

Practice Exit Exam

Please respond to one of the following questions:

“The Case Against College” by Caroline Bird

- 1) In The Case Against College the author presents several reasons why college may not be the right choice for many high school graduates. Discuss three of these reasons and explain what your own motivations are for attending college.
- 2) Caroline Bird describes the material that most students learn in college as being readily available for study in public libraries and museums as well as any number of other inexpensive or free institutions or media outlets. Given the ease with which knowledge can be learned outside of a college classroom, what are some reasons you would give Ms. Bird about why you think that attending college is the best choice you can make to enjoy a better future?
