student may substitute a previous college course for the LCS through the college course waiver process (see Department Chair or ECE Coordinator for assistance). Recommended LCS for ECE students: LCS-101J Parents as First Teachers.

Education Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
EDU-102 Becoming a Teacher	3			
Satisfies Learning Community Requirement.				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
PSY-101 Principles of Psychology	3			ESL-098 or ELL-103 or RDG-095 or placement.
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 2)				
ECE-103 Child Growth and Development	3			ESL-098 or RDG-095 and ENG-095, or ELL-103 or placement.
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one MAT course from Quantitative Problem Solving Menu.				
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year. If student is not eligible to take EDU-102 due to prior college experience, the Fine Arts elective required in subsequent semester may be taken during this first semester and Career elective substituted in the subsequent semester instead of the fine arts noted in this curriculum map.
- The department recommends students take EDU-102, Becoming a Teacher, as their Learning Community Seminar.
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
EDU-201 Introduction and Foundations of Education	3			RDG-095 or ELL-103 and ENG-095.
LIT-217 Children's Literature	3			ENG-111.
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
HIS-151 History: From Colonization through the Civil War or HIS-152 U.S. History: Reconstruction to Present	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
MAT-172 Contemporary Math I	3			MAT-097 or MAT-098.
<i>Total Credits: 15</i>				

Education Concentration (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
EDU-220	Practicum in Instruction	3			EDU-201.
BIO-105	Introduction to Biology	4			ESL-098 or RDG-095 or ELL-103 and ENG-095 and MAT-093.
BIO-108	Human Biology/Lab				
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
ECE-212	Family and Community Involvement in ECE	3			ECE-103 plus three (3) ECE or EDU courses or equivalent. - Must be completed prior to taking this course. .
Elective-1	Career Elective	3			
See semester advising note					
LIT-218	Children's Literature II	3			Pre/co-requisite: ENG-111.
		<i>Total Credits:</i>	16		

Semester 3 Advising Note

- Two science courses are required for this degree plan. One must be in biological/life science area; the other, in physical science area. No exceptions will be approved.
- Career elective options: ECE-104, ECE-106, ECE-108, ECE-151 through ECE-168, ECE-207, ECE-209, ECE-210, ECE-223, ECE-224 ECE-213, ECE-215, ECE-516, EDU-504, EDU-102

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
ENV-105	Environmental Science/Lab	4			Prerequisites : ESL-098 or RDG-095 or ELL-103 and ENG-095 and MAT-093.
ECE-211	The Young Child with Special Needs	3			ECE-103 plus 3 ECE or EDU courses or equivalent.
GenEd-E	General Education Elective	3			
This course meets the General Education requirement for General Education Elective.					
Choose and course from the Creative Work Menu					
ECE-207	Literacy Development and Learning	3			ECE103 plus 3 ECE or EDU courses or equivalent.
HIS-111	History of the Pre-Modern World	3			ESL-098 or RDG-095 or ELL-103 and ENG-095 or placement.
		<i>Total Credits:</i>	16		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Describe the interaction of history, culture, literature, economics, and science as studied within a broad liberal arts curriculum.
- Demonstrate a mastery in reading and writing/ literacy skills and the organization of critical thinking and problem solving behaviors.

CAREER OUTLOOK

Graduates of this concentration may qualify to transfer to four-year colleges or universities as juniors. Potential teaching careers include teacher aid; early elementary, later elementary, middle school and high school teaching; preschool and kindergarten teaching; and special education teaching. Students must obtain a bachelor's degree as the minimum requirement for entry into these fields. Graduate work may be necessary, as well.

Baking and Pastry Arts Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
CUL-115 Introduction to Culinary Arts	4			Co-requisite: CUL-125.
Offered in the fall semester only. Uniforms and tools required for this course				
CUL-125 Principles of Baking	4			Co-requisite: CUL-115.
Offered in the fall semester only. Uniforms and tools required for this course				
CUL-101 If You Can't Stand the Heat	3			
Satisfies Learning Community Seminar Requirement				
MAT-100 Topics in Career Math	3			MAT-093 or placement.
<i>Total Credits:</i>				17

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving, Creative Work, and Community and Cultural Context satisfied by program.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CUL-135 Café and Bistro Cuisine	4			CUL-115 and CUL-125. Co-requisite: CUL-145.
Offered in the spring semester only. Uniforms and tools required for this course.				
CUL-145 Advanced Desserts and Pastries	4			CUL-115 and CUL-125. Co-requisite: CUL-135.
Offered in the spring semester only. Uniforms and tools required for this course.				
CUL-111 Food Service Sanitation and Skills	3			
<i>Total Credits:</i>				14

Semester 2 Advising Note

CUL-135 and CUL-145- Co-requisites- offered in spring semester only. Uniforms and tools are required for this course.

SUMMER SEMESTER	SUMMER	Credits	Milestone	GenEd	Prerequisites
CUL-299P Pastry Arts Internship		3			Chair approval.
<i>Total Credits:</i>				3	

Baking and Pastry Arts Option (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CUL-113 Science of Baking	3			
✍ Offered in fall semester only. Uniforms and tools are required for this course.				
CUL-243 Hot and Cold Desserts	4			CUL-145.
✍ Offered in fall semester only. Uniforms and tools are required for this course.				
CUL-119 Introduction to Cake Decorating	3			
✍ Uniforms and tools are required for this course. This course is for Culinary Arts Students Only.				
CUL-249 Baking for Health	3			CUL-145.
✍ Offered in fall semester only. Uniforms and tools are required for this course.				
GenEd-E General Education Elective	3			
<ul style="list-style-type: none"> 🎓 This course meets the General Education requirement for General Education Elective. ✍ Choose one course from Community & Cultural Contexts menu. Recommended: PSY-101 or SOC-101 				
<i>Total Credits: 16</i>				

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
BIO-115 Nutrition Science/Lab	4			MAT-093 and RDG-095 or ESL-098 and ENG-095 or ELL-103 or placement.
🎓 This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
CUL-217 Classical and International Pastries	4			CUL-145.
✍ Offered in spring semester only. Uniforms and tools are required for this course.				
CUL-241 Chocolate and Sugar Artistry	4			CUL-145.
✍ Offered in spring semester only. Uniforms and tools are required for this course.				
CUL-247 Advanced Desserts and Showpiece Cakes	3			CUL-119 and CUL-145.
✍ Offered in spring semester only. Uniforms and tools are required for this course.				
<i>Total Credits: 15</i>				

Semester 4 Advising Note

- CUL 217, CUL 241 and CUL 247 -offered in spring semester only. Uniforms and tools are required for this course
- Apply for graduation

📅 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

🔗 This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate an acquired technical skill in the usage of tools, equipment and machinery found in typical bakeries and commercial pastry production facilities.
- Demonstrate the necessary administrative skills common to basic cost control and planning methods found in a typical commercial pastry shop.

- Demonstrate conceptual skills acquired through course work relative to operating a successful pastry shop or bakery facility.
- Demonstrate the ability to apply advanced decorating techniques in cake and pastry design.
- Demonstrate knowledge of advanced chocolate and sugar design.
- Demonstrate a skill in working with the design and implementation of healthy alternatives to recipes.

CAREER OUTLOOK

Graduates of this program qualify for a variety of entry level positions in retail bakeries, pastry shops and related pastry production facilities. An A.S. degree will position the student for entry level management positions, as well as the opportunity to transfer to a four year institution for further studies.

Culinary Arts Certificate Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CUL-108 Basic Baking Skills	4	☑		Co-requisite: CUL-116.
✍ CUL-108 only offered in the fall semester. Uniforms and tools are required for this course. (Weekend Class Only)				
CUL-116 Basic Culinary Skills	4	☑		Co-requisite: CUL-108.
✍ CUL-116 only offered in the fall semester. Uniforms and tools are required for this course. (Weekend Class Only)				
CUL-111 Food Service Sanitation and Skills	3			
<i>Total Credits:</i>				11

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CUL-208 Advanced Baking Skills	4			CUL-108 and CUL-116. Co-requisite: CUL-216.
✍ CUL-208 only offered in the spring semester. Uniforms and tools are required for this course. (Weekend Class Only)				
CUL-216 Advanced Culinary Skills	4			CUL-108 and CUL-116. Co-requisite: CUL-208.
✍ CUL-216 only offered in the spring semester. Uniforms and tools are required for this course. (Weekend Class Only)				
CUL-211 Menu Design and Purchasing	3			
<i>Total Credits:</i>				11

☑ Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

✍ This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate practiced and acquired technical skills in the usage of tools and equipment found in a typical food service/ food production setting.
- Demonstrate the necessary administrative skills common to basic cost control and planning methods found in a typical commercial food service/food production setting.
- Demonstrate conceptual skills acquired through course work relative to planning a successful restaurant operation.

CAREER OUTLOOK

Graduates of this program qualify for a variety of entry-level positions in food production, including restaurant and institutional line cooking, pastry preparation, steward departments, and other related positions. Students also qualify to transfer all credits to the Associate in Science Degree: Culinary Arts Program.

Culinary Arts Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CUL-115 Introduction to Culinary Arts	4			Co-requisite: CUL-125.
Offered in the fall semester only. Uniforms and tools required for this course				
CUL-125 Principles of Baking	4			Co-Requisite: CUL-115.
Offered in the fall semester only. Uniforms and tools required for this course				
CUL-101 If You Can't Stand the Heat	3			
Satisfies the Learning Community Requirement				
MAT-100 Topics in Career Math	3			MAT-093 or placement.
<i>Total Credits:</i>		14		

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving, Community and Cultural Contexts and Creative Work satisfied by program.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- This map assumes that a student enters the College ready to enroll in ENG 111 and MAT 100. Maps may be altered if developmental courses need to be taken.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
CUL-135 Café and Bistro Cuisine	4			CUL-115 and CUL-125. Co-requisite: CUL-145.
Offered in the spring semester only. Uniforms and tools required for this course.				
CUL-145 Advanced Desserts and Pastries	4			CUL-115 and CUL-125. Co-requisite: CUL-135.
Offered in the spring semester only. Uniforms and tools required for this course.				
CUL-111 Food Service Sanitation and Skills	3			
<i>Total Credits:</i>		14		

SUMMER SEMESTER	Credits	Milestone	GenEd	Prerequisites
CUL-299 Culinary Arts Internship	3			Chair approval.
<i>Total Credits:</i>		3		

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CUL-215 Essentials of Food Production	4			CUL-135 and CUL-145. Co-requisite: CUL-225.
Offered in the fall semester only. Uniforms and tools required for this course.				
CUL-225 Essentials of Dining Service	4			CUL-135 and CUL-145. Co-requisite: CUL-215.
Offered in the fall semester only. Uniforms and tools required for this course.				
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CUL-211 Menu Design and Purchasing	3			
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose one course from Community and Cultural Contexts Menu. Recommended: PSY-101 or SOC-101				
<i>Total Credits:</i>		17		

Semester 3 Advising Note

- It is strongly recommended that a student meet with their Advisor when planning for semesters 3 and 4 to ensure the focus of study aligns with course selection, especially the General Education Elective courses.

Culinary Arts Certificate Program (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
BIO-115	Nutrition Science/Lab	4			MAT-093 and RDG-095 or ESL-098 and ENG-095 or placement.
 This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
CUL-235	Advanced and Ethnic Food Production	4			CUL-215 and CUL-225. Co-requisite: CUL-245.
 Offered in the spring semester only. Uniforms and tools required for this course.					
CUL-245	Food and Beverage Operations	4			CUL-215 and CUL-225. Co-requisite: CUL-235.
 Offered in the spring semester only. Uniforms and tools required for this course.					
Elective	Career Elective	3			
 Choose one CUL or HRT course. Any HRT or CUL course not included in the program can be used to fulfill requirement of Career Elective.					
		<i>Total Credits:</i>	15		

-  Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
-  This course has pre/co- requisites.  Advising note or suggestion regarding this course.
-  This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate practiced and acquired technical skills in the usage of tools and equipment found in a typical food service/ food production setting.
- Demonstrate necessary administrative skills common to basic cost control and planning methods found in a typical commercial food service/food production setting.
- Demonstrate conceptual skills acquired through course work relative to planning a successful restaurant operation.

CAREER OUTLOOK

Graduates of this program qualify for a variety of positions in hotels, restaurants, and resorts. Typically, these positions are in food production, shift supervision, and kitchen management. Students also qualify to transfer to four-year colleges or universities to pursue bachelor's degrees.

Hotel and Restaurant Management Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
HRT-121	Principles of Management and Service in Hospitality	3			
HRT-131	Front Office Operations	3			
Fall course					
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)					
ACC-101	Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 or placement.
HRT-112	Food and Beverage Operations	3			
		<i>Total Credits:</i>	15		

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
HRT-231	Advanced Lodging Operations	3			HRT-131.
Spring course					
HRT-133	Culinary Theory in Hospitality	3			HRT-121.
CIT-110	Applications/Concepts	3			RDG-095 or ESL-098 or ELL-103 or placement.
CUL-111	Food Service Sanitation and Skills	3			
		<i>Total Credits:</i>	12		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Perform technical skills in basic cooking and kitchen operations, basic skills in front desk, reservations and housekeeping procedures.

- Perform administrative skills in basic business bookkeeping procedure, business cost controls, and planning and coordinating hotel and restaurant operations.
- Demonstrate conceptual skills necessary to understanding the needs of the hotel and restaurant industry.

CAREER OUTLOOK

Graduates of this option qualify for entry level managerial positions as well as for management training programs in hotels and restaurants. Students also qualify to transfer all credits to the Associate in Science Degree in Hotel and Restaurant Management.

Hotel/Restaurant Management Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
HRT-121 Principles of Management and Service in Hospitality	3			
HRT-119 Basics of Meeting Management	3			
HRT-105 Hospitality Seminar	3			
Satisfies the Learning Community Requirement				
GenEd-QPS Quantitative Problem Solving	3-4			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Choose one MAT course from Quantitative Problem Solving Menu. Recommended: MAT-172				
<i>Total Credits: 15-16</i>				

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
ACC-101 Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 or placement.
HRT-112 Food and Beverage Operations	3			
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
HRT-109 Hospitality Marketing Management	3			HRT-121.
<i>Total Credits: 15</i>				

SUMMER SEMESTER	Credits	Milestone	GenEd	Prerequisites
HRT-210 Hospitality Internship	3			HRT-121.
<i>Total Credits: 3</i>				

Hotel and Restaurant Management Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
HRT-125	Principles of Hospitality Finance and Accounting	3			ACC-101.
CIT-110	Applications/Concepts	3			RDG-095 or ESL-098 or ELL-103 or placement.
BIO-115	Nutrition Science/Lab	4			MAT-093 and RDG-095 or ELL-103 or ESL-098 and ENG-095 or placement.
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)					
HRT-131	Front Office Operations	3			
HRT-117	Hospitality Law	3			
		<i>Total Credits:</i>	16		

Semester 3 Advising Note

- It is strongly recommended that a student meet with their Advisor when planning for semesters 3 and 4 to ensure the focus of study aligns with course selection, especially the General Education Elective courses.

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CUL-111	Food Service Sanitation and Skills	3			
HRT-231	Advanced Lodging Operations	3			HRT-131.
HRT-133	Culinary Theory in Hospitality	3			HRT-121.
GenEd-CCC	Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)					
Recommended: GEO-101					
GenEd-E	General Education Elective	3			
This course meets the General Education requirement for General Education Elective.					
Choose a course from the General Education Community and Cultural Context Menu					
Recommended: PSY-101 or SOC-101					
		<i>Total Credits:</i>	15		

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co-requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Perform technical skills in basic cooking and kitchen operations, basic skills in front desk, reservations and housekeeping procedures.
- Perform administrative skills in basic business bookkeeping procedure, business cost controls, and planning and coordinating hotel and restaurant operations.
- Demonstrate conceptual skills necessary to understanding the interrelationship of the component parts of the travel and tourism/hospitality industry.

CAREER OUTLOOK

Graduates of this option qualify for many supervisory and managerial positions as well as for management training programs in nationally recognized hotels and restaurants. Students also qualify to transfer to four-year college or university programs in Hotel/Restaurant Management.

Management of Assisted Living and Institutional Facilities

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
HRT-121 Principles of Management and Service in Hospitality	3			
HRT-105 Hospitality Seminar	3			
Satisfies the Learning Community Requirement				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
GenEd-QPS Quantitative Problem Solving	3			MAT-097 or MAT-098 or placement .
This course meets the General Education requirement for Quantitative Problem Solving.				
Recommended: MAT-172				

Total Credits: 15

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 or more credits must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- This map assumes that a student enters the College ready to enroll in ENG 111 and Quantitative Problem Solving requirement. Maps may be altered if developmental courses need to be taken.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
ACC-101 Principles of Accounting I	3			ESL-098 or RDG-095 or ELL-103 or placement.
HRT-112 Food and Beverage Operations	3			
CIT-110 Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
HRT-109 Hospitality Marketing Management	3			HRT-121.

Total Credits: 15

SUMMER SEMESTER	Credits	Milestone	GenEd	Prerequisites
HRT-299 Assisted Living Internship	3			HRT-121, HLT-111, PSY-141, CUL-111, HRT-135.

Total Credits: 3

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
HRT-125 Principles of Hospitality Finance and Accounting	3			ACC-101.
HLT-111 Health Aspects of Aging	3			
BIO-115 Nutrition Science/Lab	4			ENG-095, ESL-098 or RDG-095 or ELL-103, MAT-093.
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Satisfies General Education requirement for Scientific Reasoning				
HRT-131 Front Office Operations	3			
HRT-117 Hospitality Law	3			

Total Credits: 16

Semester 3 Advising Note

- It is strongly recommended that a student meet with their Advisor when planning for semesters 3 and 4 to ensure the focus of study aligns with course selection, especially the General Education Elective courses.

Management of Assisted Living and Institutional Facilities (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
CUL-111	Food Service Sanitation and Skills	3			
HRT-231	Advanced Lodging Operations	3			HRT-131.
HRT-135	Marketing and Managing Institutional Facilities	3			
GenEd-CCC	Community & Cultural Contexts	3			
<p> This course meets the General Education requirement for Community & Cultural Contexts. Recommended: GEO-101</p> <p> Choose one course from General Education Community and Cultural Context Menu</p>					
GenEd-E	General Education Elective	3			ESL-098 or RDG-095 or ELL-103.
<p> This course meets the General Education requirement for General Education Elective.</p> <p> Choose a course from the General Education Community and Cultural Context Menu Recommended: PSY-101 or SOC-101</p>					
PSY-141	Social Aspects of Aging	3			
		<i>Total Credits:</i>	18		

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use currently accepted biological, chemical and physical concepts to investigate problems and ideas presented in advanced study related to health and medicine.
- Use biological concepts to evaluate their own science related concerns such as personal health or health careers.

- Use laboratory technology, equipment and techniques to investigate scientific problems critically and safely using proper scientific methods.
- Use molecular and cellular laboratory techniques that are commonly used in Biotechnology and Medicine.
- Explain the major concepts of cell structure, function and cellular processes that are key to life.

CAREER OUTLOOK

This option will allow students to transfer to four-year colleges and universities to seek a bachelor's degree to pursue a career in the health professions. Students should enroll in this option if they plan to transfer to a four-year college or university to pursue admission to programs in medical, veterinary, pharmacy, physician's assistant or physical therapy professions.

Meeting and Event Planning Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
HRT-121	Principles of Management and Service in Hospitality	3	🚩

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co-requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

Paralegal Studies Certificate Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand the legal process and the nature of law practice
- Construct and evaluate logical arguments in support of specific positions.
- Conduct effective legal research and oversee legal projects.

CAREER OUTLOOK

Paralegals typically find jobs with law firms, corporations, government offices, non-profit entities, banks, health care organizations, bio-tech companies and

financial institutions. Areas of specialization include litigation, corporate law, criminal law, regulatory compliance, intellectual property, bankruptcy, labor law, immigration, family law, and real estate.

The number of jobs in the paralegal field is expected to grow much faster than average through 2016, and the position of paralegal is consistently ranked among the best jobs in America. Boston is home to one of the top legal markets in the United States and BHCC's main campus is minutes away from many courthouses, law schools, law firms, and government offices.

UNAUTHORIZED PRACTICE OF LAW STATEMENT

A Legal Studies graduate may work as a paralegal only under the supervision of an attorney and is not authorized to engage in the practice of law. The ABA (American Bar Association) defines a paralegal or legal assistant as "a person, qualified by education, training or work experience who is employed or retained by a lawyer, law office, corporation, governmental agency or other entity and who performs specifically delegated substantive legal work for which a lawyer is responsible.

Paralegal Studies Program

VMA-140 Media in Motion	3			VMA-132.
VMA-130 Social Media Strategy	3			ENG-095 or ELL-103 and MAT-093 or placement.
GenEd-QPS Quantitative Problem Solving	3			MAT-097 or MAT-098 or placement.
🎓 This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
✍ Choose one course from Quantitative Problem Solving Menu. Take in summer if possible.				
VMA-115 The Moving Image	3			ENG-095 or ELL-103 and MAT-093 or placement.
GenEd-SR Scientific Reasoning	4			
🎓 This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
✍ Choose one course from Scientific Reasoning menu.				
<i>Total Credits:</i> 16				

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. ✍ Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

Integrated Media Design Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

Upon the successful completion of the requirements of this option, graduates will be able to:

- Approach multimedia design as a responsive process of problem identification, ideation, creation and iteration.
- Apply basic skills in video, still images, visual design, typography, web/interactive design, storytelling and social media strategy to produce a portfolio of work that demonstrates their preparedness in industry-standard technical and critical-thinking skills.
- Demonstrate proficiency in software applications for image editing, and layout and content creation.
- Produce content using industry standard procedures for publication of content on electronic devices, websites and print.
- Use social media platforms for social media interaction and public relations and marketing strategy.
- Work within a team.
- Plan and execute projects to meet deadlines and design objectives.
- Practice effective communication and presentation skills necessary to engage in professional practice.

- Engage in creative and analytical discourse in order to communicate concepts to colleagues and clients.
- Produce portfolio content that is suitable for applying to four-year design programs, internships, and entry-level employment.
- Cultivate habits of independent learning and creativity.

CAREER OUTLOOK

The Integrated Media Design program addresses current demands for cross-disciplinary skills in the contemporary job market. Visual designers, interactive designers, social media specialists and many other professions require people to understand various aspects of content creation in video, web, and visual design, and social media strategy. People with a multimedia portfolio find work in advertising agencies, visual design firms, web design companies, publishing companies, game design companies, pre- and post-production houses, public relations firms, colleges, and many kinds of private, public, and non-profit companies.

Examples of occupations that require cross-disciplinary skills are:

- The visual designer who needs to know web content management, social media, video, and motion graphics.

- The promotions manager who needs to know web architecture, video production and editing, social media strategy, and storytelling skills.
 - The communications specialist, or journalist, who needs photography, video, sound and social media strategy
 - The videographer who needs to know social media, typography and web content management.
 - Interactive designer who needs to know animation, storyboarding, and content management.
- Further, more concentrated study can lead to jobs such as animator, motion graphic designer, art director, advertising account manager, public relations specialist, communications specialist, journalist, multimedia designer, multimedia production artist, multimedia developer, illustrator, videographer, filmmaker, film video editor, sound designer, 3-D artist, web designer, multimedia coordinator, technical artist, multimedia developer, experience designer, game designer, storyboard artist, interface designer, virtual reality specialist, art director/creative director, web designer, broadcast designer, software application designer, interface designer, information designer, product designer, environmental designer, broadcast design, educator, instructional designer, artist, and special effects designer.

Studio Arts Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
VMA-100 VMA Freshman Seminar	3			ENG-095 or ELL-103 and MAT-093 or placement.
✎ Satisfies Learning Community Requirement				
VMA-104 Drawing from Observation	3	🚩	🎓	ENG-095 or ELL-103 or placement.
🎓 This course meets the General Education requirement for Creative Work (Formerly Area 6)				
VMA-102 Visual Design: Composition and Color	3	🚩		ENG-095 or ELL-103 and MAT-093 or placement.
VMA-103 Elements of Form	3			ENG-095 or ELL-103 and MAT-093 or placement.
ENG-111 College Writing I	3		🎓	ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students, please consult with a VMA faculty member before registering.
- VMA100 and VMA104 should be completed as soon as possible.
- VMA104 is pre-requisite for multiple courses.
- Consider taking Gen. Ed. courses during Summer.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
VMA-205 Inventive Drawing	3			VMA-104.
VMA-207 Figure Drawing	3	🚩		VMA-104.
✎ Spring only				
VMA-111 Introduction to Mass Media	3		🎓	MAT-093 and ENG-095 or ELL-103 or placement.
🎓 This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
GenEd-QPS Quantitative Problem Solving	3-4		🎓	
🎓 This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
✎ Choose one course from Quantitative Problem Solving Menu				
ENG-112 College Writing II	3		🎓	ENG-111.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
<i>Total Credits:</i>		15-16		

Semester 2 Advising Note

- Students, please consult with a VMA faculty member before registering.
- Consider taking Gen. Ed. courses during Summer.

Studio Arts Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
VMA-221	Multimedia Paint and Theory	3			VMA-104.
	Fall only				
VMA-118	Elements of Time	3			ENG-095 or ELL-103 and MAT-093 or placement.
Elective	Career Elective	3			
	Choose one VMA course not already required for the program.				
VMA-112	Art History: Prehistoric to Medieval	3			ENG-095 and MAT-093 or placement.
	This course meets the General Education requirement for Creative Work (Formerly Area 6)				
GenEd-E	General Education Elective	3			
	This course meets the General Education requirement for General Education Elective.				
	Choose a course from the General Education Creative Work, Community/Cultural Contexts, Scientific Reasoning and Elective menus.				
		<i>Total Credits:</i>	<i>15</i>		

Semester 3 Advising Note

- Students, please consult with a VMA faculty member before registering.
- Student should select electives based on their specialization in order to strengthen portfolio.
- Consider taking Gen. Ed. courses during Summer.

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
VMA-227	Studio Portfolio	3			VMA-207 or VMA-221.
	Spring Only				
VMA-225	Painting Concepts	3			VMA-221.
	Spring only				
Elective	Career Elective	3			
	Choose one VMA course not already required for the program.				
VMA-113	Art History: Renaissance to Contemporary	3			ENG-095 or ELL-103 and MAT-093 or higher.
GenEd-SR	Scientific Reasoning	4			
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
	Choose one course from Scientific Reasoning Menu				
		<i>Total Credits:</i>	<i>16</i>		

Semester 4 Advising Note

- Students, please consult with a VMA faculty member before registering.
- Student should select electives based on their specialization in order to strengthen portfolio.
- Consider taking Gen. Ed. courses during Summer.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Develop a portfolio in preparation for transfer to a four-year college or university.
- Adapt the fundamental elements and principles of design to individual aesthetic.
- Demonstrate proficiency in Drawing, painting, and creating works in traditional as well as digital technologies and experimental forms.

- Apply the basic principles of color theory.
- Combine conceptual and critical thinking skills as applied to Studio Art

CAREER OUTLOOK

Graduates of this option qualify to transfer to bachelor's degree-granting colleges or universities. Potential entry level careers in the visual arts, which vary according to the chosen major, may include: Fine Arts, Commercial Arts, Graphic/visual Design, Photography,

Sculpture/3-D Designer, Illustration, Animation, Filmmaker, Videography, Architecture/Interior Architecture, Fashion Designer, Art Therapy, Art Education, Art Criticism and Theory, Art Historian, Art Critic, Curator, Gallerist/Art Dealer, Video Game Designer, Audio/Visual Artist, Audio Technician, Web Designer, Display Designer, Product Designer, and more. Students of all these tracks receive the same foundational curriculum within a typical four-year art college.

Visual Design Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
VMA-100 VMA Freshman Seminar	3			ENG-095 or ELL-103 and MAT-093 or placement.
Satisfies the Learning Community Requirement				
VMA-132 Typography I	3			ENG-095 or ELL-103 and MAT-093 or placement.
VMA-102 Visual Design: Composition and Color	3			ENG-095 or ELL-103 and MAT-093 or placement.
VMA-104 Drawing from Observation	3			ENG-095 or ELL-103 and MAT-093 or placement.
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
VMA-114 History of Graphic Design	3			ENG-095 or ELL-103 and MAT-093 or placement.
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- VMA-132, Typography I and VMA-104 Drawing from Observation must be successfully completed to move through the program.
- Consider taking Gen. Ed. Courses during the summer.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
VMA-133 Typography II	3			VMA-132.
VMA-129 Visual Design with HTML and CSS	3			ENG-095 or ELL-103 and MAT-093 or placement.
VMA-135 Digital Illustration	3			ENG-095 or ELL-103 and MAT-093.
VMA-106 Digital Imaging for Artists and Designers	3			ENG-095 or ELL-103 and MAT-093 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
<i>Total Credits:</i>		15		

Semester 2 Advising Note

- Students, please consult with a VMA faculty member before registering.
- Consider taking Gen. Ed. Courses during the summer.
- VMA-105 is not for VMA majors - do not take. VMA-129 required for VMA-275 in semester 3 (Fall).
- VMA-133 required for VMA-232 in semester 3 (fall semester).

Visual Design Option (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
VMA-232 Visual Design Lab I	3			Pre/co-requisite for VMA-232: VMA-133.
Course offered in the fall only				
VMA-275 Interactive Design I	3			VMA-132.
Course offered in the fall only				
Elective Career Elective	3			
Career Elective Courses: VMA-103, VMA-118, VMA-130, VMA-140, VMA-205, VMA-207, VMA-261, VMA-262, VMA-299G				
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
VMA-111 Introduction to Mass Media	3			ENG-095 or ELL-103 and MAT-093 or higher.
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
GenEd-QPS Quantitative Problem Solving	3-4			
This course meets the General Education requirement for Quantitative Problem Solving.				
Choose one course from Quantitative Problem Solving Menu				
<i>Total Credits: 18-19</i>				

Semester 3 Advising Note

- Students, please consult with a VMA faculty member before registering.
- Consider taking Gen. Ed. Courses like ENG-112 and GenEd-QPS during the summer.
- VMA-232 only offered in the Fall. Must have VMA-232 for VMA-233.

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
VMA-233 Visual Design Lab II	3			VMA-232 with a grade of C or higher.
This course is offered in the spring only				
Elective Career Elective	3			
Career Elective Courses: VMA-103, VMA-118, VMA-130, VMA-140, VMA-205, VMA-207, VMA-261, VMA-262, VMA-299G				
GenEd-SR Scientific Reasoning	4			
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
Choose one course from General Education Program Menu				
GenEd-E General Education Elective	3-4			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
<i>Total Credits: 13-14</i>				

Semester 4 Advising Note

- Students, please consult with a VMA faculty member before registering.
- Consider taking Gen. Ed. Courses during the summer.
- At least one Gen Ed will have to be taken over the semester; the program is 64 credits.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

Visual Design Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Approach visual design as a responsive process of problem identification, ideation, and creation.
- Apply design skills in typography, color, image, form, and materials to print and digital media projects.
- Produce portfolio content that is suitable for applying to four-year design programs, internships, and design-related employment.
- Demonstrate proficiency in software applications for drawing, image editing, and layout.
- Use industry standard procedures to produce files and materials for print and digital production.
- Plan and execute projects to meet deadlines and design objectives.
- Practice effective communication and presentation skills necessary to engage in professional visual design practice.
- Engage in creative and analytical discourse about design in order to communicate concepts to colleagues and clients.
- Cultivate habits of life-long learning and creativity.

CAREER OUTLOOK

Graduates of this program will produce a portfolio of design work demonstrating foundation and entry-level skills and knowledge needed for careers in fields such as: advertising, print and digital book design, editorial design, environmental design, experience design, identity design, illustration, information design, in-house design, interaction design, motion graphics, packaging, print design, product design, typography, UX design, and web design.

Biological Sciences: Biotechnology Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-197 Pre-Calculus	4			MAT-194 or placement.
BIO-195 General Biology I/Lab	4			ENG-095 and RDG-095 or ELL-103 or ESL-098 and MAT-194 or placement.
BIO-120 Introduction to Biotechnology	4			ENG-095 and RDG-095 or ELL-103 or ESL-098 and MAT-099 or placement.
Students in the Biotechnology option should take BIO-120 in their first semester. Students must also complete BIO120 before taking BIO261 in their third semester.				
<i>Total Credits:</i>				15

Semester 1 Advising Note

If student is taking developmental math their first semester, they can supplement their schedule with General Education courses and College Writing I (ENG111). Taking developmental math the first semester will require a student to attend for an extra semester and/or attend a summer session to complete the program.

A student should consider taking one of their General Education courses during the summer session to lighten their academic load in semester two.

General Education Quantitative Problem Solving and General Education Scientific Reasoning satisfied by Program.

This is a day program only. The only biotechnology course offered in the evening is BIO-120.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
BIO-196 General Biology II/Lab	4			BIO-195.
BIO-207 Cell Biology/Lab	4			MAT-197, BIO-195 and either BIO-196 or BIO-120
<i>Total Credits:</i>				17

Semester 2 Advising Note

- Three General Education menu courses must be completed during semesters 2 and 3, in no particular sequence.
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.

Biological Sciences: Biotechnology Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites	
GenEd-CW	Creative Work	3				
This course meets the General Education requirement for Creative Work (Formerly Area 6) Choose one course from Creative Work Menu						
BIO-208	Genetics/Lab	4			BIO-196 and pre/coreq BIO-207 or Chair approval.	
BIO-261	Advanced Laboratory Techniques in Biotechnology	3			BIO-195 and either BIO-120 or BIO-207.	
Students in the Biotechnology option must complete BIO-120 before taking BIO-261.						
CHM-201	General Chemistry I/Lab	4			MAT-197 or higher-level math and pre or corequisite ENG-111.	
Students must complete MAT197 with a C+ or better before taking CHM-201						
		<i>Total Credits:</i>	14			

Semester 3 Advising Note

- Students in the Biotechnology option must complete BIO-120 before taking BIO-261
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites	
BIO-262	Principles of Molecular Biotechnology	3			BIO-207 and prerequisite or co-requisite BIO-208 and BIO-261.	
Elective	Option Elective	3-4				
Elective Options: BIO-205 Microbiology, ENV-211* Environmental Ecology/Lab, CHM-121, Principles of Organic and Biochem/Lab, CHM-251 Organic Chemistry I, CHM-252 Organic Chemistry II, CIT-113, Information Tech Problem Solving, MAT-181 Statistics, MAT-281 Calculus I, MAT-282 Calculus II, SCI-221 Interpretation of Scientific Research, SCI-150 Forensic Science & Lab, HON-200 Honors Seminar						
CHM-202	General Chemistry II/Lab	4			CHM-201.	
Elective	Option Elective	4				
Elective Options: BIO-205 Microbiology, ENV-211* Environmental Ecology/Lab, CHM-121, Principles of Organic and Biochem/Lab, CHM-251 Organic Chemistry I, CHM-252 Organic Chemistry II, CIT-113, Information Tech Problem Solving, MAT-181 Statistics, MAT-281 Calculus I, MAT-282 Calculus II, SCI-221 Interpretation of Scientific Research, SCI-150 Forensic Science & Lab, HON-200 Honors Seminar						
		<i>Total Credits:</i>	14-15			

Semester 4 Advising Note

- ENV-211 (Environmental Microbiology) was formally offered as BIO-211. ENV-211 cannot be taken if credits already earned for BIO-211.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Biological Sciences: Biotechnology Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use currently accepted biological, chemical, and physical concepts to investigate problems and ideas presented in advanced biological study.
- Use biological concepts to evaluate their own science related concerns such as personal health or careers.
- Use laboratory technology, equipment and techniques to investigate scientific problems critically and safely using proper scientific methods.
- Use molecular and cellular laboratory techniques that are commonly used in Biotechnology.
- Explain the major concepts of cell structure, function and cellular processes that are key to life.
- Explain current models, concepts and principles of genetics and inheritance.
- Explain and apply the underlying concepts of current topics and experimental models in molecular biology and Biotechnology.
- Use industry skills and work practices of the biotechnology industry for direct employment.

CAREER OUTLOOK

Students completing this option qualify for entry level positions in a wide range of biotechnology disciplines in industry, police, government and academic labs. These positions require a biotechnology certificate, AS degree or BS degree with 0-2 years of experience. Such positions offer the possibility of merit bonus and promotion and are available locally as well as nationwide.

Biological Sciences: Medical Professions Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
CHM-201 General Chemistry I/Lab	4			MAT-197 and pre/co req: ENG-111.
MAT-281 Calculus I	4			MAT-197.
BIO-195 General Biology I/Lab	4			ENG-095 and ESL-098 or RDG-095 or ELL-103 and MAT-194 or placement.
<i>Total Credits:</i>		15		

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- This option has three tracks: 1. Pre-pharmacy school; 2. Pre-physician's assistant or physical therapy school; 3. Pre-medical or Pre-veterinary school. Course selection will vary based on a student's intended career. Students should learn about the course requirements of specific programs as they choose their electives. Please see each semester's advising notes for correct course registration.
- Students need to complete three General Education courses during semesters 1 and 2. Students do not need to complete General Education courses in any particular order.
- MAT-197 requires a C+ or higher to enroll in CHM-201.
- If a student is not eligible to take (MAT281) Calculus I, they should take (MAT-197) Precalculus in order to take (CHM-201) General Chemistry I/Lab in their second semester.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG- 111.
 This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
 This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2)				
 Choose one course from Community and Contexts Menu				
BIO-196 General Biology II/Lab	4			BIO-195.
CHM-202 General Chemistry II/Lab	4			CHM-201.
GenEd-CW Creative Work	3			
 This course meets the General Education requirement for Creative Work (Formerly Area 6)				
 Choose one course from Creative Work Menu				
<i>Total Credits:</i>		17		

Semester 2 Advising Note

- Cell Biology/Lab (BIO-207), Genetics/Lab (BIO-208), Organic Chemistry I/ Lab (CHM-251), (CHM-252) Organic Chemistry II/Lab and Interpretation and Presentation of Scientific Research (SCI-221) is not always offered during the summer semester. All other required science and math courses are offered during the summer.
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Biological Sciences: Medical Professions Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
BIO-207	Cell Biology/Lab	4			MAT-197, BIO-195 and either BIO-196 or BIO-120.
CHM-251	Organic Chemistry I/Lab	4			CHM-202 and ENG-112.
PHY-251	College Physics I/Lab or	4			Prerequisite for PHY-251: MAT-281.
PHY-201	General Physics/Lab				Prerequisite for PHY-201: MAT-197.
Elective	Elective	3			

✎ Option elective courses:

BIO-203 Anatomy and Physiology, BIO-204 Anatomy and Physiology II, BIO-205 Microbiology, BIO-208 Genetics, CHM-252 Organic Chemistry, MAT-181 Statistics, MAT-282 Calculus II, NHP-180 Medical Terminology, COM-171 Public Speaking and Professional Communication, SCI-221 Interpretation of Scientific Research, HON-200 Honors Seminar
See semester advising note.

Total Credits: 15

Semester 3 Advising Note

- Veterinary and pharmacy schools: Most require calculus and calculus-based College Physics (PHY-251 and PHY-252).
- Medical, physician's assistant, physical therapy schools: Most do not require calculus or calculus-based physics and students can instead take General Physics (PHY-201 and PHY-202). However, College Physics (PHY-251 and PHY-252) courses will strengthen your application.
- Electives should be decided based on the medical profession chosen by the student. Students should research specific programs and their course requirements.
- Veterinary and medical schools elective options: Organic Chemistry II (CHM-252), Genetics (BIO-208), Statistics (MAT-181),
*Students may choose to take Microbiology (BIO-205).
- Pharmacy programs elective options: Organic Chemistry II (CHM-252), Microbiology (BIO-205), Anatomy & Physiology I (BIO-203),
*Students may also choose: Public Speaking and Professional Communication (COM-171), Statistics (MAT-181), and/or Anatomy & Physiology II (BIO-204).
- Physician's Assistant or Physical Therapy programs elective options: Anatomy & Physiology I and II (BIO-203 and BIO-204), Statistics (MAT-181), *Students may choose to take Medical Terminology (NHP-180) and/or Microbiology (BIO-205).
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

Biological Sciences: Medical Professions Option (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
Elective-1	Elective	3-4			
✎ See semester advising note					
PHY-252	College Physics II/Lab	4			Prerequisites for PHY-252: PHY-251; Pre/co-requisite: MAT-282.
PHY-202	General Physics II/Lab				Prerequisites for PHY-202: PHY-201.
GenEd-E	General Education Elective	3			
🎓 This course meets the General Education requirement for General Education Elective.					
✎ Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.					
Elective-2	Elective	3-4			
✎ Option elective courses: BIO-203 Anatomy and Physiology I, BIO-204 Anatomy and Physiology II, BIO-205 Microbiology, BIO-208 Genetics, CHM-252 Organic Chemistry, MAT-181 Statistics, MAT-282 Calculus II, NHP-180 Medical Terminology, COM-171 Public Speaking and Professional Communication, SCI-221 Interpretation of Scientific Research, HON-200 Honors Seminar See semester advising note.					

Total Credits: 13-15

Semester 4 Advising Note

- Veterinary and medical schools elective options: Organic Chemistry II (CHM-252), Genetics (BIO-208), Statistics (MAT-181), *Students may choose to take Microbiology (BIO-205).
- Pharmacy programs elective options: Organic Chemistry II (CHM-252), Microbiology (BIO-205), Anatomy & Physiology I (BIO-203), *Students may also choose: Public Speaking and Professional Communication (COM-171), Statistics (MAT-181), and/or Anatomy & Physiology II (BIO-204).
- Physician's Assistant or Physical Therapy programs elective options: Anatomy & Physiology I and II (BIO-203 and BIO-204), Statistics (MAT-181), *Students may choose to take Medical Terminology (NHP-180) and/or Microbiology (BIO-205).
- Apply for graduation.

📌 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 🔗 This course has pre/co-requisites.

✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use currently accepted biological, chemical and physical concepts to investigate problems and ideas presented in advanced study related to health and medicine.
- Use biological concepts to evaluate their own science related concerns such as personal health or health careers.

- Use laboratory technology, equipment and techniques to investigate scientific problems critically and safely using proper scientific methods.
- Use molecular and cellular laboratory techniques that are commonly used in Biotechnology and Medicine.
- Explain the major concepts of cell structure, function and cellular processes that are key to life.

CAREER OUTLOOK

This option will allow students to transfer to four-year colleges and universities to seek a bachelor's degree to pursue a career in the health professions. Students should enroll in this option if they plan to transfer to a four-year college or university to pursue admission to programs in medical, veterinary, pharmacy, physician's assistant or physical therapy professions.

Biology Transfer Option

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites	
ENG-111	College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.	
	This course meets the General Education requirement for Academic Discourse (Formerly Area 1)					
GenEd-CCC	Community & Cultural Contexts	3				
	This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 an 3)					
	Choose a course from the Community & Cultural Contexts Menu					
MAT-281	Calculus I	4			MAT-197 or placement; see semester advising note.	
BIO-195	General Biology I/Lab	4			ENG-095 and RDG-095 or ELL-103 or ESL-098, and MAT-194.	
		<i>Total Credits:</i>	14			

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- Students need to complete three General Education courses during semesters 1 & 2. These do not need to be completed in any particular sequence.
- If a student is not eligible to take MAT-281, they should take Precalculus (MAT-197) in orders to take General Chemistry I (CHM-201) in their second semester

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites	
ENG-112	College Writing II	3			ENG-111.	
	This course meets the General Education requirement for Research Writing (Formerly Area 1)					
GenEd-E	General Education Elective	3				
	This course meets the General Education requirement for General Education Elective.					
	Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.					
GenEd-CW	Creative Work	3				
	This course meets the General Education requirement for Creative Work (Formerly Area 6)					
	Choose a course from the Creative Work Menu					
BIO-196	General Biology II/Lab	4			BIO-195.	
CHM-201	General Chemistry I/Lab	4			MAT-197 and pre/co req: ENG-111.	
	Students must complete MAT197 with a C+ or better before taking CHM201					
		<i>Total Credits:</i>	17			

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Biology Transfer Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
BIO-207	Cell Biology/Lab	4			MAT-197, BIO-195 and either BIO-196 or BIO-120.
CHM-202	General Chemistry II/Lab	4			CHM-201.
PHY-251	College Physics I/Lab	4	🚩		Prerequisite for PHY-251: MAT-281.
PHY-201	General Physics/Lab				Prerequisite for PHY-201: MAT-197.
Elective	Option Elective	3-4			

✎ Elective Options:

BIO-120 Introduction to Biotechnology, BIO-210 Population Biology, ENV-211 Environmental Microbiology/Lab, BIO-261 Advanced Lab Techniques in Biotechnology, BIO-262 Principles of Molecular Biotechnology, CHM-251 Organic Chemistry I, CHM-252 Organic Chemistry II, MAT-181 Statistics I, MAT-282 Calculus II, SCI-221 Interpretation and Presentation of Scientific Research, HON-200 Honors Seminar

Total Credits: 15-16

Semester 3 Advising Note

- It is highly recommended that a student take Organic Chemistry I & II for two of their option electives. However, this will require an extra semester at BHCC to complete unless the student has completed the math prerequisite (MAT-197 or equivalent) to take General Chemistry I (CHM-201) in their first semester.
- If a student elects to take Advanced Lab Techniques in Biotechnology (BIO-261) they should also take Principles of Molecular Biotechnology (BIO-262) to insure transferability. BIO-261 will only be offered in the fall semester and BIO-262 will only be offered in the spring semester.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Students should check with their transferring institution to see if they require algebra or calculus based physics for their biology programs.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
BIO-208	Genetics/Lab	4			BIO-196 and Pre/coreq BIO-207 or Chair approval.
PHY-252	College Physics II/Lab	4			Prerequisites for PHY-252: PHY-251; Pre/co-requisite: MAT-282.
PHY-202	General Physics II/Lab				Prerequisites for PHY-202: PHY-201.
Elective-1	Option Elective	3-4			

✎ Elective Options:

BIO-120 Introduction to Biotechnology, BIO-210 Population Biology, ENV-211 Environmental Ecology/Lab, BIO-261 Advanced Lab Techniques in Biotechnology, BIO-262 Principles of Molecular Biotechnology, CHM-251 Organic Chemistry I, CHM-252 Organic Chemistry II, MAT-181 Statistics, MAT-282 Calculus II, SCI-221 Interpretation and Presentation of Scientific Research, HON-200 Honors Seminar

Elective-2 Option Elective

3-4

✎ Elective Options:

BIO-120 Introduction to Biotechnology, BIO-210 Population Biology, ENV-211 Environmental Ecology/Lab, BIO-261 Advanced Lab Techniques in Biotechnology, BIO-262 Principles of Molecular Biotechnology, CHM-251 Organic Chemistry I, CHM-252 Organic Chemistry II, MAT-181 Statistics, MAT-282 Calculus II, SCI-221 Interpretation and Presentation of Scientific Research, HON-200 Honors Seminar

Total Credits: 14-16

Semester 4 Advising Note

- Elective Notes: It is highly recommended that a student take Organic Chemistry I/Lab and Organic Chemistry II/Lab for two of their option electives. However, this will require an extra semester at BHCC to complete.
- If a student elects to take Advanced Lab Techniques in Biotechnology (BIO-261) they should also take Principles of Molecular Biotechnology (BIO-262) to insure transferability. BIO-261 will only be offered in the fall semester and BIO-262 will only be offered in the spring semester.
- Apply for graduation

📌 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 🔄 This course has pre/co-requisites.

✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

Biomedical Engineering Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENR-101 Introduction to Engineering/Lab	4			MAT-194 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-281 Calculus I	4			MAT-197.
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2 and Area 3)				
Choose one course from Community and Cultural Contexts Menu				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
<i>Total Credits:</i> 17				

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program
- This map assumes a student enters the program ready to enroll in MAT-281.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CHM-201 General Chemistry I/Lab	4			MAT-197 and pre/co req: ENG-111.
Students must complete MAT197 with a C+ or better before taking CHM-201				
MAT-282 Calculus II	4			MAT-281.
PHY-251 College Physics I/Lab	4			MAT-281.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
<i>Total Credits:</i> 18				

Semester 2 Advising Note

- A student should plan to complete CHM-201 during the Spring semester or the Summer Bridge Session.
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.

Program information was omitted in the original version of the 2021-2023 College Catalog, and has been added as an insert to the final catalog as Pages 216a and 216b.

Biomedical Engineering Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
BME-100	Biomedical Engineering I/Lab	4			MAT-281 and CHM-201. Pre-/Co-requisite: MAT-282.
MAT-283	Calculus III	4			MAT-282.
PHY-252	College Physics II/Lab	4			PHY-251. Pre/co-requisite: MAT-282.
BIO-195	General Biology I/Lab	4			ENG-095, RDG-095 or ESL-098 and MAT-194 or placement.

Total Credits: 16

Semester 3 Advising Note

- Biomedical Engineering I/Lab is currently only offered during the Fall Semester.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
BME-200	Biomedical Engineering II	3			BME-100 and MAT-282. Pre/co-requisite: MAT-283.
MAT-285	Differential Equations	4			MAT-282.
BME-250	Biomedical Engineering III	3			BME-200 or Chair approval. Pre/co-requisite: MAT-285.

 See semester advising note.

BIO-196	General Biology II/Lab	4			BIO-195.
CHM-202	General Chemistry II/Lab	4			CHM-201.

Total Credits: 18

Semester 4 Advising Note

- BME-250: Depending on the student's intended transfer program/school, Biomedical Engineering III may be substituted with another course. The substitution may also allow for Biomedical Engineering II and Biomedical Engineering III to be completed in the same semester. Biomedical Engineering II is currently offered during only the Spring semester
- Apply for graduation.

Program information was omitted in the original version of the 2021-2023 College Catalog, and has been added as an insert to the final catalog as Pages 216a and 216b.

Biomedical Engineering Option (continued)

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ⚙ This course has pre/co- requisites.
- ✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design and conduct experiments.
- Analyze and interpret data.
- Apply computational tools and scientific concepts to biomedical engineering problems.
- Design systems, components, or processes for solving biomedical engineering problems.
- Function as part of a biomedical engineering team.
- Articulate the professional and ethical responsibilities required of engineers.

CAREER OUTLOOK

Graduates with an associate of science degree will be qualified for direct employment in entry-level research/lab assistant, design and manufacturing positions available in private industries, academic research institutions, and hospitals locally and nationwide.

Program information was omitted in the original version of the 2021-2023 College Catalog, and has been added as an insert to the final catalog as Pages 216a and 216b.

Chemistry Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2 and 3)				
MAT-281 Calculus I	4			MAT-197 or placement; See Note*.
CHM-201 General Chemistry I/Lab	4			MAT-197 Co-requisite: ENG-111.
A grade of C or better is required for MAT-197. Recommendation: take MAT-281 concurrently with CHM-201.				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Menu				
<i>Total Credits:</i>				17

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program
- Student enrolling in this degree program can earn World Studies Emphasis certification simultaneously
- Students need to complete three General Education courses and a humanities course. They do not need to be completed in any particular sequence.
- Student must have completed ENG-111 with a C or better or take ENG-111 concurrently with CHM-201. Must have completed MAT-197 with a C+ or better before taking CHM-201 or take MAT-281 concurrently with CHM-201. Students who are not able to take CHM-201 in their first semester will need to take CHM-202 during the summer or take an additional semester for completion of CHM-252 at the end of the program

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
MAT-282 Calculus II	4			MAT-281; see note.
CHM-202 General Chemistry II/Lab	4			CHM-201.
PHY-251 College Physics I/Lab	4			MAT-281.
<i>Total Credits:</i>				15

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- It is recommended that students take the General Education elective or Humanities courses during the summer to lighten their load in the second semester, and/or to take one of their recommended third-semester electives during the summer to lighten their load in the third semester
- CHM-251 and CHM-252 are not offered during the summer session. All other required science and math courses are offered during the summer. Students wishing to complete the program in four semesters will need to begin their CHM-251/252 sequence in their third semester, and will need to take CHM-202 in the summer if they take CHM-201 in their second semester

Chemistry Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CHM-251 Organic Chemistry I/Lab	4			CHM-202 and ENG-112.
PHY-252 College Physics II/Lab	4			PHY-251 and pre/co- requisite of MAT-282.
Elective-1 Concentration Elective	3-4			
Concentration Elective courses: BIO-120 Introduction to Biotechnology, BIO-195 General Biology I, BIO-196 General Biology II, CSC-120 Introduction to Computer Science and Object Oriented Programming, ENR-101 Introduction to Engineering, HON-200 Honors Seminar, MAT-181 Statistics I, MAT-283 Calculus III, MAT-285 Ordinary Differential Equations, SCI-221 Scientific Writing				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the Community/Cultural Contexts				
<i>Total Credits: 14-15</i>				

Semester 3 Advising Note

One of the Concentration electives must be a 4-credit course to satisfy the minimum 60-credit degree requirement.

Concentration Electives:

- BIO-120 Introduction to Biotechnology
- BIO-195 General Biology I
- BIO-196 General Biology II
- CSC-120 Introduction to Computer Science and Object Oriented Programming
- ENR-101 Introduction to Engineering
- HON-200 Honors Seminar
- MAT-181 Statistics I
- MAT-283 Calculus III
- MAT-285 Ordinary Differential Equations
- SCI-221 Scientific Writing

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
CHM-252 Organic Chemistry II/Lab	4			CHM-251.
Elective-1 Concentration Elective	3-4			
Concentration Electives: BIO-120 Introduction to Biotechnology, BIO-195 General Biology I, BIO-196 General Biology II, CSC-120 Introduction to Computer Science and Object Oriented Programming, ENR-101 Introduction to Engineering, HON-200 Honors Seminar, MAT-181 Statistics I, MAT-283 Calculus III, MAT-285 Ordinary Differential Equations, SCI-221 Scientific Writing				
Elective-2 Humanities Elective	3			
Choose one course from the Humanities Electives menu.				
Elective-3 Concentration Elective	3-4			
Concentration Electives: BIO-120 Introduction to Biotechnology, BIO-195 General Biology I, BIO-196 General Biology II, CSC-120 Introduction to Computer Science and Object Oriented Programming, ENR-101 Introduction to Engineering, HON-200 Honors Seminar, MAT-181 Statistics I, MAT-283 Calculus III, MAT-284 Ordinary Differential Equations, SCI-221 Scientific Writing				
<i>Total Credits: 13-15</i>				

Semester 4 Advising Note

One of the Concentration electives must be a 4-credit course to satisfy the minimum 60-credit degree requirement.

Concentration Electives:

- BIO-120 Introduction to Biotechnology
- BIO-195 General Biology I
- BIO-196 General Biology II
- CSC-120 Introduction to Computer Science and Object Oriented Programming
- ENR-101 Introduction to Engineering
- HON-200 Honors Seminar
- MAT-181 Statistics I
- MAT-283 Calculus III
- MAT-285 Ordinary Differential Equations
- SCI-221 Scientific Writing

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.

Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Chemistry concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use currently accepted chemical concepts to investigate problems and ideas presented in advanced chemical study.
- Use chemical concepts to evaluate their own science-related concerns such as personal health or careers in science.
- Use laboratory technology, equipment, and techniques critically and safely to investigate scientific problems using proper scientific methods.

CAREER OUTLOOK

Graduates of this concentration should transfer to a four year college or university because entry-level employment opportunities in chemistry such as lab or field technicians usually require a minimum of a bachelor's degree in chemistry. Professional positions such as engineers, researchers, or college instructors usually require a minimum of a master's degree.

Android Mobile App Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-102	IT Career Exploration	1			
CIT-113	Information Technology Problem Solving or CIT-110 Applications/Concepts or CSC-120 Intro to Computer Science and Object Oriented Programming	3	🚩		Prerequisites for CIT-110 and CIT-113: ESL-098 or RDG-095 or ELL-103 or placement. Prerequisites for CSC-120: MAT099, ENG-095, and RDG-095 or ELL-103 or ESL-098.
CSC-129	Mobile Application Development	3	🚩		ENG-090 and RDG090 or placement.
CSC-131	Introduction to Creating Mobile Applications	3	🚩		ENG-090 and RDG-090 or placement.
<i>Total Credits:</i>		10			

SEMESTER 2 <i>SPRING</i>		Credits	Milestone	GenEd	Prerequisites
CSC-135	Design for Mobile Devices	3	🚩		ENG-090 and RDG-090 or placement.
✍	This course is only offered during the Spring Semester				
CSC-229	Programming for Android I	3	🚩		CIT-113 or CSC-120 or CSC-129 or Chair approval.
✍	This course is only offered during the Spring Semester				
<i>Total Credits:</i>		6			

Semester 2 Spring Advising Note

- Apply for graduation
- Any BHCC CIT programming course may be used as a prerequisite for CSC-229

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 🔗 This course has pre/co- requisites.
✍ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Tackle large problems by systematically breaking them down into smaller, more manageable problems.
- Use their knowledge, skills, and resources to effectively adapt to change.

- Utilize a foundation in programming practices and principles.
- Utilize skills and competencies required to program basic Android applications in Java.
- Utilize skills and competencies required to design basic mobile applications on several device platforms.

CAREER OUTLOOK

This Certificate Program is designed to align with the needs specified by industry partners. This option will have stackable credentials ideal for the working professional who is not seeking a degree, but looking to enhance their existing information technology skills.

Computer Science Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CSC-120 Intro to Computer Science and Object Oriented Programming	4			MAT-099 and ENG-095 and RDG-095 or ELL-103 or ESL-098 or placement .
Satisfies the Learning Community Requirement				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-281 Calculus I	4			MAT-194.
MAT-197 is waived for students placing higher on Accuplacer test; student should take MAT-281. If MAT-197 is waived students can replace with one of the math electives CIT-237, CIT-243, CIT-287 or MAT-281 or MAT-291				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
<i>Total Credits:</i>				14

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by Program.
- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CSC-239 JAVA Programming	4			ENG-095 and MAT-194 or placement and CSC-120 or Chair approval.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
MAT-282 Calculus II	4			MAT-281.
CSC-237 C++ Programming	4			ENG-095 and MAT-194 or placement and CSC-120.
<i>Total Credits:</i>				15

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.

