Dear Patricia,

I like to invite you to come to my country El Salvador. I live in the 3rd city of El Salvador called San Miguel. I think you should come in November. Because in this month we have a carnival from the first Saturday to the last Saturday of the month. It is very nice. Every week we can go to dance if you like it, but if you rather go to the beach we have a nice one called El Cuco.

November is a good time to come to El Salvador because the weather is nice, and the people look happy because everything is party on this month. It is better if you don't be afraid and please come to visit me. I am sure that we can have fun together. There are a lot of things that we can do, and a lot of places that we can go.

I know that my country is going to like you. We have different kinds of food and fruits that maybe you don't know like ananas, nisperos, paternas, jocotes. I'm sure you not going to be sorry to come. I promise I'm going to do my best to make you feel comfortable and happy.

Sincerely, your friend Nidia

Dear Quappa Said,

I was very happy when I got your letter last week. Now, I'm writing to you the answers to your questions about my country.

Well, Morocco is a nice place to visit in North Africa. There are some beautiful places to see. But the most beautiful place you should see is "OUZOUZ FALLS", Benimalal. Moroccan people say that it's the best view in the country. I've been there and I saw it. If you believe me, that's a good reason you should go there.

If you want to buy things, please, be careful about the prices because the shops give a high price to the tourists. It's better to go with a Moroccan when you want to go shopping.

The last advice I want to give you, it's the time, please make sure to go there in October or November because the weather is very cool, the hotels are cheap, and not too many tourists at that time of year.

I hope I gave you a good idea about my country. I'll help you there by giving you my house's address. So, you can go out with one of my sisters. The good thing is both of them speak English. Have a nice trip.

Sincerely, Jalil

Dear Phil,

I'm really glad that you are going to visit my country, Russia. I will answer all your questions with pleasure. I think that first of all you should visit town of our north capital — St. Petersburg. Of course, it's worth to see Moscow too, but St. Petersburg has some special spirit. This town is not as old as Moscow. It was built by Peter the First about 300 years ago. At the onset it was planned as a town with European style, so you will see direct lines of wide streets. The town is built in bottomy area, very close to Baltic Sea, therefore it has a net of beautiful channel. You could take a tour on motor boat and see the town. There are many very interesting historical and cultural places as well in St. Petersburg. Certainly, you should go to the Palace Square, you should visit at least one or two halls of Hermitage museum and Tretjakovshaya Gallery. I'm saying at least one or two halls" because they both have a huge exposition. I think, it would be nice if you visit St. Isaak Cathedral. It's worth to climb a long stairs to the top of the cathedral to observe a wonderful view of the town.

The best time to visit St Petersburg is June. This month is a period when white nights come. It means that night time is almost as light as day time — most days are sunny and warm.

But, please, don't forget your umbrella. Rain is common thing in this area all over the year. Besides that you should care about traveling maps: map of the town and map of metro. You should know that you can use not only metro but other kinds of transportation too: buses, trams and trolleybuses. And of course, be careful, don't go to anywhere with somebody you don't know.

I hope, you will enjoy this town. You could imagine there that you are in some other historical time because of such special atmosphere of St. Petersburg.

Sincerely yours,

Marianna
