

## BUNKER HILL COMMUNITY COLLEGE

### Making plans for the summer?

How about **free** college classes? Join us for the Year 3 of 'Career Days at BHCC' for two weeks beginning July 9, 2012 – 9:00 a.m. to 3:30 p.m.

#### ALL FIRED UP

Explore the challenges and rewards of being a firefighter, female or male. This hands-on interactive session will test your physical limits. You will learn the importance of teamwork, CPR, tactical rescue techniques, decontaminating hazardous materials and what it is like to live in a firehouse.

#### APP MASTER

Explore the design and development of mobile computing “apps” (applications). Get “hands-on” experience developing apps and gain a good working knowledge of the various tools used in their development.

#### CHECKING YOUR PULSE

Explore health professions such as Surgical Technology, Medical Assisting and Phlebotomy. Learn about CPR, how to take vital signs, and how to prepare to work in an operating room. Learn about the challenges and responsibilities that face Respiratory Therapists and Radiography Technologists.

#### CSI

Prison Break, Lock Up, Law and Order. You watch the TV shows, but have you ever spoken to a judge, a prosecutor, a defense attorney, taken finger prints or investigated a (simulated) crime scene? For all this and more, join us for the courts, corrections and you.

#### CREATING ONSCREEN MAGIC

Explore the tools, techniques and skills employed in the development of rich, dynamic, and successful web sites. Design onscreen magic, models, characters, vehicles, landscapes and make a 3D character speak in your own voice. You've seen them, you've played them! Now, learn how to create and animate 3D online games and simulations.

#### ENGINEERING YOUR FUTURE

Explore the challenges and rewards of becoming an engineer. Learn about what engineers do and how they do it. Work with other students to develop your problem-solving skills through a series of fun challenges.

#### NOT JUST A DESK JOB

Be the administrative assistant without whom an office could not function. Learn how to use the most advanced office technology, how to dress and communicate for success, how to resolve conflict and interview for a job.

#### THE NEXT IRON CHEF

Do you find yourself watching the Food Network and thinking... I wish I could do that! Are you hungry and wish you could whip up a quick meal? Spend two weeks investigating what it would be like to be a Professional Chef or Pastry Chef... Who knows, maybe it could be the career for you....

For more info, please contact Patrick Crozier (617) 228-2389 or [pcrozier@bhcc.mass.edu](mailto:pcrozier@bhcc.mass.edu)  
This program has been specially designed for students who will be high school juniors, seniors and college freshmen in the upcoming 2012-2013 academic year.