Computer Science Concentration (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6) Choose one course from the Creative Work Menu				
CSC-285 Advanced Java	3			MAT-197 and CSC-239.
PHY-251 College Physics I/Lab	4			MAT-281.
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective. Choose one course from the Community & Cultural Contexts Menu.				
Elective Concentration Elective	3-4			
Elective Options: CSC-243 Android for Java Programmers, CSC-236 SQL Programming, CSC-284 Advanced C++, CSC-287 OOPL for Programmers, CSC-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSc Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra				
<i>Total Credits: 16-17</i>				

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap
- Students planning to transfer to UMASS Boston's Computer Science program, should plan to take CS-240 (Programming in C) at UMB, and transfer it back to BHCC as an elective.

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
PHY-252 College Physics II/Lab	4			PHY-251 and pre/co-req MAT-282.
CSC-242 Data Structures	3			CSC-239 and MAT-197.
Department strongly recommends students complete CSC-239 with a B- or better.				
Elective-1 Concentration Elective	3-4			
Concentration Elective Options: CSC-243 Android for Java Programmers, CSC-236 SQL Programming, CSC-284 Advanced C++, CSC-287 OOPL for Programmers, CSC-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSC Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra				
Elective-2 Concentration Elective	3-4			
Concentration Elective Options: CSC-243 Android for Java Programmers, CSC-236 SQL Programming, CSC-284 Advanced C++, CSC-287 OOPL for Programmers, CIT-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSc Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra				
Elective Humanities Elective	3			Choose one course from Humanities Elective.
<i>Total Credits: 16-18</i>				

Semester 4 Advising Note

- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Computer Science Concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

Computer Science Concepts -

- Demonstrate a clear understanding of the concepts, terminology, and term definitions associated with Computer Science, including basic computer architecture and organization.

Computer Science Software -

- Demonstrate a clear understanding of the discipline's specific Integrated Development Environments, software utilities, and computer platforms which can be used in the development of software.

Computer Software Development -

- Design, plan, develop, and produce complete computer software from start to finish with all stages of the development process clearly identified.

Create software in Object Oriented Languages

Computer Science Teams -

- Participate in multi-cultural teams and team projects as a contributing member with the requirement to be an active and supportive team member.

Computer Software Quality and Assurance -

- Analyze Worst and Best case for algorithm performance
- Design and implement software test plans, including Unit and Integration testing
- Reporting and Presenting Software Solutions -

- Write formal report of software solutions
- Present software solutions using diverse modalities (PowerPoint, Video, etc.)
- Provide and receive constructive and critical feedback
- Create software Requirements and Design Documents
- Create software program documentation

CAREER OUTLOOK

Graduates of this concentration are prepared for well-paying, entry level careers as computer scientists and programmers, and can transfer to bachelor's programs at four-year college Computer Science programs.

Computer Science Transfer Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CSC-120 Intro to Computer Science and Object Oriented Programming	4			MAT-099 and RDG-095 or ESL-098 and ENG-095 or placement.
Satisfies the Learning Community Requirement				
MAT-281 Calculus I	4			MAT-197 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
GenEd-E General Education Elective	3-4			
This course meets the General Education requirement for General Education Elective.				
Choose one course from General Education Community and Cultural Contexts Menu				
<i>Total Credits: 17-18</i>				

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community cluster within their first year

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CSC-237 C++ Programming	4			ENG-095 and MAT-194 or placement and CSC-120 or Chair approval.
MAT-282 Calculus II	4			MAT-281.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CSC-239 JAVA Programming	4			ENG-095 and MAT-194 or placement and CSC-120 or Chair approval.
<i>Total Credits: 15</i>				

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Computer Science Transfer Option (continued)

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
Elective-1 Option Elective	3-4			
<p> Elective Options: CSC-243 Android for Java Programmers, CSC-236 SQL Programming, CSC-284 Advanced C++, CSC-287 OOPL for Programmers, CIT-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSc Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra</p>				
CSC-285 Advanced Java	3			MAT-197 and CIT-239.
CSC-242 Data Structures	3			CIT-239 and MAT-197.
<p> Department strongly recommends students complete CIT-239 with a B- or better.</p>				
PHY-251 College Physics I/Lab	4			MAT-281.
GenEd-CW Creative Work	3			
<p> This course meets the General Education requirement for Creative Work (Formerly Area 6)</p> <p> Choose one course from Creative Work Menu</p>				
<i>Total Credits: 16-17</i>				

Semester 3 Advising Note

- Recommended electives: CIT-287 or CIT-243 or MAT-291.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap
- Students planning to transfer to UMASS Boston's Computer Science program, should plan to take CS-240 (Programming in C) at UMB, and transfer it back to BHCC as an elective.

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
Elective-1 Option Elective	3-4			
<p> Elective Options: CSC-243 Android for Java Programmers, CSC-236 SQL Programming, CSC-284 Advanced C++, CSC-287 OOPL for Programmers, CIT-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSc Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra</p>				
Elective-2 Option Elective	3-4			
<p> Elective Options: CIT-243 Android for Java Programmers, CIT-236 SQL Programming, CIT-284 Advanced C++, CIT-287 OOPL for Programmers, CIT-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSc Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra</p>				
PHY-252 College Physics II/Lab	4			PHY-251 and pre/co-req MAT-282.
Elective-3 Option Elective	3-4			
<p> Elective Options: CIT-243 Android for Java Programmers, CIT-236 SQL Programming, CIT-284 Advanced C++, CIT-287 OOPL for Programmers, CIT-299CSc Computer Science Internship, HON-200 Honors Seminar, INT-299CSc Learning and Earn Internship, MAT-283 Calculus III, MAT-285 Differential Equations, MAT-291 Linear Algebra</p>				
<i>Total Credits: 13-16</i>				

Semester 4 Advising Note

- Recommended electives: CIT-287 or CIT-243 or MAT-291
- Students planning to transfer to UMASS Lowell and UMASS Amherst should take MAT-291 as an elective
- Students planning to transfer to Tufts University should take MAT-283 as an elective
- Apply for graduation
- Students planning to transfer to UMASS Boston's Computer Science program, should plan to take CS-240 (Programming in C) at UMB, and transfer it back to BHCC as an elective.

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.  This course has pre/co- requisites.
 Advising note or suggestion regarding this course.  This course satisfies General Education requirement.

Computer Science Transfer Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

Computer Science Concepts -

- Demonstrate a clear understanding of the concepts, terminology, and term definitions associated with Computer Science, including basic computer architecture and organization.

Computer Science Software -

- Demonstrate a clear understanding of the discipline's specific Integrated Development Environments, software utilities, and computer platforms which can be used in the development of software.

Computer Software Development -

- Design, plan, develop, and produce complete computer software from start to finish with all stages of the development process clearly identified.
- Create software in Object Oriented Languages
- Computer Science Teams -
- Participate in multi-cultural teams and team projects as a contributing member with the requirement to be an active and supportive team member.
- Computer Software Quality and Assurance -
- Analyze Worst and Best case for algorithm performance
- Design and implement software test plans, including Unit and Integration testing
- Reporting and Presenting Software Solutions -

- Write formal report of software solutions
- Present software solutions using diverse modalities (PowerPoint, Video, etc.)
- Provide and receive constructive and critical feedback
- Create software Requirements and Design Documents
- Create software program documentation

CAREER OUTLOOK

The CS Transfer Option degree prepares students to transfer to four-year college Computer Science (CS) Programs across the United States and also prepares them for well-paid entry level careers and internships as computer scientists and programmers.

Mobile App Starter Certificate Apple

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
CIT-110	Applications/Concepts	3			ESL-098 or RDG-095 or ELL-103 or placement.
or CIT-113	Information Technology Problem Solving				
✎ CSC-120 can be used to satisfy this requirement					
CSC-129	Mobile Application Development	3	🚩		ENG-090 and RDG-090 or ELL-101 or placement.
✎ Fall - Taught in class Spring - Taught online					
CSC-131	Introduction to Creating Mobile Applications	3	🚩		ENG-090 and RDG-090 or ELL-101 or placement.
CIT-102	IT Career Exploration	1			
		<i>Total Credits:</i>	10		

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
CSC-135	Design for Mobile Devices	3	🚩		ENG-090 and RDG-095.
✎ VMA-275 can also satisfy this requirement CSS-135 Taught in Spring Only					
CSC-238	Programming for iOS I	3	🚩		Programming course or Chair approval.
✎ Taught in Spring Only					
		<i>Total Credits:</i>	6		

Semester 2 Advising Note

This certificate is intended to be completed in two semesters.

Suggested courses to take:

- CSC-125
- CSC-236
- CSC-239

🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 🔗 This course has pre/co- requisites.

✎ Advising note or suggestion regarding this course. 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Tackle large problems by systematically breaking them down into smaller, more manageable problems.
- Use their knowledge, skills, and resources to effectively adapt to change.

- Utilize a foundation in programming practices and principles.
- Utilize skills and competencies required to program basic iOS applications.
- Utilize skills and competencies required to design basic mobile applications on several device platforms.

CAREER OUTLOOK

This Certificate Program is designed to align with the needs specified by industry partners. This option will have stackable credentials ideal for the working professional who is not seeking a degree, but looking to enhance their existing information technology skills.

Object Oriented Computer Programming and Design Certificate Program

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
CSC-120 Intro to Computer Science and Object Oriented Programming	4			MAT-099 and ENG-095 and RDG-095 or ELL-103 or ESL-098 or placement.
<i>Total Credits:</i>		4		

Semester 1 Advising Note

- Based on Accuplacer results for Math, student may need to take MAT-194 or MAT-197.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
CSC-237 C++ Programming	4			ENG-095 or ELL-103 and MAT-194 and CSC-120.
CSC-239 JAVA Programming	4			ENG-095 or ELL-103 and MAT-194 and CSC-120 or Chair approval.
<i>Total Credits:</i>		8		

Semester 2 Advising Note

- Based on Accuplacer results for Math, student may need to take MAT-197.

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
CSC-284 Advance C++/OOP	3			CSC-237 and MAT-194.
The department recommends that students taking this course have no less than a grade of B in the prerequisite courses.				
CSC-242 Data Structures	3			CSC-239 and MAT-197.
Department strongly recommends students complete CIT-239 with a B- or better.				
CSC-285 Advanced Java	3			MAT-197 and CSC-239.
CSC-243 Android Development for Java Programming	3			CSC-239 and MAT-197; pre/co-requisite of CSC-285.
CSC-287 OOP for Programmers	3			CSC-285 or CSC-284 and MAT-197.
May need department chair approval if taking at the same time as CSC-285 and CSC-284.				
<i>Total Credits:</i>		15		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design, implement, and maintain software solutions for realistic problems by applying principles of object oriented programming.
- Write sophisticated and efficient code using the latest object oriented programming languages such as C++ and Java.
- Work in both Unix and Windows environments.

CAREER OUTLOOK

Graduates of this certificate qualify as entry-level programmers who can analyze complex problems and design, implement, and run viable solutions using any of the most common object oriented languages.

Electrical Engineering Transfer Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
ENR-101 Introduction to Engineering/Lab	4			MAT-194 or placement.
MAT-281 Calculus I	4			MAT-197 or placement.
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Community and Cultural Contexts Menu				
<i>Total Credits: 17</i>				

Semester 1 Advising Note

- General Education requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- This map assumes that a student enters the College ready to enroll in Calculus I (MAT-281).
- Students may want to consider completing some courses during the Summer to decrease the number of required credits during the Fall or Spring semester.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
PHY-251 College Physics I/Lab	4			MAT-281.
MAT-282 Calculus II	4			MAT-281.
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
Elective-2 Career Elective	4			
Choose one course from Career Elective Options: CHM-201 General Chemistry I/Lab, MAT-291 Linear Algebra, CSC-120 Introduction to Computer Science an Object Orientated Programming, CSC-237 C++ Programming				
<i>Total Credits: 18</i>				

Semester 2 Advising Note

- Students may want to consider completing some courses during the Summer to decrease the number of required credits during the Fall or Spring semester.
- Students should choose their Career Electives in consultation with an Engineering Advisor, as some transfer schools prefer certain courses.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.

Electrical Engineering Transfer Option (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
ENR-271	Circuit Design and Analysis I/Lab	4			MAT-282 and PHY251 and ENR101; Co-requisite: PHY-252.
Offered in Fall only					
PHY-252	College Physics II/Lab	4			Pre/Co-requisite: PHY-251; Pre/co-requisite: MAT-282.
Elective-1	Career Elective	4			
Choose one course from Career Elective Options: CHM-201 General Chemistry I/Lab, MAT-291 Linear Algebra, CSC-120 Introduction to Computer Science an Object Orientated Programming, CSC-237 C++ Programming					
MAT-283	Calculus III	4			MAT-282.
		<i>Total Credits:</i>	16		

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
ENR-272	Circuit Design and Analysis II/Lab	4			ENR-271; Pre/co-requisite MAT-285.
Elective-1	Career Elective	4			
Choose one course from Career Elective Options: CHM-201 General Chemistry I/Lab, MAT-291 Linear Algebra, CSC-120 Introduction to Computer Science an Object Orientated Programming, CSC-237 C++ Programming					
ENR-275	Digital Logic Systems/Lab	4			ENR-271; Co-requisite: MAT-283.
MAT-285	Differential Equations	4			MAT-282.
		<i>Total Credits:</i>	16		

Semester 4 Advising Note

- ENR-272 and ENR-275 are currently offered during only the Spring semester.
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design and conduct experiments.
- Analyze and interpret data.
- Apply modern computational tools and lab techniques, along with scientific concepts, to solve engineering problems.

- Design systems, components, and processes for solving problems in electrical engineering.
- Function as part of an engineering team.
- Articulate the professional and ethical responsibilities required of engineers.

CAREER OUTLOOK

Graduates completing a four-year degree will have a strong electrical engineering foundation and be able to select from a variety of high-demand fields for the balance of their training. Such high-demand fields include nanotechnology, high-tech manufacturing, electronic devices, and robotics.

Energy and Sustainability Management Certificate Program

SEMESTER 1		Credits	Milestone	GenEd	Prerequisites
ENV-111	Survey of Renewable Energy	4			RDG-095 or ELL-103 or ESL-098, ENG-095 and MAT-093 or placement.
ESM-105	Green Buildings	3			RDG-095 or ELL-103 or ESL-098, ENG-095 and MAT-093 or placement.
ESM-115	Sustainable Resource Conservation	3			RDG-095 or ELL-103 or ESL-098, ENG-095 and MAT-093 or placement.
Only offered in the Fall Semester.					
Elective	Concentration Elective	3			
CIT-110 Applications/Concepts, ENG-111 College Writing I, ENV-105 Environmental Science I/Lab, ENV-106 Environmental Science II/Lab, ENV-120 Tropical Field Studies, ESM-205 Green Existing Buildings: Operation and Maintenance, LCS-101E Energy, Life and Sustainability, MAN-107 Introduction to Entrepreneurship, MAN-111 Principles of Management, MAN-215 Project Management					
		<i>Total Credits:</i>	13		

Semester 1 Advising Note

- All students in the ESM program should be advised by the ESM Program Director.

SEMESTER 2		Credits	Milestone	GenEd	Prerequisites
ESM-211	Project Management and Finance of Energy	3			ENV-111.
Only offered in the Spring semester.					
ESM-299	Internship in Energy and Sustainability Management	3			Prerequisites for ESM-299: See semester advising note. Prerequisites for ESM-205: ESM-105 or Chair approval.
ESM-205	Green Existing Buildings				
ENV-110	Sustainable Resource Conservation/Lab	4			RDG-095 or ELL-103 or ESL-098, ENG-095 and MAT-093 or placement.
Elective	ESM Elective	3			
CIT-110 Applications/Concepts, ENG-111 College Writing I, ENV-105 Environmental Science I/Lab, ENV-106 Environmental Science II/Lab, ENV-120 Tropical Field Studies, ESM-205 Green Existing Buildings: Operation and Maintenance, LCS-101E Energy, Life and Sustainability, MAN-107 Introduction to Entrepreneurship, MAN-111 Principles of Management, MAN-215 Project Management					
		<i>Total Credits:</i>	13		

Semester 2 Advising Note

- ESM 299 prerequisites: (1) Enrollment in the Energy and Sustainability Management Program; and (2) A minimum of 10 credits of ESM courses with a B or higher, OR (3) Department Chair approval
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Identify and implement environmental sustainability or energy efficiency strategies within their workplace, home, or community taking into consideration factors such as project impact, cost effectiveness, and technical feasibility.

- Establish competencies to sit for the Leadership in Environmental and Energy Design (LEED) Green Associate exam, a nationally recognized certification.

CAREER OUTLOOK

Graduates of the ESM program may seek employment in a variety of entry-level positions such as technicians, coordinators, administrators, sales representatives, or specialists in a wide

range of industries including renewable energy, construction, facilities management, environmental protection services, energy efficient services, utilities, and industrial operations. In addition to earning BHCC's ESM Certificate, graduates will qualify to sit for the LEED Green Associate (LEED GA) exam, a nationally recognized certification administered by the US Green Building Council.

Engineering Transfer Option

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENR-101 Introduction to Engineering/Lab	4			MAT-194 or placement.
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-281 Calculus I	4			MAT-197 or placement.
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Scientific Reasoning, Community/Cultural Contexts, Creative Work or Elective Menus.				
<i>Total Credits: 17</i>				

Semester 1 Advising Note

- The A.S. Engineering Transfer Option is appropriate for students interested in pursuing a Bachelor's degree in Civil or Mechanical Engineering.
- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- This map assumes a student enters the College ready to enroll in MAT281.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
PHY-251 College Physics I/Lab	4			MAT-281.
MAT-282 Calculus II	4			MAT-281.
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CHM-201 General Chemistry I/Lab	4			MAT-197 and pre/co req: ENG-111.
Students must complete ENG-111 and MAT-197 with a C+ or better before taking CHM-201				
<i>Total Credits: 15</i>				

Semester 2 Advising Note

- PHY-251 should be completed in the Spring semester or Summer Bridge Session. - it is a pre-requisite for ENR-260, which is currently offered during only the Fall semester.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- Meet with an advisor to begin career planning activities.

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
ENR-260 Engineering Statics	3			PHY-251. Pre/co-requisite: MAT-282.
Offered in Fall only				
PHY-252 College Physics II/Lab	4			PHY-251. Pre/co-requisite: MAT-282.
MAT-283 Calculus III	4			MAT-282.
Elective Career Elective	3-4			Chair approval.
Career elective selection must be recommended and approved by the Engineering Advisor and/or the Engineering and Physical Sciences Department.				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from Creative Work Program Menu				
<i>Total Credits: 17-18</i>				

Engineering Transfer Option (continued)

SEMESTER 4	Credits	Milestone	GenEd	Prerequisites
ENR-265 Engineering Dynamics	3			ENR-260. Pre/co-requisite: MAT-285.
ENR-270 Strength of Materials	3			ENR-260. Pre/co-requisite: MAT-285.
MAT-285 Differential Equations	4			MAT-282.
CHM-202 General Chemistry II/Lab	4			CHM-201.
Elective Career Elective	3-4			Chair approval.

 Career elective selection must be recommended and approved by the Engineering Advisor and/or the Engineering and Physical Sciences Department.

Total Credits: 17-18

Semester 4 Advising Note

- ENR-265 and ENR-270 are currently offered during only the Spring semester.
- Apply for graduation

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.  This course has pre/co- requisites.

 Advising note or suggestion regarding this course.  This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design and conduct experiments.
- Analyze and interpret data.
- Apply computational tools and scientific concepts to engineering problems.

- Design systems, components, or processes for solving engineering problems.
- Function as part of an engineering team.
- Articulate the professional and ethical responsibilities required of engineers.

CAREER OUTLOOK

Graduates completing a four-year degree will have a strong engineering foundation and able to select from a variety of high demand fields for the balance of their training. Such high demand fields include Nanotechnology, Materials, and Robotics.

Environmental Science

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENV-105 Environmental Science/Lab	4			MAT-093, RDG-095, and ENG-095 or ELL-103 or placement.
This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse.				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
Choose one course from Community and Cultural Contexts Menu				
MAT-197 Pre-Calculus or MAT-281 Calculus I	4			Prerequisites for MAT-197: MAT-194 with a grade of C or better. Prerequisites for MAT-281: MAT-197 with a grade of C or better.
<i>Total Credits: 14</i>				

Semester 1 Advising Note

- The A.S. Environmental Science Program is appropriate for students who are interested in pursuing a B.S degree in Environmental Science or a B.A. degree in Environmental Studies
- General Education Requirements Quantitative Problem Solving and Scientific Reasoning are satisfied by this program.
- This map assumes a student enters the College ready to enroll in MAT-197 Precalculus.
- Students need to complete seven General Education courses during semesters 1 & 2. These do not need to be completed in any sequence.
- For students planning to apply to a B.S. Program in Environmental Science: Take MAT-281 Calculus 1 and complete PHY-251 College Physics I/Lab
- For students planning to apply to a B.A. Program in Environmental Studies: Take MAT-197 Precalculus and complete PHY-201 General Physics I/Lab

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
MAT-181 Statistics	3			MAT-097 or MAT-098.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
BIO-195 General Biology I/Lab	4			ENG-095, RDG-095 or ELL-103 or ESL-098 and MAT-194.
GenEd-E General Education Elective	4			
This course meets the General Education requirement for General Education Elective.				
General Education Elective ENV-111 Survey of Renewable Energy or, ENV-113 Introduction to Oceanography/Lab or, ENV-115 Earth Science/Lab or, ENV-120 Tropical Field Studies (ENV-120 is a study abroad course in a tropical country.) Will satisfy the General Education elective requirement.				
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work.				
<i>Total Credits: 17</i>				

Semester 2 Advising Note

- ENV-120 is a study abroad course in a tropical country.
- To lighten semester load, it is recommended to complete the General Education courses in the Summer

Environmental Science (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
BIO-196	General Biology II/Lab	4			BIO-195.
ECO-220	Environmental Economics	3			Prerequisites for ECO-220: ENV-105 or ECO-201 or ECO-202 or permission of instructor. Prerequisites for ENV-222: ENV-105 or PSC-101 or permission of instructor.
ENV-222	Environmental Policy, Law, and Management				
CHM-201	General Chemistry I/Lab	4			MAT-197 with a minimum grade of C+ or MAT-281 as a corequisite, and pre/co req: ENG-111.
	MAT197 with a minimum grade of C+ or MAT-281 as a corequisite, and ENG-111				
PHY-201	General Physics/Lab	4			
PHY-251	College Physics I/Lab				
	Prerequisites for PHY-201: MAT-197, Prerequisites for PHY-251: MAT-281				
		<i>Total Credits:</i>	15		

Semester 3 Advising Note

- For students planning to apply to a B.S. Program in Environmental Science: Take MAT-281 Calculus 1 and complete PHY-251 College Physics I/Lab
- For students planning to apply to a B.A. Program in Environmental Studies: Take MAT-197 Precalculus and complete PHY-201 General Physics I/Lab

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
Elective	Option Elective	4			
	Option Elective BIO-210 Population Ecology/Lab, ENV-211 Environmental Microbiology/Lab, ENV-250 Global Environmental Change, MAT-281 Calculus I, (see semester advising note), PHY-202 General Physics II/Lab, PHY-252 College Physics II/Lab				
Elective	Option Elective	4			
	Option Electives BIO-210 Population Ecology/Lab, ENV-211 Environmental Microbiology/Lab, ENV-250 Global Environmental Change, MAT-281 Calculus I, (see semester advising note), PHY-202 General Physics II/Lab, PHY-252 College Physics II/Lab				
CHM-202	General Chemistry II/Lab	4			CHM-201 with a minimum grade of C or better.
GIS-224	Introduction to Geographic Information Systems	4			MAT-181 or MAT-197 or placement.
	This course meets the General Education requirement for Scientific Reasoning (Formerly Area 5)				
		<i>Total Credits:</i>	16		

Semester 4 Advising Note

- MAT-281 Calculus I cannot be used as a program elective unless you have also completed MAT-197 Precalculus.
- Successful completion GIS-224 Introduction to Geographic Information Systems course will require access outside of class to Windows computers with ArcGIS for Desktop installed; evaluation licenses will be made available for students to install ArcGIS onto their own Windows computers. ArcGIS for Desktop will also be provided in two public computers on campus for students without personal computers.
- Apply for Graduation
- Any course, other than those listed, must be approved by the program director.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
 Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Environmental Science (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Identify, define, and explore the major concepts of environment processes, problems, and solutions
- Investigate a variety of scientific methods and techniques to study the environment
- Demonstrate effective oral and written communication skills about environmental findings
- Analyze the cultural, ethical, economic, and government policy aspects of current and emerging environmental concerns

CAREER OUTLOOK

Students majoring in Environmental Science prepare for a variety of entry-level careers in the private, public and non-profit sector involving resource conservation and sustainability. Entry-level careers include environmental monitors, assistants, and technicians. This program will allow students to transfer to four-year colleges and universities to seek a bachelor's degree in environmental science or environmental studies. A bachelor's or graduate degree is required for professional positions in education, outreach, environmental planning, environmental conservation, natural resource management,

environmental consulting, environmental monitoring, environmental engineering, hazardous materials, and occupational health and safety.

Employment of environmental scientists and specialists is projected to grow 8 percent from 2018 to 2028, faster than the average for all occupations. Heightened public interest in the hazards facing the environment, as well as increasing demands placed on the environment by population growth, are expected to spur demand for environmental scientists and specialists. Link to Bureau of Labor Statistics <https://www.bls.gov/ooh/life-physical-and-social-science/environmental-scientists-and-specialists.htm>

Physics Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENR-101 Introduction to Engineering/Lab or Elective Computer Elective	3-4			Prerequisite for ENR-101: MAT-194 College Algebra or placement.
✎ Computer Elective: Choose one CIT course				
ENG-111 College Writing I	3		🎓	ENG-095 and RDG-095, ELL-103 or placement.
🎓 This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-281 Calculus I	4	🚩		MAT-197 or placement.
GenEd-CCC Community & Cultural Contexts	3		🎓	
🎓 This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
✎ Choose one course from Community and Cultural Contexts Menu				
<i>Total Credits: 13-14</i>				

Semester 1 Advising Note

- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously
- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by Program.
- This map assumes a student enters the College ready to enroll in MAT-281.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
PHY-251 College Physics I/Lab	4	🚩		MAT-281.
MAT-282 Calculus II	4			MAT-281.
ENG-112 College Writing II	3		🎓	ENG-111.
🎓 This course meets the General Education requirement for Research Writing (Formerly Area 1)				
CHM-201 General Chemistry I/Lab	4			MAT-197 and pre/co req: ENG-111.
Elective Social Science Elective	3			
✎ Choose one HIS or GOV or PHIL or GEO course				
<i>Total Credits: 18</i>				

Semester 2 Advising Note

- Students with strong math background may want to start the Physics sequence during Semester 1.
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

Physics Concentration (continued)

SEMESTER 3		Credits	Milestone	GenEd	Prerequisites
PHY-252	College Physics II/Lab	4			PHY-251 and Co/req; MAT-282.
MAT-283	Calculus III	4			MAT-282.
MAT-291	Linear Algebra	4			MAT-281.
Elective	Literature Elective	3			Pre/co-requisite: ENG-111.
	Choose one LIT course				
GenEd-CW	Creative Work	3			
	This course meets the General Education requirement for Creative Work (Formerly Area 6)				
	VMA-104 is strongly recommended due to the extensive diagram drawing involved in solving physics problems.				
		<i>Total Credits:</i>	18		

Semester 3 Advising Note

- Student may want to discuss elective selection with Physics advisor.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with advisor.

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
MAT-285	Differential Equations	4			MAT-282.
CHM-202	General Chemistry II/Lab	4			CHM-201.
Elective-1	Literature Elective	3			Pre/co-requisite: ENG-111.
	Choose one LIT course.				
Elective-2	Behavioral Science Elective	3			
	Choose one PSY or SOC course				
GenEd-E	General Education Elective	3			
	This course meets the General Education requirement for General Education Elective.				
	Choose a course from the General Education Community and Cultural Context Menu				
		<i>Total Credits:</i>	17		

Semester 4 Advising Note

- Apply for graduation

 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.  This course has pre/co- requisites.
 Advising note or suggestion regarding this course.  This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate the connections between the major concepts and theories in the field of physics.
- Analyze and create solutions for problems involving principles of physics.
- Apply mathematical techniques in scientific problem solving.
- Properly report on the findings of a designed experiment.

CAREER OUTLOOK

Graduates of this concentration should transfer to a four-year college or university because employment opportunities in physical science such as lab technicians usually require a minimum of a bachelor's degree. Professional positions such as researchers or college instructors usually require a minimum of a master's degree.

Mathematics Concentration

SEMESTER 1	Credits	Milestone	GenEd	Prerequisites
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
MAT-281 Calculus I	4			MAT-197 or placement.
CSC-120 Intro to Computer Science and Object Oriented Programming	4			MAT099, ENG-095, and RDG-095 or ELL-103 or ESL-098.
Satisfies the Learning Community Requirement				
GenEd-CCC Community & Cultural Contexts	3			
This course meets the General Education requirement for Community & Cultural Contexts (Formerly Area 2 and Area 3)				
Choose one course from the Community and Cultural Contexts Menu				
<i>Total Credits:</i>				14

Semester 1 Advising Note

- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- This map assumes that students have completed MAT-197 or tested into MAT-281.

SEMESTER 2	Credits	Milestone	GenEd	Prerequisites
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
MAT-282 Calculus II	4			MAT-281.
MAT-291 Linear Algebra	4			MAT-281.
GenEd-CW Creative Work	3			
This course meets the General Education requirement for Creative Work (Formerly Area 6)				
Choose one course from the Creative Work Menu				
Elective Behavioral Science Elective	3			
Choose any PSY or SOC course				
<i>Total Credits:</i>				17

Semester 2 Advising Note

- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair

SEMESTER 3	Credits	Milestone	GenEd	Prerequisites
MAT-283 Calculus III	4			MAT-282.
PHY-251 College Physics I/Lab	4			MAT-281.
CSC-237 C++ Programming or CSC-239 JAVA Programming	4			CSC-237, CSC-239 - ENG-095, MAT-194, CSC-120.
GenEd-E General Education Elective	3			Pre/co-requisite: ENG-111.
This course meets the General Education requirement for General Education Elective.				
Choose one course from Creative Work Menu				
<i>Total Credits:</i>				15

Semester 3 Advising Note

- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

Mathematics Concentration (continued)

SEMESTER 4		Credits	Milestone	GenEd	Prerequisites
MAT-285	Differential Equations	4	🚩		MAT-282.
Elective-1	Social Science Elective	3			
✎ Choose one ECO, GOV, HIS, PHL or GEO course.					
PHY-252	College Physics II/Lab	4	🚩		PHY-251 and pre/co-requisite MAT-282.
Elective-2	Humanities Elective	3			
✎ Choose one course from the Humanities Elective menu					
		<i>Total Credits:</i>	14		
Semester 4 Advising Note					
<ul style="list-style-type: none"> Apply for graduation 					

- 🚩 Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- 🔗 This course has pre/co- requisites. ✎ Advising note or suggestion regarding this course.
- 🎓 This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Solve quantitative problems using critical thinking skills and a variety of problem-solving strategies, incorporating technology when suitable.

- Develop complete logical arguments from hypothesis to conclusion, using appropriate mathematical language and notation.
- Interpret and solve problems relevant to other disciplines by applying analytical approaches used to solve abstract problems.
- Construct new mathematical knowledge through independent and collaborative work.

CAREER OUTLOOK

Graduates of this concentration should transfer to a four-year college or university, as most entry-level employment opportunities in industry require a minimum of a bachelor's degree. Professional positions in education and research fields usually require a minimum of a master's degree.

Medical Laboratory Technician Program

ADMISSION REQUIREMENTS	Credits	Milestone	GenEd	Prerequisites
Diploma High School diploma or GED				
Session Attend Mandatory information session				
ENG-111 College Writing I	3			ENG-095 and RDG-095, ELL-103 or placement.
This course meets the General Education requirement for Academic Discourse (Formerly Area 1)				
Must earn a grade of C or better				
MAT-181 Statistics	3			MAT-097 or MAT-098 or placement.
This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)				
Must earn a grade of C or better				
BIO-203 Anatomy and Physiology/Lab I	4			BIO-105 or BIO-108 or BIO-195.
Credits for Anatomy and Physiology/Lab that were earned more than five (5) years prior to enrollment in the nursing program are not accepted. Must earn a grade of C or better.				
BIO-204 Anatomy and Physiology/Lab II	4			BIO-203.
Credits for Anatomy and Physiology/Lab that were earned more than five (5) years prior to enrollment in the nursing program are not accepted. Must earn a grade of C or better.				
BIO-205 Microbiology/ Lab	4			BIO 203 or BIO-195.
Must earn a grade of C or better				
CHM-120 Principles of Inorganic Chemistry/ Lab	4			ENG-095 and ESL-098 or RDG-095 or ELL-103 and MAT-097 or placement.
Must earn a grade of C or better				
CHM-121 Principles of Organic and Biochemistry/lab	4			CHM-120.
Must earn a grade of C or better				
<i>Total Credits: 26</i>				

Admission Requirements Advising Note

- All Medical Laboratory Technician students are required to: undergo a physical examination, complete the necessary immunization forms, including a three (3) dose Hepatitis B immunization series; carry malpractice and health insurance
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit <https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/>

SEMESTER 1 FALL	Credits	Milestone	GenEd	Prerequisites
MLT-101 Introduction to Medical Laboratory Sciences and Urinalysis with Lab	4			Admission to the program.
Must earn a grade of B- or better.				
MLT-213 Immunology and Serology	4			Admission to the program.
Must earn a grade of B- or better.				
ENG-112 College Writing II	3			ENG-111.
This course meets the General Education requirement for Research Writing (Formerly Area 1)				
GenEd-E General Education Elective	3			
This course meets the General Education requirement for General Education Elective.				
Choose a course from the General Education Community and Cultural Context Menu				
<i>Total Credits: 14</i>				

Semester 1 Fall Advising Note

- General Education Requirements Creative Work and Scientific Reasoning satisfied by program.

Medical Laboratory Technician Program (continued)

SEMESTER 2 <i>SPRING</i>		Credits	Milestone	GenEd	Prerequisites
MLT-212	Medical Microbiology/Lab	4			MLT-101 and MLT-213.
	Grade of B- or better				
MLT-211	Hematology and Hemostasis	4			MLT-101 and MLT-213.
	Must earn a grade of B- or better.				
MLT-241	Immunohematology	4			MLT-101 and MLT-213.
	Must earn a grade of B- or better.				
		<i>Total Credits:</i>	12		

SEMESTER 3 <i>SUMMER</i>		Credits	Milestone	GenEd	Prerequisites
MLT-242	Clinical Chemistry	4			MLT-101 and MLT-213.
	You must get a Grade of B- or better				
PSY-101	Principles of Psychology	3			RDG-095 or ELL-103 or ESL-098 or placement.
	This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)				
		<i>Total Credits:</i>	7		

SEMESTER 4 <i>FALL</i>		Credits	Milestone	GenEd	Prerequisites
MLT-251	Clinical Laboratory Science Practicum	12			MLT-241 and MLT-242.
	Must earn a grade of B- or better.				
		<i>Total Credits:</i>	12		

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Collect and prepare clinical specimens for analysis.
- Operate laboratory instruments.
- Prepare a variety of diagnostic analyses according to prescribed methodology.
- Relate test results to other patient information to the extent required for understanding the analyses.

CAREER OUTLOOK

Graduates of this program are eligible to take the CLT/MLT certification exam administered by the American Society of Clinical Pathology. Graduates are then qualified for employment in hospitals, clinics and health maintenance organizations.

Accounting

ACC-101 Principles of Accounting I 3 Credits

After a brief consideration of the meaning and purpose of accounting, this course explores the basic statements of an accounting system: the balance sheet, the income statement and the statement of owner's equity. Students will examine the accounting cycle with an emphasis on the methods of accumulating and summarizing data generated by business transactions. Students will apply their manual accounting skills to an automated accounting system using general ledger software. Areas of concentration will include adjusting entries, closing process, inventory analysis, merchandising, transactions, cash control procedures, receivables, and payables. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

ACC-102 Principles of Accounting II 3 Credits

This course will expand upon the basic concepts and theories that students learned in the Principles of Accounting I course. Students will be expected to apply their knowledge in a managerial decision-making mode. Areas studied include, but are not limited to, the following: examine long-term assets and liabilities; financial statement analysis; transactions unique to the corporate business structure; bonds payable; planning and controlling using master budgets and cost behavior recognition utilizing cost-volume analysis, as well as gaining exposure to accounting for manufacturers. Prerequisite: Principles of Accounting I (ACC-101).

ACC-104 Introduction to Accounting Software 1 Credit

This course introduces students to Accounting Software with an emphasis on specific applications for accounting software. The modules covered include, among other topics: customer and vendor information, bill pay, and banking. It includes recording transactions, payroll and inventory control in a variety of business situations. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ACC-105 Accounting Information Systems 3 Credits

This course introduces students to Accounting Information Systems. The course focuses upon integrated systems, set up, and applications. The modules covered include, among other topics: general ledger, report writing, invoicing, purchasing, inventory control, accounts receivable, accounts payable, cash receipts, cash disbursements, payroll, and spreadsheet application. Prerequisites: Principles of Accounting I (ACC-101) and Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ACC-107 Accounting Forensics 3 Credits

This course introduces students to the auditing process and prepares them to perform forensic audit and examination in conformity with pertinent industry standards. Students will learn comprehensive perspectives and skills in regards to occupational fraud and the technicality of fraud examination including searching accounting information, obtaining documentary evidence,

interviewing witnesses and potential suspects, and conducting forensic document examination. This course will also provide electronic techniques required to audit. Prerequisite: Principles of Accounting II (ACC-102).

ACC-201 Intermediate Accounting I 3 Credits

This course covers, in detail, financial accounting, and generally accepted accounting principles. After a review of the accounting cycle, issues in revenue recognition and the time value of money are discussed. The four main financial statements are studied. Specific accounting issues pertaining to various current assets are covered. Prerequisite: Principles of Accounting II (ACC-102).

ACC-202 Intermediate Accounting II 3 Credits

A continuation of Intermediate Accounting I (ACC201), this course discusses accounting problems for long-term assets, current, and long-term liabilities. Issues in investments leases, employee compensation, and taxes are covered. Accounting for shareholder equity and earnings per share are covered. The preparation of the statement of cash flow is studied. Prerequisite: Intermediate Accounting I (ACC-201).

ACC-203 Personal Income Tax 3 Credits

This course provides a comprehensive explanation of tax principles dealing with individuals and small businesses. The course covers modules in federal and state income tax processes, concepts, and applications as well as other topics. Prerequisite: Principles of Accounting II (ACC-102).

ACC-204 Tax Business Income Tax 3 Credits

This course discusses the theoretical tax concepts that are applicable to corporations, partnerships, and trusts. The course covers both effective tax research and planning techniques for these types of entities. Prerequisite: Principles of Accounting II (ACC-102).

ACC-205 Volunteer Income Tax Assistance 3 Credits

This VITA internship provides an opportunity for students to perform a community service in cooperation with the Internal Revenue Service and the Massachusetts Department of Revenue. The course trains students to assist taxpayers in filling out tax returns. There are several mandatory trainings that take place prior to the start of classes. Please get more information in room C309. Prerequisite: Federal Income Tax I (ACC-203).

ACC-207 Cost Accounting 3 Credits

After an introduction to the nature of cost accounting and key definitions, this course covers the accumulation of costs through a job order system and a process system. It also covers the accounting for and control of materials, labor, and factory overhead. Prerequisite: Principles of Accounting II (ACC-102).

ACC-216 Managerial Accounting 3 Credits

This course examines the needs of management and provides students with the necessary analytical skills that become critical to the financial decision-making process. The course covers such areas as budgetary planning and control, cost information, management decision-making, cost volume profit analysis, capital budgeting decisions, and control of decentralized organizations. Prerequisite: Cost Accounting I (ACC-207).

ACC-217 Mass Tax Law I 3 Credits

After an introduction to the Massachusetts General Laws relating to taxation and the organization and role of the Massachusetts Department of Revenue, this survey course will focus on the Massachusetts statutory provisions relating to miscellaneous excises, the taxation of individuals and corporations, including the administration and enforcement of these provisions by the Massachusetts Department of Revenue. Other areas of study covered in this course include: filing requirements for major tax types; assessment and collection of taxes; examination and abatement. This course is critical for students to gain an understanding of specific taxation laws that pertain to the Commonwealth of Massachusetts.

ACC-299 Mass Dept of Revenue Internship 3 Credits

This course enhances the academic experience for students. All internships take place at the Massachusetts Department of Revenue site. Students will engage in activities that improve knowledge of the practical world of taxation and auditing and help them gain professional experience. The internship experience applies resources gained from students' program of study to improve the quality of their contributions to the employer. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: Mass Tax Law I (ACC-217) and permission of the Department Chair or Dean.

Allied Health

AHE-095 Topics in Health Care 3 Credits

This course increases understanding across a broad spectrum of health care topics using readings and writings as related to the core curriculum.

AHE-101 Medical Interpreting I 3 Credits

This course is designed for bilingual students interested in becoming integral members of the health care team in bridging the language and cultural gap between patients and providers. Students will examine issues related to interpreter ethics and the role of the interpreter in a variety of clinical settings. Topics include anatomy and physiology, pathophysiology, diagnoses, and medical treatments. Activities are designed to develop listening, memory, language-switching skills, and decision-making. This course will familiarize students with the cultural dimensions of health and illness in preparation for their being assigned to an internship where they perform live interpreting under the direct supervision of a professional interpreter and mentor. Note: A grade of B- or better in this course is required for progression in the program. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

AHE-102 Medical Interpreting II 2 Credits

A continuation of Medical Interpreting I, this course includes an in depth discussion of cross-cultural communication including values and attitudes toward non-traditional health beliefs. Students will examine issues such as giving bad news to patients, and dealing with difficulties between patients and health care providers. Other topics of discussion include prescription

medicines, measurements for medical dosages, therapies and treatments, and medical insurance verbiage. Finally, chronic conditions such as asthma/COPD, HIV and diabetes as well as medical specialties such as mental health and obstetrics/gynecology are discussed. Prerequisite: Medical Interpreting I (AHE-101).

AHE-104 *3 Credits*
Understanding Human Behavior for Health Care Professionals

This course introduces students to the challenges and responsibilities of healthcare professionals and college students. Discussions center on cross-cultural issues, human growth and development; and psychological and sociological factors involved in the patient healthcare professional relationship.

AHE-106 *1 Credit*
CNA Practicum Patient Care

This course consists of a clinical practicum of 21 hours at a skilled nursing facility to fulfill the State Nurse Aide Certification requirement. Additional expenses may include supplies, equipment, and/or uniforms. Co-requisites: Principles of Clinical Practice (AHE110) and Patient Care Skills (AHE111).

AHE-110 *3 Credits*
Principles of Clinical Practice

This course includes topics in the anatomy and physiology of body systems, diseases and conditions, ethics in health care, communications, medical terminology and abbreviations, standard and transmission-based precautions, CPR, and selected clinical skills. Additional expenses may include supplies, equipment, and/or uniforms. The course is open to Allied Health certificate program students only.

AHE-111 *3 Credits*
Patient Care Skills

This course, taken with CNA Practicum (AHE106) and Principles of Clinical Practice (AHE110), covers the patient care theory and skills required to take the Certified Nurse Aide and Home Health exams. Co-requisites: CNA Practicum (AHE-106) and Principles of Clinical Practice (AHE-110).

AHE-112 *3 Credits*
Medical Assistant Skills

This course covers the skills and theory necessary for medical assistants in hospitals and clinics. Topics include setting up and assisting for physical and specialty examinations, minor surgical procedures, routine laboratory tests, and related medical terminology and abbreviations. Co-requisite: Principles of Clinical Practice(AHE-110).

AHE-115 *3 Credits*
Phlebotomy/Medical Lab Theory

This course teaches anatomy and physiology of the circulatory system and the process of collecting blood samples. This course meets the requirements necessary to sit for a phlebotomy certification exams offered by several private certification groups. Certification is the responsibility of the student. Prerequisites: Writing Skills I (ENG090), Foundations of Mathematics (MAT093), and Reading Skills I (RDG090). Co-requisite: Principles of Clinical Practice (AHE110) and Medical Assistant Skills (AHE112).

AHE-117 *3 Credits*
Communication Skills for Health Care

This course provides the student with the skills to communicate effectively as an Allied Health Professional. The course includes discussions of verbal and non-verbal communication,

professional communication and behavior, interviewing techniques, adapting communication to a patient's ability to understand, patient education, cultural sensitivity, electronic communication, and fundamental writing skills.

AHE-201 *3 Credits*
Advanced Clinical Skills

This course covers advanced theory and skills for the patient care technician and medical assistant. Students are cross-trained in EKG and Phlebotomy. Prerequisite: Patient Care Skills (AHE-111) or Medical Assisting Skills (AHE-112).

AHE-204 *3 Credits*
Patient Care Technician

This course consists of a clinical practicum at local health care facilities. Students keep a daily journal and complete a work portfolio. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Patient Care Skills (AHE-111). Co-requisite: Advanced Clinical Skills (AHE-201).

AHE-205 *3 Credits*
Practicum Medical Assistant

This course consists of a clinical practicum at local health care facilities. Students keep a daily journal and complete a work portfolio. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Medical Assisting Skills (AHE-112). Co-requisite: Advanced Clinical Skills (AHE-201).

AHE-206 *3 Credits*
Practicum Phlebotomy Technician

This course consists of a clinical practicum at local health care facilities. Students keep a daily journal and complete a work portfolio. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Principles of Clinical Practice (AHE110) and Phlebotomy/Laboratory Theory (AHE115).

AHE-209 *1 Credit*
Allied Health Practicum Seminar

This seminar is an inter-disciplinary course that provides a broad overview of the medical workplace. Taken concurrently with an Allied Health Practicum, it includes discussions of the internship experience, employment opportunities as well as job search skills. Co-requisite: Practicum Patient Care Assistant (AHE-204) or Practicum Medical Assistant (AHE-205) or Practicum Phlebotomy Technician (AHE-206) or Practicum Laboratory Assistant (AHE-207).

AHE-299 *1 Credit*
Medical Interpreting Internship

Students will be placed in a 30-hour internship to be completed over the course of the semester at a local healthcare facility under the direct supervision of a professional interpreter and mentor. This internship will consist entirely of active interpreting. Co-requisite: Medical Interpreting II (AHE-102).

Arabic

ARB-101 *3 Credits*
Elementary Arabic I

This course is a beginning class in modern standard Arabic. The course begins with exposure to the alphabet, basic vocabulary, and expressions of greetings. The course then focuses on the spoken and written language used in contemporary life in Arab countries. The course works on all skill areas: listening, speaking, reading, and writing, presenting pertinent grammar in context. The course is not intended for native speakers or students who have studied this language within the last three years.

ARB-102 *3 Credits*
Elementary Arabic II

A continuation of Elementary Arabic I (ARB101), this course emphasizes conversational skills and sentence structure. The course stresses practical applications of the Arabic language. This course meets the General Education requirement for Creative Work. Prerequisite: Elementary Arabic I (ARB-101).

Astronomy

AST-102 *4 Credits*
Astronomy/ Lab

This course covers an introductory study of basic astronomy, including the planets, the apparent motions of celestial objects, the seasons, constellations, comets and meteors, stars, galaxies, and the large-scale structure of the universe. The course includes current events in space exploration. The course meets the General Education requirement for Scientific Reasoning. Class meets: 3hrs. Lecture; 3hrs. lab Prerequisites: "A grade of C or higher in Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and A grade of C or higher in MAT-097 or exemption by placing into higher level courses.

Biology

BIO-105 *4 Credits*
Introduction to Biology

This course will investigate the major biological concepts that connect all forms of life and is designed for students with little or no background in science. Topics will include the process of scientific inquiry, the cell as the basic unit of life, metabolism, cellular reproduction, genetics, evolutionary theory and principles of ecology. Laboratory work will introduce students to the basic investigative techniques used to study life's processes. There will be no animal dissection in this course. This course will satisfy the General Education requirement for Scientific Reasoning (previous area title: Science & Technology) for all programs and may be used to satisfy the biology prerequisite for Anatomy and Physiology I (BIO203). This course will not satisfy the general biology requirement of the Associate in Science: Biological Science program. Class meets: 3 hours lecture - 3 hours lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

BIO-108 *4 Credits*
Human Biology/Lab

Additional Fee covers the cost of all course materials. This course introduces students to the basic concepts of biology and how these concepts relate to the structure and function of the human body. Topics include cell structure & function, molecular biology, metabolism, cellular reproduction, and genetics. An introduction to human anatomy and physiology will also be presented. Students will integrate structure and function among all levels of biological organization. This course is specifically designed to provide students with the necessary background in basic biological concepts and molecular biology to be successful in the anatomy & physiology and microbiology prerequisite courses require by allied health programs such as nursing and medical imaging. This course does not substitute for programs that require BIO203 and BIO204. This course will satisfy the General Education requirement for

Scientific Reasoning (previous area title: Science & Technology) for all programs. Course meets 3 hours lecture; 3 hours lab. Note: May be used as a prerequisite for Anatomy & Physiology I/Lab (BIO-203). Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

BIO-111 3 Credits
Food/Nutrition

This course covers a study of plant and animal sources of human food, their nutritional values, and the way they are utilized by the body in health and disease. Topics include the selection of an adequate diet, evaluation of nutrition status, nutrition in pregnancy and lactation, nutrition in infancy and in aging, weight control, alternate food patterns, ethnic foods, and nutrition-related health problems. The department recommends this course for students in Allied Health programs. The course is offered in the Center for Self-Directed Learning only.

BIO-115 4 Credits
Nutrition Science & Lab

This course is a study of plant and animal sources of human food, their nutritional values and how the body in health and disease utilizes them. Topics include: chemistry and biology of food, personal nutrition evaluation, nutrition-related health problems and global food and nutrition issues. Laboratory exercises are used to introduce students to the diagnostic procedures used by nutritionists and to reinforce learning of nutritional theory. A background in biology or chemistry is not required. This course will satisfy the General Education requirement for Scientific Reasoning (previous area title: Science & Technology) for all programs. Class meets: 3 hours lecture - 3 hours lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

BIO-120 4 Credits
Introduction to Biotechnology

This course offers an introduction to the field of biotechnology. General principles of biology, recombinant DNA technology, and the applications of biotechnology will be presented. The medical, social, political and ethical implications of recombinant DNA technology and the Human Genome Project will be discussed. Work practices and career opportunities in the biotechnology industry will also be outlined. Students will be introduced to industry-specific laboratory skills and basic investigative techniques and procedures used in research through labs designed to reinforce lecture concepts. Class meets: 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Intermediate Algebra (MAT-099) or exemption by placing into higher level courses. ***This course is designed for students in the A.S. Biological Sciences program. However this course is open to any student interested in exploring careers in biotechnology. This course does not satisfy the General Education "Scientific Reasoning" requirement and may not be appropriate as a lab science elective for Associate in Arts degrees.

BIO-195 4 Credits
General Biology I & Lab

The course will examine the cell as the basic unit of life. Topics will include cell chemistry, cell structure and function, metabolism, cellular

respiration, photosynthesis, and cell division. The course will conclude with an examination of the genetic and chromosomal basis of inheritance. Laboratory work will provide students with the basic skills necessary to work in advanced biology laboratory courses. This is the first required biology course in the AS Biological Science program. Students planning to enroll in a health science program should enroll in Introduction to Biology (BIO105) or Human Biology/Lab (BIO108). Class Meets: 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in College Algebra for STEM (MAT-194) or exemption by placing into higher level courses.

BIO-196 4 Credits
General Biology II & Lab

As a continuation of General Biology I/Lab (BIO195), the course begins with a study of the chemical basis of inheritance and protein synthesis. The course then investigates the mechanisms of adaptive evolution, speciation, phylogeny, and the history of life on earth. The course concludes with a survey of the three domains of life and an introduction to the structure of populations and ecosystems. Laboratory work will continue to develop the student's critical thinking and problem solving skills. Class meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or higher in General Biology I/Lab (BIO-195).

BIO-203 4 Credits
Anatomy/Physiology I & Lab

This is the first course in a two-semester sequence that will examine the systems of the human body using an integrated approach. Areas of study will include the structure and function of cells, histology, and the physiological and anatomical aspects of support and movement systems and the nervous system. Laboratory activities will enhance the students' comprehension of the structure and function of the human body. Course meets: 3 hrs. lecture; 3 hours. Lab. Prerequisite: Grade of C or higher in Introduction to Biology (BIO-105) or Human Biology (BIO-108) or General Biology I/Lab (BIO-195).

BIO-204 4 Credits
Anatomy/Physiology II & Lab

As a continuation of Anatomy/Physiology I (BIO203), this course will again use an integrated approach to examine the human systems not covered in Anatomy/Physiology I. Areas of study will include the endocrine system, the cardiovascular system, lymphatic and immune systems, respiratory system, digestive system, urinary system, and reproductive system. Laboratory activities will enhance the student's comprehension of the structure and function of the human body. Course meets: 3 hrs. Lecture; 3 hrs. lab. Prerequisite: Grade of C or higher in Anatomy/Physiology I/Lab (BIO-203).

BIO-205 4 Credits
Microbiology & Lab

This course is intended for students entering health care careers and the biotechnology industry. This course will provide a solid foundation of basic physiological and biochemical activities of bacteria, viruses, fungi, and protozoa. The fundamentals of microbial physiology, genetics, and immunology will be presented with emphasis placed on virulence factors and the mechanisms in which these microorganisms establish disease. Microbiology in the workplace will be covered through a discussion of methods of physical and chemical control of microorganisms, microbial growth and enumeration. The use of anti-viral drugs and antibiotics, the host immune response to

infection, and the effectiveness of various vaccination strategies will also be discussed. The course will be completed by investigating the importance of human pathogens in patient care and nosocomial infection while looking at several major diseases. Exercises in the laboratory portion of the course deal with aseptic techniques, microbial cultivation and growth characteristics, staining and bacterial isolation techniques, differential biochemical tests, identification of unknown bacterial species, and testing effectiveness of antimicrobial agents. Course meets 3 hrs lecture and 3 hrs lab. Prerequisite: Anatomy and Physiology I/Lab (BIO-203) or General Biology I/Lab (BIO-195) or admission to the Nursing Program.

BIO-207 4 Credits
Cell Biology & Lab

A study of cell structure and function including the following topics: organelles, membrane function, metabolism, gene action, communication, and regulation of growth. Some specialized cells will be discussed. The laboratory will include biotechnological, molecular, and cellular experiments. Class meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Precalculus (MAT-197), and General Biology I/Lab (BIO-195) and either Introduction to Biotechnology/Lab (BIO-120) or General Biology II/Lab (BIO-196) or department chair approval.

BIO-208 4 Credits
Genetics and Lab

This course offers a broad understanding of classical, molecular and evolutionary genetics. Highlighted topics will include the molecular and chromosomal basis of inheritance, extranuclear inheritance, gene mapping and analysis, control of gene expression in pro- and eukaryotes, Chi square analysis, probability theory, DNA mutation and repair, genetics of cancer, and population and human genetics. Experimental work will focus on the theory and practice of current techniques in genetics. Class hours: 3hrs. lecture; 3hrs. lab. Prerequisite: A grade of C or higher in General Biology II/Lab (BIO-196) and Pre/Corequisite Cell Biology and Lab (BIO-207) or permission of department chair.

BIO-210 4 Credits
Population Ecology & Lab

This course is designed to give students an overview of the science of population biology. The course covers topics related to: distribution and abundance of species; mathematical models of logistic and exponential growth; the application of the Hardy-Weinberg principle to describe changes in gene frequencies via natural selection or other processes on populations; life-history strategies, interspecific interactions; population regulation and sustainable ecosystems; and human impact on the sustainability of wild populations. Laboratory activities include basic field techniques for collection and estimation of populations, basic statistical analysis, computer simulation, and formal lab exercises. Lab experiments are designed to facilitate an understanding of basic scientific field research and principles of population ecology. This course is designed for advanced science students and may be taken as an elective for the general biology transfer program. Class meets: 3hrs. lecture; 3 hrs. Lab. Prerequisite: General Biology II/Lab (BIO-196) or permission of the Biology and Chemistry department.

BIO-211 4 Credits
Environmental Microbiology/Lab

Environmental Microbiology introduces students to the diversity of microbial populations and their ecological roles in terrestrial, aquatic, and marine environments. The course will also focus on industrial microbiology and the relationships of

microbes to urban communities. Microbial community ecology and interactions with plants and animals will also be covered. Students will explore how microbial activities sustain natural ecosystems, contribute to environmental quality, and how these functions are harnessed to support and manage artificial systems. Laboratory investigations will introduce students to the standard experimental procedures used to study microbes. The course will satisfy a required program elective for students enrolled in the AS Biological Sciences - Transfer Option. This course will not satisfy the microbiology requirement for healthcare and nursing students. Students in health related programs should enroll in Microbiology & Lab - BIO-205. Prerequisite: C or better in General Biology & Lab - BIO-195. Completion or concurrent enrollment in General Biology II & Lab - BIO-196 recommended. 3 hours lecture - 3 hours lab.

BIO-261 3 Credits **Advanced Laboratory Techniques in Biotechnology**

Laboratory activities will emphasize proper laboratory protocol and documentation, inquiry based investigations, formal laboratory report writing, and standard laboratory skills used both in industry and in biotechnology research such as media and buffer preparation, protein purification, cell culture and immunological techniques. The course will also focus on career opportunities and hiring trends in the biotechnology industry and require that students work on their job readiness skills. Upon completion of this course, students will be qualified for entry level employment or internships in the biotechnology field. Depending on the college, both BIO-261 and BIO-262 may need to be completed for credits to transfer. Course meets: 1hr lecture/2.5 hrs. lab. Prerequisite: Grade of C or higher in Introduction to Biotechnology (BIO-120), General Biology I/Lab (BIO-195), and General Biology II/Lab (BIO-196) or departmental approval.

BIO-262 3 Credits **Principles of Molecular Biotechnology**

The emphasis in this course will be on major concepts of molecular biology and their relationship to the field of biotechnology. The course will focus on recombinant DNA technology, genetically engineered organisms, sequencing, gene expression in prokaryotes and eukaryotes, protein expression and analysis, and genomics. Advanced topics will include bioinformatics, protein engineering, RNA interference and biological products as therapeutic agents. This course will also expand on the concepts and applications presented in Introduction to Biotechnology (BIO120) and Advanced Laboratory Techniques in Biotechnology (BIO261). Upon completion of this course, students will be qualified for entry level employment or internships in the biotechnology field. Depending on the college, both BIO-261 and BIO-262 may need to be completed for credits to transfer. Course meets: 3hrs. lecture. Prerequisites: Grade of C or higher in Advanced Laboratory Techniques in Biotechnology (BIO-261), Cell Biology and Lab (BIO-207), and Genetics and Lab (BIO-208) or departmental approval.

