An Information Technology Pathway at Charlestown High School

C-Town Tech prepares students for college and careers in information technology and related fields—with students earning transferable college credit starting in 9th grade.

Interested in
designing your own
website, mobile app,
or video game?
This pathway is
for you!

This four-year career pathway features:

- Free college courses from Bunker Hill Community College in Information Technology with program options in Digital and Computer Forensics and Investigations; Database Programming and Administration; Security; and more
- Hands-on project-based learning that prepares students for the real world
- Paid summer internships, starting the summer before 9th grade
- Virtual and in-person mentoring and advising from local industry professionals
- Access to tutoring and academic support services for all four years
- Career exploration and development opportunities including résumé building and job shadowing.

Don't miss this chance to get a head start on college and earn free college credit.
