“The American Dream wears the faces of many nations, bonded together with education and hard work. You have seen this here, at Bunker Hill Community College. The American Dream is the faces of our students, faculty and staff from more than 100 nations, speaking 75 languages. We teach. We learn. We are the wealth of America, and we belong.

As you continue your journey, be proud of the cultural wealth you carry, and tell the world of your riches. I am thankful to have served as your College President. Thank you for sharing your journey with me.”