BIO-270 4 Credits **Biotechnology Laboratory Simulations**

This multidisciplinary laboratory course will focus on providing theoretical and hands-on experience in advanced laboratory techniques and technologies such as High Pressure Liquid Chromatography (HPLC), Polymerase Chain Reaction (PCR), Real-Time PCR and bioreactors. This course will include laboratory simulations

that will mimic a real-world work experience. Laboratory activities will reinforce an understanding of theory and basic principles as well as method development, operations, applications and instrumentation. Key industry skills including documentation, current Good Manufacturing Practices (cGMP), Standard Operating Procedures (SOPs) and Validation will be emphasized and reinforced. Advanced scientific writing and oral presentation skills will also be developed. Course meets: 6 hrs lab. Prerequisites: Grade of C or higher in Cell Biology and Lab (BIO-207), Genetics and Lab (BIO208), and Advanced Laboratory Techniques in Biotechnology (BIO-261). Principles of Molecular Biotechnology (BIO-262) must be taken either as a prerequisite or as a co-requisite or departmental approval.

Biomedical Engineering

BME-100 4 Credits **Biomedical Engineering I**

A first course in Biomedical Engineering (BME), this course introduces students to preliminary Biomedical Engineering topics. Topics include: the BME profession, morals and ethics, anatomy and physiology, static biomechanics, rehabilitation engineering, static bioinstrumentation, biosensors, biosignal processing, and models of neurons. MATLAB is used for ease in problem solving. Laboratory involves using a virtual instrument (Biopac) to record and analyze signals from the body. Class meets: 3 hrs. lecture: 3 hrs. laboratory. Prerequisites: Grade of C or higher in Calculus I (MAT-281) and a grade of C or higher in General Chemistry I/Lab (CHM-201). Co-requisite: Calculus II (MAT-282).

BME-200 3 Credits **Biomedical Engineering II**

This course explores the techniques for analysis and modeling of biomedical systems with applications of advanced mathematics including Differential Equations, Difference Equations, State-Variables, and computer-aided methods to study problems at the interface of engineering and biology. Other topics include elements of physiological modeling and the solution of the transient and forced response for a variety of biomechanical and bioelectrical systems. Class meets: 3 hrs. lecture. Prerequisites: Grade of C or higher in Biomedical Engineering I (BME-100) and a grade of C or higher in Calculus II (MAT-282). Co-requisite: Calculus III (MAT-283).

Business

BUS-101 3 Credits **Introduction to Business**

This course is a survey of the purpose, role, and responsibility of business in a capitalistic society, including an introduction to the major areas of business such as: Finance, Management, Economics, and Marketing. This course provides a basic foundation for the student who will specialize in some aspect of business in college, and it also provides the opportunity for non-business majors to learn about the business in which they will someday be both producers and consumers. This course will also enable students to explore career options in business, define a career path, and make connections between classroom learning and the larger business community. This course will fulfill the Learning Community Seminar requirement for first time, full-time students, to assist the student in making a successful transition from our unique urban community into an academic environment. The

course will aid students in learning insights, skills, and attitudes necessary to develop academic success strategies for personal and career goals achievement. Prerequisites: A grade A C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

BUS-106 3 Credits **International Business I**

This course is an introduction to the environments, institutions, systems and operations involved in international business. Students will learn how different economic, legal, political and cultural forces influence the conduct of international trade and investment and how international competitive strategies, firm operations and organizational structures contribute to business success or failure in the global marketplace. The impact of international trade and investment on economies, businesses and consumers will also be examined. Prerequisite: Macroeconomics (ECO-201) or Microeconomics (ECO-202).

BUS-111 3 Credits **Globalization**

This course is an exploration of the nature, reasons for and consequences of globalization. Subjects such as global economic integration, cultural convergence, global institutions, multinational corporations and global business will be discussed. Students will acquire an understanding of globalization's key aspects and trends in history, geography, politics, culture, and technology, as well as its impact on labor, standards of living and the environment. This course will also enable students to explore career options in international business, define a career path, and make connections between classroom learning and the larger business community. This course will fulfill the learning community seminar requirement for first time, full time, students, to assist the student in making a successful transition from our unique urban community into an academic environment. The course will aid students in learning insights, skills, and attitudes necessary to develop academic success strategies for personal and career goals achievement. Prerequisites: A grade A C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

BUS-201 3 Credits **Business Law I**

In this introductory study of the law and its application to the individual, students learn to evaluate and analyze legal problems and systems. The course emphasizes business situations. Topics include procedural law, contracts, torts, consumer law, and related areas. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

BUS-207 3 Credits **Professional Communication**

This course gives students a comprehensive understanding of the use and importance of effective communication in business. Students study types of written, oral, and electronic communication and develop a variety of professional communication skills essential to success in business. The course also addresses ethical and cultural issues associated with business communications. Prerequisite: A Grade of C or higher in College Writing I (ENG-111).

Chemistry

CHM-120 Principles of Inorganic Chemistry & Lab

4 Credits

This course is an introduction to the basic concepts of inorganic chemistry. Topics include measurement theory, methods of scientific investigation, atomic theory, nuclear radiation, compound formation, chemical nomenclature, chemical reactions, the mole concept, solution chemistry, acid-base chemistry, and the relevance of chemistry in health professions. Laboratory work will introduce students to basic laboratory techniques, safety regulations, and chemical hygiene. This course does not satisfy the chemistry requirement of the AS Biological Sciences or AS Engineering programs or the AA Chemistry/Physics concentrations. Course meets 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Algebra (MAT-097) or exemption by placing into higher level courses.

CHM-121 Principles of Organic & Chemistry W/Lab

4 Credits

This course serves as an introduction to organic and biochemistry. The naming and reactivity patterns of common organic functional groups will be presented. A study of biochemistry will introduce students to the chemical structures and reactions of lipids, carbohydrates, proteins, and nucleic acids and their role in metabolism. The standard length three hour laboratory session will serve to reinforce the concepts discussed during lectures and will provide students with practical experience in organic synthesis reactions and organic compound identification methods. This course does not satisfy the Organic Chemistry requirement of the AA Chemistry Concentration. Class meets: 3hrs. lecture 3hrs. lab. Prerequisites: Grade of C or higher in Principles of Inorganic Chemistry & Lab (CHM-120) or grade of C or higher in General Chemistry I (CHM-201).

CHM-151 Basic Chemistry (Non-Lab)

3 Credits

This course is an introduction to basic concepts of inorganic chemistry. The course is designed primarily for students who have not previously studied chemistry. Topics, which are presented in a multi-media, modular format, include measurement, chemical symbols and equations, physical and chemical properties, atomic structure, chemical compounds, solutions, and an overview of chemical reactions. The course is offered in the Center for Self-Directed Learning only. Prerequisite: A grade of C or higher in Foundations of Algebra (MAT-097).

CHM-201 General Chemistry I & Lab

4 Credits

This course is a rigorous introductory course as part of a two-semester sequence that studies chemical principles. Topics include atomic structure, reaction types and equations, stoichiometry, gas laws, thermochemistry and bonding theory. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisites: Grade of C or better in Precalculus (MAT-197) or higher-level math or exemption by placement testing, and pre/co-requisite College Writing I (ENG-111). It is recommended that students take Calculus I (MAT-281) concurrently with CHM-201. Note: This course is intended for students planning to major or transfer as science or engineering majors. Pre-allied health students or students requiring a one semester overview of chemistry should enroll in Principles of Inorganic Chemistry and Lab (CHM-120).

CHM-202 General Chemistry II & Lab

4 Credits

This course is a continuation of General Chemistry I and Lab (CHM-201). Topics include solids, solutions, kinetics, equilibrium, acid-base and solubility equilibrium, thermodynamics and electrochemistry. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisite: Grade of C or higher in General Chemistry I and Lab (CHM-201).

CHM-251 Organic Chemistry I and Lab

4 Credits

This course studies the chemistry of carbon compounds including nomenclature, molecular structure and functional groups. Topics include the reactivity and properties of saturated and unsaturated hydrocarbons, stereochemical relationships and nucleophilic substitution and elimination reactions. Mechanisms are presented as a unifying principle for these reactions. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisites: Grade of C or better in General Chemistry II and lab (CHM-202) and a grade of C or higher in College Writing II (ENG-112).

CHM-252 Organic Chemistry II and Lab

4 Credits

This course is a continuation of Organic Chemistry I and Lab (CHM-251). Topics include aromatic substitution reactions, carbonyl addition reactions, acid derivatives, amines, and carbohydrates. Both the laboratory and lecture use instrumental methods for the structural analysis of organic compounds. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisite: Grade of C or higher in Organic Chemistry I and lab (CHM-251).

Mandarin Chinese

CHN-101 Elementary Mandarin I

3 Credits

A beginning level course in modern standard Mandarin Chinese, mainly for students with no experience in the language. The goal of the course is to develop in the students through a multi-approach the four basic skills in the Mandarin language: listening, speaking, reading, and writing. The course content is geared to use in real life, and the teaching method emphasizes mutual understanding and appreciation of cultures that differ from one's own and draws on the experiences and backgrounds of both the instructor and students. After a semester's study in this course, students are expected to have achieved a general understanding of the speaking and writing systems of the Mandarin language, and be able to communicate, both in oral and writing forms (speaking, listening, reading, and writing), with some simple and daily Mandarin.

CHN-102 Elementary Mandarin II

3 Credits

The course builds on the basic skills learned in Mandarin I. It is designed for students who might be planning to visit China for business, pleasure or for further study, and it will teach students some of the unique cultural practices of the country will be introduced, from the forms of courtesy to the way of asking questions. The objective of the course will be to sharpen students' oral and written communication skills. We will focus on everyday situations and combine practice in speaking with exercises in writing. The course will stress clarity in writing,

and will teach students how to think critically in formulating statements and understanding meaning. This course meets the General Education requirement for Creative Work. Prerequisite: Grade of C or higher in Elementary Mandarin I (CHN-101) or by permission of instructor.

Computers

CIT-101 Computer Essentials

3 Credits

This introductory course is intended for students with little to no computer experience. Students in developmental mathematics, reading and English as well as English as a Second Language (ESL) should consider this for their first computer course. This course starts with an introduction to the Windows environment and covers operating system topics appropriate for beginners, keyboarding, document processing and productivity skills necessary to function in today's electronic office environment. The course teaches students other skills necessary to use a personal computer as a tool for academic success. Utilizing the college's computer laboratories, students get extensive "hands-on" personal computer experience in MS WORD as well as E-Mail, INTERNET, and World Wide Web (WWW) access and use. Students emerge from this course with an understanding of essential computer concepts and terminology, use and application of the INTERNET, keyboarding proficiency, and a high degree of competence with personal computer hardware and software. All Learner Outcomes and Competencies in this course are based on accepted, published ICT Industry Standards. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-102 IT Career Exploration

1 Credit

This is a hands-on workshop class that provides students with the tools necessary to explore Information & Communications Technology (ICT) industry career and employment opportunities. Students will engage in activities and assignments designed to assess and evaluate personal values, skills and interests as they relate to the world of work. Students will utilize resources on the College Student portal and beyond to explore careers, research employers and navigate the local job market in the ICT industry. Course assignments and activities will culminate in each student having a thorough understanding of the characteristics that make up a viable career plan that will enhance their gainful employment opportunities. This class is open to anyone with an interest in guided career exploration and a desire to be employed within the field of Information & Communications Technology.

CIT-110 Applications/Concepts

3 Credits

This survey course covers the use and application of modern computer systems. This course includes detailed coverage of fundamental computer concepts, terminology, applications, and theory. Students will get extensive 'hands-on' personal computer experience and gain a good working knowledge of MS WINDOWS and MS OFFICE. Upon completion of this course, students will have a grasp of important computer concepts and terminology, an understanding of INTERNET use and applications, a high degree of competence with personal computer hardware and software, as well as an understanding of the effects of information technology on the individual, organizations, and society. All Learner Outcomes and Competencies in this course are based on accepted, published ICT Industry

Standards. Students with prior learning experience may test out of this course by contacting pla@bhcc.edu. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-112 3 Credits
Information Technology Fundamentals

This is a survey course covering major aspects of the Information Technology (IT) industry and provides students with an overview and introduction to the core aspects of Information Technology including Network and Infrastructure Systems, Information Support and Services Interactive Media and Programming and Software Development. This course focuses on an understanding and appreciation of the duties of information technology professionals and how each IT area relates to and interacts with the others. Upon completion of this course students will have the knowledge necessary to make educational choices about continued study in IT as well as understanding of the impact of technology on society and organizations of all types. Students taking this course are expected to have a solid knowledge of basic computer terminology, internet navigation and e-mail, operating system and file Management skills. All Skill and Knowledge Statements in the course are published and approved by the Massachusetts Department of Education Vocational Technical Education Frameworks for the Information Technology Service cluster. These frameworks are published at <http://www.mcte.org/frameworks>. This course is eligible for Massachusetts Tech Prep advanced placement credit. Prerequisite: Academic Reading III (ESL098) or Reading Skills II (RDG095) or placement. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu

CIT-113 3 Credits
Information Technology Problem Solving

This course will give students "hands-on" experience in a wide range of modern information technology. Several IT concepts will be introduced that will provide a basis for further study in Information Technology. Students will work on a number of projects that will give perspectives on areas of IT including but not limited to: visual and/or robotic programming, social networking tools, web design and networking. Issues of security, privacy and ethics will also be examined. Students will leave the course with an understanding of the components of modern IT systems and the scope of knowledge needed to become an IT professional. Students are expected to have access to computer with internet access outside of class as there is a major web component to the course. Designed for first-time, full-time Computer Technology students, this course will fulfill the Learning Community Seminar requirement for the Computer Information Technology Department. First year students registering for this course should not register for Computer Applications/Concepts (CIT110). This course is not for Computer Science Transfer, Gaming or Web majors. Prerequisites: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-118 3 Credits
Principles of Internet & Info Security

This is a course in Internet and Information Security which introduces students to all major areas related to securing both personal and organizational information in the "Internet Age".

Beginning with an introduction to physical and electronic security issues, students proceed to explore the legal, ethical and professional issues in information and Internet security. Topics covered include, but are not limited to, identity theft, phishing and other email scams, personal and corporate firewalls, spyware and virus scanning software, chat rooms, Internet crimes against children, cyber predators, digital computer forensics, wired and wireless home & organization networks, cyber terrorism, and cyber vandalism. Students gain practical experience in Internet security considerations through a capstone Security Project. Students completing the course also attain the i-SAFE.Org certification. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving CIT-113) or Introduction to Computer Science & OOP (CSC-120), equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-121 3 Credits
Introduction to Computer Forensics

This is an introductory course in Computer Forensics. Forensics Computing, Digital Forensics, or Computer Forensics is the name for a newly emerging field of study and practice that incorporates many areas of expertise. Some of these areas have been called network security, intrusion detection, incident response, infrastructure protection, disaster recovery, continuity planning, software engineering, cyber security, and computer crime investigation. It is an area of practice in public law enforcement at the federal, state and local levels that deals with cybercrime, cyber vandalism, cyber predators, and cyber terrorism. In the private sector, it deals with critical infrastructure such as business, hospitals, utilities transportation, finance, education, and other key institutions. Taught in the College's hands-on laboratory students will gain an in-depth knowledge of the principles, procedures, and techniques used in digital forensic analysis. Prerequisite: Computer Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Intro to Computer Science & Object Oriented Programming (CSC-120) or permission of the department chair.

CIT-128 3 Credits
Database Design with MS Access

This is a comprehensive course in the use and application of computers in database applications based on the most current version of Microsoft Access. The course covers all aspects of database design including entity relationship modeling, tables, reports, queries, forms and other database objects. All key MS Access functionalities including Internet applications, integration with the Web and other software programs are covered. Students gain some experience using Structured Query Language (SQL) and Visual Basic for Applications (VBA) in the final component of the course. Microsoft Corporation has approved this course material as courseware for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC ACCESS Certification Examination upon completion of this course. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact ITDepartment@bhcc.edu

CIT-129 3 Credits
Mobile App Development

This course introduces application development for mobile devices such as Android, Apple, Windows, and web. Students will program simple

apps on multiple devices, using standard development environments commonly used professionally, using a series of skill-based lessons. Prerequisites: Writing Skills I(ENG-090) and Reading Skills I (RDG-090); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

CIT-130 3 Credits
Data Visualization

This course in data visualization will teach students an essential skill needed in the business world. Students will learn the foundations of data visualization which uses statistics, computer science, neuroscience and psychology to visually present data. The techniques and skills learned in this course will help students' articulate and present clear evidence of findings in a meaningful and aesthetically pleasing way. This course is geared towards data analytics, but is also open to students in other disciplines looking for a better understanding of data visualization. Students will use learn the software Tableau, along with theory which explains how the visual processing works, and techniques which take advantage of the brain's processing to create effective visualizations. Students will learn how to choose the correct visualization for their data and differentiate between both good and bad data visualizations. By the end of the course, students will be able to create effective visualizations, dashboards and tell a story with data with Tableau.

CIT-131 3 Credits
Introduction to Creating Mobile Apps

This course is designed for individuals with no experience with programming languages or previous experience creating mobile applications. The course uses a graphical-user interface blocks editor for students to build their own Android based mobile apps. The course offers reading about the editor and basic programming concepts, tutorial walk through assignments within the editor, and assessments which require students to build unique apps based on the tutorials so that they can demonstrate their understanding and knowledge of what they have learned. Specific programming concepts covered include design logic, programming conditions, variables, procedures, branching and looping. Specific app functionality covered includes sprite animation, multiple screens, and integration with device sensors, texting, databases, video, and other web APIs. Prerequisites: Writing Skills I(ENG-090) and Reading Skills I (RDG-090); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

CIT-133 3 Credits
Introduction to Microsoft Office

This introductory course covers the use and application of integrated PC applications software based on the most current version of Microsoft Office. The course initially covers the MS Windows skills necessary to complete the course. Using the hands-on college computer laboratory, the course covers the following applications in detail: Word Processing, Spreadsheet, Database, Presentation Graphics, and Desktop Information Management. The course emphasizes Internet applications relating to MS Office. It also covers integration among the MS Office Applications. Microsoft Corporation has approved this course material as courseware for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC Certification Examination(s) upon completion of this course. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-135**Design for Mobile Devices**

3 Credits

This course introduces the central components of user interface design for mobile devices (phones, tablets, and other). Students will learn how to prototype user interface designs using a series of scaffolded, skill based lessons culminating in a mobile application interface design for an application. Prerequisites: Writing Skills I (ENG090) and Reading Skills I (RDG090) or Academic Reading III (ESL-099) and Academic Reading III (ESL-098) or Integrated ELL Level 3 (ELL-103) or exemption by placing into higher level courses.

CIT-137**Intro to Big Data with R&R-Studio Studio**

4 Credits

This course provides practical foundation level training that enables immediate and effective participation in big data and other analytics projects. It includes an introduction to big data and the Data Analytics Lifecycle to address business challenges that leverage big data. The course provides grounding in basic and advanced analytic methods and an introduction to big data analytics technology and tools, including MapReduce and Hadoop. Labs offer opportunities for students to understand how these methods and tools may be applied to real world business challenges by a practicing data scientist. The course takes an "Open", or technology-neutral approach, and includes a final lab which addresses a big data analytics challenge by applying the concepts taught in the course in the context of the Data Analytics Lifecycle. Prerequisite: Information Technology Problem Solving (CIT-113) or equivalent or department chair approval.

CIT-162**CISCO Networking I**

3 Credits

This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Prerequisite: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses For additional information contact CITDepartment@bhcc.edu

CIT-167**CISCO Networking II**

3 Credits

This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with virtual LANs, and inter-VLAN routing in different versions of IP networks. Prerequisite: CISCO Networking I (CIT-162). For additional information contact CITDepartment@bhcc.edu

CIT-182**PC Hardware & Software**

3 Credits

This course provides an excellent, interactive exposure to personal computers, hardware, and operating systems. Students completing this course will be able to describe the internal components of a personal computer, assemble a system, install an operating system, and troubleshoot using system tools and diagnostic software. They will also be able to connect computers to the Internet, share resources in a networked environment and develop greater

skills and confidence in working with desktop and laptop computers. Students participate in "hands-on" activities and lab-based learning to become familiar with various hardware and software components and discover best practices in maintenance and safety. Topics covered include: laptops and portable devices, wireless connectivity, security, safety and environmental issues. Standalone virtual learning tools supplement classroom instruction and provide opportunities for interactive "hands-on" learning. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-183**Healthcare IT Concepts I**

3 Credits

This course will provide students with the knowledge and skills to successfully understand the Healthcare IT industry and to adequately prepare for Healthcare IT Hardware/Software Support positions. Topics include privacy, wireless, mobility and security concepts necessary to provide hardware and software support in healthcare environments, including physician offices, clinics, hospitals, and third-party contractors. Students will enhance their CompTIA A+ certification skills and acquire the knowledge and skills needed to implement, deploy, troubleshoot and support healthcare IT systems in clinical settings. Students will also understand healthcare terminology, practical workflow and Healthcare IT operational and regulatory concepts while adhering to security best practices. Hands-on activities, labs, and web-based activities will provide a practical understanding of the material. Prerequisite: Applications/Concepts (CIT110) or CIT113 or CIT-120 or CSC-120 or permission of Department Chair. Pre/co-requisite: PC Hardware and Software (CIT182) or permission of department chair.

CIT-187**Data Analytics and Predictive Analysis**

3 Credits

Data analytics and predictive analysis encompasses a variety of machine learning techniques to analyze and gather insight from data. The data can then be used either to make predictions of future events, or to classify data into different segments. This course is the follow-up course to Introduction to Big Data with R and R-Studio, and will continue to develop a student's skills in the R programming language. It will also continue to grow a student's understanding of data. Students will learn the difference between supervised and unsupervised modeling, and the basic modeling techniques pertaining to each. The techniques taught in the course include regression, clustering, classification and tree-based methods, along with an introduction to neural networks. Prerequisites: Intro to Big Data with R and R-Studio (CIT-137) and Statistics I (MAT-181).

CIT-211**System Analysis and Design**

3 Credits

This first course in computer information systems development introduces students to the tools and techniques available to the systems analyst and designer. The course covers phases of the systems development cycle with emphasis on analysis and design. A major component of the course includes an understanding of structured analysis and design techniques and the transition from structured analysis to Object Oriented Analysis. The course covers Language (UML) and Entity Relationship Diagrams (ERD). The department strongly suggests that students complete or take concurrently College Writing I (ENG-111). Prerequisites: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science & Object

Oriented Programming (CSC-120) and at least two other CIT courses. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-216**Visual Basic**

3 Credits

This course covers an introduction to computer programming using Visual Basic. The course provides students with "hands-on" exposure to object-oriented programming techniques and emphasizes programming logic, using the event-driven components of Visual Basic. Using laboratory case assignments, students plan, design, and create their own Windows applications. They learn how to create a user interface, set control properties, design the logic structures of the project and write the associated Visual Basic code. Topics covered include variables and mathematical operations, decision and looping structures, procedures and functions and single level arrays. Prerequisite: Applications/Concepts (CIT110), IT Problem Solving (CIT113) or Introduction to Computer Science & OOP (CIT120). For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-218**Intermediate Visual Basic**

3 Credits

Expanding on the principles of object oriented and visual programming contained in Visual Basic (CIT216), this intermediate-level course provides students with additional in-depth use of the Visual Basic language. Students gain experience working with VB arrays and data interfaces, combination controls and functions, menu design and database interfaces. Multiple Classes and Inheritance will be covered as part of the continuing exposure to object oriented programming. The course emphasizes the incorporation of databases within a Visual Basic Project. Prerequisite: Visual Basic (CIT216) or permission of the instructor and/or department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-219**Information Security & Assurance**

3 Credits

Emphasis in this course in Information Security and Assurance will be placed on understanding the key issues associated with protecting information, the technologies behind securing information and the subsequent detection and response to security incidents. Topics will include inspection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical responses and an overview of the Information Security Planning functions. There will be a "hands-on" lab component required for this course. Students taking this course will be required to sign The White Hat Oath, a Code of Ethics from the International Information Systems Security Certification Consortium, Inc. (www.isc2.org). Prerequisite: Windows Operating Systems (CIT-268). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-220**Directed Study in Digital and Computer Forensics**

1 Credit

Students in this course will be assigned a special Forensics research topic from either the technical or legal side of digital and computer forensics or cybercrime or an internship, when possible, or a combination of a special research topic and a short term job shadowing assignment. Prerequisite: Advanced Computer Forensics (CIT-221). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-221 3 Credits
Advanced Computer Forensics

This course provides advanced work in computer and digital forensic analysis. Emphasis in this course will be placed on file system forensic recovery, analysis and reporting, intrusion detection and analysis, and advanced use of computer forensics tools. Topics covered in Introduction to Computer Forensics (CIT121) will be expanded upon especially in the areas of file system analysis, drive imaging and backup, email and mobile devices forensics and the impact these analyses have upon investigations. Prerequisite: Introduction to Computer Forensics (CIT-121) and Windows Operating Systems (CIT-268).

CIT-223 3 Credits
Special Topics in Digital and Computer Forensics

This course is designed to cover emerging and changing issues in Computer and digital Forensics. Issues covered in this course could include but will not be limited to testifying as an expert technical witness, mobile device forensics, and new legal issues pertaining to digital evidence. Topics covered will be adjusted as the curriculum needs of the field change. Pre/corequisite: Advanced Computer Forensics (CIT-221). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-225 3 Credits
Advanced Python Programming

This is an advanced course designed for any student interested in learning advanced computer programming concepts in the context of the Python programming language. In this course students will explore classes, object oriented programming, plotting, sampling and statistical thinking, using randomness to solve non-random problems, statistical thinking, graphs, and dynamic programming. Students will complete hands-on individual projects, individual assessments, group projects, and exams to assess student success at achieving the course outcomes. Prerequisite: Python Programming (CIT125) or equivalent experience with chair approval. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu. All prerequisites must be completed with a C or better.

CIT-229 3 Credits
Programming with Android I

This course introduces the central components of Android programming. Students will learn how to program in Java using the Android Development Tools using a series of scaffolded, skill based lessons culminating in a mobile application which can be exported and placed on a device. Prerequisites: Writing Skills I (ENG-090) and Reading Skills I (RDG-090); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses and CIT-129 or CIT-120 or any BHCC CIT programming course or equivalent experience or permission of the CIT Department Chair.

CIT-230 3 Credits
Help Desk Techniques

This course provides students with an overview of the design, implementation, and management of a computer help desk or customer support center. Course topics include customer service skills, troubleshooting tools and methods, problem-solving strategies for common support problems, the incident management process, and user needs analysis and assessment. The course also covers industry certifications, professional associations, and standards of ethical conduct for help desk personnel. Prerequisites: Applications/Concepts (CIT-110) or Chair approval. For additional information and/or a course syllabus contact CITDept@bhcc.mass.edu.

CIT-233 3 Credits
Advanced Microsoft Office

This advanced course covers the use and application of integrated PC applications software based on the most current version of Microsoft Office. It covers the following applications in detail: Advanced Word Processing, Spreadsheet, Database, Presentation Graphics and Desktop Information Management applications. The course emphasizes Internet applications including on-line collaboration using MS Office. It also stresses integration of the MS Office applications. Microsoft Corporation has approved this course material as coursework for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC Certification Examination(s) upon completion of this course. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to MS Office (CIT-133) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-234 3 Credits
Decision Support Using MS Excel

This comprehensive course covers the use and application of Decision Support using spreadsheet software based on the most current version of Microsoft Excel. The applications include basic spreadsheet operations, charting, web queries, multiple sheet workbooks, macros, advanced functions, and database features. The course emphasizes applications involving financial decision-making, financial planning and "what-if" analysis as they relate to various business and organizational models. Internet applications of MS Excel and integration of the other MS Office programs are also covered. Microsoft Corporation has approved this course material as coursework for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC EXCEL Certification Examination upon completion of this course. Prerequisite: Applications/Concepts (CIT-110) or Introduction to Computer Science and Object Oriented Programming (CSC-120) or Information Technology Problem Solving (CIT-113) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-237 4 Credits
C++ Programming

In this course, students who already have been exposed to programming and Object Oriented thinking, develop the ability to correctly analyze a variety of problems and generate appropriate algorithmic solutions using the C++ Programming Language. The course emphasizes the principles of top-down structured design and Object Oriented thinking. Topics include but are not limited to branching and looping mechanisms; arrays, functions and function overloading, arguments by reference and by value as well as optional arguments; recursion; pointers, creating libraries and namespaces, structures and classes, constructors and other methods, overloading operators; file I/O; inheritance and polymorphism. Strong analytical skills are recommended for students enrolling in this course. Prerequisite: Writing Skills II (ENG095), College Algebra-STEM (MAT194) and Introduction to Computer Science & Object Oriented Programming (CIT120) with grade C or better or equivalent experience with permission of the department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu. All prerequisites must be completed with a C or better.

CIT-238 3 Credits
Programming for iOS I

This course introduces the central components of iOS programming for mobile app development. Students will learn the basics of programming using vendor approved IDE and Tools in a series of scaffolded, skill based lessons culminating in a mobile application for iOS devices. This is first-level course that introduces programming concepts and structures unique to this product's language, but also addresses the iOS marketplace, what it takes to become an iOS developer, as well as the planning and budgeting required for sustained app development. Prerequisites: Any BHCC programming course or PLA or Chair approval.

CIT-240 3 Credits
Database Programming

This is an intermediate course in procedural programming for database management systems. Topics in this course include: anonymous and named blocks, named procedures and functions, cursors, triggers, collections and the creation and manipulation of temporary tables. Students perform mid-to advanced level manipulation of databases required for logical processing and user interaction with relational databases. Prerequisite: SQL Programming (CIT236) or permission of department chair. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-243 3 Credits
Android Development for Java Programmers

This course is for students who are already experienced Java programmers. It discusses not only the intricacies of Android app development, but publishing in the Market place and monetizing the apps through fees, in-app advertising, or in-app billing of selling virtual goods. Topics include but are not limited to: mobile game design principles, tools and terminology, AndEngine framework, Java/Dalvik and Android SDK, rendering images, using sprite sheets, creating animations, sound, creating an effective game interface, resource files, working with maps, notifications, and building customer UI elements. APIs (Application Programming Interfaces) and SDK (Software Development Kits) for phones and tablets will be used. Prerequisites: Grade C or better in Java Programming (CIT239) and Precalculus (MAT197). Pre/corequisite: Advanced Java Programming (CIT285).

CIT-245 3 Credits
Database Administration

This course is designed to introduce students to the fundamentals of Relational Database Administration, using the most current versions of the Oracle RDBMS engine. Students will learn the basics of database maintenance including installing and configuring the database, controlling the data dictionary, and managing the database tables including constraints, indexes and user roles. Students gain extensive real-world experience utilizing the DBA tools associated with Oracle. This course will present the material covered in the Database Fundamentals I Oracle Certification Exam #120-031. Students will also be provided with the personal edition of the Oracle software. Prerequisite: SQL Programming (CIT236), equivalent experience or permission of the department chair. For additional information and/or a course syllabus contact CITDeptment@bhcc.mass.edu.

CIT-250 3 Credits
Collaboration, Communication, and Integrating

This is a course in modern office technology which introduces students to all major areas of personal and organizational collaboration, communication and integration of MS OFFICE

applications. Building on students' basic knowledge of the most current version of the core MS OFFICE applications, the course proceeds to cover in detail, the integration among OFFICE applications including Object Linking & Embedding (OLE), On-Line Meeting, document sharing, and the other collaboration features of MS OFFICE. Using WORD as the "core" application, students gain practical experience in moving and linking data among all applications: WORD, EXCEL, ACCESS, POWERPOINT and OUTLOOK. Advantages and limitations of Voice over IP (VoIP) and video conferencing, along with the importance of security and other considerations involved in implementing these technologies are also covered. Students also gain experience in web enabling and publishing as well as knowledge of the principles, best practices, procedures and techniques used in implementing all of these applications in offices large and small. Microsoft Corporation has approved this course material as courseware for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC Certification Examination(s) upon completion of this course. Prerequisite: Computer Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or equivalent course or experience or permission of department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-262 **Wireless Technology** 3 Credits

This course introduces students to the fundamentals of planning, installing, maintaining and troubleshooting a network supported by unbound media. It is assumed that students have no prior knowledge of wireless networks and devices. Hence, this course permits students to learn how to apply and support wireless technology in personal, LAN, MAN, CAN and WAN networks. The course is divided into two sections, one that teaches the wireless skills required to take and pass your Certified Wireless Network Administration (CWNA) exam, and the other educates students on how many different wireless devices work. Prerequisite: CISCO Networking I (CIT-162).

CIT-264 **Networking Security** 3 Credits

The goal of this course is to provide you with a fundamental understanding of network security principles and implementation. You will learn about the technologies used and principles involved in creating a secure computer networking environment. You will learn about the authentication, the types of attacks and malicious codes that may be used against your network, the threats and countermeasures for e-mail, Web applications, remote access, and file and print services. A variety of security topologies are discussed as well as technologies and concepts used for providing secure communications channels, secure internetworking devices, and network medium. Further, you will learn about intrusion detection systems, firewalls, and physical networking security concepts. In addition, security policies, disaster recovery, and computer forensics are covered. Aside from learning the technologies involved in security, you will get to understand the daily tasks involved with managing and troubleshooting those technologies. You will have a variety of hands-on and case project assignments that reinforce the concepts you read in each chapter. Prerequisite: CISCO Networking I (CIT162).

CIT-267 **CISCO Networking III** 3 Credits

This course describes the architecture, components, and operations of routers and switches in larger and more complex networks. Students learn how to configure routers and

switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP and VLANs in IP networks. Students will also develop the knowledge and skills needed to implement a WLAN in a small-to-medium network. Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-268 **Windows Operating Systems** 3 Credits

This course provides students with in-depth, hands-on experience with the most commonly used versions of the Windows operating systems. Students gain experience using system file managers, utilities, set-up procedures, and other major components of the operating systems. In addition, the course emphasizes gaining an understanding of device drivers, link libraries, memory management, multi-tasking requirements, and multi-media considerations. Upon completion of the course, students have a high degree of competence in the application and use of these Windows operating systems such as Windows, DOS, and Linux. Prerequisites: Computer Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Intro to Computer Science/Object Oriented Programming (CSC-120) or permission of the department chairperson. For additional information and/or a course syllabus contact CITDept@bhcc.edu

CIT-270 **Linux Administration/Lab** 4 Credits

This course introduces students to the fundamentals of creating and maintaining a network supported by LINUX clients and servers. It is assumed that students already have a grasp of the basic LINUX commands hence the focus will be on system administration which will include but not be limited to installation, distributed computing, system administrator tools and tasks, file systems, printing, send mail, NIS, NFS, DNS/BIND and setting up a firewall. Prerequisite: CISCO Networking I (CIT-162). For additional information and/or a course syllabus contact CITDept@bhcc.edu.

CIT-271 **Batch File Programming** 1 Credit

This course teaches students how to create batch files to automate a sequence of commands, to write and use batch files for complex tasks, to use batch file subcommands, to halt the execution of a batch file and to write batch files using replaceable parameters and environment variables. Prerequisite: Linux Administration/Lab (CIT270). Pre/corequisite: Windows Operating Systems (CIT-268). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-273 **Ethical Hacking** 4 Credits

This course introduces the information technology security specialist to the various methodologies for attacking a network. The student will be introduced to the concepts, principles and techniques, supplemented by "hands-on" exercises, for attacking and disabling a network. These methodologies are presented within the context of properly securing the network. The course will emphasize network attack methodologies with emphasis on student use of network attack techniques and tools and appropriate defenses and counter measures. Students will receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual environment. Students will receive a "hands-on" practical approach in penetration testing measures and ethical hacking.

There is an ethics requirement for this course and students will be required to sign the White Hat Oath. Students are expected to have access to a computer with internet access outside of class as there is a major web component to the course. Prerequisite: Windows Operating Systems (CIT-268) or Linux Administration/Lab (CIT-270) or permission of the department chairperson.

CIT-274 **CISCO Networking IV** 3 Credits

This course discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. Students learn how to configure and troubleshoot network devices and resolve common issues with data link protocols. Students will also develop the knowledge and skills needed to implement virtual private network (VPN) operations in a complex network. Prerequisite: CISCO Networking III (CIT267) or department chair approval. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-275 **Information Security Seminar** 3 Credits

This course enables the security specialist to employ the various methodologies, tools, and techniques acquired in earlier course curriculum in protecting, hardening and attacking a network in a Capstone course. The student will be introduced to projects/problems/or scenarios which will require hands on engagement to address. The course will emphasize problem solving, critical thinking, and use of multiple skills, techniques, and tools because of the complex nature of the projects/problems/scenarios. Students are expected to have access to computer with internet access outside of class as there is a major web component to the course. Pre/corequisite: Ethical Hacking (CIT-273) or permission of the Department Chair.

CIT-277 **Health Information Networking** 3 Credits

The Health Information Networking course is a technology-focused curriculum primarily designed for students who are looking for career-oriented, entry-level healthcare focused skills that can be applied toward entry-level specialist careers in healthcare networking. The course provides students with the skills to develop an in-depth understanding of principles of practicalities needed for information technology and networking professionals wishing to specialize in healthcare network implementations. Topics include: basic information on healthcare settings, principles of security, mobility and privacy in healthcare, fundamentals of information technology in healthcare, fundamentals of electronic health records systems and electronic medical record implementations. Application of skills and concepts include designing, securing and troubleshooting a health care network. Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-279 **Cisco CCNA Security** 3 Credits

This course equips students with the knowledge and skills needed to prepare for entry-level security specialist careers and prepare for the CCNA Security certification. This course is a hands-on, career-oriented e-learning solution that emphasizes practical experience. CCNA Security aims to develop an in-depth understanding of network security principles as well as the tools and configurations available. The following tools are covered: Protocol sniffers/analyzers; TCP/IP

and common desktop utilities: Cisco IOS Software: Cisco VPN client; Packet Tracer (PT); and Web-based resources. Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-282 4 Credits
MS Windows Administration/Lab Network

This course provides students with the necessary knowledge and hands-on skills required to manage the most current and industry-accepted version of Microsoft Windows. The course tailors information to requirements necessary to complete the Microsoft Certified Professional (MCP) exam required by industry. Topics include, but are not limited to, installation, managing users and groups, managing domains via an overview of the Active Directory Services feature, print services, disk storage, remote access, managing and monitoring the network, the Registry and troubleshooting techniques. Course labs challenge students to piece together new and old networking concepts that reinforce each topic. Prerequisite: CISCO Networking I (CIT-162). Pre/corequisite: Windows Operating Systems (CIT-268). For additional information and/or a course syllabus contact CITDdept@bhcc.edu

CIT-287 3 Credits
Survey of New Popular OOPL for for Programmers

This course is for students who already have deep knowledge of an Object Oriented Language (Advanced Java or Advance C++). This course will cover in depth three of the most commonly requested OOPL in the job market, C#, Visual Basic.NET and Python (languages covered may change depending on the current job market needs). The course will focus on the idiosyncrasies of the different new languages. Knowledge of programming structures and ability to implement lengthy and complex programming solutions, use of the debuggers and ease to adapt in deferent IDEs is assumed. Long capstone-like projects will be required for each language examined and students will be responsible to analyze and solve the problems by applying the good programming practices and styles already learned in prior semesters. Prerequisites: Grade of C or better in Advanced Java programming (CIT285) or Advanced C++ (CIT284), and Precalculus (MAT197).

CIT-288 3 Credits
Healthcare IT Concepts II

Students will apply concepts from Healthcare IT objectives learned in the Healthcare IT Concepts I course for effective real-world application. Students will achieve the national Healthcare Technology Specialist competencies and the national Healthcare Information Management competencies. The course will prepare students to demonstrate proficiency in Healthcare IT workforce roles integral to the implementation and management of electronic health information systems. Students will demonstrate competencies in health IT professions to assess workflows, select hardware and software, work with vendors, install and test systems, diagnose IT problems, and train other staff on healthcare systems. Virtual labs and web-based stimulation will provide a practical understanding of the material. Pre/co-requisite: Healthcare IT Concepts I (CIT-183) or permission of the department chair.

CIT-299C 3 Credits
Computer Technology Internship

This course enhances the academic experience for students. All internships take place at pre-approved sites. The course allows students

enrolled in computer technology courses to apply what they have learned in the "real world" environment. Students must attend a weekly on-campus seminar. Students must comply with the Internship requirements, as stated in the "Internship Handbook", before registering for the course. In all cases, students need permission of the department chairperson to register for this course.

CIT-299CSC 3 Credits
Computer Science Internship

This course provides students with hands-on experience in Computer Science. The course is an internship approach to learning. It provides a solid foundation to understanding the types of jobs available to students with Computer Science skills and what it is like to work in the field. Students will acquire a first-hand perspective of employer's expectations and levels of satisfaction. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them in the pursuit of a career in a computer science field. Prerequisites: A grade of C+ or higher in C++ Programming (CSC-237) and Advanced Java Programming (CSC-285).

CIT-299N 3 Credits
Networking Internship

This course provides students with hands-on experience in networking. The course is divided into three sections, one that teaches the concepts for building and maintaining a networking career, another that introduces guest lecturers from industry, and finally either an internship, job shadowing, or team walk through approach to learning. This course provides a solid foundation to understanding the types of jobs available to students with network administration skills, what it is like to work in the networking field, and students will acquire a perspective of employer's expectations. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them when they begin their networking career. Prerequisite: Permission of department chairperson.

Computer Media Technology

CMT-101 3 Credits
Game Development Essentials

This course will present the principles, concepts, and components all of games and the gaming industry's processes, methodologies, and principles associated with the design, development, and distribution of computer-based games and computer-based simulations. This course is designed to provide the student with an overall comprehension of all the precepts and building blocks that are essential to every computer-based game and simulation. This course fulfills the Learning Community Seminar requirement for students in Computer Media Technology. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CMT-103 3 Credits
Managing Game Development

This course will cover the concepts and application of management tools and philosophies incorporated in today's game development climate for the purposes of effectively managing game production scenarios. The student will be introduced to the tasks associated with the development of a game or simulation projects and the constraints, effects,

and ramifications affecting the project components. Additionally, the student will be taught critical project management analysis techniques such as resource allocation, estimating obstacles and opportunities and how to exploit them to the project's advantage. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CMT-111 3 Credits
HTML5

The purpose of this course is to teach the student the principles and concepts of designing and creating WEB pages in an HTML5 format. The course is designed to expose the student to the constructs of HTML5 tags and the responsive design techniques for page banners, images, tables, navigation menus, in-page articles, and footer sections that are available with the advent of HTML5. Additionally the course will teach the student the utilization of dynamic graphics, lists, and background image control. Also included will be content created in Photoshop for the purpose of inclusion as a stand-alone image or as a background image in a web site. The course will explore the requirements, tools and controls used in WEB page development by lecture, in-class practical exercises, and home study exercises. Prerequisites: Writing Skills I (ENG-090) and Reading Skills I (RDG-090); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses"

CMT-113 3 Credits
JavaScript

This course teaches students the concepts and practical application of JavaScript programming language as a WEB authoring tool. Students learn to program WEB pages to perform such tasks as forms and form validation, image swapping, auto-scrolling text, browser detection and control and time and date extraction and conversion. The course explores designing and developing JavaScript functions using iteration loops, conditional statements, switch statements, parameter passing, location redirection, in-line JavaScript and remote access JavaScript utilization. Prerequisites: Computer Applications/Concepts (CIT-110) and HTML5 (CMT-111).

CMT-117 3 Credits
XML

This course introduces the student to writing Extensible Markup Language documents for the Web, using custom markup tags, Cascading Style Sheets and Extensible Style Language Style Sheets. Students will create a Document Type Definition (DTD) for validating their documents with an XML parser. Students will also learn how to transform XML documents into other formats for computers that are not capable of viewing XML format documents. Prerequisite: HTML5 (CMT-111).

CMT-119 3 Credits
The Human Character

This course will present concepts in the creation of 3D human character and object modeling using detailed structures based on polygon modeling design tools such as patch modeling, image planes, planar projections, and curve projections. This course will also cover in-depth NURBS modeling of 3D characters and conversion from NURBS to polygons. These skills are requisite skills for the successful design and implementation of 3D game design and computer simulation projects. Most of these techniques were employed in the Sony Pictures animated short film "The ChubbChubbs". Prerequisite: Game Development Essentials (CMT-101).

CMT-121

3 Credits

Maya Foundations

This course will present the principles of designing gaming and computer simulation using the same Autodesk Maya techniques and principles as were used in the Sony Pictures feature film "Open Season". The course will cover the fundamentals of three dimensional (3D) object creation, 3D object shading, shape texturing, scene and object lighting, and simple animations. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses

CMT-123

3 Credits

Maya Character Modeling

This course will present advanced concepts in the creation of 3D character and object modeling using detailed structures based on polygon modeling design tools such as patch modeling, image planes, planar projections, and curve projections. This course will also cover in-depth NURBS modeling of 3D characters and conversion from NURBS to polygonals. These skills are requisite skills of the successful design and implementation of 3D game design and computer simulation projects. Most of these techniques were employed in the Sony Pictures animated short film "The ChubbChubbs". Prerequisite: Maya Foundations (CMT-121).

CMT-125

3 Credits

Cascading Style Sheets

This course will cover the incorporation of modern web design controls for the formatting, placement, dynamics, interactive functionality, and animation web page content with CSS. CSS is the primary technology in use today in the fast paced world of web design and is used to present web content in a standardized manner that far exceeds the capabilities of the HTML language. CSS is in use in almost every one of the millions of web pages published in today's world and is a multi-browser, multi-language coding technology. CSS is found at all levels of the web design process and lends itself to being incorporated as an in-line component, and embedded component, and a remote component on every HTML, JavaScript, XML, ASP.net, PHP, and Ruby page written. It is prevalent and used in IE Explorer, Firefox, Mozilla, Safari, Opera, and Netscape browsers. CSS can be used to create a myriad of functions from the simple coloring of text content to the dynamics of drop-down expandable menus to the inclusion of voice content. It is a technology that has rapidly replaced the traditional name-pair attribute coding scheme of the previous web design technology. Pre/Co-requisite HTML5 (CMT-111).

CMT-129

3 Credits

Photoshop for Gaming

This course will cover Adobe Photoshop techniques as used in a 3D production pipeline. Students will learn the creative and technical processes of creating 2D concept art and illustrations for objects, environments, creatures and characters. Students will also learn how to create and use various texture maps such as color, bump, luminosity, secularity, and transparency. In combination, these maps will be used to create sophisticated materials (shaders) that can be applied to 3D models. Upon completion of the course, students will have a solid foundation and understanding of how Photoshop is used in 3D game and film production. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

CMT-217

3 Credits

3D Modeling & Sculpting

This course will teach the student the processes and techniques of modeling and sculpting 3D characters and objects using Autodesk Mudbox software. The student will be taught the skills required to create production-ready 3D digital artwork for the game, film, television, and design industries. The student will be taught how to paint directly onto high-resolution 3D models, paint multiple material channels, execute texture baking, create accurate normal, displacement, and ambient occlusion maps, render quality results directly in the viewport, and to employ seamless integration with other 3D software applications. Prerequisite: Maya Foundations (CMT-121).

CMT-223

3 Credits

Maya Character Animation

This course will present advanced concepts in the creation of 3D character animation from simple joint movement to complete synchronized character movement. This course will also cover blend shaping, skinning techniques, joint constraints and their effect on skinning. These skills are requisite skills for the successful design and implementation of 3D game design and computer simulation projects. Most of these techniques were employed in the Sony Pictures animated short film "The ChubbChubbs". Prerequisite: Maya Character Modeling (CMT-123).

CMT-225

3 Credits

jQuery

This course will provide the student a solid foundation in the use and application of the JavaScript layer known as jQuery. jQuery is an advanced form of JavaScript which provides real-time dynamic effects and multifunctional tasks on a client-side application. jQuery is often viewed in modern web design as a dynamic menu or a dynamic special effect such as a photographic slide show. jQuery is also used to traverse and manipulate the Document Object Model (DOM) and to create user interfaces for mobile devices. Prerequisite: JavaScript (CMT-113).

CMT-227

3 Credits

JavaScript Object Notation

JSON (JavaScript Object Notation) is a JavaScript subset text-based standard for exchanging and storing data records. JSON employs data records in a human-readable form across a single domain or across multiple domains. JSON offers a faster method of reading and processing data than XML and is the data format preferred for coding in the AJAX (CMT 5aa) coding language.

CMT-228

3 Credits

Web Design With Ajax

This course will provide the student the syntactical and logical requirements constructing pages using the Ajax programming language. The Ajax programming language is a language that will permit the student to create pages that deliver content in a more rapid and dynamic fashion by updating only those portions of the site that actually change. Prerequisite: JavaScript (CMT-113).

CMT-229

3 Credits

Creating 3-D Special Effects

This course will present advanced concepts in the creation and implementation of special effects, shadings, caustics, global illumination, mental ray rendering, and lighting, shadows, and cameras. These skills are requisite skills for the successful design and implementation of 3D game design and computer simulation projects. Most of these techniques were employed in the Sony Pictures animated short film "The ChubbChubbs". Prerequisite: Maya Foundations (CMT-121).

CMT-231

3 Credits

MEL Scripting in Maya

The course will cover the process of using Maya Embedded Language to manipulate and animate characters, objects, and object interactions into a complete animation scenario. MEL scripting incorporates traditional programming constructs such as loops, conditionals, functions, expressions, and nodes. In addition to traditional constructs this course will introduce specific animation and gaming constructs such as particle dynamics control, user input selection dialogs, solid body dynamics, and crowd systems. Prerequisite: Creating 2-D Special Effects (CMT-229).

CMT-232

3 Credits

Game Engines

This course will present the concepts and methods associated with utilizing Game Engines as the finished product tool for creating and delivering computer-based games and simulations. Game Engines bring together the ability to deliver real-time rendering with the added flexibility to control the game/simulation lighting ambience, terrains, physics, audio integration, programming, and real-time networking. Prerequisite: MEL Scripting in Maya (CMT-231) or Department Chair approval.

CMT-233

3 Credits

Game Programming

The course will cover the beginning phases of programming content and movement as a component of the entire game development and managed code process. The course will be taught using the C++ programming language and will be developed in the Microsoft Video Studio.Net Code development environment. The student will learn the fundamentals of C++ programming as they are applied to the creation and control of computer games. Prerequisite: MEL Scripting in Maya (CMT-231).

CMT-235

3 Credits

Node.js

Node.js is a technology that uses the JavaScript run-time V8 engine developed by Google. The V8 engine compiles and executes JavaScript at lightning speeds on both client and server side operations. Node.js will be used to facilitate reading/writing to network connections, reading/writing to the file system, and reading/writing to a database. All of these tasks can be found in web apps and employing Node.js allows them to execute very rapidly.

CMT-241

3 Credits

PHP/MySQL

PHP/MySQL is a web development programming language that is used to provide dynamic interaction between web content pages and databases. PHP technology permits web developers to retrieve and maintain real-time information for presentation across the web delivery medium. The objectives of this course are to teach the student the skills required to effectively construct real-time web sites for the purposes of e-commerce and real-time information delivery. The student will learn how to design and publish web pages that interact with push/pull actions that interact directly with on-line databases. Prerequisite: JavaScript (CMT-113).

CMT-249

3 Credits

3D Liquids Simulation

This course will instruct the student in the techniques and processes required to simulate computer generated liquids and liquid flows. The student will be taught the techniques used in the generation of large scale simulations such as floods, oceans, and breaking waves. The student

will also be taught the principles and processes for small scale liquid simulations such as water splashes, pouring liquids, animated contained liquids, and molten materials. Additionally the student will study and design realistic interactions, splashes, and redirections that occur between liquids and solid objects. Prerequisite: Creating 3-D Special Effects (CMT-229).

CMT-250 3 Credits
Mobile Web Applications

This course will provide the student with the foundations for creating Mobile Web apps that address the cross-platform design needs of multiple platform mobile devices. Mobile Web apps require a design that considers significant factors, such as size, lighting, device speed, and a touch screen interface for mobile devices. Prerequisite: jQuery (CMT-225).

CMT-299 3 Credits
Web Development Internship

This course provides students with hands-on experience in Web Development. The course is an internship approach to learning. It provides a solid foundation to understanding the types of jobs available to students with Web Development skills and what it is like to work in the Web Development field. Students will acquire a first-hand perspective of employer's expectations and levels of satisfaction. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them in the pursuit of a web development career. Prerequisite: Creating 3-D Special Effects (CMT-229)

Communication

COM-101 3 Credits
Film As Art

This course provides an introduction to the appreciation of film as an art form. It covers film techniques, terminology, and criticism, using film from the silent era to the present. Students are exposed to film beyond the American canon, including African American, Asian, Latinx and international works. This course satisfies the College's General Education Requirement for Creative Work. Pre/co-requisite: College Writing I (ENG-111).

COM-102 3 Credits
American Cinema

This course brings Hollywood film making into clear focus as an art form, as an economic force, and as a system of representation and communication. The course probes the deeper meaning of American movies through encounters with the works of famous directors such as John Ford, Howard Hawks, and Martin Scorsese. This course meets General Education Requirement "Creative Work". Pre/corequisite: College Writing I (ENG-111).

COM-110 3 Credits
Introduction to Communication

This course inspires students to study communication as a means to transform their lives and the world. Communication becomes a tool for cultural and professional competence, and human rights activism. Students examine how human beings have communicated with one another throughout history, and how gender, immigration, media and culture influence communication. With love, justice and empathy, students engage in storytelling and collaborate on a human rights project in the community. Students also explore ways to participate in the creative industry and other fields of communication. This course fulfills the Learning Community requirement.

COM-171 3 Credits
Public Speaking and Professional Communication

This course helps students to speak and write in an effective, ethical and professional manner. Students develop their abilities to deliver an effective speech, present for the camera, draft a resume, create and organize professional presentations, and adapt to different speaking contexts. This course draws from global classical rhetorics, using multiple world philosophies such as indigenous, western African, Hebrew, Nahua, and/or northern European. Students explore inclusive public speaking excellence and engage workplace ethics, human rights, disability and neurodiversity from a critical studies perspective.

COM-210 3 Credits
Interpersonal Communication

This course focuses on communication in everyday interactions. Students develop verbal and nonverbal communication skills in various interpersonal and intercultural contexts. This course addresses the sense of self and how the self is influenced by others and one's own communication. It reviews basic aspects of message production and interpretation. Throughout the course, students will be encouraged to analyze their own communication behaviors and improve upon their own communication skills. Students explore their everyday interactions with issues of ethics and human rights. Students have dialogue that engages their identities, including dis/ability, race, political affiliation, religion, sexual orientation, and gender. Students have the opportunity to apply interpersonal communication skills to their career interests in the field of communication. Prerequisite COM-110.

COM-241 3 Credits
Introduction to Today's Journalism

This course combines reading and engaging Journalism with practice writing news stories. It provides students with a foundation in the art of journalism with an emphasis on critical reading and writing. Students engage local, national, and global news. Topics covered include proofreading and drafting, audience trends, misinformation, data journalism, representation and human rights. Students collaborate and use social media platforms to tell the stories they witness in their daily lives and in their communities. Prerequisite: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

COM-242 3 Credits
Multimedia Journalism

This is a journalism course where students focus on producing media for the school newspaper, including text, videos, photography, podcasts and social media posts. This is an emerging media course designed for students to get acquainted with doing the projects freelance and staffers regularly publish. Using legacy media and new media, students investigate news, plan out stories, and conduct interviews. Students consider fair representation, human rights and multiple points of view. Students develop portfolios of their work. Prerequisite: Introduction to Today's Journalism (COM-241).

COM-250 3 Credits
Analyzing Media

This course gives students the opportunity to analyze mass media products, including digital and print media, podcasts, radio, television, visual art and music. Students deconstruct and evaluate media to develop an intellectual comprehension of communication and how

various mass media are produced, and how they connect to society and culture. The course engages the process of mass communication and media literacy, including its history and evolution. Through discussions and projects, students engage with multiple views, experiences, and beliefs. Students explore ethical and human rights issues in order to become critical consumers and producers of media and art in our multicultural world. This course uses communication theory and media products for analysis. Prerequisite: ENG-095 and RDG-095 or ELL-103, or placement into ENG-111.

COM-254 3 Credits
Digital Media & Performance

This course uses digital media as a tool to create cutting-edge media and live performance for storytelling and creative expression. Students are exposed to performance studies from a communication perspective and use the theory to construct digital and transformative stories. Students engage performance text and media from diverse content producers. The use of media as a performance device is utilized to develop character, expose memory, reveal interior dialogue, illustrate subtext, and construct story. Students interested in video, image, spoken word, social media, writing, and music will find opportunities to integrate these multiple media to create performances of their own content. This course culminates in a performance project. Prerequisite: VMA-262 or VMA-263.

COM-299 3 Credits
Internship

This course enhances the academic experience for students. Field placement is in the creative industry, including local media organizations or on campus. The course allows students enrolled in Communication to apply what they have learned to the workplace environment. All internships take place at pre-approved sites. Site experience requires 120-150 hours, as well as a personal project related to the internship. Prerequisites: COM-171.

Criminal Justice

CRJ-101 3 Credits
Introduction to Criminal Justice

This course is an introduction to the purpose and functions of the criminal justice system. This course will provide students with the history and role of the American Criminal Justice System, and a description of the police, courts, and corrections at the local, state, and federal levels. The course will emphasize the current growing problems of the criminal justice system, ethical issues and professionalism, as well as the future trends of the system. Introduction to criminal justice is of practical concern to professional personnel involved in the system, and also to anyone who wants to understand better the aim of criminal law and how the criminal justice system operates. The course fulfills the Learning Community Seminar requirement for students in AS Criminal Justice. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CRJ-102 3 Credits
Juvenile Justice

This course examines youthful offenders, the civil and criminal procedures used in juvenile court, and the history of the development of the juvenile courts and juvenile justice. The course presents an overview of the institutional response to the problems of juvenile delinquency, along with status offenders, gender specific offenders,

special needs offenders and a focus on dependent/neglected and abused children. It emphasizes the police, court, correctional, and child protective agencies that process young offenders. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses. Course name was changed from Delinquency, Adjudication & Correction to Juvenile Justice.

