Please respond to one of the following questions:

“Don’t Marry Career Women” by Michael Noer

- 1) Having read this article if you had a brother or a male friend who was going to marry a career women, what advice would you give him?
- 2) In the past in most marriages in the United States men worked while women stayed at home and took care of the children and maintained household affairs. Today many economic factors make it nearly impossible for a married couple with children to survive on just one income. Therefore, given the necessity of women working outside the home, how would you advise a married couple to balance the need to take care of children and to have a harmonious relationship as well.
