Pre-Service Learning Faculty Form

The Office of Community Engagement seeks to help students develop tangible skills through community service, Service Learning, civic engagement, and student activism. At Bunker Hill Community College, the Office of Community Engagement advocates for a culture that recognizes the valuable connection between community involvement and a student's professional and personal development. Bunker Hill students who are involved in their communities become leaders that are not only aware of the world around them, but are aware of their significance in playing active roles in the world around them. The Office of Community Engagement illustrates Bunker Hill Community College's goal to promote Civic Engagement and Leadership.