CRJ-103 3 Credits
Criminal Law

This course examines the nature, purpose and development of criminal law from common law to contemporary statutory law. The course will emphasize the principles of criminal liability and elements of crime. Legal analysis, knowledge of concepts and the ability to identify them in complex fact patterns, and the application of legal principles to fact situations in a logical way will be introduced. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CRJ-106 3 Credits
Principles of Security Management

This survey course covers the organization and administration of security and loss prevention programs in industry, business, and government. The course emphasizes the protection of assets, personnel and facilities, and the concept of risk management. It focuses on physical security methods, the development and implementation of security policies and procedures, and the use of security officers. Prerequisites: Writing Skills II (ENG095), Academic Reading III (ESL098) or Reading Skills II (RDG095), or placement.

CRJ-107 3 Credits
Introduction to Corrections

This course provides a historical and philosophical survey of the correctional system. It provides an understanding of corrections as an essential component in the criminal justice system, focusing on punishment, sentencing, probation, community corrections, jails and detention facilities, institutional corrections, inmates, parole, and reentry. The course also gives students an orientation to current correctional concepts and various correctional institutions. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CRJ-117 3 Credits
Street Law: an Overview of the American Legal System

This course examines the origins of the American Legal System through an analysis of its function, sources and its varied aspects. This course introduces students to fundamental criminal law and constitutional law principles, and provides a platform for guided discussions of important public policy issues concerning, crime, discrimination, healthcare, and immigration. The course uses the latest instructional technology including e-portfolios, case studies, simulated legal exercises, small group exercises and analytical thought problems to develop higher-level thinking skills that prepare students for other course work in criminal justice, law, sociology, history, and government.

CRJ-201 3 Credits
Management in Criminal Justice

This course presents the principles of administration and management of criminal justice agencies. It examines organizational structure, responsibilities,

and the interrelationships of administrative, line, and staff services in police, security, court, and correctional facilities. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) and Criminal Investigation (CRJ-208) or instructor approval.

CRJ-202 3 Credits
Evidence and Court Procedures

This course examines the structure, organization, and procedures of the American Criminal Court system. The course focuses on case analysis to understand the aspect of criminal prosecution and the role of the key actors in the court. The course addresses concepts of legal analysis and the prospects of reform of the Criminal Court system. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) and Criminal Investigation (CRJ-208) or chair approval.

CRJ-203 3 Credits
Rehabilitation of the Offender

This course provides an examination of community rehabilitation, current programs and services available in the corrections component of the criminal justice system. It emphasizes contemporary practices in corrections such as the community-based work-release programs, furloughs, halfway houses, and individual treatment services. Alternatives to incarceration are also examined. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-208 3 Credits
Criminal Investigation

This course identifies the fundamentals of criminal investigation within the criminal justice system. The duties and responsibilities of the investigator, both in the field and in the courtroom, are emphasized. The course explores the fundamental components of interviewing and interrogation. Issues concerning rules and chain of custody of evidence will be explored. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-209 3 Credits
Crime Victims

This course examines theories explaining victimization, the measurement and scope of victimization, fear of crime, the experience of victimization, and victims' interaction with the criminal justice and other systems that have direct contact with victims. It pays particular attention to special victim groups and assesses current victim initiatives such as restitution, mediation, and victim rights legislation. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-210 3 Credits
Ethics and Diversity

This course examines the impact of the policies, procedures, and interpretation of data concerning the American criminal justice system across ethnic, racial, sexual, and cultural lines. It examines cross-cultural interaction within the system and the history and institutional attitudes concerning multicultural issues. This course also gives students an overview of the ethical dilemmas facing criminal justice professionals as they interact with a diverse population. Prerequisites: a grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-211 3 Credits
Criminal Procedure

This course examines the workings of those Amendments to the United States Constitution relate to the field of Criminal Justice and that protect the rights of the people. Students will learn about habeas corpus, search and seizure practices pursuant to the Fourth Amendment; self-incrimination under the Fifth Amendment; right to counsel under the Sixth Amendment; and how the rights protected by these amendments were incorporated by the Fourteenth Amendment and made applicable to both state and federal law enforcement. Prerequisites: a grade of C or higher in College Writing I (ENG111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-212 3 Credits
Community Corrections

This survey course covers the history, development, trends, and role of the community-based correction program in the American criminal justice system. The course includes therapeutic, support, and supervision programs for offenders. It examines pretrial release, detention, and community services, as well as innovative programs. Students must make site visits. Prerequisites: Grade of C or better in College Writing I (ENG111) and Introduction to Criminal Justice (CRJ101) and Criminal Law (CRJ103) or instructor approval.

CRJ-214 3 Credits
Negotiation, Mediation, and Conflict Resolution

This course will focus on understanding the skills needed to negotiate, mediate, and resolve conflict in the criminal justice system. These techniques will be learned theoretically from case studies, and practiced so that students can improve these skills to be able to negotiate, mediate, and communicate better to resolve disputes. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-216 3 Credits
Street Drugs and Pharmaceuticals

This survey course covers the manner in which the criminal justice system deals with drug use and abuse in our society. Topics include the psychosocial aspects of drugs, the pharmacology of drugs, street names, cost, and current rehabilitation practices. The course analyzes prevention programs in light of what works and what doesn't as well as the cost of drugs to society. Prerequisites: Introduction to Criminal Justice (CRJ101) and Criminal Law (CRJ103) or instructor approval.

CRJ-218 3 Credits
Information & Electronic Security

This course introduces crimes involving the use of computers, the federal and state laws addressing them, and the preventive and investigative methods used to secure computers and defend and prosecute offenders. Part of information security is the electronics and technology needed to provide protection. Topics include budgeting, vendor selection, and security systems (biometrics, access control, closed circuit television, etc.) to meet organizational needs. Prerequisites: Introduction to Criminal Justice (CRJ101) and Criminal Law (CRJ103) or instructor approval.

CRJ-219 3 Credits
Terrorism & Homeland Security

This course will provide a theoretical and empirical understanding and explanation of terrorism as well as the motivation behind terrorist initiatives. A primary emphasis of the

course is on identifying these common features both within and across terrorist organizations to better understand their motives, their objectives, and the methods used to achieve their objectives. It will identify and examine police and governmental responses to reduce or control the incidence of terrorism. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-225 Policing 3 Credits

This course examines and introduces students to the criminal justice system with special emphasis on the roles and responsibilities of police officers. The function of police in contemporary society will be explored. Discussion centers on the problems arising between citizens and police from the enforcement and non-enforcement of laws, from social changes to police accountability and problem-solving policing strategies. Prerequisites: Grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor permission.

CRJ-228 Criminal Investigation II 3 Credits

This course examines the types of analyses conducted on crime scene evidence, their value, and limitations. It covers the evidentiary value of the following types of evidence: glass, soil, hairs and fibers, firearms, tool marks, and questioned documents. This course also covers forensic concepts, methods of collecting samples, and the value of blood distribution patterns, bloodstains and other bodily fluids. Prerequisites: Introduction to Criminal Justice (CRJ101) and Criminal Law (CRJ103) or instructor approval.

CRJ-230 American Drug Law 3 Credits

This course explores the problems with drugs, illicit and lawful, and the ways the laws in the United States relate to drugs, their users and distributors. Students learn the manner in which federal and state laws differ in terms of punishment. The course analyzes the dichotomy in the federal treatment of crack cocaine as opposed to powder cocaine and the attendant affect this policy has on communities of color. The course also examines the minimum, mandatory drug sentencing laws and their impact on the criminal justice system. Students also learn about the major worldwide drug smuggling routes through the Balkans, South East Asia, and South and Central America, and the way United States interdiction policies affect this smuggling. Prerequisites: Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor approval.

CRJ-232 Civil Rights & Civil Liberties 3 Credits

This course explores the concepts of individual rights and liberties in America and the ways they are balanced against the rights and interests of the sovereign. It scrutinizes First Amendment issues of freedom of speech and religion. The course analyzes the Fourteenth Amendment and its impact on states' rights as they affect individuals, as well as the ever-changing concept of civil rights and liberties as they conflict with "homeland security" and the "war against terrorism". Prerequisites: Introduction to Criminal Justice (CRJ101) and Criminal Law (CRJ103) or instructor approval.

CRJ-245 Cyber Crime: Justice in the Virtual World 3 Credits

This course introduces the student to the issues, trends and problems associated with crimes facilitated by information and communications

technology and how these crimes challenge traditional investigative methods. Topics include the history of computer crime, hacking and unauthorized access, embezzlement, the collection and preservation of digital evidence, legal issues in cyberspace, and an overview of cyberterrorism and the threat to critical infrastructure. Cybercriminal behavior will be analyzed, as well as issues related to hate crimes and their impact on society. Prerequisites: a grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-275 Criminal Justice Capstone 3 Credits

This course provides students with the opportunity to critically examine what they have learned about the criminal justice system while exploring possible educational/career opportunities. The course will examine current events and current criminal justice trends to help students better understand the issues facing the police, courts, and correctional systems. This course will also help students build professional skills such as report and resume writing, and learn more about opportunities such as employment in the field, college transfer, and graduate or law school. Prerequisites: Students enrolling in the capstone course must have completed the core requirements of the CJ degree. Introduction to Criminal Justice (CRJ-101) and Criminal Lab (CRJ-103) and Introduction to Corrections (CRJ-107) and Criminal Procedure (CRJ-211) and Policing (CRJ-225) and Criminology (SOC-207).

CRJ-299 Criminal Justice Internship 3 Credits

Students work 150 hours in a criminal justice facility, probation department, juvenile detention center, or house of corrections, as assigned by the contract advisor. Students work in a hands-on learning experience under an assigned criminal justice professional, participate actively in the preparation of pre-sentence reports, and conduct intake and post-conviction interviews. Students learn how to perform record checks and prepare probation recommendations, etc. Students work on inmate classification, work release programs, and in educational settings. Students may assist counselors and other staff, depending upon the type of facility to which the student is assigned. Through active participation in online functions of the criminal justice agency, students gain knowledge and understanding. The contract advisor and the assigned criminal justice official evaluate students' work. Students meet bi-weekly with their advisors to prepare papers and work on related projects. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisites: A cumulative grade point average of at least 3.0 in the program and a grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Lab (CRJ-103) and Introduction to Corrections (CRJ-107) and Criminal Procedure (CRJ-211) and Policing (CRJ-225) and Criminology SOC-207) and Department Chair approval.

Computer Science

CSC-120 Intro to Computer Science & Object Oriented Programming 4 Credits

This is a first course in Object Oriented Programming (OOP) theory, logic and design. Taught in the College's hands-on computer classrooms, this course emphasizes the program design and development process including concepts of variables, flow control, objects, classes, methods, text/stream I/O, arrays, and

vectors, and polymorphism. Students will use an Object Oriented Programming language as they design code, debug and implement several programs covering the topics presented. Programs will be created to run both using the IDE and from the command line. This course fulfills the Learning Community Seminar requirement for students in AA Computer Science, AS Computer Science, AS Computer Engineering areas of study. Other departments may allow this course to be used as a LC seminar for their students. Students in majors other than the ones listed above should obtain their advisor's or the leading faculty member's approval before registering in the course. Prerequisites: Intermediate Algebra (MAT-099) and Writing Skills II (ENG-095) and Reading Skills II (RDG-095); or Integrated ELL Level 3 (ELL-103) or placement. For more information please email CS@bhcc.edu

CSC-125 Python Programming 3 Credits

This is an introductory course designed for any student interested in learning computer programming concepts and hands on computational thinking, all in the context of the Python programming language. No prior experience in programming is necessary. Students will use their own problem solving abilities to implement programs in Python. This course will show the student how to create basic programming structures including decisions and loops. Further, students will explore unique Python data structures such as tuples and dictionaries. Students will also learn to perform basic debugging techniques. At the end of this course, the student will have learned enough concepts in computer science and programming to be able to write Python programs to solve problems on their own. This course will prepare the student to move on to the Advanced Python Programming course. Pre-requisite: Applications and Concepts (CIT-110) or IT Problem Solving (CIT-113) or Intro to Computer Science and Object Oriented Programming (CSC-120) or Maya Foundations (CMT-121) or permission of the Department Chair. All prerequisites must be completed with a C or better. For more information please email CS@bhcc.edu

CSC-129 Mobile App Development 3 Credits

This course introduces application development for mobile devices such as Android, Apple, Windows, and web. Students will program simple apps on multiple devices, using standard development environments commonly used professionally, using a series of skill-based lessons. Prerequisites: Writing Skills I (ENG090) and Reading Skills I (RDG090) or Academic Writing III (ESL-099) and Academic Reading III (ESL-098); or Integrated ELL Level I (ELL-101) or placement.

CSC-131 Introduction to Creating Mobile Apps 3 Credits

This course is designed for individuals with no experience with programming languages or previous experience creating mobile applications. The course uses a graphical-user interface blocks editor for students to build their own Android based mobile apps. The course offers reading about the editor and basic programming concepts, tutorial walk through assignments within the editor, and assessments which require students to build unique apps based on the tutorials so that they can demonstrate their understanding and knowledge of what they have learned. Specific programming concepts covered include design logic, programming conditions, variables, procedures, branching and looping. Specific app functionality covered includes sprite animation, multiple screens, and integration with

device sensors, texting, databases, video, and other web APIs. Prerequisites: Writing Skills I (ENG-090) and Reading Skills I (RDG-090) or Academic Writing III (ESL-099) and Academic Reading III (ESL-098); or Integrated ELL Level 1 (ELL-101) or placement.

CSC-135 **Design for Mobile Devices** 3 Credits

This course introduces the central components of user interface design for mobile devices (phones, tablets, and other). Students will learn how to prototype user interface designs using a series of scaffolded, skill based lessons culminating in a mobile application interface design for an application. Prerequisites: Writing Skills I (ENG-090) and Reading Skills I (RDG-090) or Academic Writing III (ESL-099) and Academic Reading III (ESL-098) or Integrated ELL Level 1 (ELL-101) or placement.

CSC-225 **Advanced Python Programming** 3 Credits

This is an advanced course designed for any student interested in learning advanced computer programming concepts in the context of the Python programming language. In this course students will explore classes, object oriented programming, plotting, sampling and statistical thinking, using randomness to solve non-random problems, statistical thinking, graphs, and dynamic programming. Students will complete hands-on individual projects, individual assessments, group projects, and exams to assess student success at achieving the course outcomes. Prerequisite: A grade of C or higher in Python Programming (CSC-125) or equivalent experience with chair approval. For additional information and/or a course syllabus contact CS@bhcc.edu

CSC-229 **Programming With Android I** 3 Credits

This course introduces the central components of Android programming. Students will learn how to program in Java using the Android Development Tools using a series of scaffolded, skill based lessons culminating in a mobile application which can be exported and placed on a device. Prerequisites: Information Technology Problem Solving (CIT-113) or Intro to Computer Science and Object Oriented Programming (CSC-120) or Mobile App Development (CSC-129) or Chair approval.

CSC-236 **SQL Programming** 3 Credits

This course introduces students to the fundamentals and functions of Structured Query Language (SQL), including relational database, table creation, updating, and manipulation concepts. Using a live database, students learn SQL basics and then move on to the more sophisticated and challenging aspects of SQL. Students get in-depth knowledge of the language through extensive use of Internet based, industry standard SQL programming and certification testing engines. Upon completion of this course, students have the skills and competencies required to program in SQL and the background necessary to continue to intermediate and advanced courses in database procedural programming and database administration. Prerequisite: Computer Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science and Object Oriented Programming (CSC-120) or Cascading Style Sheets (CMT-125) or permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu

CSC-237 **C++ Programming** 4 Credits

In this course, students who already have been exposed to programming and Object Oriented thinking, develop the ability to correctly analyze a variety of problems and generate appropriate algorithmic solutions using the C++ Programming Language. The course emphasizes the principles of top-down structured design and Object Oriented thinking. Topics include but are not limited to branching and looping mechanisms; arrays, functions and function overloading, arguments by reference and by value as well as optional arguments; recursion; pointers, creating libraries and namespaces, structures and classes, constructors and other methods, overloading operators; file I/O; inheritance and polymorphism. Strong analytical skills are recommended for students enrolling in this course. Prerequisite: A grade of C or higher in Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and College Algebra-STEM (MAT-194) and Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience with permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu

CSC-238 **Programming for iOS I** 3 Credits

This course introduces the central components of iOS programming for mobile app development. Students will learn the basics of programming using vendor approved IDE and Tools in a series of scaffolded, skill based lessons culminating in a mobile application for iOS devices. This is first-level course that introduces programming concepts and structures unique to this product's language, but also addresses the iOS marketplace, what it takes to become an iOS developer, as well as the planning and budgeting required for sustained app development. Prerequisites: Python Programming (CSC-125) or Advanced Python Programming (CSC-225) or Programming With Android I (CSC-229) or SQL Programming (CSC-236) or C++ Programming (CSC-237) or JAVA Programming (CSC-239) or Database Programming (CSC-240) or Android Development for Java Programmers (CSC-243) or Advanced Java Programming (CSC-285) or Batch File Programming (CIT-271) or PLA or Chair approval.

CSC-239 **JAVA Programming** 4 Credits

In this course, students who already have been exposed to programming and Object Oriented thinking, develop the ability to correctly analyze a variety of problems and generate appropriate algorithmic solutions using the Java Programming Language. The course emphasizes the principles of top-down structured design and Object Oriented thinking. Topics include but are not limited to branching and looping mechanisms; arrays, functions and function overloading, arguments by reference and by value as well as optional arguments; recursion; creating packages, structures and classes, constructors and other methods, file I/O; inheritance and polymorphism. Strong analytical skills are recommended for students enrolling in this course, plus familiarity and experience working with the Internet and basic HTML tags. The course covers creating both Java Applications and Java Applets including event handling, animation, and audio. Prerequisite: A grade of C or higher in Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and College Algebra-STEM (MAT-194) and Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience with permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu

CSC-240 **Database Programming** 3 Credits

This is an intermediate course in procedural programming for database management systems. Topics in this course include: anonymous and named blocks, named procedures and functions, cursors, triggers, collections and the creation and manipulation of temporary tables. Students perform mid-to advanced level manipulation of databases required for logical processing and user interaction with relational databases. Prerequisite: SQL Programming (CSC-236) or permission of department chair. For additional information and/or a course syllabus contact CS@bhcc.edu.

CSC-242 **Data Structures** 3 Credits

This course prepares students to understand the fundamentals of data structures with an emphasis on software engineering. Topics include multidimensional arrays, records, dynamic memory allocation, stacks, queues, lists, trees, graphs, and others. Prerequisite: Java Programming (CSC-239) and Precalculus (MAT-197). For additional information and/or a course syllabus, contact CS@bhcc.edu.

CSC-243 **Android Development for Java Programmers** 3 Credits

This course is for students who are already experienced Java programmers. It discusses not only the intricacies of Android app development, but publishing in the Market place and monetizing the apps through fees, in-app advertising, or in-app billing of selling virtual goods. Topics include but are not limited to: mobile game design principles, tools and terminology, AndEngine framework, Java/Dalvik and Android SDK, rendering images, using sprite sheets, creating animations, sound, creating an effective game interface, resource files, working with maps, notifications, and building customer UI elements. APIs (Application Programming Interfaces) and SDK (Software Development Kits) for phones and tablets will be used. Prerequisites: Grade C or higher in Java Programming (CSC-239) and Precalculus (MAT-197). Pre/corequisite: Advanced Java Programming (CSC-285).

CSC-244 **Android Development With Kotlin** 3 Credits

This course is for students who are already experienced, programmers. Using the Kotlin programming language, students will create and implement Objects in a Mobile development environment. This course discusses the development of a full-stack application front-end to backend, from start to finish. Students will develop an application that may include a database back-end, using the principles of user interface, user experience, user authentication, and best practices of security issues related to mobile applications. This course further discusses the intricacies of Android app development and publishing in the marketplace, monetizing the app, and connecting the app to the latest platform service providers. Prerequisite: CSC-237 or CSC-239

CSC-284 **Advanced C++/OOP** 3 Credits

This course covers intermediate-level programming. Students learn advanced topics of C++, dynamic memory, allocation, pointers, etc., and OOP, function and operator overloading, class design and object abstraction, ADT design, templates, inheritance, and polymorphism. Students learn to analyze a variety of problems and generate appropriate object oriented solutions. The department recommends that students taking this course have no less than a

grade of B in the prerequisite course. Prerequisite: C++ Programming (CSC-237) and College Algebra for STEM (MAT-194) or permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu.

CSC-285 3 Credits Advanced Java Programming

This course thoroughly examines many of the sophisticated features of the Java programming language, including interfaces, advanced graphics, some data structures, file I/O techniques, multithreading, advanced JDBC Servlets, and Java Server Pages. Students demonstrate their mastery of the material through a series of graded projects and examinations that challenge at an extremely high level. The course not only instructs in the preparation of applications and applets that focus on business-related topics, but also teaches JAVA in an internet-based, integrative environment that utilizes cross-platform tools. Prerequisites: Java Programming (CSC-239) and Precalculus (MAT-197). For additional information and/or a course syllabus contact CS@bhcc.edu.

CSC-287 3 Credits Survey New Popular Oopl for Programmers

This course is for students who already have deep knowledge of an Object Oriented Language (Advanced java or Advance C++). This course will cover in depth three of the most commonly requested OOPL in the job market, C#, Visual Basic.NET and Python (languages covered may change depending on the current job market needs). The course will focus on the idiosyncrasies of the different new languages. Knowledge of programming structures and ability to implement lengthy and complex programming solutions, use of the debuggers and ease to adapt in deferent IDEs is assumed. Long capstone-like projects will be required for each language examined and students will be responsible to analyze and solve the problems by applying the good programming practices and styles already learned in prior semesters. Prerequisites: Grade of C or better in Advanced Java programming (CSC-285) or Advanced C++ (CSC-284), and Precalculus (MAT-197).

CSC-299 3 Credits Computer Science Internship

This course provides students with hands-on experience in Computer Science. The course is an internship approach to learning. It provides a solid foundation to understanding the types of jobs available to students with Computer Science skills and what it is like to work in the field. Students will acquire a first-hand perspective of employer's expectations and levels of satisfaction. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them in the pursuit of a career in a computer science field.

Computed Tomography

CTC-111 3 Credits Computed Tomography I

This interactive, web-based course presents principles and physics on conventional as well as spiral/helical CT. It begins with descriptions of the hardware configurations, and progresses to include the computer science of the system, including digital image processing, data acquisition, display, and reconstruction methods. Technical factors affecting image quality, artifact, recognition and reduction, and quality control will

be discussed. Multi-slice technology will have particular emphasis, and 3D applications, CT angiography, CT fluoroscopy and other advanced applications will be presented. Radiation safety, dosimetry and contrast agents will also be included in this course. Prerequisite: Acceptance into Computed Tomography Certificate Program.

CTC-211 3 Credits Computed Tomography II

This interactive, web-based course will present patient care in computed tomography, including administration of contrast agents. Imaging procedures of the head, neck, chest, abdomen, pelvis and musculoskeletal system will be discussed, as well as relevant pathology. Special procedures including but not limited to 3-D studies, biopsies, drainage and aspiration and PET/CT fusion will also be presented. Prerequisite: Computed Tomography I (CTC-111).

CTC-299 3 Credits Computed Tomography Clinical Internship

This 100-hour clinical introduction will enhance the academic experience for students by introducing them to the clinical practice of CT. Students are responsible for providing their own clinical site. Clinical sites must be pre-approved by program faculty. Students must comply with the clinical policies, as stated in the Student Manual before attending clinical. Criminal Offender Record Information (CORI) checks will be conducted on all students before placement and the outcome may impact the student's ability to participate in the internship experience. Health clearance is also required prior to participation. Prerequisite: Computed Tomography I (CTC-111).

Culinary Arts

CUL-101 3 Credits Culinary Arts Seminar: If You Can't Stand the Heat

This course introduces students to the challenges and responsibilities encountered by culinary arts students. It provides students with an in depth knowledge of the options available within the culinary arts industry. The course prepares students with skills necessary to prepare a resume, gain interview skills and become familiar with all of the resources that the college has to offer. Topics covered will include: preparing for a career in the food service field, resume preparation, career options and specific skills necessary to create a successful career, and discovering the best use of resources available to students at BHCC. For Culinary Arts students only.

CUL-108 4 Credits Basic Baking Skills

This course will teach the fundamentals of bakeshop production. It will introduce the students to a variety of baking techniques and skills. Emphasis will be placed on the different skills needed for immediate employment in the pastry field. Students will be introduced to the math skills necessary to understand the weights and measures, as well as to comprehend conversion skills. Students will become competent in the basics of yeast bread production, quick breads, and basic dessert production. Additional expenses may include supplies, equipment, and/or uniforms.

CUL-111 3 Credits Food Service Sanitation and Skills

Food Service Sanitation is an introduction to food production practices governed by changing federal and state regulations. Topics to be covered include prevention of food-borne illness

through proper handling of potentially hazardous foods, HACCP procedures, legal guidelines, kitchen safety, facility sanitation, and guidelines for safe food preparation, storing, and reheating. Students will also take the National Restaurant Association ServSafe examination.

CUL-113 3 Credits How Baking Works: the Science of Baking

This course explores the theory and science of baking. Students will learn how different ingredients affect a baked product. Students will explore the changes that take place during the baking process, using recipes and formulas as experiments, and will discuss these outcomes. This course is taught in the bakeshop. Additional expenses may include supplies, equipment, and/or uniforms.

CUL-115 4 Credits Introduction to Culinary Arts

This course introduces students to the theory behind cooking. The class covers the history of cuisine as well as the terminology, equipment use, cooking techniques, and ordering and receiving procedures. Course instruction emphasizes the techniques and skills needed to work in a commercial kitchen. The course introduces students to basic menu and food presentation. Students become proficient in the use of tools and equipment. Additional expenses may include supplies, equipment, and/or uniforms. Co-requisite: Principles of Baking (CUL-125). This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-116 4 Credits Basic Culinary Skills

This course will provide students with knowledge in the use of tools, equipment, and knives while learning basic skills and procedures related to the preparation of food and cooking procedures. Students will become familiar with spices, and ingredients and learn basic menu construction and presentation used in a professional food service facility. The course is designed to emphasize proper terminology, equipment use, cooking techniques, use of commercial equipment as well as professional tools. Students will learn correct knife skills and become proficient in their knife skills. Additional expenses may include supplies, equipment, and/or uniforms.

CUL-119 3 Credits Cake Decorating

This course takes the student through the basics of cake decorating. The students will refine their cake decorating skills. The course introduces the students to the techniques used to decorate tiered cakes, calligraphy, writing with chocolate and gels, as well as working with the different mediums used to decorate special occasion cakes. Students will learn the basic techniques used for royal icing, color flow and rolled fondant. Additional expenses may include supplies, equipment, and/or uniforms. This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-125 4 Credits Principles of Baking

This production lab course covers the fundamentals of baking. It introduces students to the methods and procedures for producing a variety of baked goods, including yeast products, quick-breads, general desserts, and pastry products. Students follow a standard recipe, do basic conversions, and apply the foundations of math as they pertain to the food service industry. The course places emphasis on their knowledge of weights and measures. The course focuses on the bakeshop and receiving areas of the kitchen.

Additional expenses may include supplies, equipment, and/or uniforms. Co-requisite: Introduction to Culinary Arts (CUL-115). This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-135 4 Credits
Cafe and Bistro Cuisine

This seven-week course introduces students to the procedures of the art of Garde Manger and cold food preparation. The course covers basic cooking methods and the chemistry of cooking. The course teaches students to become responsible for menu preparation and production of the daily meal in a cafe environment. The hands-on production lab teaches students to prepare various types of basic stocks, soups, sauces, salads, and sandwiches throughout the course. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Introduction to Culinary Arts (CUL-115) and Principles of Baking (CUL-125).

CUL-145 4 Credits
Advanced Desserts

This seven-week course takes students beyond the basic principles of baking. The students learn cake decorating and advanced pastry production techniques. The course introduces students to the proper application of mixes, laminated dough, fillings, and choux pastries. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Introduction to Culinary Arts (CUL-115) and Principles of Baking (CUL-125).

CUL-208 4 Credits
Advanced Baking Skills

This course will teach advanced pastry production techniques. Students will be instructed in the application of icings, fillings, laminated dough, and yeast products. Students will learn the various techniques used for artisan bread production, as well as laminated dough and their uses. Students will learn and practice basic cake decorating techniques. An introduction to some European pastries will be taught. An emphasis will be placed on timing and execution of the various pastry products, as required in a professional pastry shop. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Basic Baking Skills (CUL-108) and Basic Culinary Skills (CUL-116).

CUL-211 3 Credits
Menu Design and Purchasing

This course introduces students to various menu types and costing of menu items. Students also learn the skills necessary to purchase all food items, properly receive and store those items, conduct yield tests and become familiar with the 'NAMP' guide and can-cutting procedures. The course emphasizes the math skills used to calculate food and beverage cost percentages.

CUL-215 4 Credits
Essentials of Food Production

This course goes beyond the basics of food production. The course introduces students to production and service of menus involving all aspects of cooking techniques as well as skills needed to execute service properly. It introduces students to various cooking techniques in an actual restaurant setting with emphasis on the timing and skills necessary to perform these tasks. Faculty demonstrates food-garnishing techniques. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Cafe and Bistro Cuisine (CUL-135) and Advanced Desserts and Pastries (CUL-145). Co-requisite: Essentials of Dining Service (CUL-225). This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-216 4 Credits
Advanced Culinary Skills

This course will build upon skills taught in the Basic Culinary Skills course (CUL116). Students will be immersed in an actual restaurant simulation and will learn proper timing and execution of the meal. Various stations within the kitchen brigade will be taught and students will become proficient in these stations. Students will be introduced to the various types of professional cooking careers and opportunities. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Basic Culinary Skills (CUL-116) and Basic Baking Skills (CUL-108).

CUL-217 4 Credits
Classical and International Pastries

This course takes the student beyond the basic principles of baking. The students will continue to refine their cake decorating skills and learn European pastry production techniques. The course introduces the students to the techniques used to assemble tiered cakes, as well as the proper cutting and service of tiered cakes. The students will learn how to work with fondant, chocolate and pastillage. Students will learn the basic techniques used in candy making. Prerequisite: Advanced Desserts and Pastries (CUL-145).

CUL-225 4 Credits
Essentials of Dining Service

This course gives students a complete overview of the inner workings of the dining room. In this beginning phase of dining room service, using proper techniques, the course emphasizes the various types of service and the timing and execution of the meal. It introduces students to various service types, table settings, and food delivery systems. The course also covers all aspects of bar and beverage management, as well as preparation of guest checks, payroll, and tip credits. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Cafe and Bistro Cuisine (CUL-135) and Advanced Desserts and Pastries (CUL-145). Co-requisite: Essentials of Food Production (CUL-215). This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-235 4 Credits
Advanced and Ethnic Food Production

This course expands upon students' knowledge of the principles of cooking. The course teaches students to become responsible for preparation and production of a meal from a variety of ethnic cuisines that are integrated into a restaurant setting. Also, the course emphasizes the significance and influence of geography as a factor in the development of regional and international cuisine and culture. The course introduces students to advanced Garde Manger and Dessert techniques that fully complement the meal. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Essentials of Food Production (CUL-215) and Essentials of Dining Service (CUL-225).

CUL-241 4 Credits
Chocolate and Sugar Artistry

This course is designed to familiarize students with how to work with chocolate and sugar using various techniques. Students will practice these techniques in the production of chocolate confections, such as truffles and molded chocolates. Sugar artistry, such as poured, pulled and blown sugar will be demonstrated and applied. Students will also work with pastillage, marzipan, and gum paste. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Advanced Desserts (CUL-145).

CUL-243 4 Credits
Hot and Cold Desserts

This course is designed to introduce students to the production of chilled and frozen desserts. Students will also be introduced to the production of hot desserts, as well as to the production of desserts using both hot and cold components. Students will design menus for a bakeshop or pastry operation and develop an understanding of the various management tools required for the operation. Students will learn to analyze and forecast sales. An emphasis is placed on plating and garnishing techniques of dessert production. Students will also be introduced to molecular cooking techniques. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Advanced Desserts (CUL-145).

CUL-245 4 Credits
Food and Beverage Operations

This course acquaints students with current industry technology and sales techniques. It discusses nutrition and food allergy concerns. The course exposes students to all managerial procedures required in the food service industry. Students learn how to interpret a basic financial statement and use current technology as is required in the restaurant industry. The course introduces students to the wines and spirits that might be paired with the various ethnic cuisines. In this course, students provide service for the Advanced and Ethnic Food Production course. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Essentials of Food Production (CUL-215) and Essentials of Dining Service (CUL-225).

CUL-247 3 Credits
Advanced Classical Desserts and Showpiece Cakes

This course takes the students to an advanced level of pastry expertise. The students will continue to refine their cake decorating skills and learn advanced pastry production. The course introduces the students to the techniques used to assemble tiered cakes, as well as the proper cutting and service of tiered cakes. Students will learn costing techniques and conversion formulas. Students will analyze costing formulas and pricing criteria for wedding and special occasion cakes. Emphasis is placed on design, construction and preparation of showpieces using sweet and savory ingredients. Prerequisite: Advanced Desserts and Pastries (CUL-145) and Introduction to Cake Decorating (CUL-119).

CUL-249 3 Credits
Baking for Health

This course will explore the options available for meeting the needs of the customer with dietary restrictions. The student will be introduced to lactose-free, gluten-free, and dairy-free, sugar-free baking. Students will also work with vegan recipes, as well as honey-free and egg-free recipes. Students will also be introduced to the production of pastries using substitute ingredients for health purposes. Healthy and low fat dessert alternative will be introduced. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Advanced Desserts (CUL-145).

CUL-299 3 Credits
Culinary Arts Internship

The internship allows students the opportunity to gain practical experience in the field of culinary arts. The internship begins after completion of the first academic year and consists of 150 hours of work experience in an approved foodservice facility.

CUL-299P 3 Credits
Pastry Arts Internship

The internship allows students the opportunity to gain practical experience in the field of baking and pastry arts. The internship begins after completion of the first academic year and consists of 150 hours of work experience in a bakery or pastry shop approved by your instructor. Prerequisite: Chair Approval.

Early Childhood Education**ECE-101** 3 Credits
Guidance and Discipline

This course covers the study of effective communication in guiding behavior. The course emphasizes techniques that help children build positive self-concepts and individual strengths within the context of appropriate limits and discipline. Prerequisite: Child Growth/Development (ECE-103).

ECE-103 3 Credits
Child Growth and Development

This course covers the normal development of children through the age of twelve with emphasis on the physical, cognitive, social, and emotional components of development of the infant, toddler, preschool and school age child. The course meets Department of Early Education and Care guidelines for child growth and development. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-104 3 Credits
Curriculum in Early Childhood Education

This course is the study of early childhood education programs with emphasis on curriculum development in areas such as art, music, science, literature, math, language arts, and dramatic play. Prerequisite: Child Growth/Development (ECE103).

ECE-106 3 Credits
Program Environments

This course covers the study of setting up and maintaining a program environment with emphasis on health and safety concerns, nutritional considerations, space utilization, equipment needs and material usage. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-108 3 Credits
Infant/Toddler Curriculum Development

This course is the study of the aspects of planning and implementing group care for infants and toddlers, including developmental issues, routines and transitions in care-giving, curriculum activities, environmental designs, equipment and materials, guiding behavior including limit setting and developing security through behavioral management, and working with parents. The course meets Department of Early Education and Care requirements for Infant/Toddler Lead Teacher certification. Prerequisites: Child Growth/Development (ECE-103) and a grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-110 3 Credits
Science Concepts & Learning for Children

This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum

development in the area of science for young children. Prerequisites: Child Growth & Development (ECE103) and Curriculum in Early Childhood Education (ECE104) or Child Growth & Development (ECE103) and Introduction and Foundations of Education (EDU101).

ECE-151 1 Credit
Respecting the Infant-Toddler Child

This course will explore the importance of building positive relationships with infants and toddlers through responsive, respectful and reciprocal interactions that follow developmentally appropriate best practices and extend the infant and toddler's learning. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-152 1 Credit
Language and Infant-Toddler Why & How?

This course focuses on the development of language for infants and toddlers, how the brain growth plays an important role in language and how to help children move towards their potentials for optimal growth and development. Students will learn the reasons why this is so critical and how to engage children with language before they can even talk. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-153 1 Credit
Expanding the Infant/Toddler Connections

This course addresses the capacity for rapid learning by the infant-toddler child and explores how this growth is enhanced through daily experiences and supportive relationships. Students will learn ways to expand these connections and to nurture the infant-toddler through curriculum and supportive relationships. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-154 1 Credit
Supervision for Team Building

Early care and education teachers must work closely with each other to meet the demanding needs of young children. Learn ways to build teams from diverse groups of teachers and help them work smoothly together toward shared goals. It is recommended that students be Lead Teacher certified by Department of Early Education and Care before enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-155 1 Credit
Trouble in the House: Handling Conflict In Supervision

Early care and education teachers have to serve the needs of many: children, parents, other teachers and staff, and supervisors. Yet, these caring people are often uncomfortable with conflict and handle the demands of conflict resolution poorly, causing more problems than are solved. This module will provide real ways to tackle these problems and build stronger teams through positive conflict resolution. It is recommended that students be Lead Teacher certified by Department of Early Education and Care before enrolling in course. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-156 1 Credit
Helping Adult Learners Move Forward

The early care and education teacher is an adult learner with his/her own personal and professional goals. This module explores the ways for supervisors to help their teachers to

grow and develop to meet their goals while strengthening the program at the same time. It is recommended that students be Lead Teacher certified by Department of Early Education and Care before enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-157 1 Credit
What/How of Emergent Curriculum and the Project Approach of ECE

Emergent curriculum and the project approach go beyond the traditional way of planning program activities and curriculum for young children in the classroom. Using the newest understandings to incorporate children's interests into program curriculum, this module examines the what's and how's of emergent curriculum. Recommended: Curriculum in Early Childhood Education (ECE104) prior to enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-158 1 Credit
Project Planning Emergent

Figuring out children's interests requires observation and reflection. Teachers must be attentive to what is happening around children and what they are excited by, frightened of, and curious about. Where to begin the project approach is all about the skills of observing the children around the classroom. Recommended: Curriculum in Early Childhood Education (ECE 104) prior to enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE-103) or equivalent.

ECE-159 1 Credit
Project Planning-Pushing Beyond Beginnings

Considering how long a project should last is tricky. How to keep the children interested and how to end the project are also essential ingredients of a successful project. How does a classroom "document" the learning that children have obtained? Recommended: Curriculum in Early Childhood Education (ECE104) prior to enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-160 1 Credit
Language and Literacy: Why So Important

Language development is a critical skill needed by every young child. This module will look at the emergence of language skills, brain development and the need for stimulation from the people and environments interacting with the child. Ways to evaluate the needs of young children and counter challenges with strong literacy environments will be addressed. Grade of C or better in ECE 103 Child Growth & Development or equivalent. Recommended: ECE 104.

ECE-161 1 Credit
Reading, Writing, Listening, Speaking Pushing It Beyond the Basics

Language development begins with listening skills and moves through speaking, pre-reading and pre-writing skills. This module will consider these areas of need and ways to help children grow and develop in their skills in all areas. Prerequisites: Students must have a grade of C or better in ECE 103 Child Growth & Development or equivalent prior to enrolling in the courses in this series. It is recommended that students will have taken ECE 104 prior to taking these courses for a better understanding of the material.

ECE-162 ^{1 Credit}
Dual Language Learners The Challenges

Because language development is so critical to growth and development of the young child, those children who are dual language learners need particular attention to help them reach their potential for strong development in all areas. Ways to address these concerns in the classroom will be a focus. Prerequisites: Students must have a grade of C or better in ECE 103 Child Growth & Development or equivalent prior to enrolling in the courses in this series. It is recommended that students will have taken ECE 104 prior to taking these courses for a better understanding of the material.

ECE-163 ^{1 Credit}
Science and Nature With Young Children In Supervision

Children learn science concepts by playing the easiest place for that to occur is in the natural environment. Emphasis of this module will be on the ways children learn science and the match between young children's curiosity and science learning. Prerequisite: Grade of C or better in Child Growth and Development (ECE103). Recommended: ECE 104 prior to taking these courses for better understanding of material.

ECE-164 ^{1 Credit}
Using Nature and Science to Plan In Supervision

Science seems scary and foreign to many teachers and children. Figuring out what to do and how to understand ways to pique children's interests requires observation and reflection. Teachers must be attentive to what is happening around children and what they are excited by, frightened of, and curious about. Where to begin with nature study and science learning is all about the skills of observing the children around the classroom. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent. Recommended: Curriculum in ECE (ECE104) prior to taking these courses for better understanding of material.

ECE-165 ^{1 Credit}
Pushing the Plan Beyond the Simple In Supervision

Considering what projects to plan and how long a project should last is tricky. How to keep the children interested and how to develop the project are also essential ingredients of a successful project. How do we help children "document" their ideas and go beyond the simple plans to more complex thinking and activity? Prerequisite(s). Grade of C or better in Child Growth and Development (ECE103) or equivalent. Recommended: Curriculum in ECE (ECE104) prior to taking these courses for better understanding of material.

ECE-166 ^{1 Credit}
The Law, the Realities, Identification & Care

Children with special needs, diverse abilities and atypical behavior require additional consideration when including them into traditional and typical classrooms. The law is clearly stated as to what is required for children to be included as they move to public school. But, what is the responsibility of those in programs for younger children?. How does the teacher meet these requirements and help with identification and care of all children? Prerequisites: Students must have a grade of C or better in ECE 103 Child Growth & Development or equivalent prior to enrolling in the courses in this series. Prior to enrollment it is recommended that students will have taken ECE 111- Young Children with Special Needs or equivalent for a deeper understanding of the material of this course material.

ECE-167 ^{1 Credit}
Observation & Then Curriculum

Figuring out children's needs and the ways in which they learn requires observation and reflection. Teachers must be attentive to what is happening around children and what they are excited by, frightened of, and curious about. Parents and family members must be consulted to see how to best meet the needs of all children. Prerequisites: Students must have a grade of C or better in Child Growth & Development (ECE 103) or equivalent prior to enrolling in the courses in this series. Prior to enrollment it is recommended that students will have taken Young Children with Special Needs (ECE 111) or equivalent for a deeper understanding of the material of this course material.

ECE-168 ^{1 Credit}
Observations and Then Relational Connection

Children with special needs have social and emotional needs just like all other children. Their needs for relational skill development are sometimes quite challenging. How do we handle this in our classrooms? How to help other children to be accepting and helpful? Prerequisites: Students must have a grade of C or better in Child Growth & Development (ECE 103) or equivalent prior to enrolling in the courses in this series. Prior to enrollment it is recommended that students will have taken Young Children with Special Needs (ECE 111) or equivalent for a deeper understanding of the material of this course.

ECE-202 ^{3 Credits}
Issues in Early Childhood Education

This course is a study of early childhood education programs. The course includes the history of childcare, regulation, types of programs, and current trends and issues in early care and education. The needs of children and families and components of quality programs with emphasis on social, political, and economic influences on professional issues and career opportunities in the field are covered. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-207 ^{3 Credits}
Literacy Development and Learning for Children

This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of literacy development for young children. Prerequisites: Child Growth/Development (ECE-103) or its equivalent; and Curriculum in Early Childhood Education (ECE-104) or Child Growth/Development (ECE-103) and Introduction and Foundations of Education (EDU-201).

ECE-208 ^{3 Credits}
Exceptional Learners: Intro to Special Education

The course will be a study of children with physical, social, emotional, and/or intellectual differences, with emphasis on techniques for inclusion of children into early childhood programs and elementary school programs. This course offers an introduction to a broad range of developmental disabilities and related topics, including categories of cognitive, physical, emotional, and learning delays. The inclusion of children and adults into educational and community environments will be highlighted. Topics include the history of special education, the impact of the family, current and future

trends, early intervention, transition, and the laws which govern the integration of children and adults in society. Prerequisite: Child Growth and Development (ECE-103) with a grade of C or higher.

ECE-209 ^{3 Credits}
Math Concepts & Learning for Children

This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of math for young children. Prerequisite: Child Growth and Development (ECE-103) or its equivalent, and Curriculum in Early Childhood Education (ECE-104) or Child Growth & Development (ECE-103) and Introduction and Foundations of Education (EDU-201).

ECE-210 ^{3 Credits}
Science Concepts & Learning for Children

This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of science for young children. Prerequisites: Child Growth and Development (ECE-103); and Curriculum in Early Childhood Education (ECE-104) or Introduction and Foundations of Education (EDU-201).

ECE-211 ^{3 Credits}
Young Children With Special Needs

This course covers the study of children with physical, social, emotional and/or cognitive disabilities with emphasis on techniques for mainstreaming and inclusion of these children into existing early childhood programs. Prerequisites: Child Growth/Development (ECE103) plus three (3) ECE or EDU courses.

ECE-212 ^{3 Credits}
Families/Community in Early Childhood Education

This course is the study of the relationship of parents and communities to early childhood programs. The course emphasizes parental needs for early care and education, parenting skills and need for communication with parents, challenges of dealing with diverse populations and multiple family structures using an anti-bias approach which respects diversity and encourages collaborative efforts in caring for children. Prerequisites: Child Growth and Development (ECE-103) plus three (3) ECE or EDU courses.

ECE-213 ^{3 Credits}
Child Care Administration I

This course covers the study of program management in early childhood education, including planning, implementing, and evaluating programs. The course emphasizes financial, legal, personnel, and program aspects of program administration. It meets Department of Care and Education and Certification requirement. Prerequisite: Lead Teacher qualifications or permission of department chair prior to enrollment.

ECE-215 ^{3 Credits}
Supervisor in Early Childhood Education

This course covers the study of child-care management with an emphasis on staffing and personnel functions within an early care and education program. Areas of study include organizational development, staffing, personnel practices, leadership, and mentoring. The course meets Department of Early Education and Care Director II certification requirements. Prerequisite: Lead Teacher qualifications or Chair approval prior to enrollment.

ECE-217 3 Credits
Observation/ Recording Behavior

This course is the study of observing and recording behavior of children with emphasis on child study in all areas of development using a variety of observational tools and recording techniques with children from birth to age twelve. Prerequisite: Child Growth and Development (ECE-103).

ECE-220 3 Credits
Practicum in Early Childhood Education I

This practicum experience in an early childhood setting must be completed during the final two semesters of study. The department assigns and/or approves student placement settings. Students must participate in a weekly on-campus seminars as well engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher and a creation of portfolio. Acceptance into the Early Childhood Development program does not assure permission to enroll in the course or a placement assignment. For complete course requirements and application procedures, contact the department chair. Prerequisites: Permission of department chair. Students must receive a grade of C or higher in Child Growth and Development (ECE-103) and Guidance and Discipline (ECE-101) and Curriculum in Early Childhood Education (ECE-104) and Program Environments (ECE-106). Students must also clear a CORI report before enrolling in the practicum.

ECE-221 3 Credits
Practicum/Early Childhood Education II

This practicum experience in an early childhood setting must be completed during the final semesters of study. The department assigns and/or approves student placement settings. Students must participate in a weekly on-campus seminars as well engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher and the creation of a portfolio. Acceptance into the Early Childhood Development program does not assure permission to enroll in the course or a placement assignment. For complete course requirements and application procedures, contact the department chair. Students must also clear a CORI report before enrolling in the practicum course. The course is open only to students matriculated in the Associate in Science Degree: Early Childhood Concentration. Prerequisites: Permission of department chair. Students must receive a grade of C or higher in Early Childhood Practicum 1 (ECE-221).

ECE-223 3 Credits
CDA Professional Portfolio & Practicum

The CDA (The Child Development Associate National Credentialing Program) Professional Portfolio/Practicum Course will provide a practicum experience in an early childhood setting and assist each student in developing their reflective CDA Professional Portfolio as it relates to the 13 CDA Functional Areas specific to the program the student is working at (family child care, infant/toddler or preschool care). Students will participate in a weekly on-campus seminar as well as engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher. Students will complete 150 hours of a supervised practicum in a licensed early childhood center. This course will expand the scope and level of each student's work capability as they develop their CDA competency in 13 functional areas to prepare for earning their CDA credential. Prerequisites: A grade of a C or higher in Child Growth and Development (ECE-103) and Curriculum in Early Childhood Education (ECE-104) and Program Environments (ECE-106).

ECE-224 3 Credits
CDA Professional Portfolio & Practicum2

The CDA (The Child Development Associate National Credentialing Program) Professional Portfolio/Practicum Course will provide a practicum experience in an early childhood setting and assist each student in developing their reflective CDA Professional Portfolio as it relates to the 13 CDA Functional Areas specific to the program the student is working at (family child care, infant/toddler or preschool care). Students will participate in a weekly on-campus seminar as well engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher. Students will complete 150 hours of a supervised practicum in a licensed early childhood center. This course will expand the scope and level of each student's work capability as they develop their CDA competency in 13 functional areas to prepare for earning their CDA credential. ECE 224 is required for students who have less than 300 hours of documented time in an early childhood center to be eligible for their CDA credential. Prerequisites: A grade of a C or higher in CDA Professional Portfolio and Practicum (ECE-223).

Economics**ECO-201** 3 Credits
Macroeconomics

This course covers an introduction to the American economy. Topics include: scarcity, opportunity cost and the production possibility curve, unemployment, inflation, GDP and related aggregates, economic growth, classical Keynesian models of income and employment determination, government policies for full employment and price stability, and money and the banking system. This course satisfies the College's General Education requirement for Community and Cultural Contexts. Prerequisites: Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) and Reading Skills II (RDG-095) or Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) exemption by placing into higher level courses.

ECO-202 3 Credits
Microeconomics

This course covers an introduction to the market system. It covers basic demand and supply analysis, theory of consumer choice, demand and supply elasticity, long run and short run cost curves, and price and output determination under different market structures, such as perfect competition, monopoly and monopolistic competition. The course applies microeconomic principles for analyzing government regulations. The course satisfies the College's General Education for Community and Cultural Contexts. Prerequisites: Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) and Reading Skills II (RDG-095) or Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECO-220 3 Credits
Environmental Economics

This course introduces economic approaches to problem-solving in the context of contemporary environmental issues and policies. Students learn to apply economic models to analyze energy sustainability and environmental systems in local and global contexts. Topics covered will include: environmental externalities and market failure; economic assessment of environmental damages; economics of sustainable development; cost-benefit analysis; valuation of environmental resources. Students will apply theoretical frameworks in economics to analyze policies and

practices related to environmental issues including pollution control, natural resource use, and climate change. Prerequisites: Grade of C or better in one of the following: ENV-105 or ENV-110 or ENV-111 or ENV-113 or ENV-115 or ENV-120 or ECO-201 or ECO-202 or permission.

Education**EDU-102** 3 Credits
Becoming a Teacher: a Learning Community Seminar

This learning community seminar is designed for education majors who are interested in making a difference in today's public schools. The seminar will focus on the pressing issues in today's public schools: overcrowding, lack of funding, outdated curriculum, classroom chaos, and shortage of good teachers, and many others. The Learning Community Seminars enable first-year students to make successful transitions to college while developing their abilities to reflect and assess; discover their strengths; explore career interests; set goals and problem solve with critical thinking, information literacy and communication skills; and connect with peers, faculty and staff in a diverse learning environment. This seminar will focus on education as students grow in their understanding of themselves and the world of education. While recommended for Education majors, those in Early Childhood Development, and Human Services will find the material useful. Students from other majors are welcome to enroll if interested in pursuing teaching as a career in the future. Prerequisite: Student must be in first two semesters of study at BHCC with 16 college credits or less completed.

EDU-201 3 Credits
Introduction & Foundations of Education

This course is designed for students interested in entering the teaching profession with children K-12. Principles, history, philosophy, functions of the school, policies, and current trends are included. Field experiences in area schools are required. The course is best suited for AA Education majors, but others are welcome to enroll. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

EDU-220 3 Credits
Practicum in Instruction

This course exposes students to various techniques of learning through the experience of tutoring. Faculty develops supervised tutoring placements in specified subject areas. The placements may be in the classroom, computer lab, Tutoring and Academic Support Center, the Center for Self-Directed Learning, and/or other areas on campus. Students must participate in a weekly on-campus seminar, in addition to two hours of tutoring per credit, per week. The seminar relates the field experience to students' objectives through discussions of learning styles, modes of instruction, cross-cultural awareness, tutoring techniques, and study habits. Students gain experience in tutoring, the evaluation process, and management of instructional operations. Prerequisites: Introduction and Foundations of Education (EDU-201).

English Language Learning**ELL-101** 6 Credits
Integrated ELL Level 1

This course develops integrated critical reading, writing, listening and speaking skills in English through immersion in a selected theme,

challenging academic content, and campus-and/or community-based learning. Students participate in group work and connect the content to their own lives, using language in multiple ways. Students successfully completing Level 1 will produce, revise and edit written and oral assignments that demonstrate readiness for Level 2 as determined by departmental assessment processes. Students will demonstrate emerging skill with incorporating sources to develop ideas with purpose, focus, and clarity of language. Prerequisite: Placement. Depending on program of study, this course may meet General Education requirement for Creative Work or General Education Elective.

ELL-102 *6 Credits*
Integrated ELL Level 2

This course develops integrated critical reading, writing, listening and speaking skills in English through immersion in a selected theme, challenging academic content and campus-and/or community-based learning. Students participate in group work and connect the content to their own lives, using language in multiple ways. Students successfully completing Level 2 will produce, revise and edit written and oral assignments that demonstrate readiness for Level 3 (or approaching readiness for College English) as determined by departmental assessment processes. Students will demonstrate increasing skill with incorporating sources to develop ideas with purpose, focus and clarity of language. Prerequisite: ELL 101 or Placement. Depending on program of study, this course may meet General Education requirement for Creative Work or General Education Elective.

ELL-103 *6 Credits*
Integrated ELL Level 3

This course develops integrated critical reading, writing, listening and speaking skills in English through immersion in a selected theme, challenging academic content and campus and/or community-based learning. Students participate in group work and connect the content to their own lives, using language in multiple ways. Students successfully completing Level 3 will produce, revise and edit written and oral assignments that demonstrate readiness for College English as determined by departmental assessment processes. Students will demonstrate proficiency with incorporating sources to develop ideas with purpose, focus and clarity of language. Prerequisite: ELL 102 or Placement. Depending on program of study, this course may meet General Education requirement for Creative Work or General Education Elective.

ELL-110 *6 Credits*
Resilience

In this multilevel 6-credit course, we will explore true-life stories and nonfiction materials about how and why people persist through daily life and difficult circumstances. The materials for the class will consist of academic articles, short stories and videos for class discussions and writing short essays. Related topics will include cultural attitudes of resilience, brain and memory research, and persisting in language learning. Beyond improving reading, writing and oral communication skills, an important goal of this class is to develop a deeper understanding of how you can build resilience to accomplish your goals. This course satisfied the General Education Creative Work requirement. Prerequisites: placement into Academic ELL 101, 102, or 103

ELL-111 *6 Credits*
Stories and Sketches of Chinatown

What makes a community unique and dynamic? Is it people, architecture, atmosphere, or other factors? In this integrated skills course we will study the Chinatown community especially Asian

Americans and Chinese Immigrants and the places where they work and reside. Students will read, write, speak, and learn about symbols commonly found in the community. Students will research symbols and complete remote field study of community-based arts projects. This course satisfied the General Education Creative Work requirement. Prerequisites: placement into Academic ELL 101, 102, or 103

ELL-112 *6 Credits*
Voices of Chelsea

What makes the Chelsea community unique and dynamic? Students in this 6-credit multi-level ELL course will read and listen to significant voices from the Chelsea community, from history to newspaper headlines to stories inherited from one generation to another. Students will also voice their own stories in prose and poetry, with the opportunity to participate in poetry readings and storytelling sessions. As the course progresses, students will identify threads and themes for deeper inquiry and analysis through writing and discussion. This course satisfied the General Education Creative Work requirement. Prerequisite: Placement into Academic ELL 101, 102, or 103.

ELL-113 *6 Credits*
Stories of Chelsea

In this 6-credit, multi-level ELL course, students will prepare, produce, and communicate true oral and written stories about their lives and experiences in the Chelsea community. Students will build upon narratives read and analyzed in ELL-112 and explore thematic connections between their own stories and broader issues of education, migration, racial justice, community development, and/or public health through readings, discussions, essays, presentations, and reflections. This course satisfied the General Education Creative Work requirement. Prerequisite: Placement into Academic ELL 101, 102, or 103.

Emergency Medical Responder

EMR-101 *4 Credits*
Emergency Medical Responder

Through lectures, discussions, and hands-on practical experiences, this course is designed to provide the student with the knowledge and skills necessary to function as an Emergency Medical Responder in emergency situations. The course will prepare the student to serve as an essential link in the emergency medical services (EMS) system. The course content covers knowledge and psychomotor skills required to make appropriate decisions and provide immediate care in response to medical emergencies. The course includes Cardio Pulmonary Resuscitation (CPR) for the Professional Rescuer with Automated External Defibrillation (AED) and advanced first aid skills. Students that successfully complete practical and knowledge-based exams are eligible for the Emergency Medical Responder (First Responder) certification card which is valid for two years. This is a 40-week course, meeting for 56 minutes each Monday through Thursday. Additional practical skill sessions may be scheduled as needed.

Paramedics

EMS-205 *10 Credits*
Principles of Paramedicine I

This course is the first of nine courses designed for Emergency Medical Technicians, Basic or Advanced, with at least one year of experience desiring to obtain Paramedic Certification/Licensure. Areas of study will

include, Introduction to Advanced Pre-hospital Care, Well Being of the Paramedic, EMS Systems, Roles and Responsibilities, Illness and Injury Prevention, Stress Management, Anatomy & Physiology, Documentation, Communications, Therapeutic Communications, Medical/Legal Aspects and Ethical Considerations, Basic and Advanced Airway Management & Ventilation, Wave Form Capnography, Patient Assessment, Trauma & Medical Physical Exam Techniques, Obstetric & Gynecological Emergencies, Pathophysiology of Shock and Intravenous Access and Mathematics for Medications. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skilled preceptor. The student must demonstrate and maintain current licensure/certification as an Emergency Medical Technician (EMT). Adherence to the attendance policy and a minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Human Biology/Lab (BIO-108) or equivalent and College Writing I (ENG-111). Co-Requisite: Paramedic Clinical Rotation I (EMS-209).

EMS-206 *10 Credits*
Principles of Paramedicine II

This course builds upon the knowledge and skills learned in Principles of Paramedicine I. Topics: Pharmacology, Introduction to Cardiology, Rhythm Interpretation, Introduction to 12 Lead ECG, Advanced Cardiac Life Support (ACLS), Management of Cardiac Emergencies, Medical Emergencies, Pulmonology, Neurology, Stroke Management, Endocrinology, Metabolic Emergencies, Anaphylaxis, Gastrointestinal Emergencies, Urological and Renal Emergencies, Toxicology, Substance Abuse, Hematological Emergencies, Infectious Diseases, and Behavioral Emergencies. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skilled preceptor. Adherence to the attendance policy and minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Principles of Paramedicine I (EMS-205) and Paramedic Clinical Rotation I (EMS-214). Co-requisite: Paramedic Clinical Rotation II (EMS-215).

EMS-207 *4 Credits*
Principles of Paramedicine III

This course builds upon the knowledge and skills learned in Principles of Paramedicine I & II. Topics: Pediatrics, Assessment of the Pediatric Patient, Pediatric Advanced Life Support (PALS), Geriatrics, Traumatic Systems and Mechanisms of Injury, Hemorrhage and Shock, Head and Facial Trauma, Thoracic Trauma, Abdominal Trauma, and Musculoskeletal Trauma. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skilled preceptor. Adherence to the attendance policy and minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Principles of Paramedicine II (EMS-206) and Paramedic Clinical Rotation II (EMS-215). Co-requisite: Paramedic Clinical Rotation III (EMS-216).

EMS-208 *4 Credits*
Principles of Paramedicine IV

This course builds upon the knowledge and skills learned in Principles of Paramedicine I, II, & III. Topics: International Trauma Life Support (ITLS), Hazardous Materials, Responding to Terrorist Acts, Rescue Awareness, Medical Incident Command, Abuse & Assault, Crime Scene Response, EMS Stress Management, Ambulance Operations and Acute Interventions for Chronic

Care Patients. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skills preceptor. Adherence to the attendance policy and a minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Principles of Paramedicine III (EMS-207) and Paramedic Clinical Rotation III (EMS-216). Co-requisite: Paramedic Clinical Rotation IV (EMS-217).

EMS-214 Paramedic Clinical Rotation I 3 Credits

Work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and skills learned in Principles of Paramedicine I (EMS-201). Students will complete a minimum of 150 hours in this clinical practicum. Students will integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include, emergency divisions, respiratory therapy, anesthesia, surgical units, and labor and delivery. Students will be required to document all clinical time and complete program requirements for patient assessments, intubations, medication administrations, IV Bolus, infusions, live births, and cannulations. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the program and/or medical director at the conclusion of this course. Co-requisite: Principles of Paramedicine I (EMS-205).

EMS-215 Paramedic Clinical Rotation II 3 Credits

This course is a continuation of Paramedic Clinical Rotation I (EMS-214). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205) and Principles of Paramedicine II (EMS-206). Students will complete a minimum of 150 hours in this clinical practicum. Students will continue to integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students will be required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director at the conclusion of this course. Prerequisites: Principles of Paramedicine I (EMS-205) and Paramedic Clinical Rotation I (EMS-214). Co-requisite: Principles of Paramedicine II (EMS-206).

EMS-216 Paramedic Clinical Rotation III 1 Credit

This course is a continuation of Paramedic Clinical Rotation II (EMS-215). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205),

Principles of Paramedicine II (EMS-206), and Principles of Paramedicine III (EMS-207). Students will continue to integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students will be required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Prerequisites: Principles of Paramedicine II (EMS-206) and Paramedic Clinical Rotation II (EMS-215). Co-requisite: Principles of Paramedicine III (EMS-207).

EMS-217 Paramedic Clinical Rotation IV 1 Credit

This course is a continuation of Paramedic Clinical Rotation III (EMS-216). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205), Principles of Paramedicine II (EMS-206), Principles of Paramedicine III (EMS-207), and Principles of Paramedicine IV (EMS-208). Students will complete 50 hours in this clinical practicum. Students will be required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics and geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the Medical Director. Prerequisites: Paramedicine III (EMS-207) and Paramedic Clinical Rotation III (EMS-216). Co-requisite: Principles of Paramedicine IV (EMS-208).

EMS-218 Paramedic Field Internship 3 Credits

Students will apply theory and acquired clinical skills while performing pre-hospital treatment under the supervision of experienced, certified paramedics. Upon successful completion of the course, students will have a working knowledge of entry-level paramedic skills, hospital/clinical operations and requisite field experience. At the conclusion of the course, students will have a terminal competency assessment which will be conducted by the program coordinator and/or medical director. Students will complete a minimum of 100 hours during this internship. Students must meet the minimum patient contacts set forth by the Massachusetts Office of Emergency Medical Services and/or the Committee on Accreditation of Education Programs for the Emergency Medical Services Professions (CoAEMSP). Adherence to the program requirements, attendance policy, and receipt of satisfactory field internship evaluations, and a final overall course grade of B- must be achieved in order to be eligible to sit for the National Registry of Emergency Medical Technicians, Paramedic written and practical exam. Prerequisites: Principles of Paramedicine IV (EMS-208) and Paramedic Clinical Rotation IV (EMS-217) and permission of the Paramedic program director and/or medical director.

Emergency Medical Technician

EMT-103 Emergency Medical Technician 7 Credits

This course covers the rendering of emergency care to the sick and injured promptly and efficiently. It conforms to the EMT-B national standard curriculum, as adopted by the Commonwealth of Massachusetts, and is a prerequisite for taking the state EMT Exam. Students are responsible for taking the certification examination for EMT. Additional expenses may include supplies, equipment, and/or uniforms.

English

ENG-090 Writing Skills I 3 Credits

The first part of a two-semester basic writing sequence, this course develops writing skills needed to begin work in the College Writing program. The course places primary emphasis on the development of good sentence writing skills through frequent practice. Such practice may take the form of writing journals, paragraphs, and short essays. Faculty provide attention to difficulties with grammar, punctuation, and spelling primarily on an individual basis. The course does not satisfy any part of the College Writing requirement for graduation. Placement is determined by assessment testing or faculty referral. Upon completion of Writing Skills I (ENG090) with a grade of C or better, students enroll in Writing Skills II (ENG095).

ENG-095 Writing Skills II 3 Credits

This course develops language skills needed to communicate effectively in college study, in the professions, and in the business world. The course includes sentence formation, applied grammar, spelling, mechanics, and paragraph development. Note: Students must pass the Basic Writing Competency Exam in order to receive a passing grade for this course. The course does not satisfy the college writing requirement for graduation. Prerequisite: Grade of C or higher in Writing Skills I (ENG-090) or Academic Writing I (ESL-099) or Integrated ELL Level I (ELL-101) or exemption by placing into higher level course.

ENG-111 College Writing I 3 Credits

This course emphasizes writing as a process, from planning and drafting through revising and editing. Using personal experience, readings, and other sources, students write unified, coherent, well-developed essays and practice paraphrasing, summarizing, and using sources responsibly. To be eligible to take College Writing II (ENG112), students must earn a grade of C or better for this course. The course meets General Education requirement "Academic Discourse". Prerequisite: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ENG-112 College Writing II 3 Credits

This course focuses on the research paper, the longer essay, argumentation, critical writing, and reading. The course satisfies the College's General Education requirement for Research Writing. Prerequisite: Grade of C or higher in College Writing I (ENG-111).

ENG-115 3 Credits
Writing Tutor Seminar

The course prepares skilled writers to work as peer tutors in the college's Writing Place. It provides advanced instruction in writing theory, peer tutoring practice, grammar and composition, with special emphasis on the writing process. Along with class time, students will spend 3 hours tutoring in the Writing Place each week beginning in Week 4. Throughout the semester, students develop strategies, problem-solving skills and greater understanding of composition theory and practice. Prerequisites: Grade of B+ or better in ENG 111 or course equivalent, professor recommendation, interview and permission of ENG 115 instructor.

ENG-203 3 Credits
Creative Writing Workshop

This course introduces students to the writing of poetry, short stories, plays, and autobiographies. The course includes some model readings, but the main work is student writings in all four genres. The course satisfies the College's General Education requirement for "Creative Work." Prerequisite: Writing Skills II (ENG-095) or Intergrated ELL Level 3 (ELL-103) or placement in College Writing I (ENG-111).

ENG-231 3 Credits
Introduction to Fiction Writing

Everyone tells stories, but what makes a story "good"? Why are there some we want to hear over and over, tirelessly, even though we know what will happen in the end? In this class, students will look at solid story structure, the elements that make up a "good" compelling story, and ways to tell the tales we have to tell in the best possible way to capture an audience. Students will participate as both writers and critical readers in examining creative work of their own, their peers and of established authors. This course satisfies the College's General Education Requirement for "Creative Work." Pre/Co-requisite: College Writing I (ENG-111).

ENG-232 3 Credits
Introduction to Poetry Writing

This course offers a thorough, hands-on exploration of the principles of writing poetry with emphasis on the elements of craft, voice, form, and analysis of the techniques, structures and styles of established poets. Through extensive reading and writing exercises, students will be able to develop a deeper understanding of the historical and global context of the craft, how it resonates within contemporary culture, while strengthening their own poetic voice. By the end of the course, students will have produced a body of work that expresses his/her ideas or ideals in an original and coherent manner. The course satisfies the College's General Education requirement for "Creative Work." Pre/Co-requisite: College Writing I (ENG-111).

ENG-233 3 Credits
Intro to Creative Nonfiction Writing

This course offers an in-depth exploration of a unique and broadly-defined creative writing genre. By reading published works and writing original essays and memoir-style pieces, students will learn to employ literary techniques often ascribed to poetry and fiction in works of nonfiction. This course gives students experience with various sub-genres of creative nonfiction (narrative nonfiction, researched journalism, memoir) and also addresses the creative challenges unique to a genre whose name implies inventive truth-telling. Students will address the puzzling question of how to add vibrancy to true stories without changing their essential truths. Through the reading and writing

this course requires, students will develop their voices, deepen intercultural competencies, and create a series of polished nonfiction works. This course meets the General Education requirement for Creative Work. Pre/Co-requisite: College Writing I (ENG-111).

ENG-234 3 Credits
Literary Publishing

This is an experiential learning course in which students take on the roles of writers, editors, administrators, and designers in order to publish a college literary magazine. Students will critically address all aspects of magazine production. Activities include writing and developing creative content; selecting manuscripts and artwork for publication; editing, designing and formatting magazine pages and covers; corresponding with contributors; magazine proofreading, producing, promoting; and coordinating a public reception. This course meets the General Education requirement for Creative Work. Pre/Co-requisite: College Writing I (ENG-111).

Engineering**ENR-101** 4 Credits
Introduction to Engineering/Lab

This course provides an overview of the engineering profession. Topics to be discussed include fields of study within engineering; the engineering profession, including engineering ethics; and engineering design and problem-solving. Emphasis is on team-building and a teamwork approach to engineering projects. Course meets 3 hrs. lecture - 3 hrs. lab. Prerequisite: A grade of C or higher in College Algebra for STEM (MAT-194) or exemption by placing into higher level course.

ENR-103 3 Credits
Fundamentals of Computer-Aided Drawing And Design

This course will introduce students to the use of computer software for creating engineering drawings and developing engineering designs and design models. Students will use the AUTOCAD software package as they learn standard views and dimensions for engineering drawings, replicate standard geometrical models, and create models and drawings for selected 2D and 3D engineering designs and projects. Pre/corequisite: Introduction to Engineering (ENR-101).

ENR-260 3 Credits
Engineering Statics

This course will apply the laws of Newtonian mechanics to help students attain the basic engineering science concepts that serve as the building block for further courses in engineering analysis and design. The course applies the equations of mechanics to the general engineering sciences, including solid, fluid mechanics, and materials, thereby contributing to the success of students as practicing engineers after graduation. Course meets: 3 hour lecture. Prerequisite: Grade of C or higher in College Physics I/Lab (PHY-251). Pre/co-requisite: Grade of C or higher in Calculus II (MAT-282).

ENR-265 3 Credits
Engineering Dynamics

The course covers Kinematics and Kinetics of particles and rigid bodies, with the application of Newton's Second Law and the principles of work-energy and impulse. The course enables students to distinguish statics problems from dynamics problems and to identify inertial effects. The course also enables students who are interested in Engineering Mechanics or related disciplines to comprehend the vast applications of the

principles of dynamics ranging from structural design of vehicles, electro-mechanical devices such as motors and movable tools, biomedical devices such as artificial hearts and bladders, to predictions of the motions of satellites, spacecraft, etc. Course meets 3 hours lecture. Prerequisite: Grade of C or higher in Engineering Statics (ENR-260). Co-requisite: Ordinary Differential Equations (MAT-285).

ENR-270 3 Credits
Strength of Materials

The course extends the equilibrium analysis covered in statics to deformable bodies, especially to various members that make up structures and machines. Students will learn the three fundamental concepts in this course, i.e. Equilibrium, Force-Temperature-Deformation Behavior of Materials, and Geometry of Deformation. The course includes the following concepts: stress and strain, stress transformation, temperature stresses, stress and deformation in bodies under axial, shearing, flexural, torsional and combined loadings, shear and bending moment diagrams, and Euler's columns. Course meets: 3 hour lecture. Prerequisite: Grade of C or higher in Engineering Statics (ENR-260). Co-requisite: Ordinary Differential Equations (MAT-285).

ENR-271 4 Credits
Circuit Analysis and Design I/Lab

This is the first course of a two-course sequence in circuit analysis required for all Electrical Engineering Transfer Option students. An Introduction to electric circuits is presented, and circuits under continuous current are resolved. Basic circuit components (resistance, capacitance, inductance, and operational amplifiers) are introduced, and RL, RC, and RLC circuit responses are analyzed as a function of different initial conditions. This course contains a laboratory component that is complimentary to the theory. Course meets: 3 hours lecture, 3 hours lab. Prerequisites: A grade of C+ or higher in Calculus II (MAT-282) and College Physics I/Lab (PHY-251) and Introduction to Engineering/Lab (ENR-101). Co-requisite: College Physics II/Lab (PHY-252).

ENR-272 4 Credits
Circuit Analysis and Design II/Lab

This is a required course for the Electrical Engineering Transfer Option, and the second course in a two-course sequence covering circuit design. This course presents the basic tools to analyze frequency-dependent circuits using phasors, Laplace transformations, and Fourier analysis. Sinusoidal steady state, frequency response, and filters are also analyzed in detail. Course meets: 3 hours lecture, 3 hours lab. Prerequisite: Grade of C+ or better in Circuit Analysis and Design I/Lab (ENR-271). Pre/Co-requisite: Ordinary Differential Equations (MAT-285).

ENR-275 4 Credits
Digital Logic Systems/Lab

This is a required course for the Electrical Engineering Transfer Option. This course provides the fundamentals of logic and number theory, combinational logic applied to circuits, sequential logic involved in operations on circuits, and register-level logic related to datapath and control circuits. Course meets: 3 hours lecture, 3 hours lab. Prerequisite: A grade of C+ or higher in Circuit Analysis and Design I/Lab (ENR271). Co-requisite: Calculus III (MAT-283).

Environmental Science

ENV-105 Environmental Science/Lab 4 Credits

This course is an introduction to the physical, chemical, and biological processes of the natural world. Emphasis is placed on the science of environmental processes, problems, and solutions. Case studies about land, air, and water pollution will be integrated throughout the course. The laboratory will introduce basic field techniques, internet research, laboratory skills, report writing, and data analyses. This course will lay the foundation for understanding the key concepts required for Environmental Science majors. This course satisfies the General Education requirement for Scientific Reasoning (previous area title Science and Technology) for all programs. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

ENV-110 Sustainable Resource Conservation 4 Credits

This course is an introduction to fundamental concepts of sustainability and resource conservation as related to environmental policy and environmental management. Through lectures, laboratories, and dialogue, students develop literacy in sustainability topics including environmental values and ethics; natural resource economics; environmental policies and regulations; sustainability management; sustainable development; ecosystem resources and management, biodiversity and wildlife conservation; forest and soil conservation, water conservation and quality, air quality, climate change and climate action planning. This course meets the General Education Requirement Scientific Reasoning (formerly area 5). Course meets 3 hours lecture; 3 hours lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

ENV-111 Survey of Renewable Energy 4 Credits

This course investigates the potential of renewable energy technologies to help solve environmental and economic problems within society. Areas of investigation include solar energy, wind power, hydropower, geothermal, fuel cells, biomass, ocean wave power, and alternative transportation options. Also addressed are conventional energy sources including oil, coal, natural gas, and nuclear energy. Consideration will be given to related issues such as costs, externalities, system efficiencies, emissions and other environmental impacts, financing incentives, and the regulatory and market forces impacting the alternative energy industry. Students will learn how to assess the viability of incorporating renewable technology, such as solar or wind power, for residential and commercial applications. This course satisfies the General Education requirement for Scientific Reasoning (previous area title: Science and Technology) for all programs. Class meets: 3hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

ENV-113 Introduction to Oceanography/Lab 4 Credits

This course integrates the physical, chemical, geological, and biological characteristics of the world's oceans with emphasis on the New England coast and Boston Harbor. Topics include plate tectonics and the evolution of ocean basins, ocean sediments, coastal processes and landforms, physical and chemical properties of sea-water, atmospheric and oceanic circulation, the origins and dynamics of waves and tides, the coastal ocean, marine life, ocean productivity and resources, marine environmental concerns, marine policies, and cutting-edge marine technologies. Laboratory activities and online activities provide hands-on experiences or simulations about real-world oceanographic issues using oceanographic materials and techniques in the laboratory and in the field. Course meets 3 hrs. Lecture; 3 hrs. Lab This course satisfies the General Education requirement for Scientific Reasoning (previous area title: Science and Technology) for all programs. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

ENV-115 Earth Science 4 Credits

A study of the materials, principles, and processes that define and govern the Earth system. This course covers the fundamentals of geology: rocks, minerals, the rock cycle, geologic time, plate tectonics, earthquakes, volcanoes, geologic structures, weathering and erosion, hydrologic cycle, groundwater, glaciers and geologic hazards. Laboratory activities include mineral and rock identification, geologic structure and landform identification, interpretation of geologic maps and cross-sections, field geology, and other fundamental topics. This course satisfies the General Education requirement for Scientific Reasoning (previous area title: Science and Technology). Class meets 3hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

ENV-120 Tropical Field Studies 4 Credits

This course is an investigation of the ecology, conservation, and diversity of tropical ecosystems. As part of a study-abroad student team, students will learn and participate in scientific field research methods on location in a tropical country. By participating in a variety of trips, and activities students will also investigate the interrelationship of local culture, ecotourism, and conservation. Students will be required to complete a self-designed scientific field research project and participate in a community services project while in the country of study. Past studies have occurred in Costa Rica and Nicaragua but future trips are not limited to these two tropical countries. Course requires additional travel fees and purchase of personal field supplies. This course will satisfy the General Education requirement for Scientific Reasoning (previous area title: Science & Technology) for all programs. Study-Abroad scholarships are available for qualified students. Class meets: 3 hours lecture - 3 hours lab. Prerequisite: Submission of study-abroad application and approval of the Biology & Chemistry Department. No previous science background required.

ENV-222 Environmental Policy, Law, and Management 3 Credits

This course covers the basic concepts in policy, the major environmental laws in the U.S., how policies are made, international conventions, and new management approaches. Topics will include environmental policy and politics; policy-making stakeholders and their role; major international agreements; enforcement; community-based planning; sustainability goals; and green plans. Linkages will be made to environmental topics and the management of food and agricultural production, biodiversity, development, pollution control, land-use, climate change, and sustainability goals. This is a central class for those interested in working in environmental policy and the management of natural resources. Prerequisite: ENV 105 or GOV 101 or GEO 101 or permission of instructor

ENV-250 Global Environmental Change 4 Credits

Global Environmental Change draws from various scientific disciplines to explore the causes of, consequences of, and solutions to global-scale environmental issues affecting our planet and societies. The focus of this course is a study of Earth as a complex system and the role that natural and human influences play (and have played) in changing the Earth system throughout geologic and human history. This course provides an in-depth investigation of the science behind climate change, its history on our planet, the impact of humans on the climate system, the impact of climate change on humans and the natural world, and how the world has responded to and is preparing for climate change impacts. Also addressed are other pressing global environmental changes effecting Earth's oceans, soils, biodiversity, and atmosphere. Students in this course should be comfortable solving problems using computation, using computers or datasets to generate data, and visually interpreting or representing data. Prerequisite: ENG111, Completion of Quantitative Problem Solving requirement (MAT 174 or MAT 181 or MAT 197), or permission of instructor.

Electric Power Utility

EPU-101 DC Circuit Theory & Lab 4 Credits

This course provides an introduction to the nature of electricity in general, in-depth coverage of direct current electrical theory and laboratory practices. Topics covered include static electricity, the Bohr Atom, Ohm's Law, Kirchhoff's Law, network theorems, and magnetism. Course meets: 3 hrs. lecture; 3 hrs. lab. Pre/corequisite: Topics of Algebra/Trigonometry (MAT-193) or exemption by placing into higher level course.

EPU-104 AC Circuit Theory/Lab 4 Credits

This course provides in-depth coverage of alternating current electrical theory. Topics covered include inductance, transformers, capacitance, reactance, impedance, and resonance. The j-operator is employed. Course meets 3 hrs. lecture/3 hrs. lab. Prerequisite: DC Circuit Theory/Lab (EPU-101).

EPU-151 Fundamentals of Single Phase and Polyphase Metering 4 Credits

This course introduces students to the fundamentals of Single Phase & Polyphase Metering, such as terminology and basic principles of meters. Students review basic math specific to metering, and gain knowledge of basic electricity and magnetism principles.

Students will be introduced to meter testing equipment, meter diagrams and standards, and learn technical data and how to read watt-hour and demand meter schematics. They will also learn about power factor analyzers, high amperage current transformer cabinets, meter demand theory and demand registers. Students are introduced to various instrument transformers, their design, application and troubleshooting. They learn about high voltage metering equipment and how to safely install the equipment. In addition all students will learn how to connect electrical secondary services up to 600 volts from the pole to the house working off a ladder. Prerequisite: Admission to the Electric Power Utility Program.

EPU-203 4 Credits **Intro to Underground Operations**

This course introduces students to the basic operation of underground systems. Through classroom instruction and extensive hands-on experience, students will become familiar with the underground network electrical system and the various job responsibilities of underground personnel. Students will learn how to use the power formula to determine wire sizes. Correct manhole entry/exit procedures will be demonstrated. Underground safety issues including emergency rescue procedures will be covered. The sizing, installing and splicing of underground cables will be taught. An equipment orientation will be performed to provide students with a basic understanding of all underground apparatus. (Note: This course covers many of the same topics as Underground and Substation Operations (EPU-153), but in greater detail and with more depth and hands-on practice.) Prerequisite: Acceptance into Electric Power Utility Technology Program.

EPU-205 4 Credits **Introduction to Substation Operations**

This course introduces students to electric substations. Through classroom instruction and extensive "hands-on" experience students will learn about the basic purpose and operation of substations as key parts of power distribution systems. Students will learn the various job responsibilities of substation personnel. Safety procedures including vault entry/exit and rescue procedures will be discussed and demonstrated. Students will learn how to read and interpret substation prints. Substation equipment orientation will be performed to provide students with an understanding of substation equipment. Students will become familiar with the dispatch center and its functions. (Note: This course covers many of the same topics as Underground and Substation Operations (EPU-153), but in greater detail and with more depth and hands-on practice.) Prerequisite: Acceptance into the Electric Power Utility Technology Program.

EPU-207 4 Credits **Introduction to Overhead Linework**

This course introduces students to the basic fundamentals of overhead linework, and installation techniques. During this intensive training period students will learn to become comfortable working with the tools and equipment used to build an overhead distribution system. Students will be introduced to and become familiar with important sections of safety in the utility industry including the effects of electrical shock and burns. Basic hand tools will be assigned and students will learn how to care for and use the equipment. Students will also be trained in CPR-AED and OSHA 10. Students will be trained in the use of company derricks and buckets. For those students who express a desire to learn to climb utility poles, instruction will be provided. Prerequisite: Acceptance into the Electric Power Utility Technology Program.

EPU-251 3 Credits **Electric Power/Utility Tech Internship**

This course will cover a variety of topics that consist of practical work experience in the NSTAR workforce environment involving working on line trucks and learning and performing all of the tasks of an overhead line worker. The course will also cover the instruction and practical exercise of soft skills in today's work environment. Soft skills are those skills used every day in the workplace to assist in making assigned tasks easier to accomplish through teamwork and collaboration in a multi-cultural environment. Soft skills are increasingly being incorporated in job descriptions throughout the workforce as companies and institutions seek to employ students that have had successfully incorporated soft skills as part of their curriculum. Prerequisites: College Writing I (ENG111), Fundamentals of Single Phase and Polyphase Metering (EPU151), Underground & Substation Operations (EPU153), and Group Dynamics (PSY107).

EPU-257 3 Credits **Power and Distribution Systems**

This course introduces the basic concepts of electrical power systems. Subject areas include electrical power generation, transmission, and distribution. Distribution system layout, distribution transformers, transmission line fault calculations and transmission line protection will also be covered. Prerequisite: AC Circuit Theory (EPU-104).

English As a Second Language

ESL-074 3 Credits **Listening Comprehension & Discussions**

In this low-intermediate course, students develop academic listening skills and participate in small group and whole class discussions based on articles, lectures, and multi-media sources. Students will learn grammar and vocabulary in the context of the materials used for listening, speaking, reading, and writing activities. Students must earn a C or better in order to pass the course. Prerequisite: Placement into ESL level I.

ESL-075 3 Credits **Grammar Structures & Editing**

This low-intermediate course focuses on improving grammar and editing skills through weekly grammar lessons, writing assignments, class discussions and assessments. Students will develop their ability to compose grammatically correct and comprehensible sentences and short writings. Students receive individual feedback that targets their needs. Students must earn a C or better in order to pass the course. Prerequisite: Placement into ESL Level I.

ESL-078 3 Credits **Academic Reading I**

In this low-intermediate course, students learn pre-reading skills, organizational styles, academic vocabulary, dictionary use, referents, critical reading, basic verb tenses and parts of speech, and how to summarize, paraphrase, and identify main ideas and supporting details. Students will learn to complete homework assignments in basic MLA format. Students must earn a C or better in order to pass the course. Prerequisite: Placement into ESL Level I.

ESL-079 3 Credits **Academic Writing I**

In this low-intermediate course, students learn to write paragraphs and short essays through an academic writing process in a variety of rhetorical styles using basic MLA format. Student will write from personal experience and respond to reading by paraphrasing and quoting. Students will learn

to write different sentence types, using coordinators and subordinators. Punctuation and grammar will be taught, and students will apply their knowledge by revising and editing their papers. Students must pass the ESL079 Writing Competency Exam and earn a C or better in order to pass the course. Prerequisite: Placement into ESL Level I.

ESL-086 3 Credits **Academic Listening & Note-Taking**

This high-intermediate course focuses on listening and note-taking skills. Students develop a system for note-taking and learn how to use their notes to answer comprehension questions as well as to complete writing assignments. All listening and note-taking activities include reading and writing exercises. Students learn grammar in the context of the materials used for listening activities and student generated writing. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

ESL-087 3 Credits **Contemporary Issues & Conversations**

In this high-intermediate course, students practice and demonstrate effective speaking functions in small-group and whole-class discussions of academic reading materials. Students develop a method for delivering an oral presentation to a large group. All speaking activities are organized around reading and writing exercises. Students learn grammar and build their level-appropriate academic vocabulary in the context of speaking, in the context of the reading materials, and in the context of student generated writing. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

ESL-088 3 Credits **Academic Reading II**

In this high-intermediate course, students increase their level-appropriate vocabulary and develop their reading skills and strategies as they analyze, discuss, and write about longer readings. Students are also introduced to critical thinking skills such as drawing inferences, understanding idioms and figures of speech, and recognizing purpose and perspective. Students learn grammar in the context of the reading materials and in student generated writing. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

ESL-089 3 Credits **Academic Writing II**

In this high intermediate course, students develop their writing skills with a focus on the process of college writing from planning and drafting to revising and editing. Students demonstrate their critical thinking skills by writing paragraphs and essays from their personal experience and from readings of moderate complexity. Students practice correct grammar and mechanics in the context of the readings and their own writing. Students must pass the ESL089 Writing Competency Exam and earn a grade of C or better in order to pass the course. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

ESL-096 3 Credits **Lecture Comprehension & Academic Vocabulary**

In this advanced course, students develop an academic note-taking system as they listen to lectures and authentic sources. Students practice using their notes to answer comprehension questions, write summaries of sources, and

compose responses to critical thinking questions. Students learn advanced academic vocabulary and grammar in the context of advanced level readings, websites, and lectures. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

ESL-097 3 Credits **Academic Discussions & Presentations**

This advanced course focuses on the communication skills necessary in an academic setting. Students develop and on understanding and analyzing main ideas and supporting details of articles improve a method for delivering an oral presentation to a large group using effective delivery, visual aids, secondary sources, and level-appropriate academic vocabulary. Students practice comprehensible pronunciation along with stress and intonation patterns. All speaking activities are organized around academic reading materials which students will write about and discuss in small groups. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

ESL-098 3 Credits **Academic Reading III**

This advanced course focuses on the critical and analytical reading skills necessary for success with college level materials. Students demonstrate comprehension of level-appropriate readings through class discussions, writing assignments, and other assessments. Students also develop critical (higher order) thinking skills by interacting with the readings and by summarizing, paraphrasing, quoting, responding to, and evaluating readings. Students do extensive work on understanding and analyzing main ideas and supporting details of articles and essays. Students learn grammar and academic vocabulary in the context of the reading materials. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089, or placement.

ESL-099 3 Credits **Academic Writing III**

This advanced course focuses on the academic writing skills necessary for success in college content courses. Students develop their abilities with sentence structure, paragraph writing, and essay writing through extensive practice with multiple drafting, revising, editing, and proofreading. Students write from personal experience, answer essay questions from readings of substantial complexity, and write essays using research sources. Students learn grammar in the context of the readings and student generated writing. Students must pass the ESL099 Writing Competency Exam and earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

Environmental Sustainability

ESM-105 3 Credits **Green Buildings**

This course provides a framework for making practical design and construction decisions that are environmentally responsible by focusing on LEED (Leadership in Energy and Environmental Design) building standards. After completing the course, students will have the ability to sit for the LEED Green Associate Exam. Topics include trends in green building, costs and benefits of green buildings, third party certifications and rating systems, site selection and orientation, sustainable landscapes, storm water management, water efficiency, energy demand, energy

efficiency, renewable energy in buildings, ongoing building performance, waste management, building materials, and indoor air quality. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Math (MAT-093) or exemption by placing into higher level courses.

ESM-115 3 Credits **Sustainable Facilities Management**

This course highlights the responsibilities, policies, and practices involved with managing the built environment to achieve sustainable goals. Students will gain an understanding of facilities operation, maintenance, architectural blueprint interpretation, health & safety awareness, and occupant engagement. Students will learn how to select and assess energy usage of HVAC systems, electrical systems, lighting systems, and heating systems. Course content will center on facilities management as a process, and its relationship to other functions within an organizational setting. Students will explore the most current strategies and issues in the industry today, including sustainability, productivity, green buildings, as well as human and environmental factors. This course will utilize a combination of classroom techniques (presentation, discussion, team projects, case studies, and guest speakers) to give the students a full understanding of the issues and complexities of sustainable facilities management. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

ESM-205 3 Credits **Green Existing Buildings: Operation and Maintenance**

This course is designed for ESM students and professionals who are looking to gain project experience on existing Leadership in Energy and Environmental Design (LEED) projects. This course is for students interested in enhancing operations and maintenance in existing buildings. Students will learn the requirements and calculations required for the following LEED credits: Sustainable Sites, Water Efficiency, Energy & Atmosphere, Materials & Resources, and Indoor Environmental Quality. Students may accrue continuing education units that are required to advance to the LEED AP level, or maintain their accreditation by achieving mandatory Credentialing Maintenance Program hours by using BHCC's Health and Wellness Center which earned LEED Gold certification under version 2.2 of the United States Green Building Council's green building program. Students may learn to manage LEED project details, complete documentation requirements for LEED credits and prerequisites, upload supporting files, submit applications for review, receive reviewer feedback, and track their certification process using LEED-Online, a primary resource for managing the LEED documentation process. This course will help prepare students to sit for the LEED AP existing Building Operations and Maintenance exam. This course is ideal for developers, contractors, architects, lawyers, builders, engineers, product representatives, real estate brokers, and anyone interested in understanding green building principles. Prerequisite: Green Buildings (ESM-105) or possession of LEED GA accreditation with approval of program director.

ESM-211 3 Credits **Project Management and Finance for Energy**

This course examines the theory and practice of Project Management as applied to renewable energy and energy efficiency projects. The course also explores financial considerations for

sustainable energy projects, as well as a variety of funding mechanisms. Special focus will be applied to project life-cycles, planning, controlling, and coordinating efforts of multiple individuals and/or working groups. Students will gain an understanding of financial measures of project performance, budgeting, feasibility, and explore various funding mechanisms including government incentives, specialized loans, and performance contracts through case studies. Prerequisite: Survey of Renewable Energy/Lab (ENV-111).

ESM-299 3 Credits **Energy & Sustainability Internship**

This course provides relevant field and/or research experience integrating theory and practice while providing opportunities to develop skills, explore career options, and network with professionals and employers in the clean energy and sustainability management fields. Prerequisites: Enrollment in the Energy and Sustainability Management Program, have completed a minimum of 10 credits in ESM courses with a B average or higher, or approval of ESM program directors. Students who do not meet attendance standards for the ESM program may not be eligible to participate in the internship.

Finance

FIN-106 3 Credits **Introduction to Corporate Finance**

This course is an introduction to corporate finance. The objective of the course is to introduce concepts and techniques of finance. This course will provide an introduction to present value techniques, capital budgeting principles, asset valuation, the operation and efficiency of financial markets, the financial decisions of firms, and international finance. This course is open to all majors.

FIN-111 3 Credits **Investments**

Students will be introduced to the dynamic world of investing by evaluating strategies endorsed by many of the pioneers within the investment industry. A major objective of the course will be to analyze techniques to successfully manage risk and achieve high returns. An in-depth examination of key economic reports will enable students to prepare a balanced portfolio of investments. Students will be exposed to the following investment vehicles: cash equivalents, bonds, mutual funds, stocks, real estate, and leveraging with options and futures. Prerequisite: Principles of Accounting II (ACC-102).

FIN-112 3 Credits **Personal Finance**

An overview of personal financial planning, this course covers the following topics: the intelligent use of consumer credit, budgets, banking, the time value of money, investments, insurance, retirement, and other long-term planning and their tax ramifications. It is intended for students at all levels and for all programs of study.

FIN-210 3 Credits **Financial Management**

This course uses the tools of financial analysis such as ratios, budgets, forecasting techniques, present value concepts, and cash flow. The course also explores short, intermediate, and long-term sources and uses of cash. Prerequisite: Principles of Accounting II (ACC-102).

FIN-211 3 Credits **Money and Banking**

This course covers an economic analysis of financial institutions and markets in the world economy. It covers institutional and economic factors in the determination of the money supply.

The course includes the commercial banking system and the money and capital markets. Current policy issues are debated. Prerequisites: Macroeconomics (ECO-201) and Microeconomics (ECO-202).

FIN-213 *3 Credits*
Mutual Fund Industry

This course introduces the myriad aspects of the mutual fund business including the way mutual funds are structured, regulated, marketed, and distributed. In addition, the course explores shareholder serving systems and technology. Prerequisites: Principles of Accounting II (ACC-102) and Investments (FIN-111).

Fire Science

FPS-107 *3 Credits*
Fire Company Officership

This course examines the scope and functions of the fire company officer. Topics include the role of the fire service, departmental organization, administrative and management procedures, training, public relations, tactics and strategy, and fire prevention.

FPS-111 *3 Credits*
Fire Service, This Century and the Next, What Should We Expect?

This course provides the student with the history of the fire service and its culture. The student will research the ways that the fire service has changed over the past century and how it is expected to change in the next century. Topics will include the history of the fire service, changes in the fire service past and future, the evolution of equipment in the fire service, firefighter deaths and statistics as they pertain to the National Fallen Firefighters Foundation and its 16 Firefighter Life Safety Initiatives, as well as a field trip to the National Fire Protection Association (NFPA) and the role of the state training centers and a field trip to the Massachusetts Firefighting Academy in Stow, MA. These topics will be discussed with particular focus on the National Fire Administration's Fire and Emergency Services Higher Education (FESHE) Professional Development Model and its explanation of how education, training, experience and individual development is needed for a successful job in the fire service. This course incorporates the learning outcomes of BHCC's Learning Community Seminar and fulfills the Seminar's requirements for first-time college students.

FPS-119 *3 Credits*
Principles of Fire and Emergency Services Safety and Survival

This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-123 *3 Credits*
Principles of Emergency Services

This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems;

introduction to fire strategy and tactics; and life safety initiatives. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses

FPS-125 *3 Credits*
Hazardous Materials Chemistry

This course provides an overview of basic chemistry relating to the categories of hazardous materials including recognition, identification, reactivity, and health hazards encountered by emergency service. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-127 *3 Credits*
Fire Protection Hydraulics and Water Supply

This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level courses.

FPS-133 *3 Credits*
Fire Protection Systems

This course provides information relating to the features of design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-135 *3 Credits*
Fire Behavior and Combustion

This course explores the theories and fundamentals of how and why fires start, spread, and are controlled. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-139 *3 Credits*
Fire Prevention Services Safety and Survival

This course provides fundamental knowledge relating to the field of fire prevention. Topics include: the history and philosophy of fire prevention; the organization and operation of a fire prevention bureau; the use and application of codes and standards; plans review; fire inspections; fire and line safety education; and fire investigation. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-221 *3 Credits*
Strategy and Tactics

This course provides the principles of fire ground control through utilization of personnel, equipment, and extinguishing agents. Prerequisites: Principles of Emergency Services (FPS-123) and a grade of C or better in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-223 *3 Credits*
Building Construction for Fire Protection

This course provides the components of building construction related to firefighter and life safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses and Principles of Emergency Services (FPS-123).

French

FRE-101 *3 Credits*
Elementary French I

This course introduces students to the sounds and structures of French with emphasis on the acquisition of a limited but useful vocabulary and is offered for students with little or no previous knowledge of French. The course is not intended for native speakers or for students who have studied this language within the last three years.

FRE-102 *3 Credits*
Elementary French II

This course covers a continuation of Elementary French I (FRE-101) and places emphasis on speaking and reading skills. This course satisfies General Education requirement "Creative Work". Prerequisite: Elementary French I (FRE-101) or one year of high school French.

FRE-201 *3 Credits*
Intermediate French I

This course is a review of basic French language skills with emphasis on conversational skills and graded reading selections for the acquisition of a broad, active vocabulary. Prerequisite: Elementary French II (FRE-102) or two years of high school French.

FRE-202 *3 Credits*
Intermediate French II

This course is a continuation of Intermediate French I with emphasis on self-expression through speaking and writing. Prerequisite: Intermediate French I (FRE-201) or three years of high school French.

Geography

GEO-101 *3 Credits*
World Regional Geography

This course examines the physical and human geographical context of major social, cultural, economic, and political issues in selected regions of the world, including but not limited to the following concerns-globalization, urbanization, environmental and climate studies, demographics, geopolitics, colonialism, plate tectonics, earth hazards-and develops a mastery of maps and other visual aids as means of learning and communication. Regions covered include the Americas, SubSaharan Africa, Europe, the Russian Domain, North Africa/SW Asia, Central Asia, East Asia, South Asia, Southeast Asia, Australia, and Oceania. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095); and Writing Skills I (ENG-090) or Academic Writing III (ESL-099); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

German

GER-101 Elementary German I 3 Credits

This course teaches students to read, speak, and write elementary German including mastery of approximately five hundred basic vocabulary words. The course covers the basic structure of the language. The course is offered in alternate years.

GER-102 Elementary German II 3 Credits

This course builds upon the skills learned in Elementary German I (GER101) by advancing the language structures, word forms, and vocabulary. The course meets General Education requirement for Creative Work. Prerequisite: Elementary German I (GER-101). This course is offered in alternate years.

Geographic Info Systems

GIS-224 4 Credits Intro to Geographic Information Systems

Geographic Information Systems (GIS) are a powerful way to access, map, and analyze geographic information. This course introduces the concepts of GIS and geospatial analysis of databases. Through a series of lectures, hands-on computer-based exercises, and web enhanced modules, students will learn the essential elements of a GIS, hardware requirements, GIS software, data acquisition, data structures, spatial databases, methods of data analysis and spatial modeling, and applications of GIS. This course is designed as a core requirement for the A.S. Environmental Science program but can also be used as a stand-alone course to complement a wide range of academic disciplines to map resources and other mapping related functions of planning and management. Prerequisite: Statistics I (MAT-181) or Precalculus (MAT-197) or exemption by placing into higher level course.

Government

GOV-101 3 Credits Government/Politics in US

This course provides an overview of the foundations, processes, and institutions of the United States federal government. Topics covered include the Constitution, federalism, civil liberties, civil rights, public opinion, the media, political participation, campaigns, elections, public policy, and the organization and functions of the three branches. Special emphasis is placed on the various channels of citizen influence. This course meets the General Education requirement for Community & Cultural Contexts. Prerequisites: Grade of C or better in Academic Reading III (ESL098) or Reading Skills II (RDG095); and Writing Skills I (ENG090) or Academic Writing III (ESL099) or exemption by placement testing.

GOV-211 3 Credits Comparative Governments

This course will discuss governments and politics in a global setting. Students will consider political and social institutions in a variety of countries and then analyze issues of power and economic development in the context of globalization. Prerequisite: at least 9 college-level credits.

GOV-220 3 Credits Introduction to International Relations

This course introduces students to the major theoretical debates in International Relations and situates the field within the context of the discipline, Political Science. It focuses on

significant ideas, processes and institutions which explain the interrelations between the various actors in the international system, looking specifically at nation states and supranational and international organizations. Special attention is given to research methodologies and to questions of ideology, conflict, trade, finance, human rights, identity based differences (ethnicity, gender, etc.), and the dynamics of globalization. Prerequisite: Grade of C or better in College Writing I (ENG111). Prerequisite: ENG 111.

Gas Utility

GUT-101 4 Credits Introduction to the Utility Industry

This lab course presents an introductory examination of the history, concepts and applied techniques of the natural gas and associated utilities including communications (fiber optics), electric, steam and condensate, and water and sewer. Special focus will be placed on providing the background and context for students to understand the evolution of the utility industry. The lab portion of the course will provide students with the knowledge and skills required to demonstrate the competencies required to obtain eight Basic Operator Qualifications used in the winter intersession two week work experience and the summer internship. Students will be introduced to heavy equipment, specialized tools and materials used in the utility industry. Prerequisites: Acceptance into the Gas Utility Technology Degree Option Program.

GUT-102 4 Credits Gas Utility Technology I

This lab course further defines the tools, challenges, processes, and safety measures used in the natural gas utility industry and explores the components that make up the complex transmission and processing methods. The lab portion of the course will be a hands-on learning experience focused on teaching students about specific task operator qualifications (OO's) that are necessary to work in the natural gas industry in order to ensure safety and quality. Students may earn between 8-15 additional task specific OO's which will allow them to take on more responsibility in the field. Prerequisites: Grade of C or higher in Introduction to the Utility Industry (GUT-101).

GUT-103 4 Credits Gas Utility Technology II

This lab course creates a deeper understanding of the natural gas industry and discusses the future of natural gas as an energy source both domestically and globally. This course explores environmental concerns (i.e. with land, air, and water) that could be affected due to pollution by byproducts of the tracking process. The lab portion of the course further explores specific operator qualifications. Students will be immersed in best practice discussions with subject matter experts and exposed to some of the more challenging tasks within the industry. Prerequisite: Grade of C or higher in Gas Utility Technology I (GUT-102). Co-requisite: Utility Industry Regulations, Ethics and Safety Standards (GUT-104).

GUT-104 3 Credits Utility Industry Regulations, Ethics, and Safety Standards

This course will provide students with an introduction to local, state and federal regulations governing the utilities industry. Emphasis will be placed on regulatory compliance, safety standards, and, business ethics. Special focus will be placed on Pipeline

and Hazardous Material Safety (PHMSA) regulations governing the transportation of hazardous materials and spill response; Occupational Safety and Health Administration's (OSHA) regulations; CPR and First Aid requirements and training; Manual for Uniform Traffic Control Devices (MUTDC); Massachusetts Department of Public Utilities (DPU) regulations, and local permitting requirements. Prerequisite: Gas Utility Technology I (GUT-102). Corequisite: Gas Utility Technology II (GUT-103).

GUT-105 4 Credits Leadership for the Utility Professional

This lab course introduces the traits required for effective leadership and advancement to foreman in the utility industry. It begins with an introduction to customer service, transitions to a more in depth exploration of safety and compliance issues, quality workmanship, and reliability standards. Students are then introduced to global economics, geopolitics, and the environment. The course continues to explore tracking, hydraulic fracturing, horizontal drilling, and the development of a worldwide natural gas infrastructure. Students will also be introduced to additional tools and technology utilized in the natural gas pipeline replace, repair, and maintenance industry. The lab portion further explores specific operator qualifications. Students will be immersed in best practice discussions with subject matter experts and exposed to some of the more challenging tasks within the industry. Students have an opportunity to earn an additional 8-15 Operator Qualifications (OO's). Prerequisites: Grade of C or higher in Gas Utility Technology II (GUT-103) and Utility Industry Regulations, Ethics and Safety Standards (GUT-104).

GUT-299 3 Credits Gas Utility Technology Summer Internship

This course enhances the academic experience for students enrolled in the Gas Utility Technology Degree Option Program. All internships take place at Feeney Brothers Excavation, LLC or another utility company. Students engage in activities that improve knowledge of the practical world of work and help them gain professional experience. The internship experience applies resources gained from students' study in the classroom and lab components. This is accomplished while in a supervised on-the-job (OJT) training environment with assigned mentors. A faculty coordinator supervises and grades all courses. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: A grade of C or higher in Gas Utility Technology I (GUT-102) and permission of Department Chair.

History

HIS-102 3 Credits History of Modern Europe in Global Cont Renaissance

This history course is a survey of the major intellectual, social, economic, artistic and political developments within the European continent, and beyond, since the 16th century. It will cover the processes of state-building, colonization and decolonization to better understand the roots of contemporary institutional and ideological problems. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-103 3 Credits
Ancient, Classical & Medieval History

A multi-disciplinary survey of the historic evolution of the European continent from its roots in the ancient world through the Classical and Medieval periods. Artistic, ideological, economic, social and political questions are examined in order to understand the foundation of the ideas and institutions of the modern world. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: A grade a C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-111 3 Credits
History of Pre-Modern World

This course examines similarities and differences among the major world civilizations before the modern era. Topics include traditions of governance, art, religion and philosophy, technology, family structure, and everyday life. The course satisfies General Education requirement "Community and Cultural Contexts". Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-112 3 Credits
Modern World History

This course offers a study of the major world civilizations of the modern period from approximately 1500 to the present. This will include analysis of the defining characteristics of various world regions and their interactions in the accelerating process of globalization. Communities and contexts will be examined in light of the modernizing revolutions in science, philosophy, politics and technology; religion, colonization and decolonization, world wars, and the creation of the interconnected modern world system. No previous history course is required. This course fulfills the requirements for the General Education Area "Community and Cultural Contexts". Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) and Academic Writing III (ESL-099) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-117 3 Credits
Women in U.S. History

This class will explore women's roles in American history. It will provide a chronology of the progress of their role from chattel to citizens. Cultural phenomenon including gender identity, economics, government and law, and mass media will be examined in relation to their impact on women. This course will provide students with valuable insight into the women's movement and provide them with a working definition of feminism and its goal. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-121 3 Credits
Found. of Historical Thinking & Analysis

This course introduces foundational methods, approaches, and conceptual frameworks for doing history. Students practice constructing historical narratives and explanations grounded in analyzing primary sources, critically reading secondary works, and communicating historical knowledge to various audiences. Students

evaluate evidence from primary sources and contextualize it using secondary works. Students analyze how social power shapes and reflects the construction of archives, evidence, narratives, and public history education. Students reflect on their own perspective as a historian, and consider their distinctive intellectual assets and specific forms of community accountability. Students consider some ways of knowing characteristic of the discipline of history, and analyze secondary works by historians to identify various approaches to gathering evidence from primary sources. Students assess gaps in historical narratives and archives; read scholarly works that have used creative approaches to gather evidence toward rectifying historical silences; and put their historical imagination into practice by creating signature work. Prerequisites: College Writing I (ENG 111) and Modern World History (HIS 112)

HIS-151 3 Credits
US History: Colonization through the Civil War

This course traces the growth and development of America from colonial beginnings through the Civil War. The course devotes major attention to the people, critical issues, and significant forces that determined the course of events that shaped our civilization. The course satisfies General Education Standard "Community and Cultural Contexts". Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095), and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-152 3 Credits
US History: Reconstruction to Present

This course covers the rise of the United States from the turmoil of the Civil War to superpower status. The course examines the cultural, economic, diplomatic, and political forces that have given the nation its shape. The course meets General Education requirement for Community and Cultural Contexts. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095), and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-230 3 Credits
The American Civil Rights Move

This course examines the start of the modern American civil rights movement from the Brown v. Topeka decision to the women's liberation movement. The evolution and impact of major organizations such as the SNCC, SCLC, CORE, NAACP and others will be studied. The course will also critique the impact of national figures such as Martin Luther King Jr., Malcolm X, James Farmer, Huey Newton and others as well as the impact of the movement on white students and the anti-war movement. Lastly, it will examine the impact of contemporary movements on today's America, such as the Black Lives Matter movement and others. Prerequisites: A grade of C or higher in College Writing 1 (ENG-111) and a history course (HIS-102, HIS-112, HIS-151 or HIS-152) or by permission of the instructor.

HIS-231 3 Credits
African American History

This course offers an intensive study of how African Americans shaped and contributed to American history. The course focuses on the experiences of African Americans in the social, economic, and political history of the United States from the era of Reconstruction to the present. Topics include the lives of African Americans during Reconstruction, the Great Migrations, the Harlem Renaissance, responses to anti-black racism, the rise of the modern civil

rights movement, and the evolving complexities of black identity. The course engages students in a critical examination of the variegated patterns of African Americans' perspectives on American social conditions in the late nineteenth, twentieth, and twenty-first centuries. Students consider landmark contributions in African American historiography. Students produce a research paper, review essay, or similar signature work in history aligned with the course topics. Prerequisite: Grade of C or better in College Writing 1 (ENG 111) and a history course (HIS 102, HIS 112, HIS 151 or 152) or by permission. To request permission, email: history@bhcc.edu

HIS-232 3 Credits
Asian American History

This course offers a sweeping overview of the themes and issues that have animated the history of Asian-descended peoples in the United States. Through explorations of immigration, assimilation, empire, labor organizing, transnational political and economic forces, political ideologies, community organizing, racial identity formation, various types of intergroup solidarity, and more, students will get a well-rounded sense of Asian American history which will better prepare them to live in our diverse, polycultural world. Given our location, special attention will be paid to local Asian American history and communities here in Greater Boston. Students in the course will conduct original historical research and produce papers and/or multimedia representations of their research. Students will critically engage historiography and secondary literature relevant to the study of Asian American history. Prerequisite: College Writing (ENG-111)

Honors**HON-200** 3 Credits
Honors Seminar

This interdisciplinary seminar treats a selected theme through perspectives available from the humanities, social, and natural sciences. Presenters and topics differ each semester depending on current student interests and faculty availability. The course is required for all students enrolled in the honors program. Students who are not enrolled in the honors program may be admitted with permission of the instructor. The course meets General Education Requirement for General Education Elective.

Hospitality**HRT-105** 3 Credits
Hospitality Seminar

This course provides students with an in depth, experiential understanding of the options available within the hospitality industry. Topics covered include industry specific areas such as hotels, resorts, cruises, tours, convention and visitors' bureaus and travel agencies with particular focus on the skills and abilities that each individual needs to create a successful career. Guest speakers and site visits are an integral part of this course.

HRT-109 3 Credits
Hospitality Marketing Management

This course examines the market environment in which a firm operates. The course covers communications principles and their application to sales goals. It considers effective utilization of tools and techniques of merchandising in hotels and restaurants. Prerequisite: Principles of Management and Service in Hospitality (HRT-121).

HRT-112 ^{3 Credits}
Food & Beverage for Hospitality Prof

This course covers the operations of dining and lounge services as they relate to the tasks of effective use of dining space, job assignments, and labor cost control. The course also covers these elements in relationship to optimum staffing, scheduling and productivity analysis. In addition, students discuss and practice issues in training, supervision, and quality guest services. A special emphasis is placed on brand recognition, company philosophy, marketing, sales, and beginning hospitality accounting to include basic financial statements.

HRT-117 ^{3 Credits}
Hospitality Law

This course examines the common and statutory law of the hospitality and tourism industry. The legal aspects of hotel and restaurant operations, employment law, tort liability, civil rights law and Americans with Disabilities Act compliance are also addressed.

HRT-119 ^{3 Credits}
Basics of Meeting Management

This course covers applied knowledge and skills that students need to plan professional meetings and conferences. The course takes students through the step-by-step process that exposes them to the decisions, problems, and concerns of planning effective meetings and programs that constitute a professional conference. The class format requires students to undertake a team project based on a variety of typical professional specifications.

HRT-121 ^{3 Credits}
Principles of Management and Service in Hospitality

This course introduces the principles of sound business management, focusing specifically on the unique needs of service industries. Students will understand the business structures and strategies used in hospitality. Particular focus will be paid to communication skills, managing people, and ensuring quality service within the hospitality and travel industries.

HRT-122 ^{3 Credits}
Managing Groups

This course introduces students to group sales, support and tour management. Students will learn the skills necessary to handle the management of large groups of people over different modes of travel and to different destinations. Prerequisite: Basics of Meeting Management (HRT-119).

HRT-125 ^{3 Credits}
Principles of Hospitality Finance and Accounting

This course encompasses basic accounting principles within the unique context of the hotel industry and financial management strategies of tourism-based businesses. Emphasis is placed on how to administer accounting procedures to minimize cost and maintain a full range of customer services. Topics include: cash flow cycle, accounting principles and procedures, elements of financial statements, maintaining financial statements, and analysis of financial records. Prerequisite: Principles of Accounting I (ACC101).

HRT-131 ^{3 Credits}
Front Office Operations

This course covers the responsibilities of management including principles of front-office procedures, accounting fundamentals and supervisory and communication skills as they relate to the various support departments that impact the guest cycle. It includes training on front desk software.

HRT-133 ^{3 Credits}
Culinary Theory in Hospitality

Students gain knowledge in the use of tools and equipment while learning basic procedures related to preparation and cooking. Students learn basic menu construction and presentation used in the development of full menus utilized in a quantity food production facility. The course emphasizes cooking techniques, terminology, equipment use, and commercial kitchen operation, as well as proficiencies in knife skills and uses of various culinary tools. Additional expenses may include supplies, equipment, and/or uniforms.

HRT-151 ^{3 Credits}
Casino Operations Management

This course provides the student with an overview of the Casino Industry. It covers forms of gaming, gambling, destinations, and organization of a Casino Resort. The course offers students insight into the various career paths available within this unique and thriving industry.

HRT-210 ^{3 Credits}
Hotel/Rest/Tour Field Exp Internship

This course integrates classroom study with practical work experience. Under the guidance of a site supervisor and a faculty member, the experience helps students to shape career goals and to gain valuable work experience. Prerequisite: Principles of Management and Service in Hospitality (HRT-121).

HRT-223 ^{3 Credits}
Event Planning

This course covers applied knowledge and skills that students need to plan professional and non-profit events. The course takes students through the step-by-step process and the decisions, problems, and concerns of planning special events. The class format requires students to undertake a team project based on a variety of typical professional specifications. The specific needs of producing social functions, concerts, corporate events and sporting events are discussed in detail. The needs and goals of various fund-raising programs are also explored. Prerequisite: Basics of Meeting Management (HRT-119).

HRT-229 ^{3 Credits}
Corporate Travel Management Hospitality

This course discusses the budget-driven needs of corporate travel purchasers and the convenience-based needs of the corporate traveler. The goal of the course is to use knowledge acquired in previous courses to control the travel spending of a corporation. This changes the focus from service, which is stressed in almost every other Hospitality course, to cost control. The role of the effective Travel Manager, who is challenged to balance these two competing needs in a corporate travel department, is studied.

HRT-231 ^{3 Credits}
Advanced Lodging Operations

This course continues to explore the functions of hotel management including Food and Beverage, Engineering, Housekeeping, Security and other "back of the house" issues. Students will complete their understanding of management technique and the lodging environment. Prerequisite: Front Office Operations with Technology Component (HRT131).

Human Services**HSV-101** ^{3 Credits}
Intro Human Services W/Field Practice

This introductory course covers the historical aspects of human services, the requirements and skills of the human services worker, administration and funding of agencies, and the dynamics of work in the profession with a 15 contact hour (per semester) service learning requirement at a human service organization. Prerequisites: Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses

HSV-112 ^{3 Credits}
Addiction

This course investigates the biological, psychological, and emotional forces involved in the addiction process. The course covers the major classes of psychoactive drugs by examining drug action, uses, and limitation. Social problems and the role of human services in prevention and intervention play an integral role in the course. Prerequisite: Principles of Psychology (PSY-101) and grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HSV-214 ^{3 Credits}
Ethics in Human Services

This course provides students with the knowledge and skills required to identify ethical issues and to resolve ethical dilemmas when confronted with conflicting duties and choices that occur within the context of professional human service work at all levels of practice. Prerequisites: College Writing I (ENG-111) and Introduction to Human Services w/Field Practice (HSV-101) and Addiction (HSV-112).

HSV-215 ^{3 Credits}
Introduction to Substance Abuse Counseling

This course provides an introduction to human services and addictions, including the types of clients served, the duties of human service personnel, philosophy and dynamics of addictions treatment and an overview of state and community resources. Case studies are used to examine the development, identification, dynamics and recovery of addicts. Prerequisites: Addiction (HSV-112) and Counseling (PSY-215).

HSV-216 ^{3 Credits}
Pre-Practicum Prep With Field Experience

This course is designed to provide an orientation to practicum experiences in the human services program. Students will review the process for setting up a placement, understanding professional requirements for an interview, and complete a series of critical thinking and reflective assignments. A placement experience in a human service agency is required by the course following a CORI background check. A grade of B or higher is required in this course to allow for enrollment in further practicum coursework in the program. Prerequisite: College Writing I (ENG-111). Pre/corequisites: Introduction to Human Services with Field Practice (HSV-101) and Addiction (HSV-112) and Counseling (PSY-215) and Adolescent and Adult Development (PSY-224).

HSV-217 3 Credits
Current Issues in Human Services

This course is the study of current issues in the human services delivery system with emphasis on human, legal, and civil rights, service delivery, and resource availability. Economic, political, and social changes in society that affect the delivery of human services with particular attention to the needs of housing, employment, health, nutrition, and well-being of participants in the system will be examined. Prerequisites: Introduction to Human Services with Field Practice (HSV-101) and Principles of Psychology (PSY-101) and Counseling (PSY-215) and Adolescent and Adult Development (PSY-224).

HSV-218 3 Credits
Case Management in Human Services

This is an introductory course on case management that uses the framework of the strengths-based model in working with different populations. Through an integration of classroom lecture and discussion with experiential learning activities, key issues will be explored and examined in depth. Prerequisite: Counseling (PSY-215) and grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HSV-219 3 Credits
Current Issues for the Community Health Worker

This course is designed to prepare community health workers to effectively support and assist their communities to achieve optimal levels of health and well-being. Prerequisites: Health Employment Issues (AHE104) and Counseling (PSY215).

HSV-220 3 Credits
Practicum in Human Services I

Practicum experiences in a human services setting to be completed the final semesters of study, including the 90-hour training in the national Family Development Credentialing program. Course runs during fall, spring, and early summer semester and must be started in the fall semester. The department assigns placement settings. Students must make application for placement and enrollment spring semester prior to fall registration. Acceptance into the human services program does not assure permission to enroll in the course or a placement assignment. A Criminal Offense Records Investigation (CORI) is required of all practicum students. For complete course requirements and application procedures, contact the department chair of Early Childhood, Education & Human Services. Course is graded on a pass/fail scale. HSV-220 and HSV-221 are to be taken in sequence beginning in the fall semester and concluding in the first term of the summer semester. Prerequisite: Permission of department chairperson.

HSV-221 3 Credits
Practicum in Human Services II

Practicum experiences in a human services setting to be completed the final semesters of study, including the 90-hour training in the national Family Development Credentialing program. Course runs during fall, spring, and early summer semester and must be started in the fall semester. The department assigns placement settings. Students must make application for placement and enrollment spring semester prior to fall registration. Acceptance into the human services program does not assure permission to enroll in the course or a placement assignment. A Criminal Offense Records Investigation (CORI) is required of all practicum

students. For complete course requirements and application procedures, contact the department chairperson of Early Childhood, Education & Human Services. Course is graded on a pass/fail scale. HSV-220 and HSV-221 are to be taken in sequence beginning in the fall semester and concluding in the first term of the summer semester. Prerequisite: Practicum in Human Services I (HSV-220).

Humanities

HUM-120 3 Credits
Self, Culture and Society

This course uses a critical lens to examine the interrelationship among self, culture and society by integrating academic knowledge with personal experiences. Students engage in inclusive dialogue, create knowledge using diverse forms of media, personalize and map future goals, and explore career pathways. This course is designed to cultivate community among classmates and provide opportunities for mentorship by faculty, peers, and advisors. Students reflect on their role in creating a more just society that advances equity and values community cultural wealth. Each course section examines self, culture and society through a specific academic theme. Students choose a section based on their interests. This course satisfied the General Education Elective requirement.

Interdisciplinary

INT-101 3 Credits
Introduction to Yoga Studies

This course explores yoga, a diverse form of artistic human expression through an interdisciplinary perspective-from its origins to present day therapeutic applications for the mind, body, and spirit. Students will also examine multi-cultural beliefs on healing and healing traditions. Through writing assignments, students will reflect critically on their own practice and on topics introduced in the readings/discussions. The course will include an in-class yoga practice that will allow students to integrate course concepts with their yoga practice "on and off the mat" as students will apply yogic principles to their lives through self-reflection, civic engagement and service. This course is geared to students with no prior yoga experience. Students need to wear clothing that allows for freedom of movement as there will be a physical practice in each class meeting. This course meets the General Education Elective Area. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

INT-110 3 Credits
American Culture

This interdisciplinary course focuses on the historical evolution of American beliefs and values and is designed for students from other cultures. Students study the way these values have shaped U.S. contemporary institutions such as education, business, the government, and the family. The course examines extensive cross-cultural comparisons with the students' native cultures. Materials include film, music, and short works of literature. The course satisfies the College's General Education requirement for "Creative Work." Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

INT-123 3 Credits
Parenting Across Cultures

This is an interdisciplinary course that compares and contrasts various parenting methodologies as they express a culture's underlying values and system of beliefs. We will look at the effects of parenting styles on child development and the parent-child relationship. Students will examine the way in which they were parented and will reflect on how they intend to parent their own children. Cross-cultural comparisons will be made with classmates from other cultures and backgrounds. Special attention will be given to parenting in bi-cultural families, and the issues that ensue when there are contrasting parenting styles within one family. Competing parenting styles in non-traditional cultures like the U.S. will also be examined. Prerequisites: A grade of C or better in Academic Reading III (ESL098) and Academic Writing III (ESL099) or Reading Skills II (RDG095) and Writing Skills II (ENG 095), or exemption from reading and writing requirements by placement testing.

Italian

ITL-101 3 Credits
Elementary Italian I

This course introduces students to the sounds and structures of Italian with emphasis on the acquisition of a limited but practical vocabulary and is designed for students with little or no previous knowledge of Italian.

ITL-102 3 Credits
Elementary Italian II

This course is a continuation of Elementary Italian I (ITL101), emphasizing speaking and reading skills. The course satisfies General Education requirement "Creative Work". Prerequisite: Elementary Italian I (ITL-101) or one year of high school Italian. This course is offered in alternate years.

ITL-201 3 Credits
Intermediate Italian I

A review of basic language skills with increasing emphasis on conversational and readings skills. Prerequisite: Elementary Italian II or two years of high school Italian.

ITL-202 3 Credits
Intermediate Italian II

A continuation of Intermediate Italian (ITL201) with greater emphasis through speaking, reading, and writing. Prerequisite: Intermediate Italian I (ITL201) or three years of high school Italian.

Japanese**JPN-101** 3 Credits
Elementary Japanese I

This course is an introduction to the sounds and structures of the Japanese language with emphasis on the acquisition of a limited but useful vocabulary. The course is designed for students who want to learn essential Japanese as quickly and as effectively as possible. Students read and write with Hiragana and look into the world of Kanji. This course is not intended for native speakers or students who have studied this language within the last three years.

JPN-102 3 Credits
Elementary Japanese II

This course covers a continuation of the study of basic structures of the Japanese language. The course stresses additional useful vocabulary through reading, writing, and conversation. The course covers material that allows students to learn essential Japanese as quickly and effectively as possible. The course emphasizes encouraging and helping students to obtain the ability to use the Japanese language in practical situations. It emphasizes student ease in interacting and communicating in an uncomplicated but adult language. Students read Kana and some basic Kanji. The course meets General Education requirement for Creative Work. Prerequisite: Elementary Japanese I (JPN-101).

JPN-201 3 Credits
Intermediate Japanese I

This course offers instruction in intermediate Japanese. Students will learn how to communicate and express various ideas. Students will learn how to form long and detailed sentences with emphasis on conversational skills. In addition, they will learn how to read and write some basic Kanji. Various aspects of Japanese culture and customs will be introduced and discussed throughout the semester. Prerequisite: Elementary Japanese (JPN102) or equivalent.

JPN-202 3 Credits
Intermediate Japanese II

This course turns to the basics of Japanese syntax in order to lead the student to the acquisition of increased proficiency in the modern Japanese language. The course is designed to help learners consolidate their understanding of syntactical structures through lessons that focus on how to talk about topics relevant to daily life. This will increase students' comprehension skills, and it will lead to stronger skills in reading and writing. Students at this stage are expected to

become familiar with different forms of verbs (tense and aspect, etc.), time expressions, conditional clauses and other topics that prepare them to have a solid grasp of context and speaker intent. Students also learn more Kanji. Prerequisite: Intermediate Japanese I (JPN201) or equivalent.

Literature**LIT-201** 3 Credits
Introduction to Literature

This course develops students' ability to interpret, analyze, evaluate, and respond to ideas about literature. Students explore the nature, structure, and form of poetry, short stories, and drama. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-203 3 Credits
Literature in America I

This course traces the physical, moral, and psychological development of an emerging nation through its literature. The course examines themes of sin, guilt, justice, and equality in the historical movement of the nation from colonial settlement to westward expansion. The course includes works representative of the ethnic and racial diversity of American culture. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-204 3 Credits
Literature in America II

This course analyzes the crises of the nation from the Civil War through the twentieth century, as shown through its literature. The course examines the themes of progress, materialism, alienation, and corruption against the yardstick of opportunity, heroism, and individualism, which represent the traditional American dream. The course includes works representative of the ethnic and racial diversity of American culture. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-205 3 Credits
English Literature I

This course examines major themes, techniques, and genres in English literature from Beowulf to Samuel Johnson. Students read and discuss such authors as Chaucer, Spenser, Shakespeare, Donne, Milton, Swift, Pope, Addison, Gray, and Johnson. The list may vary. The course meets General Education Humanities Requirement Area 6. Pre/corequisite: College Writing I (ENG-111).

LIT-206 3 Credits
English Literature II

This course continues the survey of English literature by studying themes, techniques, and genres from the Romantic poets to the modern writers such as Joyce, Lawrence, and Eliot. The list may vary. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-207 3 Credits
Literature and Society I

This course explores the role of literature as a mirror of the values and conflicts of a changing society. It also examines stereotypes associated with minorities and illustrates the role of literature in alerting society to social and moral injustice. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-211 3 Credits
Masterpieces of World Literature I

This course considers the landmarks of literature, from ancient times to the eighteenth century, which have shaped, reflected or criticized Western thought. The faculty select readings from Homer, Greek Drama, the Bible, Dante, Medieval Romance, and Shakespeare. Faculty may couple these readings with their contemporary versions or transformations by such twentieth century writers as Sartre, O'Neill, MacLeish, Stoppard, and Joyce. The list may vary. The course satisfies General Education requirement "Creative Work". Pre/corequisite: College Writing I (ENG-111).

LIT-212 3 Credits
Masterpieces of World Literature II

This course continues the examination of the great works of the humanist tradition. Faculty select readings from the eighteenth century to the twentieth century from Moliere, Swift, Voltaire, Chekhov, Ibsen, Tolstoy, Conrad, Turgenev, Zola, Kafka, Singer, Bellow, Mishima, Orwell and Eliot. The list may vary. The course also includes an international studies module of the contemporary literature of Africa, Asia, and Latin America. The course satisfies General Education requirement "Creative Work". Pre/corequisite: College Writing I (ENG-111).

LIT-217 3 Credits
Children's Literature I

This course introduces students to children's literature in all its forms, from fables to fairy tales, from realistic fiction to fantasy, from nonsense to narrative poetry. The course covers works both classic and contemporary. The course satisfies General Education requirement "Creative Work". Pre/corequisite: College Writing I (ENG-111).

LIT-218 3 Credits
Children's Literature II

As follow-up to Children's Literature I (LIT-217), this course focuses on one of the most significant themes in literature, particularly in works written for children and young adults: the search for identity. The course examines full-length works, classics, contemporary novels and works of fantasy that explore this theme. Discussion topics may include hero-worship, self-reliance, society's view of the child, the impact of environment, and peer pressure. The course closely examines narrative techniques, especially point of view. The department recommends that students complete Children's Literature I (LIT217) prior to taking this course. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-219 3 Credits
African Literature

This survey course of contemporary African literature exposes students to the diversity of the themes, styles and modes of expression peculiar to the enormous continent of Africa. Students study the oral tradition as it is reflected in folktales, stories, and poems. In addition to reading essays and articles about social and historical conditions that affect the literature of the continent, students read numerous short stories and at least three novels, each reflecting the culture of a different region of the continent. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-220 3 Credits
Contemporary African American Literature

The course will survey literature by African American authors from the last half of the twentieth century to the present day. We will examine poems, essays, novels and lyrics to

explore the Civil Rights Era, Black Feminism, Hip Hop, LGBTQ issues, and the growing number of authors across the African diaspora who write about the African/African American experience. Among the topics we will explore are the oral tradition; the positive and negative effects of the Black arts movement; the re-envisioning of slavery in the modern imagination; intersections of race and sexuality; and cross cultural identities. Students will also explore Boston as a living site for the development of African American literature by visiting museums, landmarks, and attending readings by local African American authors. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-221 *3 Credits*
Latin American Literature

This course examines the uniqueness of the Latin American experience as expressed in its literature. The course gives particular attention to those works that reflect the social, political, ethnic, or cultural values of Latin America. The course also examines the impact of Latin American themes and literary techniques on contemporary world literature. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-223 *3 Credits*
Immigrant Experience in Literature

The course explores the experience and contributions of the many ethnic groups who have shaped American culture. Short stories, novels, plays, essays, and poems present the bi-cultural American story told both by those whose roots have been long established in this country and by those who have more recently arrived. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-224 *3 Credits*
Middle East Literature

This course examines the literature of the Middle East and provides students with an understanding of the impact of religion, tradition, and politics on the lives of people. Students read, analyze, and discuss a variety of letters, historical documents, short stories, and novels in an effort to understand Middle East cultures in their dimensions. The course fulfills a requirement for World Studies Emphasis certification. The course satisfies General Education requirement "Creative Work". Pre/co-requisite: College Writing I (ENG-111).

LIT-225 *3 Credits*
Introduction to Dramatic Literature

This course examines selected plays in an historical context to provide students with a basic awareness of theater development from ancient Greek drama to contemporary plays. The selection may vary from semester to semester. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-227 *3 Credits*
African American Literature

This course is an introduction to the study of African American literature from slave narratives to classic twentieth century novels to contemporary poetry and short stories. The course satisfies General Education requirement "Creative Work". Pre/co-requisite: College Writing I (ENG-111).

LIT-229 *3 Credits*
Sophocles & Shakespeare

Through an exploration of plays by Sophocles and Shakespeare and critical readings based on the plays, the course will focus on themes that include prophecy and free will; speaking the truth to power; defining evil; and, finally, confronting

evil. This is an Honors course, which counts as an Honors requirement for students in the Commonwealth Honors Program. Prerequisite: College Writing I (ENG-111) with a grade of B or higher or permission of the instructor.

LIT-230 *3 Credits*
Asian American Literature

This course interrogates the experiences of Asian American women and men living in the Americas. Although Asian Americans have lived in the U.S. since the 1700s, their stories have remained largely untold in mainstream American literature, the media, and the dominant society. Therefore, the purpose of this course is to examine these histories through literature and film. The course explores similarities and differences of women and men who are from various parts of Asia and immigrate to the Americas and the challenges Asian American women and men face. Topics the course addresses include national origin, class, sexuality, and language. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-231 *3 Credits*
Mystery and Detective Fiction

The course will introduce students to the art of mystery and detective fiction, surveying the short story and novel form from its Edgar Allan Poe roots through contemporary developments in the genre. It will include works by well-known mystery writers such as Arthur Conan Doyle, Raymond Chandler, Agatha Christie, Sara Paretsky, and Walter Mosely as well as literary authors whose work shares elements of the mystery genre. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-233 *3 Credits*
Gender and Literature And the Fool

How has our idea of "femininity" and "masculinity" changed over time? In what ways do social and cultural influences affect our understanding of what it means to be a man or woman? By examining some of the theories contributing to the gender debate in the west, and applying critical reading to a variety of literature, students will seek a deeper understanding of gender identity and gender roles. In doing so, the class will examine the many ways sex and gender are influenced by distinctions of race, class and ethnicity. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-241 *3 Credits*
Supernatural & Horror Literature

This course will analyze short and long works that deal with a variety of aspects of the supernatural. Students will read both classic and contemporary works by authors such as Bram Stoker, Robert Bloch, Ira Levin, Mary Wollstonecraft Shelly, Henry James, Edgar Allan Poe, Stephen King, Shirley Jackson, and H.P. Lovecraft. The course explores the metaphorical roles that belief in and interest about the supernatural play in our culture and in our lives. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-242 *3 Credits*
LGBTQ Literature

This course introduces students to contemporary literature by and about LGBT/Queer people. We will examine the intersections of LGBT/Q people across gender identity, race, class, ability, etc. Through engagement with novels, short stories, and movies, we will identify and discuss major social and political issues that shape LGBT/Q experiences. To frame these conversations and

deepen our understanding, primary works will be paired with cultural criticism. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-250 *3 Credits*
Black Women in Literature

This course examines literature by and about Black women from diverse cultural backgrounds. We will investigate the intersections and divergent experiences of Black women across gender, class, sexuality, ideology, as well as the influence of colorism. Our exploration of novels, short stories, poetry, creative non-fiction, music, and drama will help us to analyze how these cultural categories attempt to define Black womanhood. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

Mammography

MAC-111 *3 Credits*
Mammography Principles I

This interactive, web-based course presents the concepts of equipment design, technical factors and compares analog to digital mammography equipment and techniques. Quality assurance and special patient situations, as well as interventional procedures will also be discussed. Prerequisite: Acceptance into Mammography Certificate Program.

MAC-211 *3 Credits*
Mammography Clinical Internship Mammography Principles II

This interactive, web-based course presents the Mammography Principles II concepts of equipment design, technical factors and compares analog to digital mammography equipment and techniques. Quality assurance and special patient situations, as well as interventional procedures will also be discussed. Prerequisite: Mammography Principles I (MAC-111).

MAC-299 *3 Credits*
Mammography Clinical Internship

This 100-hour clinical introduction will enhance the academic experience for students by introducing them to the clinical practice of mammography. Students are responsible for providing their own clinical site. Clinical sites must be pre-approved by program faculty. Students must comply with the clinical policies, as stated in the Student Manual before attending clinical. Criminal Offender Record Information (CORI) checks will be conducted on all students before placement, and the outcome may impact the student's ability to participate in the internship experience. Health clearance is also required prior to participation. Prerequisite: Mammography Principles I (MAC-111).

Management

MAN-105 *3 Credits*
Principles of Marketing

This course is a study of the basic principles of marketing and the application of these principles in today's changing competitive environment. The focus of this course is on the behavior of the consumer market and the product, pricing, promotion and distribution decisions employed to create consumer satisfaction. Prerequisites: Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-106 3 Credits
International Marketing

This course covers the study of marketing strategies adapted to fit the special requirements of international marketing structures, as well as the differing cultural, political, and legal environments. Students examine the marketing forces that play an important role in deciding the feasibility of internationalizing a product. Prerequisite: Principles of Marketing (MAN-105).

MAN-107 3 Credits
Introduction to Entrepreneurship

This is an introductory course for those interested in starting or running their own business. Students will assess how technology and innovation, demographics, economics and social changes create business opportunities. Students will evaluate the feasibility of business ideas based on strengths, weaknesses, financial goals and competitive threats. Students will also identify desirable characteristics of leading entrepreneurs to identify skills and behaviors which lead to success. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-111 3 Credits
Principles of Management

The skills and functions, theories and principles of management are studied in respect to the socio-cultural environment within which a firm operates. An emphasis on decision-making, organizational strategy, planning and system design provides a framework for examining the application of management concepts in the modern business world and the evaluation of organization problems and issues. Prerequisites: Introduction to Business (BUS-101) for Business Concentration, Management and Finance options only. A grade of C or better in Academic Reading III (ESL-098) and Academic Writing III (ESL-099) or Reading Skills II (RDG-095) and Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-112 3 Credits
Organizational Behavior/Design

Organizational behavior and design, social systems and contemporary management issues are explored and experienced, with an emphasis on the interrelationship of culture, organizational structure and policies upon individual, group and organizational performance. Topics include: leadership styles, learning, motivation, group structure, decision-making, group dynamics, and problem solving. Concepts and issues of power, conflict, change and organizational processes that impact interpersonal or social settings, group interactions or the workplace environment are examined. This course satisfies the General Education Elective requirement. Prerequisite: Academic Reading I (ESL-098) and Academic Writing III (ESL-099) or Reading Skills II (RDG-095) and Writing Skills (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-201 3 Credits
Management Seminar

Engaged in diagnosing business issues and managerial problems posed through actual real life case studies, students conduct strategic analysis in a variety of individual and competitive situations. Teams identify strategic issues; propose workable plans of action; explain, present and defend their assessments; where applicable, drawing upon prior course study/life experiences and library and Internet research to convert a sound industry/business analysis into a sound, realistic, action agenda supported by evidence.

Note: This course is a Capstone course and should be taken in the student's final semester. Prerequisite: Principles of Management (MAN-111) and Principles of Marketing (MAN-105).

MAN-204 3 Credits
Entrepreneurship and Innovation

In this course, students develop the skills and creativity to cultivate and market innovative ventures. This course uses an experiential approach to provide students with a foundation for innovative thinking and to prepare them for entrepreneurial projects. The class examines entrepreneurial theories, practices and thought processes. In critical thinking exercises, students examine the difference between entrepreneurship and innovation. Through case study reviews and other activities, the class evaluates the viability of new business enterprises and develops strategies to market them successfully. Prerequisite: Introduction to Entrepreneurship (MAN-107) or instructor approval.

MAN-207 3 Credits
Small Business Management

Starting and managing a small business requires strong leadership capabilities and unique business and management skills. The purpose of this course is to introduce students to the issues small business owners must understand to become a successful start-up or to manage an existing business successfully. This practitioner-oriented course focuses on helping students understand their leadership capabilities and to compare their capabilities with the necessary requirements. Students will prepare a business plan to help understand the importance of effective planning and conduct a field study that involves surveying successful small business owners to understand how these owners successfully manage their businesses. Prerequisite: Principles of Accounting II (ACC-102) or Accounting Information Systems (ACC-105); and Principles of Management (MAN-111) and Principles of Marketing (MAN-105) or permission of instructor.

MAN-215 3 Credits
Project Management

This course examines concepts and applied techniques for cost-effective management of both long-term development programs and smaller short-term projects. Special focus on planning, controlling, and coordinating efforts of multiple individuals and/or working groups, such as those found in large scale software and engineering programs, and in critical research and development projects. Case studies and classroom simulations are used extensively to teach students the effective integration of analytical/technological tools and organizational design and supervisor approaches. Prerequisites: Application/Concepts (CIT-110) and Foundations of Algebra (MAT-097) and Principles of Management (MAN-111). Students enrolled in the Gas Utility Technology degree must complete IT Problem Solving (CIT-113) and Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) and Pre/corequisite: Leadership for the Utility Professional (GUT-105).

MAN-299 3 Credits
Business Internship

This course enhances the academic experience for students. All internships take place at pre-approved sites. Students engage in activities that improve knowledge of the practical world of work and help them gain professional experience. The internship experience applies resources gained from students' study to improve the quality of their contributions to the employer. A faculty coordinator supervises and grades all courses. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: Permission of the department chair.

Math**MAT-093** 3 Credits
Foundations of Mathematics

Topics include solving applied problems with whole numbers, decimals and fractions; ratios and proportions; rates; percentages and applications in sales tax, interest, commissions, and discounts; determining numerical averages and medians; exponents and square roots; measurement; and geometry. Technology is incorporated to facilitate problem solving. This course does not satisfy degree requirements. Course requires an additional lab hour. Upon completion of this course with a grade of C or higher, students enroll in Foundations of Algebra (MAT-097).

MAT-097 3 Credits
Foundations of Algebra

This course is a continuation of Foundations of Math (MAT-093). Topics include algebraic expressions, solving and graphing linear equations and inequalities, exponents and scientific notation, introduction to polynomials, and systems of linear equations and their graphs. Technology is incorporated to facilitate problem solving. This course does not satisfy degree requirements. Prerequisite: Grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level course. Course many require an additional lab hour.

MAT-098 3 Credits
Pre-Statistics

This course is designed as a substitute for Foundations of Algebra (MAT-097) for non-STEM students who will be taking Statistics I (MAT-181) for their program requirements. Topics include being able to summarize and analyze data distributions both numerically and graphically. Evaluating linear equations while understanding the concepts of slope, intercepts, inequalities, correlation and regression will be discussed. The concept of probability and probability distributions will be introduced for both discrete and continuous variables. This course does not satisfy degree requirements. Prerequisite: Grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level course.

MAT-099 3 Credits
Intermediate Algebra

This course is a continuation of Foundations of Algebra (MAT-097). Topics in this course include polynomial arithmetic, introduction to functions, factoring, roots and radicals, rational expressions, absolute value inequalities, quadratic equations and the quadratic formula, and solving applied problems. This course does not satisfy degree requirements. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or exemption by placing into higher level course. Course may require an additional lab hour.

MAT-100 3 Credits
Topics in Career Math

This course applies basic arithmetic techniques to the following business topics: percentage, trade and cash discounts, merchandising, depreciation, simple and compound interest, and present value. The course covers additional topics that faculty choose from taxes, payroll, statistics, insurance, notes and drafts, installment buying, checking accounts, inventories, costing out, and the metric system. This course is appropriate only for Associate in Science students in Culinary Arts. Prerequisite: Grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level course.

MAT-133 1 Credit
Introduction to Metric System

This course enables students to recognize and use metric terms, roughly measure using body parts, and use estimation within the metric system.

MAT-171 3 Credits
Finite Mathematics

Set theory, coordinate systems and graphs, matrices and linear systems, linear programming, and probability are considered in this course. Applications to business and the social sciences are emphasized. This course meets General Education requirement for Quantitative Problem Solving. Prerequisites: Grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.

MAT-172 3 Credits
Contemporary Math I

This course covers varied mathematical topics that have applications in contemporary society. Topics include mathematical logic (inductive/deductive reasoning, truth tables, statements, inverse, converse, contrapositive), the real number system, modular arithmetic, numeral systems (base n), number theory (primes, GCF, LCM, Euclidean Division), and patterns and sequences. The course encourages students to interpret, analyze, and evaluate from a mathematical perspective and will incorporate the use of technology or digital media as appropriate. The course meets the General Education requirement for Quantitative Problem Solving. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.

MAT-174 3 Credits
Quantitative Reasoning

This course is designed for students in non-STEM programs of study and fulfills the General Education Requirement for Quantitative Problem Solving. Topics include descriptive statistics, probability, growth phenomena (linear, exponential, and logarithmic), and financial mathematics. There is an emphasis on applications using technology. Spreadsheet software will be integrated into the course and a scientific calculator is required. Prerequisite: A grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.

MAT-181 3 Credits
Statistics I

This course covers statistical concepts and methods. Topics include data organization, averages and variation; elementary probability; binomial, normal, and t -distributions; estimation and hypothesis testing; and linear correlation and regression. The course meets the General Education requirement for Quantitative Problem Solving. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course."

MAT-193 3 Credits
Topics in Algebra/Trigonometry

This course provides an intensive one-semester survey of topics in algebra and trigonometry. Topics include powers of ten, formulas, graphs, simultaneous equations, logarithms, right triangle trigonometry, vectors, sine waves, and complex numbers. Topics are illustrated by applications from electronics and other fields. Use of scientific calculator is required. Prerequisite: Placement or grade of C or higher in Fundamentals of Algebra (MAT-097) or exemption by placing into higher level course.

MAT-194 4 Credits
College Algebra for STEM

This course is designed for science, technology, engineering, computer science, and mathematics students and provides a solid preparation for Precalculus. Course study will focus on functions and their graphs (polynomial, absolute value, rational, radical, piecewise, exponential and logarithmic functions, algebra of functions, analyzing functions, and related applications). Additional topics include: equations and inequalities, complex numbers, conic sections, systems of equations, partial fractions, linear programming, and an introduction to matrices. Technology and digital media resources will be incorporated. Prerequisite: Intermediate Algebra (MAT-099) with a grade of C or higher or exemption by placing into higher level course. The course meets the General Education requirement for Quantitative Problem Solving.

MAT-197 4 Credits
Precalculus

This course covers the following topics: functions and their graphs, polynomial functions, rational and radical functions, exponential and logarithmic functions, elements of trigonometry and trigonometric functions, analytic trigonometry, and sequence and series notation. A graphing calculator is required. Prerequisite: A grade of C or higher in College Algebra-STEM (MAT-194) or exemption by placing into higher level course.

MAT-231 4 Credits
Calculus for Management Science

This one-semester course covers topics designed for students in business, economics, and the social sciences. Topics include limits, differentiation and integration of algebraic, exponential and logarithmic functions, optimization, and other applications. A graphing calculator is required. Prerequisite: A grade of C or higher in College Algebra for STEM (MAT-194) or exemption by placing into higher level course.

MAT-281 4 Credits
Calculus I

This course reviews concepts of functions, graphs and trigonometry to support the exploration of limits, derivatives, and basic integration. Topics will include limits, continuity, algebraic and trigonometric differentiation, applications of the derivative, the definite and indefinite integral, methods of integration, application of integration to determination of area, the Fundamental Theorem of Calculus and integration by substitution. A graphing calculator required. Prerequisite: A grade of C or higher in Precalculus (MAT-197) or exemption by placing into higher level course.

MAT-282 4 Credits
Calculus II

This course is a continuation of Calculus I (MAT-281) and begins with a study of numerical integration. Techniques of integration are applied to the following topics: transcendental functions (including their derivatives), area of region between two curves, volume, integration by parts, trigonometric substitution, partial fractions, and improper integrals. Sequences and series are examined with an emphasis on determining convergence or divergence. Taylor and Maclaurin series will also be studied. A graphing calculator is required. Prerequisite: A grade of C or higher in Calculus I (MAT-281) or exemption by placing into higher level course.

MAT-283 4 Credits
Calculus III

This course is a continuation of Calculus II (MAT-282) and includes plane curves, parametric equations, vectors, vector-valued functions,

tangent and normal vectors, arc-length and curvature, functions of several variables, directional derivatives, gradients, extrema of functions of several variables, Lagrange multipliers, line integrals, Green's Theorem, surface integrals, the Divergence Theorem, Stokes' Theorem, and applications to physical sciences and engineering. A graphing Calculator is required. Prerequisite: A grade of C or higher in Calculus II (MAT-282) or exemption by placing into higher level course.

MAT-285 4 Credits
Ordinary Differential Equations

This course will include first and higher order differential equations and applications, series solutions of differential equations, Laplace transforms, systems of linear first order differential equations and numerical solutions of ordinary differential equations. Emphasis will be placed on analytical techniques and engineering applications aided by the use of computer software. Material on linear systems will be incorporated. Prerequisite: Grade of C or higher in Calculus II (MAT-282).

MAT-291 4 Credits
Linear Algebra

This course will include linear systems of equations, matrix operations, determinants, linear dependency, vector spaces, linear transformations, eigenvalues and eigenvectors. Proofs by mathematical induction and contradiction will be incorporated. Emphasis will be placed on mathematical structure and axiomatic reasoning aided by the use of computer software. Prerequisite: Grade of C or higher in Calculus I (MAT-281).

Medical Imaging

MIG-101 2 Credits
Introduction to Ultrasound

This course provides introductory exposure to the field of diagnostic medical sonography. The history and development of the modality as well as relevant medical terminology and vocabulary will be presented. Other topics discussed include caring for patients across cultural lines, the role of a sonographer in the medical field, and the prevention of repetitive strain injuries. Prerequisite: Acceptance into the Cardiac Sonography Program or the General Sonography program.

MIG-105 3 Credits
Ultrasound Physics and Instrumentation

This course provides students with the theory of ultrasound physics and instrumentation. Topics will include the characteristics of sound waves and the way in which ultrasound is utilized in imaging. Propagation of sound, attenuation and acoustic impedance as well as reflection and scattering will be discussed. Ultrasound equipment components, including transducer construction and recording devices will be covered in great detail. Doppler principles including color Doppler will be examined. Prerequisite: Acceptance into the Cardiac or General Sonography Program.

MIG-106 2 Credits
Introduction to Cardiac Scanning

This course prepares the adult echo student for future clinical placement. Emphasis in this course will be placed upon orienting the student to the on campus ultrasound lab and the ultrasound systems. Topics covered will include cardiac anatomy, and standard imaging planes and acoustic views utilized in Cardiac Ultrasound. The student will begin to practice necessary scanning skills for placement into Cardiac Sonography Clinical I. Prerequisite: Acceptance into the

Cardiac Sonography Program. Corequisites: Introduction to Ultrasound (MIG-101) and Ultrasound Physics and Instrumentation (MIG-105) and Patient Care in Medical Imaging (MIG-109).

MIG-107 2 Credits
Introduction to Medical Radiography

This course covers introductory exposure to the fields of medical radiography and ultrasound. The course covers the history of development of the two modalities, as well as an introduction to radiation protection. The importance of communication between the radiographer and the patient in a diverse environment will be stressed. Other topics will include legal and ethical issues in radiography and medical terminology. This will be a hybrid course, with a web-delivered component. Prerequisite: Admission to the Medical Radiography Program.

MIG-109 4 Credits
Patient Care for Medical Imaging

This lab course covers organization and standards of the medical establishment: basic patient care procedures including vital signs, safety, immobility, body mechanics, and medical asepsis; CPR; and basic EKG, oxygen administration, and venipuncture skills. The importance of communication between the radiographer and the patient will be stressed. Simulated laboratory sessions offer students an opportunity to return demonstrated techniques. Co-requisite: Introduction to Medical Radiography (MIG107) or Introduction to Ultrasound (MIG101).

MIG-111 3 Credits
Imaging Technology I

This course covers topics in physics of special significance in radiography. Specific areas include Newton's Laws, and the concepts of mass force, energy, work, and power. It includes heat and its production and transfer. It emphasizes the physics of wave motion. The course covers some general concepts of modern physics including Einstein's energy equation, the Heisenberg Principle, and quantum concepts. A computer component introduces students to the principles and background of computers. Prerequisite: Acceptance to Medical Radiography Program, Cardiac Sonography or General Sonography Program, or standby status in Cardiac Sonography or General Sonography Program.

MIG-112 3 Credits
Echo I

This course covers a comprehensive study of adult echocardiography. It begins with an introduction to cardiac embryology, M-mode, two-dimensional and Doppler, and color Doppler technique. The course also covers transducer orientation and ultrasound appearance of the normal heart and abnormal echo findings in such conditions as valvular heart disease, prosthetic heart valves, pericardial disease, and cardiac tumors. Prerequisite: Introduction to Ultrasound (MIG101).

MIG-115 4 Credits
Interpretation I

This course covers an integrated approach to the echocardiography technique. Students view the Mayo Clinic tapes and discuss the basic anatomy, transducer positions, and patient preparation that are necessary in the performance of these examinations. Students practice their skill in a hands-on setting and relate this experience to the didactic material presented in their echo classes and on the Mayo tapes. Students discuss pathologic processes to further enhance their understanding of the echo presentation of various valvular heart diseases. Prerequisite: Patient Care for Medical Imaging (MIG109).

MIG-119 3 Credits
Echo II

This course is a continuation of the material introduced in Echo I and Interpretation I. The focus of this course will be on left ventricular function in both systole and diastole. Other topics covered in detail will include cardiomyopathies, and coronary artery disease. A strong emphasis will be placed on cardiovascular physiology as it relates to the disease entities discussed. Sonographic technique, including Doppler will be covered as it relates to the evaluation and diagnosis of cardiac diseases. Prerequisite: MIG-112 & MIG-115. Co-requisite: MIG-205

MIG-120 3 Credits
Radiologic Imaging I

Using lecture and lab sessions, this course presents an introduction to the basic elements necessary for the production of the radiographic image. Course content will include but not be limited to: the role of the radiologic technologist on the healthcare team, the function of the PACS in today's digital department, digital image receptors (CR, indirect and direct DR), analog imaging systems, latent image formation, processing, filtration and beam restrictors, and technique. Prerequisite: Introduction to Medical Radiography (MIG 107).

MIG-122 3 Credits
Positioning I

This course covers basic principles of patient positioning as applied to medical radiography. The course provides both lecture and lab experiences to help students achieve competency in radiographic examination of the chest, abdomen, and upper and lower extremities. Co-requisite: Full-Time Medical Radiography Clinical I (MIG124F) or Part-Time Medical Radiography Clinical I (MIG124P).

MIG-124F 2 Credits
FT Medical Radiography Clinical I

This course introduces students to the hospital and its radiology department. The course centers activities on observation and assisting with various basic radiographic procedures. Students begin to develop competency in the performance of radiographic examinations of the chest, abdomen, and upper extremities. Additional expenses may include supplies, equipment, online tracking software, and/or uniforms. Course meets two (2) days/week with 16 hours of clinical practice weekly.

MIG-124P 1 Credit
Part Time Medical Radiography Clinical I

This course introduces students to the hospital and its radiology department. The course centers activities on observation and assisting with various basic radiographic procedures. Students begin to develop competency in the performance of radiographic examinations of the chest, abdomen, and upper extremities. Additional expenses may include supplies, equipment, online clinical tracking software, and/or uniforms. Course meets two (2) evenings/week with 8 hours of clinical practice weekly.

MIG-126 3 Credits
Positioning II

Using lecture and lab sessions, this course helps students achieve competency in the performance of radiographic examinations of the vertebral column and pelvic girdle. In addition, students study the principle of contrast agent administration in conjunction with radiographic examination of the urinary system, upper and lower gastrointestinal tract and gall bladder. Prerequisite: Positioning I (MIG122). Co-requisite:

Full Time Medical Radiography Clinical II (MIG128F) or Part Time Medical Radiography Clinical II (MIG128P).

MIG-128F 2 Credits
Full Time Medical Radiography II

This course covers a continuation of the clinical experience. Students assist in and observe an increasing number of different radiographic examinations as studied in Positioning I (MIG122). Additional expenses may include supplies, equipment and/or uniforms. Course meets two (2) days/week, with 16 hours of clinical practice weekly. Prerequisite: Full-Time Medical Radiography Clinical I (MIG124F).

MIG-128P 1 Credit
Part Time Medical Radiography Clinical II

This course covers a continuation of the clinical experience. Students assist in and observe an increasing number of different radiographic examinations as studied in Positioning I (MIG122). Additional expenses may include supplies, equipment and/or uniforms. Course meets two (2) evenings/week with 8 hours of clinical practice weekly. Prerequisite: Part-Time Medical Radiography Clinical I (MIG124P).

MIG-131 4 Credits
Imaging Informatics I

This introductory hybrid course presents major concepts of state-of-the-art imaging informatics and Picture Archiving and Communication Systems (PACS) administration. Topics presented include but are not limited to: DICOM, DICOM associations, ACR guidelines, the PACS system components, functions and required infrastructure, modality integration, security, and HIPAA compliance. The integration of the PACS system with the Hospital Information (HIS) and Radiology Information (RIS) Systems, and the perspective of various stakeholders of the Imaging Informatics/PACS enterprise environment will be a major focus of this course, with a particular emphasis on the responsibilities of the PACS administrator. Upon completion of this course the student will have the basic knowledge, skills and competencies necessary to administer a PACS system at a fundamental level. Corequisite: Intro to Diagnostic Imaging and PACS (MIG161).

MIG-133 4 Credits
Imaging Informatics II

This hybrid course covers the more complex aspects of Imaging Informatics/Picture Archiving & Communication Systems and proceeds to advanced topics including but not limited to: Data management and image distribution, teleradiology, PACS system security, clinical PACS acceptance, implementation, monitoring and evaluation, common pitfalls and challenges, loading of software onto client servers, archive back-up, disaster recovery, DICOM-based Medical Imaging Informatics, the Electronic Health Record, Computer Aided Diagnosis and integration with PACS, training considerations for staff, and new directions in PACS and Imaging Informatics. This course continues to focus on the duties of PACS administration professionals and covers in more depth the relation to and interaction with the Hospital Information (HIS) and Radiology Information (RIS) Systems as well as PACS Internet applications. Upon completion of this course students will have the knowledge, skills and competencies necessary to administer PACS systems. Prerequisite: a grade of C or better in Imaging Informatics I (MIG131).

MIG-161 3 Credits
Intro to Diagnostic Imaging and PACS

Designed for students with previous experience in Medical Imaging or Computer Science who wish to pursue a career in PACS administration,

this course introduces the students to the history of medical imaging with a focus on state-of-the-art diagnostic imaging, the DICOM standard, and the clinical relevance of PACS to the members of the Radiology Department, referring physicians, the overall delivery of healthcare. For additional information and/or syllabus contact CITDepartment@bhcc.mass.edu. Prerequisite: Admission to PACS certificate program.

MIG-201 4 Credits
Echo III

This continuation course of Echo I and II covers advanced cardiac interpretation and echo features of coronary artery disease and valvular heart disease. Students discuss a basic overview of pediatric echo and congenital heart disease. The course reviews related echo material before placement in the clinical sites. Prerequisite: Echo II (MIG119).

MIG-203 3 Credits
Interpretation II

This continuation course of Interpretation I covers an integrated approach to the echocardiography technique. Students review the Mayo Clinic tapes and discuss the development of skills necessary to exercise independent judgment and discretion in the performance of echocardiographic examinations. Students review and critique weekly case studies. The class uses group demonstrations to highlight the patient/sonographer/physician interactions. Students learn pathologic processes in order to build on their knowledge base in the interpretation of normal and abnormal echo features. Prerequisite: Interpretation I (MIG115).

MIG-205 3 Credits
Vascular Ultrasound

This course covers an introduction to the fundamentals of vascular ultrasound. It includes hemodynamics, Doppler spectral analysis, and duplex visualization of the cerebrovascular system. Content includes carotid, venous and transcranial Doppler techniques. Additional topics include physiological testing of the arterial system. Prerequisite: MIG 105

MIG-207 2 Credits
Ultrasound Physics and Instrumentation for the Cardiac Sonographer

This course is a continuation of Ultrasound Physics and Instrumentation and is designed for the cardiac sonography student to integrate their knowledge of ultrasound physics and instrumentation with clinical practice of actually producing a high-quality diagnostic image. Image quality will be stressed throughout this course through the use of hands-on applications in the ultrasound lab. Additional topics discussed will include: spectral display, image artifacts, bioeffects and safety, as well as discussions relating to 3D ultrasound and contrast agents. Prerequisites: Ultrasound Physics and Instrumentation (MIG105) and Echo II (MIG119).

MIG-211 3 Credits
Cardiac Sonography Clinical I

This course covers the development of students' skills in the performance of echocardiograms at the clinical sites. Under supervision of their clinical instructor and the BHCC clinical coordinator, students gain knowledge through scanning patients in the clinical setting. Students' performances are evaluated through clinical competencies in each related echo area. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week. Prerequisite: Echo II (MIG119). Co-requisite: Echo III (MIG201).

MIG-213 4 Credits
Cardiac Sonography Clinical II

This course covers a continuation of clinical practical experience in echocardiography and further refines students' skill in the performance of echocardiograms. Under supervision of their clinical instructor and the BHCC clinical coordinator, students enhance their interpretive skills and continue hands-on experience at the clinical sites. Students' performances are evaluated through clinical competencies in each related echo area. Additional expenses may include supplies, equipment, and/or uniforms. Course meets four (4) days/week. Prerequisite: Medical Radiography Clinical I (MIG211). Co-requisite: Echo IV (MIG215).

MIG-215 4 Credits
Echo IV/Interpretation

This course covers a continuation of Echo I, II, and III, and deals with advanced echo technique and interpretation. The course covers related procedures such as angio, thallium, muga studies, EKG, and coronary artery sonography. Students compile a folder of exams, videos, and related medical findings to present in class. The class focuses on helping students coordinate the multi-facets of an examination including the interpersonal relationships and professional or ethical situations that may arise. Prerequisite: Interpretation II (MIG203).

MIG-216 2 Credits
Advanced Interpretation Seminar

This is an interactive course that provides the cardiac sonography student an opportunity to enhance their cardiac sonography interpretation skills through the use of slides, videos, and CD Rom material of actual case studies. A review of cardiovascular principles and instrumentation will occur and the student will participate in mock registry question segments through the use of ARDMS registry preparation material. Prerequisites: Cardiac Sonography Clinical I (MIG211) and Cardiac Sonography Clinical II (MIG203). Co-requisite: Echo IV/Interpretation (MIG215).

MIG-217 4 Credits
Cardiac Sonography Clinical III

This course covers a continuation of clinical practical experience in echocardiography. Under supervision of the clinical instructor and the BHCC clinical coordinator, students enhance their skills in performing echocardiograms. Faculty evaluate students' performances through clinical competencies in each related echo area. Students gain competency in the performance of echocardiograms. Students also obtain related experience in examinations such as stress echo and transesophageal. Additional expenses may include supplies, equipment, and/or uniforms. Course meets five (5) days/week. Prerequisite: Cardiac Sonography Clinical II (MIG213).

MIG-220 2 Credits
Positioning III

This course applies the fundamentals of Positioning I and II to advanced level radiographic examinations. Lecture and lab sessions cover anatomy and radiography of the skull, facial bones, and sinuses, TMJ, mastoids, and other advanced skull exams. The course provides an introduction to advanced exams including arthrograms and myelograms. Prerequisite: Positioning II (MIG126).

MIG-222F 3 Credits
Full-Time Medical Radiography Clinical III

This course allows students to expand upon skills developed during earlier clinical experience. Students assume more direct responsibility for specific radiographic examination. Additional

expenses may include supplies, equipment, and/or uniforms. Course meets four (4) days/week with 32 hours of clinical practice weekly. Prerequisite: Full-time Medical Radiography Clinical II (MIG128F).

MIG-222P 1 Credit
Part Time Medical Radiography Clinical III

This course allows students to expand upon skills developed during earlier clinical experience. Students assume more direct responsibility for specific radiographic examinations. Additional expenses may include supplies, equipment, and/or uniforms. Course meets two (2) evenings/week, with 8 hours of clinical practice weekly. Prerequisite: Part-Time Medical Radiography Clinical II (MIG128P).

MIG-224 3 Credits
Radiologic Technology II

Using lecture and lab sessions, this course presents the x-ray circuit in form and function. Topics include, but are not limited to, characteristics of x-rays, wave-particle duality, x-ray production, target interactions, photon interactions with matter, digital and conventional fluoroscopy, and electronic imaging units. Prerequisite: Imaging Technology I (MIG111).

MIG-226 3 Credits
Radiologic Imaging II

Using lecture and lab sessions, this course explores the concepts of quality assurance, quality control and film critique. Additional topics include but are not limited to: advance digital concepts, cardiovascular and interventional techniques, computers in imaging, and special radiographic procedures. Prerequisite: Radiographic Imaging I (MIG120).

MIG-227 1 Credit
Pharmacology of Radiology

This course is designed to provide basic concepts of pharmacology to the medical radiography student. Content includes chemical, generic and trade names for select drugs; pharmacokinetic and pharmacodynamic principles of select drugs; classification of drugs; action, effects, uses and side effects of select drugs on imaging procedures; categories of contrast agents; pharmacology of barium and iodine compounds; dose calculations for adult and pediatric patients; legal and ethical status of the radiographer's role in drug administration; and the radiographer's professional liability concerning drug administration. This course has a web-based component. Prerequisites: Patient Care for Medical Imaging (MIG109) and Anatomy and Physiology II/Lab (BIO204).

MIG-228F 3 Credits
Full-Time Medical Radiography Clinical V

This course allows students to develop additional experience in the materials covered in Positioning I, Positioning II, and Positioning III, and to further expand their clinical skills. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week with 24 hours of clinical practice weekly. Prerequisite: Full-time Medical Radiography Clinical III (MIG222F).

MIG-228P 5 Credits
Part-Time Medical Radiography Clinical V

This course allows students to develop additional experience in the materials covered in Positioning I, Positioning II, and Positioning III, and to further expand their clinical skills. Additional expenses may include supplies, equipment, and/or uniforms. Course meets five (5) days/week, with 35 hours of clinical practice weekly. Prerequisite: Part-time Medical Radiography Clinical III (MIG222P).

MIG-230 3 Credits
Radiation Protection

This course covers an overview of the effects of ionizing radiation on the human body and the protective measures available to minimize those effects. The course examines the effects that produce somatic as well as genetic changes. This course stresses methods of limiting and monitoring radiation exposure to personnel, patients, and the general population. Students gain a personal frame of reference regarding the importance of this issue today. Prerequisite: Radiologic Imaging II (MIG226) for day option only. Co-requisite: Radiologic Imaging II (MIG226) for evening option.

MIG-234 2 Credits
CT/Cross Section Anatomy

This course introduces students to CT (Computerized Axial Tomography) history, the development of CT equipment configuration, and the basic scanning protocols. The course exposes students to cross-sectional anatomy, which is necessary for proficiency in the areas of CT, Ultrasound, and MRI. Prerequisite: Anatomy/Physiology II/Lab (BIO204).

MIG-236F 3 Credits
FT Medical Radiography Clinical V

This final phase of medical radiography instruction allows students an opportunity to review and assess clinical skills acquired during their training. At the end of this rotation students are clinically proficient in general radiography. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week with 24 clinical hours of practice weekly. Prerequisite: Full-Time Medical Radiography Clinical IV (MIG228F).

MIG-236P 5 Credits
PT Medical Radiography Clinical V

This final phase of medical radiography instruction allows students an opportunity to review and assess clinical skills acquired during their training. At the end of this rotation students are clinically proficient in general radiography. Additional expenses may include supplies, equipment, and/or uniforms. Course meets five (5) days/week with 40 clinical hours of practice weekly. Prerequisite: Part-Time Medical Radiography Clinical IV (MIG228P).

MIG-238 2 Credits
Advanced Medical Radiography Seminar

The focus of this capstone course is the transition from student technologist to entry-level technologist. A variety of learning activities, including case studies and a research project, will be utilized to promote critical thinking. The course will also focus on professional development, credentialing, lifelong learning, and cultural competence in the workplace. A review module will prepare students for success on the American Registry of Radiologic Technologists Examination. Additional expenses will include certification mock exam software. Prerequisites: Radiologic Technology II (MIG224) and Radiologic Imaging II (MIG226).

MIG-251 3 Credits
Advanced PACS Seminar

This capstone seminar explores the day-to-day responsibilities of a PACS administrator. Topics discussed include the responsibilities of the position, the expectations of various stakeholders in healthcare delivery, and the impact of PACS performance on healthcare delivery. The issues of maintenance, considerations for purchase of a system, frequently asked questions, and the process of rolling out a new system are also explored. Co-requisite: PACS Administration I (CIT141). Prerequisite: Intro to Diagnostic Imaging and PACS (MIG161).

MIG-261 3 Credits
Sectional Anatomy

This interactive, web-based course is designed to provide an in-depth look at sectional anatomy, and its particular relevance to the fields of CT and MR. Prerequisites: Anatomy/Physiology I (BIO203), Anatomy/Physiology II (BIO204), or current ARRT, NMTCB or ARDMS registry status.

MIG-299 3 Credits
PACS Administration Internship

This course enhances the academic experience for students. All internships take place at pre-approved sites. The course allows students to apply learned skills in the actual medical environment. Students must complete weekly didactic work in addition to the clinical hours. Students must comply with the Internship requirements, as stated in the Internship Handbook, before registering for the course. Criminal Offender Record Information (CORI) checks will be conducted on all students before placement, and the outcome may impact the student's eligibility to participate in the internship experience. Admission to the PACS Certificate Program does not guarantee internship placement. Prerequisite: Acceptance in PACS Administration Certificate.

MIG-299B 3 Credits
PACS Business Internship

This 100-hour internship enhances the academic experience for students. All business internships take place at pre-approved industry sites with mentoring by industry representatives. Professionals with clinical experience will benefit from the industry perspective of relevant training for imaging informatics, including daily challenges such as the identification of customer needs, collaboration with healthcare stakeholders in designing appropriate PACS systems, implementation concerns and actual issues, as well as the evaluation of customer satisfaction. This 100-hour business internship will also enable students to explore career options in the business sector of imaging informatics. Students are responsible for providing their own transportation to and from the business internship site. Students must comply with all corporate policies, as directed by the industry mentor at the site, as well as all BHCC policies. Prerequisite: Admission to the Imaging Informatics Online Certificate Program.

Medical Laboratory Assistant**MLA-120** 1 Credit
Medical Terminology Clinical Lab Prof

This course explores the roots of all medical terminology as it pertains to clinical laboratory professionals. Prerequisite: Admission to the Program.

MLA-121 4 Credits
MLA I: Phlebotomy & Specimen Processing

This course explores the nature and scope of phlebotomy and specimen processing. The primary focus will be on the role of proper collection and handling of patient samples. Students will learn the methods needed for proper specimen processing, set up, and waived testing procedures. Prerequisite: Admission to the Program.

MLA-222 4 Credits
MLA II: Clinical Laboratory Techniques

This course is designed for the Medical Laboratory Assistant (MLA or CLA). This course consists of the clinical laboratory techniques needed to develop skills with the use of a microscope, instrumentation management including quality control and maintenance, proper pipetting skills, laboratory information

system (LIS) and how to support clinical laboratory staff. Prerequisite: Medical Terminology and MLA I with a grade of B- or better.

MLA-223 4 Credits
MLA III: Clinical Practicum

Students acquire knowledge and experience of laboratory practices and procedures at one of the college's clinical laboratory affiliates. The practicum prepares the student in an actual clinical work environment. Rotation order through departments is subject to affiliate laboratory schedules. Prerequisites: Successful completion of MLA I and MLA II with a grade of B- or better.

Medical Lab Technician**MLT-101** 4 Credits
Introduction to Medical Lab Science and Urinalysis

This course explores the nature and scope of work in the clinical laboratory. The primary focus will be the role of the laboratory in the healthcare system, duties of the Medical Laboratory Technician and professional conduct, safety in the laboratory, laboratory mathematics and quality control. The laboratory will include exercises that reflect each of the major clinical laboratory sub-disciplines: Clinical Chemistry, Diagnostic Microbiology, Hematology, and Blood Banking. Additional laboratory exercises will focus on routine urinalysis as well as normal and abnormal physiological functions of the renal system. A phlebotomy unit will teach the fundamental skills required to collect blood specimens for testing. Class meets: 3 hrs. lecture; 3hrs. lab Prerequisite: Admission to the Medical Laboratory Technician program.

MLT-211 4 Credits
Hematology & Hemostasis

This course consists exploring the theory and practice of routine hematology. Topics include the collection and handling of clinical specimens, the origin, development, and function of human blood cells in health and disease, hemostasis, and coagulation, automation, and quality control. Routine hematology and coagulation testing will be emphasized. Class meets 3hrs. lecture; 3hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101, Medical Microbiology and Lab (MLT-212), Immunology and Serology (MLT-213), Immunohematology (MLT-241), and Clinical Chemistry (MLT-242).

MLT-212 4 Credits
Medical Microbiology & Lab

This course is a comprehensive study of both theory and practical aspects of clinical microbiology. Emphasis will be placed on the collection and handling of clinical specimens as well as the primary isolation and identification of the most frequently encountered bacteria pathogenic to humans. Other topics discussed include antimicrobial chemotherapy and host resistance. Other organisms examined include fungi and parasites. This course is open only to admitted CLS students. Class meets 3 hrs. lecture; 3 hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101) and Immunology and Serology (MLT-213).

MLT-213 4 Credits
Immunology & Serology

This course introduces the theoretical principles of immunology which involve the structure, function, and interactions of the immune system. The serological techniques useful in the diagnosis of many diseases will be reviewed and performed. Class meets: 3hrs. lecture; 3hrs. lab. Prerequisites: Admission to program.

MLT-241**Immunohematology**

4 Credits

This course consists of the study of the genetic basis and immunological interaction of the major blood group antigens and antibodies. Topics will include compatibility testing, antibody screening and identification techniques, blood donation, transfusion therapy, record keeping, and quality control techniques. Class meets: 3hrs. lecture; 3hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101) and Immunology and Serology (MLT-213).

MLT-242**Clinical Chemistry**

4 Credits

The primary focus of the course is the biochemical analysis of blood and body fluids in health and disease. Topics include routine manual and automated testing methods, electrophoresis, molecular techniques, safety practices and quality control. Class hours: 3hrs. lecture; 3 hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101) and Immunology and Serology (MLT-213).

MLT-251**Clinical Laboratory Sciences Practicum**

12 Credits

This course consists of practicum experiences at one of the college's clinical affiliates in which the student acquires knowledge and experiences in laboratory practices and procedures. Prerequisites: A grade of B- or higher in Immunohematology (MLT-241) and Clinical Chemistry (MLT-242).

Magnetic Resonance (MR)**MRC-111****MR Concepts I**

3 Credits

This interactive, web-based course begins with MR screening and safety, legal and ethical principles, patient assessment, monitoring and management and interpersonal communications. Other content includes infection control, MR instrumentation, fundamental principles, data manipulation and sequence parameters and options. Prerequisite: Acceptance into MR Certificate Program.

MRC-211**MR Concepts II**

3 Credits

This interactive, web-based course presents MR imaging procedures of the head and neck, spine, thorax, abdomen, pelvis and musculoskeletal system, including protocol considerations, contrast, and patient positioning. Other content includes but is not limited to sequence parameters, image quality, quality assurance, and quality control. Prerequisite: MR Concept I (MRC111).

MRC-299**MR Clinical Internship**

3 Credits

This 100-hour clinical introduction will enhance the academic experience for students by introducing them to the clinical practice of MRI. Students are responsible for providing their own clinical site. Clinical sites must be pre-approved by program faculty. Students must comply with the clinical policies, as stated in the Internship Handbook, before attending clinical. Criminal Offender Record Information (CORI) check will be conducted on all students before placement, and the outcome may impact the student's ability to participate in the internship experience. Health clearance is also required prior to participation. Prerequisite: MR Concepts I (MRC-111).

Music**MUS-101****Music Fundamentals**

3 Credits

This course serves as an introduction to reading and making music. Topics include pitches, rhythms, scales, intervals, chords, and other music terminology. This course also introduces ear training, performance skills, and critical thinking about music. No prior musical experience is required. This course satisfies General Education requirement "Creative Work". Prerequisites: Grade of C or higher in Academic Reading II (ESL-088) and Academic Writing II (ESL-089); or Reading Skills I (RDG-090) and Writing Skills I (ENG-090); or Integrated ELL Level I (ELL-101); or exemption by placing into higher level courses.

MUS-105**Music Theory and Aural Skills I**

4 Credits

In this course, students develop an understanding of how music works. Through analysis, composition, and other exercises, students learn the theory of music, with particular emphasis on chord progressions and their relationship to melody and song structure. Additionally, in the laboratory component of this course, students will develop their musicianship skills through the sight-reading of melodies, rhythms, and chords, as well as recognizing them by ear. This course is designed for music majors, but is open to any student with introductory music reading ability. Prerequisite: Music Fundamentals (MUS-101) or permission of the department chair.

MUS-106**Music Theory and Aural Skills II**

4 Credits

This course continues the development of analytical and practical music skills begun in Music Theory and Aural Skills I. Through the examination and composition of music, students explore more advanced theoretical elements, including chromatic harmony and musical form. In the laboratory component of this course, students will continue to develop their sight-reading and dictation abilities. Prerequisite: Music Theory and Aural Skill (MUS-105) or permission of the department chair.

MUS-113**Jazz Ensemble**

1 Credit

This course focuses on the rehearsal and performance of jazz and related styles of music. Students develop their music reading and improvisation ability, in addition to general performance skills associated with the small jazz ensemble. This course is designed for students with previous experience in music. An audition is required. This course may be repeated for credit. Prerequisite: Audition

MUS-116**Popular Music Ensemble**

1 Credit

This ensemble rehearses and performs a variety of modern popular music, including rock, R&B, pop, hip hop, country, and other styles. Students will develop their instrumental or vocal ability, musicianship, and other performance skills. This course is designed for students with previous experience in music. An audition is required. This course may be repeated for credit. Prerequisite: Audition

MUS-120**College Choir**

1 Credit

The College Choir rehearses and performs a diverse repertoire of vocal music, from classical to pop and other styles from around the world. In this course, students will develop their singing ability, musicianship, and general performance

skills. This course is open to singers of all skill levels and experience, but an audition is required. This course may be repeated for credit. Prerequisite: Audition

MUS-130**Music Appreciation**

3 Credits

An introduction to listening to and discussing music, this course draws on music from a variety of styles, eras, and nations. Through a broad exploration of music's evolution through history, this course examines the core components of music and their connection to society and culture. No prior musical experience is required. This course satisfies General Education requirement "Creative Work". It is not an eligible Music Elective for students in the Music Concentration. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MUS-133**Music History I**

3 Credits

This course is a survey of the history of music from antiquity through the Classical period (around 1800). While focusing on art music of the Western world, this course aims to relate course topics to music of all time periods, cultures, and styles. Students will develop an understanding of the evolution of music through the centuries, as well as the culture, politics, technology, and human drama that shaped that music. This course is designed for music majors, but is open to any students with rudimentary knowledge of music. Prerequisites: Music Fundamentals (MUS-101) or permission of department chair and a grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MUS-134**Music History II**

3 Credits

This course continues the survey of the history of music covering the Romantic period (around 1800) through the present. While focusing on Western art music this course aims to connect the music covered in class to the music of other cultures, eras, and styles. Students will examine the development of music through the emergence of the modern world, as well as the culture, politics, technology, and human drama that shaped it. This course is designed for music majors, but is open to any students with rudimentary knowledge of music. Prerequisites: Music History I (MUS-133) or permission of department chair and a grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MUS-141**Rock & Roll History**

3 Credits

This course is a survey of rock music and its history. This course covers the various styles of rock, from its early roots to the music of the present, in addition to other closely-related styles of music. Students will examine the musical aspects of the genre and its major figures, as well as the social, economic, political, and technological factors that shaped its development. No prior musical experience is required. This course meets the General Education requirement for Creative Work. Prerequisites: A grade C or higher in Academic Reading II (ESL-088) and Academic Writing II (ESL-088); Writing Skills I (ENG-090) and Reading Skills I (RDG-090); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

- MUS-144** 3 Credits
World Music
Formerly MUS-161, this course serves as an introduction to the diverse musical traditions of the world. Students will explore the music of a variety of cultures and regions, and come to understand how it is shaped by social customs, geography, history, and cross-cultural interaction. No prior musical experience is required. This course satisfies General Education requirement "Creative Work". Prerequisites: A grade of C or higher in Academic Reading II (ESL-088) and Academic Writing II (ESL-089); or Reading Skills I (RDG-090) and Writing Skills I (ENG-090); or Integrated ELL Level 1 (ELL-101) or exemption by placement testing.
- MUS-147** 3 Credits
Music in the United States
A survey of musical traditions in the United States, this course covers the development of folk, popular, and art music from the Colonial period to the present. Students will explore how social, historical, political, and economic factors have affected the development of American music. No prior musical experience is required. This course meets the General Education requirement for Creative Work. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses"
- MUS-151** 2 Credits
Piano I
This course provides group keyboard instruction for the beginner. Students develop introductory keyboard technique, musicianship skills, and sight-reading ability through the performance of simple pieces from a variety of musical styles. This course is open to all students regardless of prior experience. Prerequisites: None.
- MUS-152** 2 Credits
Piano II
A continuation of Piano I (MUS151), this course provides further instruction in keyboard skills. Students continue to develop technical and musicianship proficiency through the performance of elementary and intermediate repertoire. Prerequisites: Piano I (MUS151) or chair approval.
- MUS-156** 2 Credits
Beginning Guitar
This course provides group instruction in guitar for the beginner. In playing music from a variety of styles, students will learn foundational techniques, including chord shapes, strumming, picking, scales, and basic music reading. This course is open to all students, regardless of prior experience.
- MUS-162** 2 Credits
Beginning Voice
This course provides group vocal instruction for singers of all skill levels. Students develop their vocal technique, musicianship skills, and performance ability while singing a variety of musical styles. This course is open to all students, regardless of prior vocal experience.
- MUS-171** 3 Credits
Intro to Music Technology
This course serves as an introduction to the use of technology in the creation of music. Using digital audio software, students learn the basics of sound manipulation, including sequencing, editing, synthesis, and mixing. Additional course topics include the properties of sound, basic recording technology, and music notation software. This course is designed for both music majors and non-majors.
- MUS-180** 3 Credits
Introduction to the Music Business
This course provides an overview of the modern music industry, gained through discussion, hands-on projects, and guest presentations from music business professionals. Course content includes the recording industry, copyright, publishing, promotion, and entrepreneurship, with special attention given to the role of the Internet in the music business. This course also examines the diverse career options available in music. This course fulfills the Learning Community Seminar requirement for first-year, full-time students.
- MUS-195** 1 Credit
Applied Music I
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195A** 1 Credit
Applied Music I: Voice
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195B** 1 Credit
Applied Music I: Guitar
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195C** 1 Credit
Applied Music I: Keyboards
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195D** 1 Credit
Applied Music I: Percussion
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195E** 1 Credit
Applied Music I: Brass
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195F** 1 Credit
Applied Music I: Strings
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195G** 1 Credit
Applied Music I: Woodwinds
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195H** 1 Credit
Applied Music - Conducting
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195I** 1 Credit
Applied Music I: Composition
This course provides individual instruction in Music Composition. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195J** 1 Credit
Applied Music I: Bass
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-195X** 1 Credit
Applied Music I: Specialized Studies
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.
- MUS-208** 3 Credits
Songwriting
This course serves as an introduction to popular songwriting. Through writing original songs and examining a wide variety of popular music, students will examine concepts such as melody, lyrics, chord progressions, and structure. Prerequisite: Music Fundamentals (MUS 101) or permission of the instructor.

MUS-272 **Advanced Music Production** 3 Credits

This course further develops student ability in the production of music, especially in relation to post-production in the home studio. Course topics include the advanced use of signal processors, mixing, the quantization and pitch correction of audio, and advanced use of synthesizers and samplers. Prerequisite: Introduction to Music Technology (MUS171) or permission of instructor.

MUS-295 **Applied Music II** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295A **Applied Music II: Voice** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295B **Applied Music II: Guitar** 1 Credit

This course provides individual instruction in voice or a musical instrument. Course topics will include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-295C **Applied Music II: Keyboards** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295D **Applied Music II: Percussion** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music

majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295E **Applied Music II: Brass** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295F **Applied Music II: Strings** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295G **Applied Music II: Woodwinds** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295H **Applied Music II: Conducting** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295I **Applied Music II: Composition** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295J **Applied Music II: Bass** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of department chair.

MUS-295X **Applied Music II: Specialized Studies** 1 Credit

This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-XXX **Introduction to Music Technology** 3 Credits

This course serves as an introduction to the use digital audio software, students learn the basics of sound manipulation, including sequencing, editing, synthesis, and mixing. Additional course topics include the properties of sound, basic recording technology, and music notation software. This course is designed for both music majors and non-majors.

Medical Coding**NHP-180** **Medical Terminology** 3 Credits

This course provides instruction in the development of basic medical terminology. Competency in medical terminology promotes effective communication among members of the healthcare team.

Nursing**NUR-095** **Success in Nursing** 3 Credits

This introductory course focuses on assisting students to adapt to the upcoming challenges in the nursing curriculum. The course emphasizes test-taking skills, study skills, critical thinking, learning styles, and therapeutic nurse-patient communication and beginning nursing concepts. The course is designed for nursing students accepted to the nursing program in the fall semester and those students planning to apply to the Nursing Program. Course meets: 3 hrs. lecture.

NUR-099 **Nursing Pathways** 2 Credits

This course is designed for students who are seeking readmission to the nursing program. This course will assist students in analyzing their study skills, and designing a path for successful completion of the nursing program. Topics include time management, stress reduction, adapting study skills, and test-taking techniques and practice. Students are encouraged to use introspection and critical thinking as they

formulate a plan that will enable them to complete the nursing program and take the licensure exam after graduation. Computer software and small group work for problem solving in answering multiple-choice questions will be utilized.

NUR-120 10 Credits
Foundation of Patient Centered Care

This course provides an introduction to nursing and roles of the nurse as well as professional related and patient care concepts. Emphasis is placed on the knowledge, skills and attitudes needed to provide safe, quality care. It provides the framework for preparing students to perform a basic health assessment on adult patients including older adults. The theoretical foundation for basic assessment and skills is presented, and the student is given an opportunity to demonstrate these skills in the laboratory and clinical setting. An introduction to the nursing process provides a decision-making framework to assist students in developing effective clinical judgement. Additional expenses may include supplies, equipment and/or uniforms. Course meets: 7 hours lecture; 3 hours simulation lab; 6 hours clinical practice in selected health care facilities. Prerequisites: Acceptance into the nursing program, Anatomy/Physiology/Lab (BIO-203) and College Writing (ENG-111)

NUR-150 10 Credits
Patient-Centered Care-Adult & Mental Health

This course focuses on the care of adult patients with health alterations that require medical and/or surgical intervention as well as patients who are experiencing cognitive, mental and behavioral alterations. Emphasis is placed on the care of patients with alterations in mental health selected body functions. Concepts of client centered care, cultural sensitivity, informatics, safe practice, and professionalism are integrated throughout the course. Concepts of crisis intervention, therapeutic communication, anger management and coping skills are also integrated. Clinical experiences provide the student an opportunity to apply theoretical concepts and implement safe client care to adults in a variety of settings. Additional expenses may include supplies, equipment, and/or uniforms. Course meets 6 hours lecture; 1.5 hours simulation lab; 12 hours clinical practice in selected health care facilities. Prerequisites: Anatomy/Physiology II BIO-204 and Foundations of Patient-Centered Care NUR-120.

NUR-213 1 Credit
Nursing Seminar

This seminar focuses on current health care issues and the ethical, legal, and professional framework necessary for nursing practice. The course assists in the transition from student nurse to beginning practitioner. The course utilizes a variety of learning activities that promote critical thinking. The course explores topics such as conflict resolution, cultural competence, health care access, empowerment, and lifelong learning. Course meets: 1 hr. lecture. Prerequisite: Nursing III (NUR211).

NUR-220 10 Credits
Patient-Centered Care of Adults & Families

This course focuses on patient-centered care of adults with complex health alterations as well as an integrated family approach to mothers, newborns, and children. Emphasis is placed on helping adult patients cope with alterations in body functions. Additional focus is placed on normal growth and development, common pediatric conditions, and the child-bearing family. Concepts of quality improvement, leadership, professionalism, evidence based practice.

Informatics, teamwork and collaboration will be integrated throughout the course. Clinical experience provides an opportunity to apply theoretical nursing concepts and implement safe care to patients across the lifespan. Additional expenses may include supplies, equipment, and/or uniforms. Course meets: 6 hours lecture; 1.5 hours simulation lab; 10.5 hours clinical practice in selected health care facilities. Prerequisites: Microbiology/Lab BIO-205, Human Growth & Development PSY-213, Patient Centered Care of Adults and Mental Health Concepts NUR-150.

NUR-250 9 Credits
Patient-Centered Care of Adults with Multisystem Disorders and Transition to Practice

This course focuses on advanced concepts of nursing care of adult patients with complex, multisystem alterations in health. Complex clinical skills, as well as concepts of patient-centered care, safety, quality improvement, professionalism and leadership, are integrated throughout the course. Focus on time management and organizational skills while managing the care of patients with multiple needs and collaborating with the inter-professional team are integrated in this course. This course also facilitates the transition of the student to the roll of professional nurse. Developing the skills of delegation, conflict management, and leadership will be addressed. Legal and ethical issues are discussed with a focus on personal accountability and responsibility. Standards of practice and the significance of functioning according to state regulations and statues are analyzed. Clinical experiences provide the student with the opportunity to apply theoretical nursing concepts and implement safe care to patients will functioning in a leadership role. Additional expenses may include supplies, equipment, and/or uniforms. Course meets: 6 hours lecture; 1.5 hours simulation lab; 7.5 hours clinical practice in selected health care facilities. Prerequisites: Patient Centered Care of Adults & Families NUR-220.

Office & Information Mgmt

OIM-100 1 Credit
PC Keyboarding Techniques

This is an introductory course in college keyboarding designed for students with little or no keyboarding proficiency as well as those looking to upgrade or refresh their skills. Learning to type properly has never been more important. Using state-of-the-art, hands-on, self-paced software, students proceed from basic lessons through accuracy and speed-building exercises designed to prepare them for careers requiring keyboarding proficiency. Taught through BHCC's on-line eCollege, students submit hands-on progress reports to the course instructor as they proceed through each lesson. Upon completion of this course, students will gain the skill and knowledge necessary to type accurately based on one (1) minute timings at a minimum of 20 words per minute with one (1) error or less. For additional information and/or a course syllabus, contact CITDepartment@bhcc.mass.edu.

OIM-101 3 Credits
Keyboarding: Document Generation I

This course focuses on learning the keyboard and developing keyboarding technique, speed, and accuracy. It introduces the Windows environment and basic word processing skills, such as editing, saving, changing appearance, using spell check, and printing using Microsoft Office 2010. It covers formatting for basic business documents,

such as resumes, letters and memorandums, and discusses health issues and computer concepts as related to keyboarding. Note: The department schedules an exemption test each semester for students with previous keyboarding experience. Students should contact the Prior Learning Coordinator in the Center for Self-Directed Learning (CSDL) or department chair for more information.

OIM-102 3 Credits
Medical Computer Applications

This course uses Microsoft Word, Access, and Excel to cover applications commonly used in the medical office. Students learn the correct form for business letters, merge documents, memorandums, tables, business reports, electronic forms, and medical documents. Emphasis is place on accurate proofreading of documents for format and content. Note: For Allied Health Students or by permission of department chairperson.

OIM-103 3 Credits
Microsoft Word I

(Formerly OIM101) This course uses Microsoft Word and covers applications, including but not limited to font and paragraph settings, page setup, table format, headers and footers, page numbering in sections, footnotes, citations, bibliographies, mail merge and envelopes, spell check and thesaurus, and electronic forms. Students create documents commonly used within academic and business settings. Students develop correct keyboarding technique in order to meet the industry standard for speed and accuracy. Note: An exemption exam for students with previous keyboarding experience is available through the Center for Self-Directed Learning each semester by contacting the Prior Learning Coordinator.

OIM-104 1 Credit
OIM Career Exploration

This online course provides students with the tools needed to evaluate their career goals and to explore strategies for securing employment within the office and/or medical office job market. Students will complete modules that engage them in activities designed to evaluate values, skills, and interests as related to their prospective careers. Students will use resources on the BHCC portal and elsewhere to explore individual careers and research employers and the local job market. Resumes and cover letters will also be completed.

OIM-105 3 Credits
Skills for Administrative Success

(Formerly OIM-199) Students explore career opportunities in related office administration fields. This course includes critical thinking and teamwork projects to help students develop the ability to give and receive constructive criticism in a supportive environment. Students complete individual and team projects that use Internet research and library resources. Based on research related to office and information management issues, they develop written and oral presentation skills. Time management, listening, note-taking, and test-taking skills are emphasized. Security issues, legal and ethical issues, and cultural diversity are covered. Current students, alumni, and business personnel will provide perspectives on how to succeed in academia and in the business world. This course will fulfill the Learning Community Seminar requirement for Office and Information Management students. Prerequisites: Writing Skills II (ENG095) or placement and Academic Reading (ESL098) or Reading Skills II (RDG095) or placement. Pre/co-requisite: MS Word I (OIM103) or Document Generation I (OIM101).

OIM-106 3 Credits
Records and Information Management

This course provides an introduction to records and information management (RIM) including alphabetic, subject and geographic filing guidelines, as well as the components of the records management lifecycle, and associated regulatory, privacy, compliance and risk issues. Paper-based systems and electronic file systems will be included. Students will complete hands-on projects using a records management online learning platform as well as use of the Moodle online platform, which is required. Business research using Internet Explorer is integrated with PowerPoint presentations and team assignments to tie together all the various professional skills using a qualitative approach. Pre/co-requisite: Applications/Concepts (CIT110) or Introduction to Microsoft Office (CIT133).

OIM-110 3 Credits
Document Generation II

This course assists students in using Word to create common business documents such as business letters, memorandums, reports with footnotes and endnotes, bibliographies, tables of contents, tables, on-line forms, resumes and newsletters using current industry standards. Students learn to use accelerator keys, macros, templates, bullets and numbering, leaders, merging, sorting, hyperlinks, section breaks, styles, formulas, clip art, WordArt, and column layout. Diagnostic and speed-building exercises are used to improve keyboarding accuracy and speed. A minimal speed of 30 words per minute is strongly recommended. Students acquire skills that are recommended for preparation for MOUS (Microsoft Office User Specialist) certification. Prerequisites: Grade of C or better in Keyboarding Document Generation I (OIM101) and Applications & Concepts (CIT110) or department chair approval.

OIM-112 3 Credits
Microsoft Word II

This course covers intermediate and advanced Microsoft Word applications to create common business documents such as letters, memorandums, tables, reports, desktop publishing flyers, and electronic forms. Students learn to use accelerator keys, macros, templates, bullets, and numbering, headers, merging, sorting, hyperlinks, section breaks, styles, formulas, clip art, WordArt, and column layout. Diagnostic, and speed building exercises are used to improve keyboarding accuracy and speed. A minimal speed of 40 words per minute is strongly recommended. Students acquire skills that prepare them for MOUS (Microsoft Office User Specialist) certification. Prerequisite: Grade of C or better in MS Word I (OIM103) or Keyboarding: Document Generation I (OIM101) and Applications/Concepts (CIT110) or by permission of the department chairperson.

OIM-115 3 Credits
Administrative Technology and Procedures

This course introduces administrative skills vital for employment in business and industry, including telecommunications; mail and copy services; travel, meeting, and conference arrangements; teleworkers/virtual assistants; customer service; and job application techniques. The class develops problem solving, critical thinking, organizational skills, and interpersonal skills while emphasizing work ethics, teamwork, and cultural diversity. To enhance these skills, students work individually and in teams to conduct library and Internet research and give presentations in class. Personnel from area corporations may participate in class discussions. Pre/co-requisites: MS Word I (OIM103), Document Generation I (OIM101) and Applications/ Concepts (CIT110).

OIM-121 1 Credit
OIM Practicum

This field experience takes place after students have completed the coursework required for the administrative support specialist certificate. Students work for 45 hours within a work environment related to their career goals, abilities, and skills. Students complete the OIM Career Exploration course prior to the practicum and participate in a weekly seminar during the field experience. Prerequisites: Students complete all coursework with a grade point average of 2.75 or higher. Students must meet with the Internship Coordinator during the semester prior to completing the practicum.

OIM-130 3 Credits
Business Correspondence/Editing

This course reviews English fundamentals and emphasizes proofreading and editing skills for Business documents. Students compose, edit, and produce business letters and memorandums that are commonly written by administrative assistants. This course utilizes current word processing software. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses and Pre/co-requisite: Keyboarding: Document Generation I (OIM-101).

OIM-132 3 Credits
Administrative Business Communication I

(Formerly OIM130) This course will develop the skills needed to create documents that are used within office and medical office environments. Writing assignments will include emails, memorandums, and letters. Projects utilizing Outlook for email and electronic calendar activities will be completed. Students create PowerPoint presentations based on research related to office procedures and/or office functions. Students will also learn to prepare agendas, implement and conduct business meetings, and develop skills in taking minutes at meetings. Individualized review of fundamental English skills will be based on pre-test results. Proofreading and editing skills both manually and digitally will be included. Prerequisite: Writing Skills II (ENG095) and MS Word I (OIM103) or Document Generation I (OIM101). Note: An exemption exam for OIM132 is available through the Center for Self-Directed Learning for students with previous keyboarding experience by contacting the Prior Learning Coordinator.

OIM-170 3 Credits
Medical Office Procedures

This course includes Windows, word processing, medical office procedures, and computerized medical management software. Students create documents commonly used in a medical office as well as job application materials, using templates, macros, and/or merged documents. Concepts covered include interpersonal communications, telecommunications, billing and collections, reimbursement procedures, records management, and mail classification and procedures. Hands-on experience using computerized medical management software provides practice in entering patient information, diagnostic cases, and financial transactions; processing insurance claims; scheduling patient appointments; and generating commonly used reports. Note: For Allied Health students or by permission of department chair. Prerequisite: Document Generation I (OIM-101), MS Word I (OIM-103), or Medical Computer Application (OIM-102; formerly OIM-142), or any computer applications course or by permission of the department chair.

OIM-190 3 Credits
Medical Information Management

This course covers the medical environment, patient and staff scheduling, medical documents and computerized medical applications, professional activities and travel arrangements for medical staff, health insurance, and HIPAA standards, and ICD and CPT coding. Students use a computerized patient accounting software application to enter patient information, diagnostic and procedure codes, schedule and revise patient and staff appointments, process insurance claims, enter financial transactions, and generate financial reports. Students complete individual team projects that include Internet research as well as a written and oral presentations on an issue related to medical office administration. Pre/co-requisite: MS Word I (OIM103) or Document Generation I (OIM101).

OIM-200 3 Credits
Introduction to Physicians' Billing

This course presents the "revenue cycle" concept to students, which encompasses registration practices and the impact this process has on the billing function. The varied health care delivery systems and the history of the delivery of medical care are presented. The variety of prospective reimbursement systems on data collection, billing, and effective processes are defined and discussed. The principles of ICD and CPT coding, the management of data, and the constantly changing regulations of CMS and other external regulators is reviewed. Technicalities of managing all aspects of claims submission and denial are examined. The course is offered only in the evening. Pre/co-requisite: Medical Terminology (NHP180).

OIM-230 3 Credits
Administrative Business Communication

This course reinforces written (letters, memos, faxes, e-mail, reports, and resumes); verbal (listening, note-taking, telephone messages, voice mail, intercom discussions, and video conferencing); and nonverbal communications (transmission of attitude, facial expressions, hand gestures, and body language). To enhance these skills, students use Internet research to investigate topics related to the office administration field. It includes human relation skills, diversity, cultural sensitivity, and global awareness. This course is offered fall semester only. Pre/co-requisites: Records and Information Management (OIM106), Document Generation II (OIM110), Administrative Technology and Procedures (OIM115), and Business Correspondence and Editing (OIM130).

OIM-232 3 Credits
Administrative Business Communication II

(Formerly OIM230) The course covers human relations skills, non-verbal communication, diversity, cultural sensitivity, and global awareness. Meeting and event planning as well as telephone techniques are included. Students research business-related topics, write formal reports and work in groups to develop PowerPoint presentations. Resumes, cover letters, and mock interviews are included to prepare students for internship placement. Students continue individualized review of English skills as needed. This course is offered fall only. A CORI check may be required to participate in the Office and Information Management Internship. Prerequisite: A grade of C or better in Business Correspondence (OIM130) or Administrative Business Correspondence I (OIM132). Pre/corequisites: Records and Information Management (OIM106), Document Generation (OIM110) MS Word II (OIM112), or Document Generation I (OIM101) and Technology and Procedures (OIM115), or permission of department chairperson.

OIM-299 3 Credits
Office and Information Management Internship

This field experience takes place during the spring semester of the second year and provides specific occupational preparation for office careers. Students work in an off-campus work environment related to their career goals, abilities, and skills. Students participate in seminars prior to internship and during the field experience. This course is offered spring semester only. Prerequisite: Administrative Business Communication II (OIM232 - formerly OIM2330) and permission of the department chairperson or designee. Note: Administrative Business Communication II (OIM232) is offered fall semester only and must be taken the fall semester prior to internship.

Philosophy

PHL-101 3 Credits
Introduction to Philosophy

This course has three principal goals: to expand capacities for deep thinking; to develop skills for understanding and expressing complex ideas; and to consider some profound human questions. Students will encounter a selection of philosophical texts that address enduring philosophical questions. These texts will reflect the chronological, geographical, and social diversity of philosophical inquiry. Students will practice skills for reflective, critical, creative, and integrative thinking, and will demonstrate those skills in understanding and responding to texts, engaging in critical dialogue with peers, inquiring into philosophical questions, and developing and expressing their own philosophical perspectives. This course meets the General Education Requirement for Creative Work. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PHL-103 3 Credits
Ethics

In this course, students will explore ideas about right and wrong. Students will engage with theories in moral philosophy, addressing concepts including rights, responsibilities, consequences, power, harm, equity, and liberation. Students will consider current issues in applied ethics, which will vary, but may include privacy, taxation, parenting, reparations, sexual consent, and/or mass incarceration. Students will practice skills including inclusive interpersonal communication and analysis of observable actions in relation to ethical principles. Students will reflect on and discuss their personal philosophy of right and wrong. The course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) and Academic Writing III (ESL-099) or Reading Skills I (RDG-090) and Writing Skills I (ENG-090); or C or higher in Integrated ELL Level I (ELL-101) or exemption by placement testing.

PHL-290 3 Credits
Special Topics in Philosophy

This course engages students in deeply exploring and contributing to selected topics in philosophy. Students will study works of philosophy; dialogue and exchange ideas with peers; connect philosophical themes to lived experience and contemporary events; and produce seminar papers or other signature work developing and expressing their own philosophical ideas. Course topics vary; the topic will be announced at the time of registration. Prerequisites: ENG 111 and

at least 6 additional college-level credits. Students who have not completed the prerequisites may email [philosophy@bhcc.edu] to request permission to enroll in the course.

Physics

PHY-191 4 Credits
Introduction to Physics/ Lab

This course provides the background for the study of electronics and other technical areas. Topics include classical mechanics, the conservation laws, and electrostatics. This course is for Electric Power Utility Program students and Gas Utility Technology degree students only. Class meets: 3hrs. Lecture; 3hrs. Lab. Prerequisite: A grade of C or better in Topics in Algebra/Trigonometry (MAT193).

PHY-201 4 Credits
General Physics I/Lab

This introductory course covers the principles of physics, using a problem-solving approach. Laws of motion, forces, work and energy, momentum and harmonic motion will be covered. For the biology student this course will provide him or her with an enhanced understanding of the physical aspects of living systems. Laboratory work will reinforce the understanding of physical concepts and promote the development of problem solving skills. This course satisfies the physics requirement of the AS Biological Science program. This course does not satisfy the physics requirement of the AA Chemical Science or Physics/Engineering concentrations or the AS Engineering program. Class meets 3hrs. Lecture; 3 hrs. lab. Prerequisite: Grade of C or better in Precalculus (MAT197).

PHY-202 4 Credits
General Physics II/Lab

This continuation course of General Physics I/Lab (PHY201) covers the following topics: waves and sound, elasticity, fluids, heat, electricity, magnetism, electromagnetic radiation, light and optics and modern physics. As in General Physics I, this course will continue to relate principles of physics to living systems. Laboratory work will further develop the student's skills in data collecting and analysis. This course satisfies the physics requirement of the AS Biological Science program. This course does not satisfy the physics requirement of the AA Chemical Science or Physics/Engineering concentrations or the physics requirement of the AS Engineering program. Class meets 3 hrs. Lecture; 3 hrs. lab. Prerequisite: Grade of C or better in General Physics I/Lab (PHY201).

PHY-251 4 Credits
College Physics I/Lab

This course is an introduction to some of the fundamental principles and concepts of physics, using a problem-solving approach. The topics considered include the basic equations of motion, Newton's laws and their applications, work, energy, momentum, rotational kinematics and dynamics, conservation laws, laws of universal gravitation, and simple harmonic and oscillatory motion. Course meets: 3 hrs. Lecture; 3 hrs. lab. Prerequisite: Grade of C or better in Calculus I (MAT281).

PHY-252 4 Credits
College Physics II/Lab

In the first half of the course, this continuation of College Physics I (PHY251) covers the following topics: basic topics in electricity and magnetism, electromagnetic radiation, the nature of light, and optics. In the second half, the course covers an introduction to some basic ideas in modern physics. It also covers these additional topics: atomic structure, quantization, and nuclear

physics. Course meets: 3 hrs. Lecture; 3 hrs. lab. Prerequisite: College Physics I/Lab (PHY251). Pre/co-requisite: Grade of C or better in Calculus II (MAT282).

Paralegal Studies

PLG-101 3 Credits
Introduction to Law

This course provides students with an understanding of the paralegal field. The course assists students to become familiar with all aspects of the legal system. The course emphasizes the role of the paralegal and the way that role complements that of the lawyer. The course explores the role of law in our society, the judicial system, contract law, tort law, equity, and criminal law. Prerequisites: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PLG-102 3 Credits
Legal Research & Writing

This course covers an introduction to legal writing and proper use of legal terminology in developing and drafting a format for the legal memorandum, preparing briefs, and, in particular, formulating research skills. Prerequisite: Introduction to Law (PLG101).

PLG-103 3 Credits
Litigation

Litigation is a core function of many law firms. Students will learn the rules and requirements necessary to provide effective litigation support in a law office. Topics include the organization and jurisdiction of federal and state courts, the preparation of pleadings, motions, interrogatories, judicial notice, preparation and admission of evidence, subpoenas, depositions and trial notebooks, interviewing clients, trial and appellate procedures, the rules of evidence, and the preparation of cases for hearing or trial. The roles of arbitration, mediation, and negotiation will also be covered. Prerequisites: Introduction to Law (PLG101).

PLG-104 3 Credits
Legal Ethics

This course presents the major areas of legal ethics placing special and comprehensive emphasis on how the rules affect paralegals. It aids students in understanding how the legal profession is regulated generally and the impact that paralegals' conduct has on the lawyers who employ them. Through case studies, geared specifically toward paralegals, demonstrations of the rules are introduced and applied. Prerequisite: Introduction to Law (PLG101).

PLG-105 3 Credits
Practical Legal Writing

This course is intended to be a continuation of Legal Research and Writing (PLG102). The course provides students the opportunity to improve their writing skills for all aspects of working in a legal environment, including legal correspondence, legal memorandums, case briefs, and a variety of court documents. The course covers the structure and jurisdiction of the Federal and Massachusetts Court Systems. Prerequisites: Introduction to Law (PLG101), Legal Research & Writing (PLG102), and College English (ENG111).

PLG-201 3 Credits
Family Law

This course covers the laws concerning family relationship, marriage, cohabitation, adoption, divorce, child custody, support, alimony, and the effects of wills and probate. Prerequisite: Introduction to Law (PLG101).

PLG-202 Business Organizations 3 Credits

Choosing the proper form of business organization can mean the difference between success and failure. Many attorneys are involved in advising their commercial clients regarding the appropriate form of business. This course covers the rules and requirements to establish sole proprietorships, partnerships, limited liability partnerships, limited liability companies, limited liability partnerships, business trusts, corporations and joint ventures. Practical considerations include the preparation and management of the documents necessary for the organization and maintenance of each business entity. Corporate materials are reviewed, as are corporate characteristics, formation procedures, financial structure, meetings, dividends, share ownership, amendments, dissolution, and Massachusetts incorporation procedures. Prerequisite: Introduction to Law (PLG101).

PLG-203 Real Estate Law 3 Credits

This course thoroughly investigates the theory and practice of real estate transactions from the perspectives of both the buyer and the seller. The topics include examination of titles, estates in land, restrictions, easements, covenants, options, deeds, mortgages, and foreclosure proceedings. Prerequisites: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PLG-204 Wills, Estates and Trusts 3 Credits

This course covers the initial investigation and preparation of estates and trusts in detail. Topics include the causes and effects of trusts, wills and probate; litigation and procedural laws. Prerequisites: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PLG-299 Paralegal Internship 3 Credits

An internship in Paralegal Studies is a hands-on learning experience at law firms, public agency, corporations, or other law related organizations, under the direct supervision of a legal professional. It is intended to provide students the opportunity to gain practical experience in their field of study. Students perform 150 hours of internship service over the course of 10-15 weeks, during the spring, fall, or summer semesters. Students meet bi-weekly with their advisor to prepare papers, work on related projects, and share experiences with other students. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisites: Completion of all PLG required courses. Pre/co-requisite: a cumulative grade point average of at least 3.0 in the program and approval of the paralegal faculty internship coordinator.

Pharmacy Technology**PMT-103 Pharmacology for the Surgical Technologist I** 1 Credit

This course provides the student with a basic foundation in pharmacology. This will help prepare the student to safely and appropriately prepare and manage operating room medications, solutions and specimens. This class is a lecture class and meets one hour per week for 15 weeks. Calculations involving fractions and decimals will be reviewed. Students will be

introduced to common medical terminology and weights and measures used routinely in the measurement and administration of medications. Use and understanding of the metric system will be emphasized. Prerequisite: admission into the Surgical Technology Program

PMT-105 Pharmacology for the Surgical Technologist II 1 Credit

This course is the second in a two-course sequence designed to provide the student with a basic foundation in pharmacology. This course is oriented to providing the student with information regarding commonly used pre-operative and post-operative medications. This class is a lecture class and meets one hour per week for 15 weeks. Drugs will be discussed by grouping them into general classes and with important differences among group members being highlighted. The dosage, routes of administration, generic and trade names, common adverse reactions and important drug interactions will be emphasized. Prerequisite: Pharmacology for the Surgical Technologist I (PMT103).

PMT-111 Pharmacy Practice for Pharmacy Technicians I 4 Credits

This course provides the student with a perspective on the role of the pharmacy technician, the genesis of the regulations governing the pharmaceutical industry, and the current status of federal and state laws which must be followed. Emphasis will be placed on handling controlled substances and related record keeping. The roles of the FDA in the drug approval process and post-marketing surveillance, and the DEA in the daily operation of the pharmacy will be discussed. Students will be introduced to common medical terminology and weights and measures routinely used in the practice of pharmacy. The metric system and conversions between the metric system and common household measures will be emphasized. Prerequisite: Acceptance to the Pharmacy Technician Certificate Program

PMT-112 Pharmacy Practice for Pharmacy Technicians II 4 Credits

This course provides the student with the knowledge to be able to begin participation in prescription/order processing in a pharmacy. The course includes an introduction to drug formulation, pharmacy operations, third party billing and inventory control that are essential to working in a pharmacy. Calculations related to routine prescription processing and pharmacy management including calculation of days-supply, refill adjustment and inventory control are emphasized. A general introduction to biopharmaceutics and drug action will be provided. Prerequisite: Pharmacy Practice for Pharmacy Technicians I (PMT111).

PMT-113 Pharmacy Practice for Pharmacy Technicians III 4 Credits

This course provides the student with a basic introduction to the pharmacology of drugs in common use. The course will be taught by examining body systems, e.g. gastrointestinal, and will include discussion of the drugs commonly used in treating diseases affecting the system. Drugs will be discussed by grouping them into general classes and with important differences among group members being highlighted. The dosage, routes of administration, generic and trade names, common adverse reactions and important drug interactions will be emphasized. Calculation of

patient dosage and patient days supply will be used when appropriate. Prerequisite: Pharmacy Practice for Pharmacy Technicians II (PMT112).

PMT-299 Pharmacy Practicum/Seminar 4 Credits

This course combines group discussion in a seminar setting with an internship program based in a live pharmacy setting. The practicum and seminar are designed to give the student practical experience in the basic roles the technician fulfills in the pharmacy and to complete their preparation for transition to the workplace. The experience component encompasses the steps from customer service to prescription processing and prescription production. The shared learning experience in the weekly seminar will be used as a problem-solving group discussion and to prepare the student to apply and compete for work. Prerequisites: PMT-113 and Chair Approval.

Practical Nursing**PNP-111 Practical Nursing I** 10 Credits

The course provides the student with the fundamental concepts and skills upon which the role of the LPN is built. Concepts of Health care delivery throughout the age-related continuum of care are introduced such as patient-centered care, communication, leadership, and professionalism. Basic nursing interventions and the concepts of system-based and evidence-based practice are introduced and interwoven with the importance of safety, quality improvement and cultural diversity. Students acquire physical assessment skills and learn the basics of informatics and technology which are transferred to the clinical setting where teamwork and interdisciplinary collaboration are practiced and encouraged. Additional expenses may include supplies, equipment and uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 6 hours of clinical practice at the college or at selected health care facilities. Prerequisite: acceptance into the Practical Nursing Certificate Program, MAT097, ENG111, BIO203, or BIO204.

PNP-112 Practical Nursing II 12 Credits

This course builds on all the semester I courses and concepts with particular attention to individuals with more complex health care needs and with problems related to alteration in health status. Principles of Nutrition and Pharmacology are applied in relation to health and the disease process. Teaching is an integral component of each unit of study. Subjective and objective data are influenced by culture, age and previous experiences of the patient and is a building block for critical thinking. The nursing process is utilized as the critical thinking tool in assessing this data for the purpose of planning and implementing holistic individualized nursing care. Applications of the concepts of caring and therapeutic nurse-patient relationships are stressed. During the clinical experience, the student will be accountable for providing competent, ethical and legal care in the role of the Practical Nurse. Additional expenses may include supplies, equipment and uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 19 hours of clinical practice per week at the college or at selected health care facilities. Prerequisite: Practical Nursing I (PNP 111), Drug Calculation (NUR 100) and Principles of Psychology (PSY 101).

PNP-113 10 Credits
Practical Nursing III

The student synthesizes and integrates cultural sensitivity and health education to provide safe and effective care and advocate for patients throughout the lifespan. The student outlines and implements a plan of care related to the challenges of the pediatric/MCH/geriatric patient, integrating the concepts of Erikson's developmental stages, and extends care to family and community. Knowledge of medications and nursing implications of administration are expectations in the clinical setting. Legal and ethical principles are taught and adhered to within the scope of practice of the LPN. The leadership role of the practical nurse is defined and practiced in the long-term care setting where patient outcomes are predictably defined. Additional expenses may include supplies, equipment and uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 18 hours of clinical practice per week at the college or at selected health care facilities. Prerequisite: Practical Nursing II (PNP 112).

Portuguese**POR-101** 3 Credits
Elementary Portuguese I

This course covers an introduction to the sounds and structures of the Portuguese language. The video-based, self-paced course emphasizes both Portuguese and Brazilian culture.

POR-102 3 Credits
Elementary Portuguese II

This continuation course of Elementary Portuguese I (POR101) places greater emphasis on reading skills. The video-based, self-paced course stresses more complex Portuguese structures. The course meets General Education Humanities Requirement Area 6. Prerequisite: Elementary Portuguese I (POR101) or one year of high school Portuguese.

Political Science**PSC-101** 3 Credits
Government/Politics in US

This course provides an overview of the foundations, processes, and institutions of the United States federal government. Topics covered include the Constitution, federalism, civil liberties, civil rights, public opinion, the media, political participation, campaigns, elections, public policy, and the organization and functions of the three branches. Special emphasis is placed on the various channels of citizen influence. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses. This course meets the General Education requirement for Community & Cultural Contexts.

PSC-150 3 Credits
Introduction to Political Theory

This course introduces students to political theory through analyzing works of political and moral philosophy. Students investigate the theoretical foundations of various governing systems and apply philosophical frameworks to contemporary topics. Theorists considered will include but not be limited to: Plato, Aristotle, Machiavelli, Hobbes, Locke, Rousseau, and Marx. While the course provides a foundation for understanding canonical Anglo American and European traditions, it includes political theorists from

Africa, Asia, and Latin America, including postcolonial & feminist theorists. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course. The course meets the General Education requirement for Community & Cultural Contexts.

PSC-210 3 Credits
State/Local Politics

This course acquaints students with the structures and functions of state and local governance in the United States with special emphasis on fiscal and social policy. It includes an analysis of political organization, state constitutions, and intergovernmental dynamics. This course meets the General Education requirement for Community and Cultural Contexts Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

PSC-211 3 Credits
Introduction to Comparative Politics

This course offers a cross-national analysis of the domestic politics and political institutions of various nation states, utilizing both qualitative and quantitative tools. Special emphasis is given to the impact of ideology, democratization, and economic development. Prerequisite: A grade of C or higher in College Writing I (ENG-111). This course meets the General Education requirement for Community & Cultural Contexts.

PSC-220 3 Credits
Introduction to International Relations

This course introduces students to the major theoretical debates in International Relations and situates the field within the context of the discipline, Political Science. It focuses on significant ideas, processes and institutions which explain the interrelations between the various actors in the international system, looking specifically at nation states and supranational and international organizations. Special attention is given to research methodologies and to questions of ideology, conflict, trade, finance, human rights, identity based differences (ethnicity, gender, etc.), and the dynamics of globalization. Prerequisite: A grade of C or higher in College Writing I (ENG-111). The course meets the General Education requirement for Community & Cultural Contexts.

Psychology**PSY-101** 3 Credits
Principles of Psychology

This introductory psychology course covers a survey of information and theory. Topics include the brain and behavior, research methods, learning, consciousness, motivation, emotion, human growth and development, personality, abnormal behavior, and psychotherapy, social cognition and understanding. The course meets Community and Cultural Context requirement. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PSY-105 3 Credits
Psychology of Social Relations

This course covers the complex interrelationship between the individual and society. Topics include attitude formation, prejudice, conflict, frustration, cooperation and competition, cultural and interpersonal difficulties involving identity formation, and alienation versus integration.

PSY-107 3 Credits
Group Dynamics

Through class exercises and observation, this course explores the relationship between the theory and experience of effective groups. It examines comparisons of individual and group performance, group goals, problem solving, decision-making, conformity, norms, cohesiveness, and leadership. The course meets General Education requirement Community and Cultural Contexts".

PSY-131 3 Credits
Psychology of Popular Culture

This course is designed to facilitate the development of critical thinking, reading, and writing skills through the psychological study of popular culture. Issues of social psychology, cross-cultural communication, identity development, creativity, violence, and psychological health will be analyzed in a variety of domains of popular culture. Psychological theory and analysis will be applied to youth culture, consumer culture, political campaigns, contemporary music and visual arts, tourism, stand-up comedy, advertising, and the internet. This course meets General Education "Individual and Society" Requirement Area 2.

PSY-141 3 Credits
Social Aspects of Aging

This course will provide a survey of major topics in the psychology of aging. Students will investigate the domains of memory, cognition and intelligence, the social and cultural environment, sensation and perception, language, emotion, spirituality, personality, health behavior, and the living environment. Students will look for common themes across domains, such as change and maintenance of identity with age. Students will learn research methods for studies of aging and will have an understanding of the aging brain.

PSY-201 3 Credits
Learning and Memory

This course is an introduction to current views of behavioral change, learning, and remembering. The focus will be on concepts, theoretical issues, and applications of current research in the fields of behavioral and cognitive psychology. Prerequisite: Grade of C or better in Principles of Psychology (PSY101).

PSY-203 3 Credits
Psychology of Personal Adjustment

This course explores the development and expression of the personality through an examination of processes by which the self-concept is formed. The course surveys the theories of behavioral scientists that have contributed to the study of adjustment. Scientific study of the effects of stress and stress management techniques are included in this curriculum. The course prepares students for advanced study in psychology and places emphasis on critical thinking skills, especially as applied to scientific research. Prerequisite: Grade of C or higher in Principles of Psychology (PSY101) or permission of instructor.

PSY-209 3 Credits
Child Psychology

This course examines the normal physical, cognitive and socio-emotional development of children from conception to age twelve. This course is to be used for meeting the requirements of the A.A. Psychology Concentration or for elective credit in other programs. However, this course may not be used to meet program requirements for degrees or certificates in the ECDev, EDU, or HSV programs. Students may not receive credit for both PSY209

and ECE103 to meet requirements for degrees or certificates for college graduation. Prerequisite: Grade of C or better in Principles of Psychology (PSY101).

PSY-213 3 Credits **Human Growth and Development**

This course examines the theories of the biological, social, and psychological development of human beings throughout the life span. This course may be taken either as a prerequisite course for the pre-nursing program, or as an elective by non-Psychology majors. The course does not satisfy the requirements of the A.A. Psychology Concentration program. Prerequisite: A grade of C or better in Principles of Psychology (PSY101).

PSY-215 3 Credits **Counseling**

This course explores theories and practices in counseling individuals and groups. It explores various theoretical approaches to counseling, and provides practical exercises in counseling. This course is restricted to those students enrolled in the Human Services, Education, Early Childhood Development, Psychology, or Sociology programs or by permission of the department chair of Education, Early Childhood Development, and Human Services or the department chair of Behavioral Sciences. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-219 3 Credits **Social Psychology**

This course covers the complex interrelationship between the individual, small groups, and the greater society. Topics include attitude formation and change, social conflict, prejudice, frustration, and cooperation versus competition and aggression. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-223 3 Credits **Personality**

This course covers distinctive patterns of behavior, including the thoughts and emotions that characterize individuals' adaptation to life. It examines four major approaches to the study of personality: psychoanalytic, behavioral, trait dispositional, and humanistic. Students study varying degrees of emphasis on processes or forces impinging on individuals' interaction with their environment. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-224 3 Credits **Adolescent & Adult Development**

In this course, students study adolescents and adults in the areas of physical, intellectual and social changes, and their emotional growth and development during life stages of adolescence and adulthood. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-227 3 Credits **Abnormal Psychology**

This advanced course for the serious student of psychology covers the history of mental illness and its treatment, modern classification, diagnosis, the theoretical causes of disorders, and treatments. The range of psychopathology extends from the disorder-free person to adjustment reactions, anxiety disorders, personality disorders, and borderline disorders, to psychosis and major disorders. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101) or permission of instructor.

PSY-233 3 Credits **Intro to Psychiatric Rehabilitation**

This course provides an overview of the underlying core values, principles and methods

of psychosocial rehabilitation. Course topics include understanding the experience of mentally ill persons and their paths to recovery; a brief historical background on the emergence of psychosocial rehabilitation as an alternative to traditional models of diagnosis and treatment; the principles of psychosocial rehabilitation and their application to assessment and rehabilitation planning and intervention, practitioner competencies, different program settings; and the role of the family in psychosocial rehabilitation. Prerequisite: Introduction to Psychology (PSY101).

PSY-235 3 Credits **Introduction to Behavioral Research**

This course is an introduction to the ways of discovering, describing, and making warranted assertions about aspects of people and social life. The chief objectives are 1) to help students develop the skills and knowledge necessary to become intelligent critics of research in the behavioral and social sciences, and 2) to give them a rudimentary understanding of the design and evaluation of scientific research. Statistical material is treated in a conceptual manner. Prerequisite: Principles of Psychology (PSY101).

Reading

RDG-090 3 Credits **Reading Skills I**

This course develops basic reading skills necessary for success with college-level material. The course will focus on improving comprehension and vocabulary. In particular, students will improve their ability to recognize and articulate main ideas, supporting details, and patterns of organization. Students will also improve vocabulary skills using context clues and the dictionary. Note: Students must meet exit-level requirements or pass a departmental reading final in order to earn a passing grade of C in this course.

RDG-095 3 Credits **Reading Skills II**

This course develops advanced reading skills necessary for success with college-level material. The course will focus on achieving college-level comprehension skills and vocabulary. In particular, students will recognize and articulate main ideas, supporting details, and patterns of organization. Students will develop critical reading and thinking skills and improve vocabulary. In addition, students will improve note-taking and test-taking skills. Note: Students must meet exit-level requirements or pass a departmental reading final in order to earn a passing grade of C in this course. Prerequisite: Grade of C or better in Reading Skills I (RDG090) or placement by examination.

Religious Studies

REL-111 3 Credits **World Religions**

This course helps students to inquire into, analyze, and contextualize practices and beliefs of religions in all regions of the world. Students analyze different religions in relation to one another, contemplate the diversity of practices and beliefs even within a single religious tradition, consider how various religions engage significant human questions, and encounter religion as a living, evolving process. Students locate religions and their development within social, geographical, and political contexts. Students develop information literacy and communication tools to inquire into and discuss

beliefs and practices with respect, curiosity, engagement, and intercultural competency. This course fulfills the General Education requirement "Community and Cultural Contexts." Prerequisites: Writing Skills II (ENG-095) and Reading Skills II (RDG-095); or Integrated ELL Level 3 (ELL-103) or exemption from requirements due to placement testing.

Russian

RUS-101 3 Credits **Elementary Russian I**

This course will introduce students to the Russian language and culture. The course focuses on useful vocabulary and basic concepts of grammar essential for leading simple conversations in everyday situations. The course offers a unique insight into the life of Russian people. Students will master the Cyrillic alphabet and major pronunciation rules necessary for reading in Russian. No prior knowledge of Russian is required.

RUS-102 3 Credits **Elementary Russian II**

Russian 102 is the second part of an elementary sequence and the continuation of 101 with emphasis on speaking and reading skills. In this class the students will continue to learn about the history, and culture of the country. This course satisfies General Education requirement "Creative Work". Prerequisite: Russian 101 or permission of the Foreign Language Department.

Science

SCI-150 4 Credits **Forensic Science and Lab**

Forensic science is the application of the scientific method to criminal investigation. Topics include recognition, identification, and evaluation of physical evidence such as hairs, fibers, drugs, blood, glass, soil, fingerprints, and documents. Such topics as forensic serology, analysis of arson debris, forensic analysis of drugs, gunshot residues, papers and inks, paint chips and DNA fingerprints. The course is designed for students with minimal background in science. Prerequisites: Foundations of Math (MAT-093), and Writing Skills II (ENG-095) and Reading Skills II (RDG-095) or Academic Reading III (ESL-098); or Integrated ELL Level III (ELL-103) or placement equivalency. Course meets: 3 hrs lecture; 3 hrs. lab.

SCI-221 3 Credits **Interpretation and Presentation of Scientific Research**

This course will introduce students to the major aspects of formal scientific communication. Students will learn how to read scientific papers or posters, listen to conference presentations, search primary sources, write lab reports in the style of a scientific paper, and to present experimental results in both poster and oral presentation formats. Students will use assignments from previous science courses as the foundation for their own paper, poster and oral presentations. This course is recommended for all STEM majors and will provide students with the communication skills required for research internships. This course may be used as a career elective for all science and engineering programs. Course meets: 3 hour lecture. Prerequisites: Completion of at least two college-level science or engineering courses (BIO 195 or above, CHM 201 or above, PHY 201 or above, ENR 101 or above) or permission of instructor.

Surgical Technology

SGT-105 Surgical Technology I

5 Credits

This course is an introduction to the profession of surgical technology. The foundation and theory of the practice of Surgical Technology are presented to the student in conjunction with hands on experience in surgical technology, standard precautions, surgical equipment and instrumentation, and the care of the surgical patient. The introduction to the clinical setting is presented in the lab. The surgical conscience is defined and developed as well as standards of professionalism. Prerequisite: admission into the Surgical Technology Program.

SGT-106 Surgical Technology II

8 Credits

This course focuses on the introduction of surgical specialties. During clinical placement students participate in the corresponding surgical interventions as they apply to each specialty. Prerequisites: Basic Anatomy/Physiology/Lab (BIO107) or Human Biology/Lab (BIO108) and Surgical Technology I (SGT105).

SGT-107 Surgical Technology III

3 Credits

This course provides a direct focus on performance in the clinical setting. Students participate as independent members of the surgical team, demonstrating beginning-level competence of advanced skills and anticipation of surgical needs. Classroom discussions will include legal, ethical, moral issues, or incidents, emergencies, and understanding the surgical patient's reaction to stress and illness. Prerequisite: Surgical Technology II (SGT106), PMT (103), and Human Growth and Development (PSY213).

SGT-109 Central Processing I

2 Credits

This course covers an introduction to the profession of Central Processing. It introduces principles of microbiology, technical functions, and functional areas as applied to Central Processing. The course covers the process of infection and disease transmission. It also covers manual and mechanical decontamination and disinfection. Course meets: 2 hrs. lecture.

SGT-109A Central Processing I Clinical

2 Credits

During clinical practice at local medical centers, students participate in corresponding central processing functions. A minimum of 90 hours of clinical is required. People working in central processing can apply for prior learning assessment credits.

SGT-110 Central Processing II

2 Credits

This course introduces high- and low-temperature sterilization, sterile packaging and storage. The chemistry of Sterilization is presented. Quality control, risk management regulations and recommendations and recommended practices are introduced. Inventory management and principles of purchasing are also introduced. Course meets 2 hrs lecture. Prerequisites: A grade of C or higher in Central Processing I (SGT109) and Foundations of Mathematics (MAT-093), and Reading Skills I (RDG-090) and Writing Skills I (ENG-090); or Integrated ELL Level I (ELL-101) or placement.

SGT-110A Central Processing II Clinical

2 Credits

During clinical experience, students participate in applications of theory to actual practice. A minimum of 90 hrs of clinical is required.

Prerequisites: Central Processing I (SGT109) and Central Processing Clinical (SGT111) with a grade of C or better.

SGT-111 Central Processing Clinical

2 Credits

This course is clinically focused, with students focusing on clinical skills acquisition. Students develop both depth and breadth of experience during clinical rotation. Course meets the first night to discuss clinical placement. 6 hrs clinical. Prerequisite: Central Processing I (SGT109) with a grade of C or better. People working in Central Processing can apply for Prior Learning Assessment credits.

SGT-115 Asepsis for Surgical Technology

2 Credits

This course covers the principles and practices of surgical asepsis that must be maintained in the operating room. This course will cover a brief introduction to microbiology with emphasis on infection control in the surgical setting. The course will cover sterilization, disinfection and antisepsis and the role of the surgical technologist as it applies to these principles. Prerequisites: Admission into the Surgical Technology Program.

SGT-116 Surgical Seminar

4 Credits

This course provides students with an opportunity to advance their knowledge of surgical procedures through the use of case studies. The seminar will be an online course that focuses on discussion of surgical specialties, complications, new technologies and the role of the surgical technologist as they advance from student to employee. Prerequisites: Surgical Technology II (SGT106) and Human Growth and Development (PSY213).

Sociology

SOC-101 Principles of Sociology

3 Credits

This course covers an introduction to the concepts and theories of society and social institutions. The course meets The course meets Community and Cultural Context requirement. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

SOC-109 Cultural Anthropology

3 Credits

This course demonstrates the way that the basic concepts and techniques developed by cultural anthropologists help us understand various cultures and intercultural relations. Through ethnographic readings and films, students learn about kinship, gender, ethnicity, religion, and social change in a variety of cultures. The course increases awareness of cultural dimensions of human experience and the diversity and flexibility of human cultures. The course meets General Education requirement "Community and Cultural Contexts". Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

SOC-110 Physical Anthropology

3 Credits

Presented in four basic sections, this course covers an introduction to the field of physical anthropology, genetics, human evolution, and evolution of behavior. Module topics include the background of physical anthropology; man in the natural world; practical genetics; classification within the human species; homo sapiens; homo erectus; the Australopithecines; evolution review;

what was before man; evolution of behavior; and where do we go from here? This course is offered through the Center for Self-Directed Learning only.

SOC-203 Social Problems

3 Credits

This course critically examines contemporary social problems by applying national and global sociological perspectives to the issues of poverty, racial and ethnic inequalities, sexuality, crime, and the environment. Students explore the systemic causes of social problems. How does a social problem become defined? What are the causes of various social problems? What can be done about them? Students may be expected to participate in service-learning projects in order to apply course materials to real world efforts to solve social problems. Prerequisites: Grade of C or better in Principles of Sociology (SOC101).

SOC-204 Sociology of Organizations

3 Credits

This course will explore how social institutions are created and maintained. Their impact on individual and social lives will be analyzed. Concepts like bureaucracy, power, conflict, functionalism, and stratification will be discussed in detail. Some of the organizations to be focused upon include: education, government, economic organizations, health care, social services, sports, religion, the family, and communication/media. This course will empower students with concepts and skills that will help them to better understand how social structures work and interact with each other. An open systems approach will be used in this course. Prerequisites: Grade of C or better in Principles of Sociology (SOC101) and College Writing I (ENG111).

SOC-205 Urban Sociology

3 Credits

This course covers the problems of social issues of contemporary urban life. It covers individuals' responses to cultural, racial, political, institutional, educational, economic, and other challenges of city life. Prerequisite: Principles of Sociology (SOC101).

SOC-206 Juvenile Delinquency

3 Credits

This course analyzes the nature and types of juvenile behavior that violate the law. Students study issues such as socialization, deviant roles, social processes, the special attributes of youth, and historical attitudes toward childhood and adolescence. Topics include family juvenile court, correctional institutions, causes of delinquency, the female delinquent, and prevention and treatment of delinquency.

SOC-207 Criminology

3 Credits

This course examines various aspects of crime from the perspective of the sociologist. The course emphasizes social structure/social process theories of social disorganization and crime causation. Other topics include the history of criminology, the nature and extent of crime, the measurement of crime, criminal typologies, public order crime, victims, and victimization. Prerequisite: Principles of Psychology (PSY101) or Principles of Sociology (SOC101).

SOC-211 The Family

3 Credits

This course examines psychological and sociological factors related to the dynamics of family life. The course covers the process of the growth and adjustment of each family member as the family structure changes. Students discuss the historical, contemporary, and future family. Prerequisite: one introductory Behavioral Science course.

SOC-225 **Sociology of Homosexuality** 3 Credits

This survey course examines issues dealing with homosexuality from the perspective of the sociologist. The course emphasizes the essentialist/constructionist debate; facts and myths about homosexuality; the influence of prejudice and discrimination on the lives of gay men, lesbians and their families; and the homosexual culture/community/lifestyle. Other topics include coming out issues, development of gay and lesbian identities, the needs of a gay family member, gay history, gay spirituality, the AIDS crisis, and the gay liberation movement and its impact on contemporary culture.

SOC-227 **The Sociology of Race and Ethnicity** 3 Credits

This course explores issues of race and ethnicity as they exist in contemporary American society. We will look at the definition of race and ethnicity, how these definitions have evolved over time, and what they mean today. The impact of hate groups on American life and culture will be explored through the concept of difference and the ideas of superiority and inferiority. Core topics to be discussed include racial prejudice and racism, ethnic identity and multiculturalism, and Eurocentrism. This course satisfies the General Education requirement for Community and Cultural Contexts (previous area 2: Individual and Society) for all programs. Prerequisite: Grade of C or better in Principles of Sociology (SOC101), Principles of Psychology (PSY101), or Cultural Anthropology (SOC109).

SOC-229 **Sociology of Film** 3 Credits

This course deciphers the explicit and implicit message contained in films that has to do with the organization and structure of culture and society from the past to the present. The course covers the idea that, like all art forms, films are created in a social context and express a particular point of view through the characters, themes, motifs, and visual styles they embody.

Sonography**SON-113** **Cross Sectional Anatomy** 4 Credits

This course focuses on detailed cross-sectional anatomy as it relates to sonographic imaging. This study of serial sectional anatomy helps sonographic students gain knowledge of the human body needed for the practical application of ultrasound. In class scanning will occur on a routine basis. Prerequisite: Admission to General Sonography Program. Co-requisite: Anatomy/Physiology/Lab II (BIO204).

SON-115 **Abdominal Ultrasound** 3 Credits

This course familiarizes the student with interpretation of normal and abnormal sonographic findings of the abdominal cavity. Related scanning techniques and associated Color Flow and Doppler are described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to abdominal sonography will be covered. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisite: General Sonography Clinical I (SON121).

SON-117 **Ultrasound Scanning and Pathology** 4 Credits

This course consists of a lecture component and hands-on component. The student will have the opportunity to apply knowledge that they have

gained via lecture directly to hands-on scanning applications. Topics addressed include proper machine set up, annotation of the equipment with reference to anatomy, and basic images. Students will be exposed to the various scan planes and transducer orientations that are utilized in daily practice as a sonographer. In addition, exam protocols and pathology will be discussed. The student will have the opportunity to use the equipment in the classroom. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisite: General Sonography Clinical I (SON121).

SON-119 **Subspecialty Sonography and Neurosonography** 3 Credits

This hybrid course will familiarize the student with interpretation of normal and abnormal sonographic findings of subspecialty exams. This course will also have a hybrid and in-class component for an introduction to neurosonography. Related scanning techniques and associated Color Flow and Doppler are described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to subspecialty sonography and neurosonography will be covered. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisite: General Sonography Clinical I (SON121).

SON-121 **General Sonography Clinical I** 3 Credits

This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisites: Abdominal Ultrasound (SON115), Ultrasound Scanning and Pathology (SON117), and Subspecialty Sonography/Neurosonography (SON119).

SON-123 **General Sonography Clinical II** 3 Credits

This hybrid course is a combination of classroom teaching and an online learning experience. This course continues with the presentation and physics of ultrasound. Special attention is given to the Doppler affect and its relevance in the field of general sonography. Sonographic artifacts, harmonics, contrast agents, bioeffects and safety are covered as well. Review from Ultrasound Instrumentation I is covered in the form of online weekly registry review tests. Prerequisite: Ultrasound Instrumentation (MIG105). Co-requisite: General Sonography Clinical III (SON223).

SON-213 **Ultrasound Physics and Instrumentation for the General Sonographer** 2 Credits

This hybrid course presents the physics of Ultrasound to the performance and instrumentation used in the general sonographic practice. A review of the basic laws and instruments are also discussed as they relate to the specific topics of the Doppler effect and sonographic artifacts. Special emphasis is placed on bioeffects and safety in the performance of General Sonography. The advancements in sonographic applications and instrumentation such as harmonics and 3D are explored, as well as the use of contrast agents. Review from Ultrasound Physics I is covered in the form of online assignments and testing. Prerequisite: Ultrasound Physics/Instrumentation (MIG105). Co-requisite: General Sonography Clinical III (SON223).

SON-215 **Advanced General Sonography I** 2 Credits

This hybrid course is a combination of classroom teaching and online learning experience. Course topics include a review of abdominal and subspecialty sonography. Interesting sonographic cases will be presented for review. Articles from the Journal of Ultrasound in Medicine and the Journal of Diagnostic Medical Sonography will be reviewed and discussed. Registry practice exams will be taken online on a regular basis. Prerequisite: Abdominal Ultrasound (SON115). Co-requisite: General Sonography Clinical III (SON223).

SON-217 **Advanced General Sonography II** 2 Credits

This hybrid course is a combination of classroom teaching and online learning experience. Course topics include a review of obstetrical and gynecological sonography as well as physics and instrumentation. Interesting sonographic cases will be presented for review. Articles from the Journal of Ultrasound in Medicine and the Journal of Diagnostic Medical Sonography will be reviewed and discussed. Registry practice exams will be taken online on a regular basis. Prerequisite: Advanced General Sonography (SON215). Co-requisite: General Sonography Clinical IV (SON225).

SON-219 **Obstetrical/Gynecological Sonography I** 3 Credits

This course familiarizes the student with interpretation of normal sonographic findings of gynecological and first, second, and third trimester sonography. All measurement techniques including gestational dating will be discussed. Abnormal sonographic findings as they relate to gynecology and the first trimester will be covered. Related scanning techniques and associated Color Flow and Doppler are described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to gynecology and the first trimester will be covered. Prerequisite: General Sonography Clinical II (SON123). Co-requisite: General Sonography Clinical III (SON223).

SON-221 **Obstetrical and Gynecological II** 3 Credits

This course is a continuation of Obstetrical/Gynecology Sonography I. Abnormal sonographic findings as they relate to second and third trimesters will be covered. Fetal anomalies as well as maternal disease will be discussed. Related scanning techniques and associated Color Flow and Doppler will be described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to the second and third trimesters will be covered. Prerequisite: Obstetrical/Gynecological Sonography I (SON219). Co-requisite: General Sonography Clinical IV (SON225).

SON-223 **General Sonography Clinical III** 3 Credits

This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: General Sonography Clinical II (SON123). Co-requisites: Obstetrical and Gynecological Sonography I (SON219), Advanced General Sonography (SON215), and Diagnostic Instrumentation (SON213).

SON-225 3 Credits
General Sonography Clinical IV

This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: General Sonography Clinical III (SON223). Corequisites: Obstetrical and Gynecology Sonography II (SON221) and Advanced General Sonography (SON217).

SON-227 3 Credits
General Sonography Clinical V

This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: General Sonography Clinical IV (SON225).

Sport Management

SPM-101 3 Credits
Principles of Sport Management

This course examines the issues of management and organizational behavior within the context of the sports industry. Students will gain a comprehensive view of the procedures and operations of sports organizations and enterprises and will examine processes such as budgeting, marketing, event management, and labor relations that are necessary for the successful administration of these organizations. The Principles of Sport Management course is designed for individuals with interests in careers that combine management skills and knowledge of the sports industry. Pre/Co-requisite: Introduction to Business (BUS101).

SPM-201 3 Credits
Psychology of Sport

This course is the study of the interaction between psychological variables and performance in sports and physical activity. This course is designed to help students both learn and then apply practical as well as theoretical information as it relates to the psychology of sport. The course includes topics such as optimal performance, correlation, motivation, co-action effect, self-actualization, psycho-behavioral techniques, self-efficacy, and the general health benefits of sport participation. This introductory course is ideal for students who wish to work with athletes in some capacity, pursue a career in sports management, or plan on working with individuals in the health and fitness industry. Prerequisite: Principles of Psychology (PSY101).

SPM-211 3 Credits
Sport Facility and Event Management

This course provides students with an understanding of the complexity involved in major sports events and facilities in relation to their social, cultural, and physical environment. Topics include the analysis of goals and resources, the development of revenue streams, design and planning, scheduling and operations, staff management, and the implementation of programming. Risk management and security issues reflective of today's environment will be discussed. Prerequisite: Principles of Sport Management (SPM101).

SPM-213 3 Credits
Sport Law and Ethics

This course is designed to introduce students to the legal, business, and policy issues and disputes that arise in the world of amateur and professional sports. Discussion of amateur sports includes the roles, rules and activities of the NCAA and questions involving amateurism, eligibility, sex discrimination and antitrust. Discussion of professional sports includes professional sports leagues, labor relations, contractual questions and representation. Issues important to both areas include violence in sports, drug testing, criminal, tort issues, and sponsorship endorsements. Prerequisite: Principles of Sport Management (SPM101).

SPM-215 3 Credits
Sport Marketing and Promotion

This course takes an in-depth look at fundamental marketing practices as applied to various sport venues and provides a detailed analysis of sport as a product, sport consumer markets, and sport product markets. Students will become familiar with marketing strategies applied to specific segments of the sport industry including amateur, college, professional and recreational markets. Students will prepare and organize marketing, promotional, and public relations campaigns applied to the sport and leisure industry. Legal issues and other challenges facing the sport industry will also be examined. Prerequisite: Principles of Sport Management (SPM101).

SPM-217 3 Credits
Seminar in Sport Management

Through case discussion, lecture, videos, guest speakers, and field research, this course provides the student with a series of concepts, framework, analytical techniques and management decision-making skills to enable him/her to anticipate and critically examine and evaluate some of the problems, issues, and opportunities facing a sport business enterprise. This course should be taken in the student's final semester. Prerequisite: Principles of Sport Management (SPM101).

SPM-299 3 Credits
Sport Management Internship

This course enhances the academic experience for students. All internships take place at pre-approved sites. Students engage in activities that improve knowledge of the practical world of work and help them gain professional experience. The internship experience applies resources gained from students' study to improve the quality of their contributions to the employer. A faculty coordinator supervises and grades all courses. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: Department Chair approval.

Spanish

SPN-101 3 Credits
Elementary Spanish I

This course, for students with little or no previous knowledge of Spanish, covers an introduction to the sounds and structures of Spanish and the development of basic skills needed for understanding and speaking Spanish. The course is not intended for native speakers or for students who have studied this language within the last three years.

SPN-102 3 Credits
Elementary Spanish II

This continuation course of Elementary Spanish I (SPN101) emphasizes conversational skills and simple readings. The course satisfies General Education requirement "Creative Work". Prerequisite: Elementary Spanish I (SPN101) or one year of high school Spanish.

SPN-110 3 Credits
Lat Id-Media Cul & Myths

This course will explore the agenda behind the manipulation of the Latinx experience in the media, how this contributes to the perpetuation of stereotypes, and how these myths affect the notions of self-identity. Examples of songs, T.V. shows, literary fiction, and other cultural manifestations will be incorporated into the course in order to examine the bias and flaws embedded in literature, the media, institutionalized discourses, and other sources of information. Through discussions, critical thinking exercises, writing, and research students will acquire a better understanding of the Latinx experience in the United States. This course is taught in English.

SPN-201 3 Credits
Intermediate Spanish I

This course covers a review of basic language skills and emphasizes conversational and reading skills. Prerequisite: Elementary Spanish II (SPN102) or two years of high school Spanish or permission of instructor.

SPN-202 3 Credits
Intermediate Spanish II

This continuation course of Intermediate Spanish I (SPN201), emphasizes self-expression through speaking, reading, and writing. Prerequisite: Intermediate Spanish I (SPN201) or three years of high school Spanish or permission of instructor.

SPN-280 3 Credits
Spanish for Heritage Speakers

SPN 280 is a course especially tailored toward heritage or native speakers of Spanish with active or passive knowledge of the language. The main purpose of the course is to build upon the language knowledge that students bring to the classroom and advance their proficiency of Spanish for multiple contexts. Special attention is given to building vocabulary, acquiring and effectively using learning strategies, and strengthening composition skills in Spanish to be used in formal settings. Cultural projects and readings will reinforce learners understanding of the multiple issues related to the Hispanic cultures, including the USA. This course meets the General Education requirement for Creative Work. Prerequisite: being a heritage or native speaker of Spanish, that is having active or passive knowledge of the language OR special permission by the instructor

Theatre

THE-107 3 Credits
Acting I

This course covers a total approach to the actor's art and stresses the use of body and voice. It includes improvisation, theater games, and sensory exercises with eventual involvement in scene study and character development. This course meets General Education requirement for Creative Work.

THE-108 3 Credits
Acting II

This scene study class covers intensive work with imagery and improvisation to heighten actors' abilities to perform roles dynamically. The course focuses on students' discovering their strengths as they learn to trust their impulses and create characters that are vulnerable and compelling. Each participant works on two scenes. Prerequisite: Acting I (THE107).

THE-109 3 Credits
Play Production Workshop

This course covers practical training in acting, costuming, makeup, lighting, and stage management related to the production performed by each class. All students work as crewmembers and are encouraged to audition for roles in the play. Students may repeat this course three times, earning one credit for each repetition. Prerequisite: Acting I (THE-107)

THR-107 3 Credits
Acting I

This course covers a total approach to the actor's art and stresses the use of body and voice. It includes improvisation, theater games, and sensory exercises with eventual involvement in scene study and character development. This course meets General Education requirement for Creative Work.

THR-108 3 Credits
Acting II

This scene study class covers intensive work with imagery and improvisation to heighten actors' abilities to perform roles dynamically. The course focuses on students' discovering their strengths as they learn to trust their impulses and create characters that are vulnerable and compelling. Each participant works on two scenes. Prerequisite: Acting I (THE107).

THR-109 3 Credits
Play Production Workshop

This course covers practical training in acting, costuming, makeup, lighting, and stage management related to the production performed by each class. All students work as crewmembers and are encouraged to audition for roles in the play. Students may repeat this course three times, earning one credit for each repetition. Prerequisite: Acting I (THE-107)

THR-111 3 Credits
Improvisation

This course explores improvisation both as an art and also as the basis for developing roles for stage and on-camera work. Students develop spontaneity, narrative skills, the ability to work off a partner, and to make strong choices on stage. Students work with the repertoire of comedy improvisation groups, with more dramatic and naturalistic improvisation groups, and with more dramatic and naturalistic improvisation situations. This course meets the General Education requirement for Creative Work. Prerequisites: Integrated ELL Level 1 (ELL101) or Reading Skills I (RDG090) and Writing Skills I (ENG090); or exemption by placement testing.

THR-113 3 Credits
Voice and Movement

This course frees the body and voice from habitual tensions and patterns and opens and expands the possibilities for vocal and physical expressiveness. Voice training focuses on the cultivation of a flexible and expressive voice and the development of interpretive skills. Movement focuses on body awareness, control, and flexibility for the stage.

THR-115 3 Credits
Playwriting

This course introduces students to various approaches to writing for the stage. Components of playwriting, which include narrative, structure, plot, character, dialogue, and setting, as well as the concept of "theatre", will be explored. Through reading and discussion of short works by a selection of playwrights, students will garner a sense of the development of playwriting while also being exposed to various playwriting genres. During the semester, students will create short

works for the stage. Weekly writing exercises will be shared and discussed in class. This course meets the General Education requirement for Creative Work. Co-requisite: College Writing I (ENG-111)

Test**TST-101** 3 Credits
Test Registration

This course is used to test various functions of the registrar's office including grading, waitlist, registration, withdrawal, schedule adjustment, and enrollment verifications. December 19 2011 4:53 PM Deborah A. Boyer

TST-102 3 Credits
Test Registration II

This course is used to test various functions of the registrar's office including grading, waitlist, registration, withdrawal, schedule adjustment, and enrollment verifications. December 19 2011 4:53 PM Deborah A. Boyer

Visual Media Arts**VMA-100** 3 Credits
VMA Freshman Seminar

This interdisciplinary course builds a connection to the aesthetic, historical and intellectual aspects of an artist community and creative work while helping students navigate through some of the logistical hurdles of the first year experience. Students participate in a variety of group activities, discussions and presentations with faculty and visiting artists. Field trips include local galleries/studios and museums. A journal/sketchbook is required. The course is required for all Visual and Media Arts majors. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-102 3 Credits
Visual Design: Composition and Color

This course introduces the student to elements and principals of design that are fundamental to all fields of visual art. Within the context of 2-dimensional problem solving, students will develop a working vocabulary of visual elements including line, form, space, and color, in order to explore the expression of principles of composition such as balance, rhythm, emphasis, and proportion. Students will experience working with a variety of mediums and begin to develop skills in both visual thinking and craftsmanship. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-103 3 Credits
Elements of Form

This course introduces the student to the fundamental elements and principles of design within the context of 3-dimensional form and time, both essential to the understanding of 2D and sequential art and design. Working with a variety of materials students will explore the fundamentals of scale, volume, space and light in 3 dimensions. Through exploring sequence and visual narrative, students will be introduced to the fundamentals of viewer experience in time. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-104 3 Credits
Drawing from Observation

This introductory studio course examines the basic vocabulary, principles, and skills of drawing. Using a wide range of media, students work primarily from observation to master techniques of objective drawing. While concentrating on formal visual elements such as line, shape, value, texture and limited color, students work with principles of figure/ground, scale, positive and negative space, proportion, perspective, volume, light, composition and pictorial unity. Through drawing, discussion, critique, and research, students will explore mark making as an expressive endeavor. This course meets the General Education requirement for Creative Work. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); or exemption by placing into higher level courses.

VMA-105 3 Credits
Digital Imaging With Photoshop

The Adobe Photoshop workspace reflects the technical basis of the digital image. Understanding the structure of this important application enables the student to systematically build confidence and skill in its use, and also apply its principles in related applications. This course surveys the breadth and depth of the Photoshop workspace and toolset through lecture presentations and lab exercises. An overview of the digital imaging workflow will be presented, with emphasis on image processing. Students must have basic computer literacy. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-106 3 Credits
Digital Imaging for Artists and Designers

In this course students will learn the Adobe Photoshop and conceptual skills necessary to create digital illustrations, collage and mixed media work comprised of photography, scanned images, found materials and student artwork. Students will learn the technical aspects of digital imaging such as scanning, image resolution, color reproduction, nondestructive editing, and image retouching and manipulation. These will be applied to projects where students explore principles of color and composition, meaning, expression, representation, sequence and narrative.

VMA-110 3 Credits
Audio for Media

In this introductory lab, students will gain basic knowledge and skills for producing audio for broadcast and visual media. Through hands-on projects, students will learn how to record, edit, and mix sound, using standard audio equipment and digital audio editing software. Topics will include the science of sound, audio for video, audio and the internet, and the technical aesthetic aspects of audio craft. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-111 3 Credits
Introduction to Mass Media

Mass media helps shape the power dynamics in society and politics. This introductory course is the study of social, cultural, economic, ethical and political issues from personal, local, historical and global perspectives of media. Students will explore various kinds of media and their uses such as news, advertising, public relations, entertainment, social media and video games. Through discussions and projects, students will engage with multiple views, experiences, and beliefs in order to become critical consumers and

producers media in our multicultural world. The course meets General Education Requirement for Community and Cultural Contexts. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-112 3 Credits
Art History: Prehistoric to Medieval

This course is a broad, multicultural survey of art and architecture from the Prehistoric to the Medieval periods. Through formal analysis students will learn to use visual language to express aspects of design such as style, composition, perspective and materials. Students will explore how global, social, political, and cultural events influence, and are influenced by, artists and the production of art. By engaging with works of art through discussion, writing, museum visits, and making projects, students will explore the process of human creative endeavor, and will construct a narrative about artistic expression as it relates to society and their own experience. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-113 3 Credits
Art History: Renaissance-Contemporary

This course is a broad multicultural survey of art and architecture from the Early Renaissance through contemporary times. Through formal analysis students will learn to use visual language to express aspects of design such as style, composition, perspective and materials. Students will explore how global, social, political, and cultural events influence, and are influenced by, artists and the production of art. By engaging with works of art through discussion, writing, museum visits, and making projects, students will explore the process of human creative endeavor, and will construct a narrative about artistic expression as it relates to society and their own experience. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-114 3 Credits
History of Graphic Design

This course critically investigates and explores graphic design and visual communication history, major movements and pivotal artists and designers. This course requires participation of students in lecture and presentation, writing and studio projects, which will build critical thinking and visual skills. The course provides a necessary historical basis for students in the Visual Design Option in the Visual & Media Arts Program. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-115 3 Credits
The Moving Image

This course critically investigates and explores the history and technical development of the moving image, including major and influential works, artists, technical advances, and movements in film, television, and digital presentations. This course builds critical thinking and visual skills. The course provides a necessary historical basis for students in the Integrated Media Design Option in the Visual & Media Arts Department. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-118 3 Credits
Elements of Time

This course is a time-based foundation studio course that focuses on critical thinking skills in the form of time and experience. The conceptual and experimental approach of this course enables students to develop the basic vocabulary, concepts, tools and principles used by artist and designers who create time-based multimedia projects. Students will critically evaluate and utilize time as narrative and an essential element through projects in audio, video, installation and live performance. These assignments will culminate in a self-directed project that promotes inquiry and can shape the viewers' perceptions of artifacts, light, movement, time and space. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-122 3 Credits
Painting for General Education

This introductory studio course examines the basic vocabulary, skills and principles of painting from observation. The course emphasizes drawing, composition, color, value, and paint quality. Through working with various tools and materials, discussion, critique, and research, students will explore how the combined elements of visual design can produce the illusion of volume, space, light and movement in order to depict observed and imagined subject matter, and be used to express ideas and emotion. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-123 3 Credits
Water Color I

An introduction to the medium of watercolor paint, this course demonstrates and explores basic techniques such as wet-on-dry, wet-on-wet, and washes. Students draw from observation and learn to manipulate value, tone, and color. Class time includes one-on-one instruction and group critiques. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-124 3 Credits
Printmaking I

This course is an introduction to a variety of printmaking processes including woodcut, monoprint, engraving, and dry point. Students will experiment with tools, materials and techniques in a studio environment. Through drawing, research, discussion, and critique, students will develop their own visual ideas and use printmaking as means of expression. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-125 3 Credits
Introduction to Adobe Suite

This is an introductory course in Adobe Illustrator, Photoshop, and InDesign, the industry-standard applications for graphic design. Through in-class and independent projects, students will learn the basic functionality of Illustrator for digital illustrations. Photoshop for editing images, and InDesign for layout and design. Students will be introduced to the basic tools and vocabulary needed to continue building skills independently. Please note: This course cannot be used for credit in the VMA Visual Design Option.

VMA-129 3 Credits
Visual Design with HTML & CSS

Visual Design students will learn typography, layout and design in the context of interactive media, using HTML and CSS as visual design tools. Through a variety of onscreen projects, students will build on typesetting and layout skills and practice the principals of interactive design. Projects will focus on web typography, fluid design, functional style, navigation, and kinetic typography on screen. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-130 3 Credits
Social Media Strategy

In this course, students will explore techniques and strategies of social media marketing and public relations that can be used to promote a company, and individual or a product. Through case studies and exercises students will learn how to identify business objectives and how a marketing campaign is created. Students will learn to reach an audience through an integrated marketing approach that uses social media, online video, podcasts, mobile apps, blogs, news releases, viral marketing, marketing, print and other current tools and channels. Career pathways will be identified and explored. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-132 3 Credits
Typography I, Form, Style, & Hierarchy

Typography is the art and technique of arranging letterforms for practical and expressive communication. This rigorous course introduces students to the anatomy and classification of type, and to the basic principals of type classification, legibility, information hierarchy and grid systems. By completing a variety of projects, students will build skills in typesetting and layout, expressive typography, conceptual thinking and Adobe InDesign and Adobe Illustrator. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses. Students must earn a grade of C or higher to advance to Typography II.

VMA-133 3 Credits
Typography II: Layout, Typesetting, and Systems

In this course students will continue to build on typographic foundation principles, strengthening their skills through projects of moderate complexity. Projects involve information design and design of long-form content for print and digital books, magazines and other publication formats. Students will learn to develop consistent type and navigation systems, and explore the relationship between type and image. There will be an emphasis on working through the design process from sketch, revision, and final presentation. Software used: Adobe Illustrator, InDesign, and some Adobe Photoshop. Prerequisite: A C or higher in Typography I: Form, Style and Hierarchy (VMA-132).

VMA-135 3 Credits
Digital Illustration

In this course students will learn digital drawing skills to create projects in Adobe Illustrator and other software that communicate concepts and information. There will be an emphasis on developing visual research, sketching and rendering practices in order to create illustrations, data graphics and logotypes using vector drawing techniques. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093).

VMA-140 3 Credits
Media in Motion

In this studio/critique class, students will learn to combined typography, image, audio and short animated sequences using software and traditional methods. Skills and principles learned in this course may be applied to title sequences for film, motion graphics, info graphics, web banners, interactive sequences and time-based art. There will be an emphasis on the process of design problem-solving incorporating thematic development, storytelling, message, interactivity and editing. Prerequisite: Grade of C or better in Typography - VMA-132.

VMA-141 3 Credits
Elements of Video Production

This course gives students an overview of the theoretical, aesthetic, and practical elements of digital video pre-production, production, and post-production. Through a series of creative exercises, lectures, and classroom critiques, students will gain an understanding of the fundamental skills required in planning, scripting, directing, shooting, lighting, and editing digital video productions for a variety of purposes and audiences. The course provides a special emphasis on understanding and using visual storytelling techniques to relate information and emotion. Recommended prerequisite: Digital Imaging with Photoshop (VMA105). Prerequisites: Writing Skills II (ENG095) and Foundations of Mathematics (MAT093).

VMA-151 3 Credits
Introduction to Audio Technology

This course will provide the student with the basic knowledge and skills required for audio production. Through lectures and hands-on lab work, students will learn the technical and aesthetic aspects of microphones, tape decks, and mixing consoles. Both digital and analog production media will be covered, with greater emphasis on the digital realm. In addition to technical abilities, students will also examine the nature of the acoustic environment, and will be introduced to digital audio editing software. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-161 3 Credits
Introduction to Digital Photography

In this rigorous course students investigate basic technical issues of photographic work-flow and formal practices of seeing photographically. Through shooting assignments and lab exercises, students use an array of technical, aesthetic and compositional principles to create work that documents and interprets the world around them. Examples of current and historic photography will be examined. Students must have a digital camera or phone camera. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-205 3 Credits
Inventive Drawing

Through various methods of visual thinking and ideation, students will learn to develop ideas and concepts, and will experiment with a variety of digital, traditional, or organic tools, drawing methods and mediums. During the course students will develop individual creative insight, learn to generate ideas through brainstorming and creative thinking, skills that are useful in effective design, animation, illustration, drawing, painting, story-telling and many other forms of visual communication. Prerequisite VMA104

VMA-207 3 Credits
Figure Drawing

Students draw from the model as a means of understanding form, shape, and line, gaining experience with a variety of drawing media. Figure Drawing emphasizes shorter poses as training in immediate response to gesture and form. This course serves as a requirement and preparation for intermediate level and concept-based studio courses such as Ideas in Art: Fine Arts Studio, Observational Drawing, and Multi-Level Studio classes. Prerequisite: Drawing I(VMA104).

VMA-221 3 Credits
Multimedia Paint & Theory

This course introduces students to the fundamentals of painting with heavy body paints and mediums. Working from observation students will gain the basic skills necessary to control the value, color, texture and composition of the paintings they create. They will develop visual problem-solving skills and critical vocabulary through group critiques and individual meetings. This course will leave them with a basic understanding of how to build a personalized, sustainable painting practice. Prerequisite: Drawing from Observation (VMA104).

VMA-223 3 Credits
Water Color II

Focusing on developing one's personal sense of aesthetics and style, this course explores various techniques used in watercolor. The course places emphasis on creating cohesive, well-composed paintings, while it develops an understanding of the elusive properties of spontaneity and transparency as they relate to the medium of watercolor paint. Prerequisite: Watercolor I (VMA123) or permission of instructor.

VMA-224 3 Credits
Printmaking II

A continuation of Printmaking I (VMA124), this course further develops the techniques of dry point, engraving, woodcut, and monotype while focusing on thematic development and content. The course explores the more complex methods of color printing. It encourages experimentation in a self-motivated workshop environment. Class time includes one-on-one instruction and group critiques. Prerequisite: Printmaking I (VMA124) or permission of instructor.

VMA-225 3 Credits
Painting Concepts

This studio course provides intermediate instruction to students that possess the basic painting skill set framed by VMA221. Through observational painting, students will continue to increase their facility with heavy body paints while learning advanced techniques and employing digital media as a painting medium. This course also serves as an introduction to portraiture and figure painting while providing a framework for students to begin experimenting with personal aesthetics (style). They will exercise their visual problem-solving skills and increase their critical vocabulary through group critiques and individual meetings. This course will help them begin building their own sustainable painting practice.

VMA-227 3 Credits
Studio Portfolio

What topic should my artwork discuss? How should this project manifest? Why am I making this? These questions comprise the three basic considerations that inform an artwork's concept: the Subject ("the what" or the topic), Form ("the how" or the format) and the Content ("the why" or the artist's intention). Ideas in Art students will explore how to successfully apply these essential conceptual considerations to a creative practice.

Students will examine their own motives while investigating broader topics introduced through readings, writings and workshops. Studio art projects encourage the evolution of personal style as students gain exposure to an array of contemporary and historical conceptual frameworks. Students will exercise conceptual and visual problem solving skills through group critiques and individual meetings. This course will help students begin building a visually and conceptually enriched art practice. Prerequisite: Figure Drawing (VMA207) or Multimedia Paint and Theory (VMA221).

VMA-232 3 Credits
Visual Design Lab I

In this rigorous studio lab course, students will strengthen foundations of visual language, typography, image, and materials by working on pragmatic and expressive design problems. Students explore design process, methods of research, concept development, sketching, critique and revision in order to produce and present effective visual design solutions. Students learn to analyze and discuss their work, and the work of others, through frequent class critiques. Pre/Co-requisite: Grade of C or better in Typography II: Layout, Typsetting, and Systems (VMA-133).

VMA-233 3 Credits
Visual Design Lab II

This course is a continuation of Visual Design I where visual design methods and principles are applied to projects of increased complexity. Class discussions will include exploration and overview of aspects of print and digital production methods as they pertain to the visual designer. Prerequisite: Grade of C or better in Visual Design Lab I (VMA232).

VMA-241 3 Credits
Advanced Video Production

This course focuses on development of the skills and concepts necessary for digital video production. Students learn the advanced use of the HDV digital camcorder microphones, the field audio mixer and lighting techniques. The course uses images and materials acquired in the course in its co-requisite class, Video Post Production (VMA242), in order to complete a final project counting for both courses. Topics covered include fiction and non-fiction production techniques, including research, script development and interviewing. Discussion of theoretical issues in applied media aesthetics will be an integral and essential part of the class. Prerequisite: Elements of Video Production (VMA141) or permission of instructor. Co-requisite: Video Post Production (VMA242).

VMA-242 3 Credits
Video Post-Production

This course delivers an intensive workshop in digital nonlinear post-production software, theory and techniques. Students work in-depth with Final Cut Pro and will also explore other aspects of the Final Cut Studio package, including Live Type, Soundworks Pro, and Motion. The course also provides a solid foundation in the theory and aesthetics of film and video editing by examining the history and development of the editing process. The course uses images and materials acquired in its co-requisite course, Advanced Video Production (VMA241) in order to complete a Final Project counting for both courses. Prerequisite: Elements of Video Production (VMA141) or permission of instructor. Co-requisite: Advanced Video Production (VMA241).

VMA-243 3 Credits
Projects in Video Production

The approach and content of this course focuses on producing a work of professional quality for

use as a portfolio presentation of student achievement. Drawing on skills they have acquired in previous production courses, students will write, shoot, and edit a high-quality video program, including audio sweetening, digital composite effects, and graphics, modeling their activities on a real-world production atmosphere. Actual production activities depend on project production schedule and needs. Prerequisites: Advanced Video Production (VMA241) and Video Post Production (VMA242) or permission of instructor.

VMA-244 3 Credits
Media Project Planning

This course is an intensive survey of all aspects of pre-production planning for video and multimedia productions. Special emphasis is given to the process of writing for the media, including idea development, preparation of proposals, treatments, storyboards and scripts that clearly define message, intent and audience. A variety of storytelling methods and approaches to the creative process will be explored, including the dramatic, educational, corporate and documentary formats. In addition, the fundamentals of production management will be presented, including script breakdown, production scheduling, resource planning, and budgeting. Students will be expected to utilize skills gained in this class in subsequent media production classes. Prerequisite: Elements of Video Production (VMA141).

VMA-252 3 Credits
Audio Studio Production

This course will cover basic techniques for multi-track studio recording. Topics will include: microphone techniques and placement, tracking and overdubbing, mixing and digital editing, and use of outboard equipment. Use of ProTools software in a recording environment is emphasized. Prerequisite: Introduction to Audio Technology (VMA151).

VMA-261 3 Credits
Digital Photography Techniques

This course examines professional practices in digital photography. Emphasis is on the continuity of the digital workflow and the production of fine prints. Technical issues of acquisition, image processing, out-put, and archiving will be addressed. Work derives from topical shooting assignments and student-defined projects. Students must have a digital camera with manual exposure control, and preferably one with RAW capture capability. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-262 3 Credits
Video Techniques Lab

In this digital filmmaking course, students will learn the technical elements of visual storytelling through demonstration and hands-on practice. Students will build a vocabulary of camera, lens, lighting and some editing skills through working on a variety of projects. Working in groups, students will experience various roles with a film

crew. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-263 3 Credits
Video Concepts Lab

In this combination lab and critique class, digital filmmakers will focus on the pre and post production elements of visual storytelling. Through calls discussion and a variety of projects, students will explore aspects of structure, narrative, and style and build skills in conceptualization, scripting, story boarding and editing techniques. Post-production topics include digital editing software and current methods for output and distribution. Screenings, reading and discussions of film and video work will challenge students to advance their personal vision and storytelling abilities. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-271 3 Credits
Design for the World Wide Web

This course addresses the unique design issues involved in creating web pages. Students learn to develop graphics and media, to integrate content and media elements, and to create visually attractive communicative, and effective pages for electronic delivery. The course gives special attention to software applications used in the creation of web page design and graphics. Prerequisite: Digital Imaging with Photoshop (VMA105).

VMA-273 3 Credits
Motion Graphics & Compositing

This course will familiarize students with the aesthetic and technical requirements of using digital methods to combine video, photo, graphics, text and other visual and audio elements. Through lecture, demonstration and hands-on projects, students will learn behavior-based animation, transfer modes, particle dynamics and simulation design, stylized title animation, chroma key techniques, DVD motion menu design, 3D features, key framing, audio and integration with various editing software. Prerequisite: Digital Imaging with Photoshop(VMA105) or permission of instructor. Recommended: Advanced Video Production (VMA241) and Video Post Production (VMA242).

VMA-274 3 Credits
DVD Authoring

This course provides students the technical and aesthetic skills needed to design and author professional DVDs. Through lectures and hands-on exercises, students will learn the stages of the DVD authoring process, including initial planning and storyboarding, menus and buttons, design and navigation, and burning and replication. Prerequisites: Digital Imaging with Photoshop (VMA105) and Elements of Video Production (VMA141). Recommended prerequisite: Advanced Video Production (VMA241) and Video Post-Production (VMA242)

VMA-275 3 Credits
Interactive Design I

In this studio intensive course, students will build on the foundations of visual design, typography and image with the principles of interactivity and user experience, in order to create responsive designs that work on both handheld and desktop devices. Prerequisites: Grade of C or better in VMA 132 Typography I.

VMA-276 3 Credits
Interactive Design II

This is a practical class teaching interactive visual design from conception to completion. Students start by coming up with an idea for and examining the needs of their design projects, then define the target audience and behavior, page layouts, project planning/site maps, and techniques to smooth their workflow. Students will choose their digital applications(s) (e.g., website, Apple iPhone) for their projects. The final visual designs are ready to be delivered for development and implementation. Prerequisites: Interactive Design I (VMA275), or the permission of the instructor.

VMA-290 3 Credits
Visual Design Portfolio

In this course Visual Design majors will refine, expand on, and assemble existing portfolio content for transfer to 4-year design programs, internships, and entry-level employment. The portfolio content is evidence of the student's abilities in design, concept development, and technical skills. Students will produce a resume and self-marketing materials. They will learn presentation techniques and participate in portfolio review. Prerequisite: Grade of C or better in Visual Design I (VMA232). Pre/Co-requisite: Visual Design Lab II (VMA233).

VMA-299G 3 Credits
Visual Design Internship

This course provides students with practical experience in a professional setting and preparation for a successful career in the visual design field. Designation of the internship site will be based on student academic and career goals. The internship includes in-class learning and weekly meetings with the instructor and/or the representative of the designated business or agency. Prerequisite: Grade of C or better in Visual Design Lab I (VMA232) and permission from the department.

VMA-299M 3 Credits
Media Communication Internship

This internship course is dedicated to field experience in a professional job situation and is recommended as a final semester course. Students arrange for placement at an internship site with the departmental supervisor in the semester previous to the actual internship. Site experience requires 120-150 hours, as well as a personal project related to the internship. Prerequisite: Advanced Video Production (VMA241) or permission of department chair.

Dalton Clarke, M.T., A.S.C.P., C.

Laboratory Director
Cambridge Health Alliance

Hind Kurbaj

Operations Director, Pathology
Beth Israel Deaconess Medical Center

Emelie Villapa

Department of Pathology and
Laboratory Medicine Microbiology
Department
Boston Medical Center

Debra St. George,

M.S., B.S., M.T., A.S.C.P.
Program Director
Clinical Laboratory Science Program
Bristol Community College

Shauna Mazzola

Clinical Education Coordinator
Tufts Medical Center

Ellen Goonan, M.S., M.T., ASCP

Director of Operations, Clinical Laboratories
Technical Director of Regulatory Compliance
Brigham and Women's Hospital

Jennifer Nicoloro PhD, MLS(ASCP)CM

Medical Laboratory Sciences Program
Director, Department of Clinical Laboratory
and
Nutritional Services
University of Massachusetts Lowell

Laura Listro, M.I.S., ASCP

Massachusetts General Hospital

James Happel

Director, Laboratory Services
Brigham and Women's Faulkner Hospital

Kelli Purchase, B.S., M.T. (ASCP)

Core Lab Supervisor
Carney Hospital

Lisa Zenkin Steward

St. Elizabeth's Medical Center
Medical Radiography

Patricia A. Doyle, M.B.A., C.R.A.

Director, Diagnostic Imaging
Lahey Clinic

Doris Gentley, R.T. (R.)

Senior Director of Radiology and Imaging
Cambridge Health Alliance

Victoria Glassman, R.T. (R.)

Senior Program Manager, Radiology
Education
Brigham and Women's Hospital

Elizabeth Grady, R.T. (R.)
Diagnostic Manager
Beth Israel Deaconess Hospital

Barry Hall, R.T. (R.)
Medical Imaging Professional

William A. Lorenzen, M.S.
*Manager, Research Laboratory Support
Radiation Safety Officer*
Children's Hospital of Boston

Brian J. McIntosh, B.S., R.T.(R), C.R.A.
Director of Radiology
Brigham and Women's Faulkner Hospital

Deborah Ricciardelli, RTR
Unit Operations Manager
Massachusetts General Hospital
Nursing Program

Beverly Amero
Nurse Manager, Perioperative Services
Mount Auburn Hospital

Hallie Greenberg
Director of Nursing Education
Brigham and Women's Hospital

Diane Hanley
Director of Practice and Quality
Children's Hospital

Janet Hosta
Director of Professional Development
Youville Hospital

Kathy Lucas
Director of Nursing Education
Cambridge Hospital

Maria Tricarico
Director of Nurses
Lemuel Shattuck Hospital

Paralegal Studies

Susan Atlas
Professor and Department Chair
Bunker Hill Community College

Kevin Brownlie
Senior Director, Business Apps/ Tech
Hologic, Inc.

Christopher R. Buckley, Esq.
Attorney at Law
Law Office of C.R. Buckley

Sally J. Calhoun, Esq.
Attorney at Law
Law Office of Sally J. Calhoun

Christine Collins
Senior Trial Attorney and Intern Coordinator
U.S. Department of Labor, Office of the
Solicitor

Leah Gallagher
Senior Vice President
The Belfort Group

Justice Kumahia
Assistant Dean of Academic Affairs
Bunker Hill Community College

Hon. John E. McDonald, Jr.
First Justice
East Boston Division
Boston Municipal Court

Rebecca MacDowell Lecaroz
Partner
Brown Rudnick

Keith McNally
Paralegal
Law Office of Susan A. Atlas

Ilene Mitchell
Case Manager and Staff Attorney
Administrative Office of the Probate and
Family Court

Lee Ann Murphy
Paralegal
Boston Scientific Corporation

Anthony B. Sandoe
Retired Professor
Suffolk University Law School

Teresa Shipley
Paralegal Specialist
U.S. Department of Labor, Office of the
Solicitor

Hon. Jennifer M.R. Ulwick
Associate Justice
Norfolk Probate and Family Court

Paramedic Studies

Allan I. Alpert
*Director, Department of Emergency
Management*
City of Chelsea

Kevin T. Crane, NRP
Boston EMS (Retired)

Thomas C. Grassia, Esq.
Attorney at Law

Gayle M. McGinty, RN, MSN
Nurse Educator
Massachusetts College of Pharmacy & Health
Sciences

Lynn A. Mahoney,
NRP Education Coordinator
Fallon Ambulance Company

Erin L. McCann, M.D.
Emergency Room Physician
Norwood Hospital

Chief Timothy F. Morrissey, NRP
Sherborn Fire Department

Dr. Charles N. Pozner, M.D.
Director of Pre-Hospital Care
Brigham & Women's Hospital

Ronald Quaranto, COO
Pharmacy Technician
Cataldo Ambulance Company

Jonathan DaSilva
CVS Health

Evan Taylor
Tufts Medical Center

Jean Beach
Beth Israel Deaconess Medical Center

Yuliya Malinkovich
Margolis Pharmacy

Franklin Small
Cambridge Health Alliance

Surgical Technology

Peter C. DiStefano, CST
Certified Surgical Tech

Jayne MacPherson, CST, Ph.D., FAST
Faculty
Bunker Hill Community College

Senem Hicks, RN, MSN
ST Employer

Neelakantan Sunder, MD
Physician

Kristen Urbanek
Certified Surgical Tech

David Drago
Public Member

Sergio Jarmamillo
Public Member
Ultrasound

Dr. Carol Benson DMS
Medical Director
Brigham and Women's Hospital

Robert Cataldo, RDCS
Chief of Echocardiography Lab
Boston Medical Center

Sandra Creaser, R.T. (R) (N) (M) (ARRT)
Community Partner
City of Charlestown, MA

Diane DeRoche, RDCS
Echo Lab Supervisor
Nashoba Valley Regional Medical Center

Charlene Doherty, RDMS
Staff Sonographer, Ultrasound Department
North Shore Medical Center

Sandra Doherty
Public Member

James Fantony
Cardiac Sonographer
Newton-Wellesley Hospital

Chun He, R.D.M.S., R.V.T.
Clinical Ultrasound Consultant

Dr. Sherif Labib
Echo Lab Director
Lahey Clinical Medical Center

ADMINISTRATIVE DIVISIONS

Executive Division

Pam Y. Eddinger

President

Executive Division
B.A. Barnard College, Columbia University;
M.A., Ph.D. Columbia University

Molly B. Ambrose

Associate Vice President

Human Resources and Labor Relations
A.B. Le Moyne College;

Technology Support Services
A.S., B.S. ITT Technical Institute

Lisandro Guzman
Communication Dispatcher II
Public Safety
Thanh Q. Ha
EDP Systems Analyst II
Audio Visual Department

Carlos G. Hernandez
Maintenance Equipment Operator I
Facilities Management

Shamila Imani
Accountant III
Student Payment Office
B.A. The University of Business and Management, Tehran
M.B.A. Endicott College

Courtney A. Ingersol
Clerk VI
Student Central

Elsa Ipus
Administrative Assistant II
Testing Services and Assessment
A.S. Bunker Hill Community College
B.A. Corporacion Universitaria Taller Cinco, Bogota, Columbia

Nicole S. Jennings
Administrative Assistant II
Behavioral, Social Sciences and Global Learning

Debbie A. Jimenez
Clerk IV
Workforce and Economic Development
B.S. UMass Boston

Jean-Dany Joachim
Administrative Assistant II
Single Stop Program
A.S. Bunker Hill Community College
B.A. UMass Boston

Linda R. Johnson
Administrative Assistant II
Admissions and Recruitment

Pamela A. Johnson
Administrative Assistant II
Human Resources

Nikisha Joshi
Accountant II
Grants Department
A.S. Quincy College
B.S. Cambridge College

Heng Kaing
Clerk VI
Academic Records
A.S. Bunker Hill Community College

John K. Keohan
Storekeeper IV
Central Services

Peter W. King
EDP Systems Analyst IV
Network Operations

Karl W. Kiser
EDP Systems Analyst III
Network Operations
A.S. Bunker Hill Community College
A.S. Newbury College
B.S. UMass Boston

Kattlyne P. Lajoie
Clerk VI
Student Central
A.A. Roxbury Community College

Minhtu H. Le
EDP Systems Analyst II
Technology Support Services
A.S. Bunker Hill Community College

Anna G. Lesnik
Accountant V
Student Payment Office
B.S. Belarus State University, Minsk, Belarus

Huixin Liang
EDP Systems Analyst IV
Technology Support Services
A.S. Bunker Hill Community College

Jose R. Lopez
Maintenance Equipment Operator I
Facilities Management

Quyen Luong
Accountant V
Grants Department
A.A. Bunker Hill Community College
B.S. Suffolk University

Richard V. Martins
Campus Police Officer II
Public Safety

A.A. – Associate in Arts

An undergraduate degree of at least 60 credits awarded upon successful completion of a program of study in liberal arts and sciences that prepares students to transfer to a baccalaureate institution.

A.S. – Associate in Science

An undergraduate degree of at least 60 credits awarded upon successful completion of a program of study in an applied subject area, such as computer technologies or health that prepares students to enter the work force.

Academic advisor

College staff member responsible for providing guidance in course and/or program-related issues.

Academic calendar

A calendar of important dates associated with the college, such as semester start and end dates, holidays and deadlines.

Academic course load

The number of credit hours in which a student is enrolled during the semester.

Academic term (semester)

Fall, spring and summer weeks when classes are in session. The fall and spring semesters are approximately 16 weeks long. The summer semester usually has three sessions varying in length from five to twelve weeks. An online winter session that is approximately three weeks long is also offered.

Academic year

Fall, spring, and summer semesters, generally from early September to mid-August.

Accreditation

Certification by an independent educational board that colleges or university's practices and policies meet or exceed official standards.

Academic Innovation & Distance Education (AIDE)

The AIDE office supports teaching, learning and online programs and resources. AIDE partners with faculty, staff, and students to support Moodle, the College's Learning Management System where instructors post course materials, and other digital learning tools including virtual meeting platform WebEx, ePortfolio, Panopto, and more.

Ace Mentor program

The ACE Mentor program provides students enrolled in Learning Community courses assistance in making a successful transition to college by focusing on academic achievement, engagement, and cultural competency.

Add a course

To enroll in additional courses after registration is complete, accomplished through Admissions and Enrollment Services.

Administration

College staff members responsible for management and supervision.

Advising

The professional use of knowledge and tools to assist and support students with navigating college.

Alumni

Graduates, in the plural.

Articulation agreement

A formal agreement between Bunker Hill Community College and a four-year college or university which eases students' transfer to that institution.

Asynchronous course

Courses that do not meet at a specific date and time each week. Students develop their own schedule and follow the course syllabus that outlines all assignments due dates.

Audit

To take a course under an agreement which does not result in a final grade of A, B, C, etc... Generally involves regular attendance and participation, but limits graded activities, such as exams; requires full payment of tuition.

Board of trustees

An appointed board that oversees and is responsible for the policies and fiscal affairs of a college.

Bridge session

An eight week semester that runs during the summer for a few three-credit courses and all four-credit courses.

Bursar

College official responsible for the billing and collecting of tuition and fees.

Career planning

The planning process in which students in collaboration with staff design a plan for employment that matches their interests and professional goals.

Career program

A specialized degree designed to equip a student with the skills and educational background needed for employment in a specific field, such as business administration, criminal justice, etc...

Certificate program

An academic program of study in a specific field intended for occupational training, upgrading, or retraining, generally 30 credits or less in duration. A certificate is awarded upon successful completion of the program.

Commencement

Graduation ceremony.

Community education and lifelong learning programs

Courses offered by this department within the Division of Workforce and Economic Development are non-credit and taken by students for career and educational advancement and/ or for personal enrichment. The department also offers approved continuing education units (CEUs) for professional advancement or to maintain licensure.

Co-requisite

A course requirement that is taken concurrently with another course.

Course cluster

Two or more courses grouped together around a common academic theme. Instructors teaching in a cluster situation work as a team to ensure cluster objectives are met.

Course delivery

The modality used to impart course content.

Credit course

An academic course numbered 100 or above in the college catalog which may be applied toward completion of a degree or certificate. (See also Developmental Course).

Credit hour

A standard measure of the amount of instructional time required to successfully complete a course. For example, ENG111, College Writing I, is a 3 credit hour course, which means that it meets for 3 hours each week for one semester.

CSDL (Center for Self-Directed Learning)

An academic center at which students can register for a wide range of courses. Students can learn at their own pace through a variety of instructional media/materials.

Curriculum

A set of courses focused in a particular field, e.g. accounting, criminal justice, early childhood.

Dean

A member of the administrative staff responsible for supervision and management of a particular division of the college.

Degree program

At Bunker Hill Community College, an Associate in Arts or Associate in Science program of study requiring 60 credits or more for completion.

Developmental course

A basic skill development course numbered below 100 in the college catalog which carries college credit but does not count toward the requirements for graduation.

Division

The Academic Departments and Services at the College are organized into nine divisions that are supervised and managed by a Dean. Examples of Divisions at BHCC are: Division of Academic Support and College Pathway Programs; Division of Health Sciences; Division of Science, Engineering and Mathematics Programs; Division of Student Affairs; etc.

Drop a course

To cancel registration in a course. It may be accomplished only during the schedule adjustment period as specified on the academic calendar and is processed through Admissions and Enrollment Services.

Education plan

A student's map or guide that delineates the courses they need to take to earn their degree or certificate and when those courses will be taken and in what format.

Education planning

The planning process in which students in collaboration with staff create an educational pathway that facilitates their persistence and success.

Elective

A course in a program of study which may be selected from a variety of courses in the designated discipline and is numbered above 100.

ePortfolio

This is a vehicle for students to track their academic journeys through college by sharing their accomplishments and reflecting on their learning in ways that are both personally and publicly meaningful.

Faculty

An employee of the College who delivers academic instruction.

Fees

Charges by the College for specific services to students.

Financial aid

Funding from various sources provided to students to assist in defraying expenses of college (See Financial Aid section of this catalog).

Financial planning

A set of resources and tools designed to help students make sound financial decisions that are in line with their personalized plan.

Free Application for Federal Student Aid (FAFSA)

A required standardized application that includes detailed financial data and is used to determine eligibility for all financial aid programs.

Full-time (student)

Student registered for 12 or more credits in the fall or spring semester or six (6) credits in the summer.

GED

General Educational Development (high school equivalency diploma).

General Education

A common core of courses required of all students that provides for the acquisition of core skills and knowledge necessary in a literate citizenry.

Good academic standing

A student is considered making satisfactory process and in good academic standing if G.P.A. is 2.0 or higher and has completed 66 percent of his/her credits attempted.

G.P.A. (Cumulative G.P.A.)

Grade Point Average, used to compute student academic standing.

Guest student

A student admitted and enrolled at another college or university planning to take a course(s) at BHCC

HISSET

High School Equivalency Test.

Hybrid course

Courses that combine traditional classroom instruction with online learning to deliver academic content that is the same as received in a pure classroom setting.

Internship

A program designed to give a student real work place experience in their intended career before graduation.

Integrated support services

Identifies and directs students to people, resources, and services that meet their unique needs to promote success and individual growth.

IP grade (in progress)

A grade conferred by a faculty member giving a student a period of time after the end of the semester to complete all of the required coursework to earn a passing grade.

Learn and Earn program

Paid internships at companies located in the greater Boston area.

Learning Community Cluster

Enrolls the same group of students in two or more courses centered on common academic themes enabling students to learn and study together.

Learning Community Seminar

A course designed to assist first time students make a successful transition to college.

Learning Contract

An independent learning agreement between a student and a faculty member under the auspices of a Dean that allows a student to enroll in and complete a course that is not offered in any other format in a semester.

LifeMap

An education, career and transfer planning program and process that is dedicated to promoting student success in their education, career and personal goals. Components of LifeMap include career planning, academic planning, support network and transfer planning.

Major/program of study

The degree or certificate program a student is officially enrolled in.

Matriculation

Formal application to and acceptance in a degree or certificate program.

Mid-semester warning grade

Official notice to a student by faculty that at the half-way point of the semester a student is in danger of not passing a course(s) with a grade of C or better.

Mid-term

The point midway through an academic term.

Moodle

Online platform where online courses are hosted.

NA grade (never attended)

An administrative withdrawal designation conferred by faculty to students enrolled in a course(s) and who do not attend one class during the first two weeks of the semester.

Non-credit course

A course that is non-credit bearing and cannot be used to satisfy an academic requirement for any degree or certificate program.

Onecard

Student ID which also serves as the means of student financial aid refunds.

Online degree program

Degree programs that allow students the ability to fulfill all of the requirements by completing online courses.

Open admission

A students' automatic acceptance into a non-selective degree or certificate program with a High School diploma or GED.

Orientation

The formal process of welcoming new students to the college and providing them with information on the resources, services, and departments they may access to assist them to be academically successful.

Part-time (student)

Student enrolled for 11 credits or fewer in the fall or spring semester.

PLA - prior learning assessment

A program through which students may earn credit for college-level learning acquired through non-collegiate experiences such as employment, military training, community service, and volunteer activities.

Placement test

A test which determines a student's level of learning in a subject, typically English or Mathematics, before they begin a college program.

Planned courses

The formal process of determining the order and semester courses have to be taken in to earn a degree or certificate.

Prerequisite

Skill or course required for entry into a course or program of study.

Probation

Formal notice that a student is not in good academic standing and imposes limits on the number of credits a student may register for in a semester.

Re-admission

The process by which students who return to the College to re-enroll in a degree or certificate program after an absence of at least one semester.

Satellite campus

Location besides a college's main campus where classes are held and courses are facilitated.

Satisfactory academic progress (S.A.P.)

Minimum grade point average and course completion rate that must be earned by a student to be considered in good academic standing.

Schedule adjustment (add/drop)

A short period of time after a semester begins that allows students to change their course enrollment and/or course schedules.

Selective program admission

Some programs are competitive and have specific requirements that must be met before a student may submit an application for admission. These programs are competitive and acceptance is not guaranteed.

Self-directed learning

An approach to learning that requires students to take the lead in determining how they will learn subject matter and work to autonomously to acquire that knowledge.

Selfservice

Online portal where students may register for classes, pay tuition and fees, access their financial aid information and more.

Staff

An employee of the College who does not teach or facilitate academic instruction.

Student Central

BHCC's one-stop center for student services, including financial aid, student payment and academic records.

Success coach

A Success Coach is an advisor assigned to a Learning Communities course to assist students. Success coaches collaborate with faculty and ACE mentors to engage students in academic content and to work with students to identify pathways that encompass academic, career, and personal goals.

Support Network

The staff who collaborate with students and provides services needed to help students achieve their academic, career and personal goals.

Suspension

Students on probation who after taking a reduced course load, continue to not meet the grade and completion rate threshold to be in good academic standing. These students may be required to take a semester off.

Synchronous course

Courses that meet at a specific date and time each week at the same on-campus or virtual location.

To be announced (TBA)

An instructor and/or a room has yet to be assigned for a course.

Transfer guidelines

Informal documents suggesting courses to be taken at Bunker Hill Community College for most effective transfer to a four-year college or university.

Transfer planning

The planning process in which students in collaboration with staff design a plan for transfer to a four-year college or university in alignment with education and career goals.

Transfer program

A degree program designed for students who plan to continue their academic careers beyond the associate degree level through transfer to a four-year college or university.

Transcript

Permanent record of students' academic grades; available through Admissions and Enrollment Services.

Tuition

Charges by the College to a student for registration in credit courses.

Web course

A course that is completely online and provides the same academic content that is delivered in a traditional classroom course.

Withdrawal from college

The formal process of notifying the College of the decision to discontinue attending all classes.

Withdrawal from a course

The formal process of notifying the college of the decision to discontinue attending a Course.

AFFIRMATIVE ACTION and EQUAL OPPORTUNITY POLICY Bunker Hill Community College is an affirmative action/equal opportunity institution and does not discriminate on the basis of race, creed, religion, color, sex, sexual orientation, gender identity, age, disability, genetic information, maternity leave, and national origin in its education programs or employment pursuant to Massachusetts General Laws, Chapter 151B and 151C, Titles VI and VII, Civil Rights Act of 1964; Title IX, Education Amendments of 1972; Section 504, Rehabilitation Act of 1973; Americans with Disabilities Act, and regulations promulgated thereunder, 34 C.F.R. Part 100 (Title VI), Part 106 (Title IX) and Part 104 (Section 504). All inquiries concerning application of the above should be directed to Nahomi Carlisle, Esq., Associate Vice President, Chief Equity and Compliance Officer, Affirmative Action Officer, and Section 504/ADA Coordinator.
